All Agencies, Boards, and Commissions

**FROM:** Hari Kadavath, Administrator  
State Accounting Division

**SUBJECT:** PFC/E1 Archiving

State Accounting is implementing a solution to archive data in the Payroll & Financial Center / E1 production environment. Having more than ten years of transactional data available in the system is affecting operational efficiency, particularly related to our ability to perform system upgrades.

All detailed data from July 1, 2008, to current will not be affected. Much of the transactional detail prior to that time will be archived. After archiving, reports of balances back to the beginning of the system would be available in production. Detailed transactions from the archived database will be available. The process to obtain archived data is yet to be determined.

Please consider the possible effects this project could have on your agency. Any concerns or comments can be submitted to Hari Kadavath, State Accounting Administrator, at [hari.kadavath@nebraska.gov](mailto:hari.kadavath@nebraska.gov). We would appreciate having your response by May 15.

Thank you for your assistance.
