Investing in mutual funds

To set up your personalized investment account, log in to your HSA and select “Manage Investments.” You must have a minimum HSA bank account balance called the “investment threshold” to invest some of your HSA assets. For example, if your deposit account balance is \$5,000 and the investment threshold for your account is \$2,000, you may invest up to \$3,000.

Investment transfers can be made online or by phone any time and purchases can be made online at any time. You can also establish an automatic recurring investment purchase into mutual funds you’ve chosen.² You may redeem your mutual fund shares at any time, specifying the sale by dollar amount or by percentage of your assets invested.

You pay no trading fees with an Optum Bank HSA. Monthly investment account fees and redemption fees may apply.
