Note: The table above represents the current schedule including size and frequency. The state of Nebraska reserves the right to increase, decrease, add or delete locations, frequency and dumpster size.

1. Abbreviations, M & TH (Monday and Thursday). F – Friday & SA-Saturday & SU-Sunday (Guard Drill Weekends).
2. Contractor will be furnished a Guard Drill Schedule when requested.
3. The Contract will be required to meet Government requirements, including the reduction of containers, frequency of pickup, and/or size of containers if the Single Stream Recycling program is put into effect. Under Executive Order 13101- Greening the Government through Waste Prevention, Recycling and Federal Acquisition, the NEANG is mandated to reduce the amount of refuse generated. The practice of Single Stream Recycling is under consideration, and if implemented and shown to reduce the amount of refuse transported to local landfills, the current size, frequency and quantity of refuse containers will be evaluated. If single stream recycling shows a substantial decrease in the generation of refuse, the government will request reduction in size, frequency and/or number of refuse containers to be provided by the contractor.

Cost per 6 yard container (daily)	Cost:
Cost per 3 yard container (daily)	Cost:
