

Consumer Focused Health Plan

Consumer Focused Health Plan administered by UnitedHealthcare (UHC)
HSA Provided by Optum Bank

The State of Nebraska is committed to providing our employees, retirees and their families with access to comprehensive and competitive health benefits. We want to make sure the plans we offer continue to give you the flexibility to manage your specific medical needs, improve your overall health — and help control your costs.

Why choose the Consumer Focused Health Plan and HSA?

Lower premiums

With the Consumer Focused Health Plan, you pay a lower premium, which leaves you with more money in your bank account each month. You can use these savings to make deposits into your HSA.

Annual deductible

When you receive medical care or need a prescription, you pay out of pocket for those expenses until you reach your deductible. For 2015-16, the deductible is \$2,600 per individual and \$5,200 max per family. After you reach the deductible, you pay 20% coinsurance until you reach your annual out-of-pocket maximum.

Preventive Drug Listing

The Consumer Focused Health Plan offers you low copays for a specific list of preventive maintenance medication. Only medication on this list has copays with no deductible or coinsurance. The types of drugs include high blood pressure, high cholesterol, diabetic, asthma, multiple sclerosis, and osteoporosis. Not all drugs in these therapeutic classes are included on this list.

Health Savings Account

You have the option of opening a Health Savings Account through a pre-tax payroll deduction to help pay for out-of-pocket costs (deductibles and copays) or save for the future.

In addition, the Consumer Focused Health Plan:

- **Covers the same types of medical expenses as our other medical plans.** Once you pay the deductible, you're only responsible for 20% of your expenses – the plan will cover the other 80%. The amount you pay applies to your out-of-pocket maximum.
- **Lets you keep your current doctor.** If you have a preferred doctor, you can continue to use that doctor or choose a doctor that is in the network to save more on the cost of care.

- **Protects you if you get sick.** If you happen to need significant medical care, you're protected by an out-of-pocket maximum. It limits the amount of money you pay before the plan covers 100% of your claims. For 2015-16, the most you'll pay in a year is \$4,100 for individual coverage and \$8,200 for family coverage.
- **Helps you save!** You have the option of opening a Health Savings Account if you are eligible. You can make tax-free contributions to your HSA through an automatic payroll deduction – and save for the future. The money in your HSA is always yours to keep, even if you leave your job with the State of Nebraska.

Preventive Care

Under the Consumer Focused Health Plan, you don't pay anything for eligible preventive care – it's covered at 100% with no deductible, as long as you use a network doctor.
