QUESTIONS	ANSWERS
<p>1. I am trying to prepare a quote for this ITB, but I need some clarification on point. On page 12, in the Van/Cargo Hold section, under item # 2 it states "Minimum 10" scuff plate, steel tread plate on rear of box bed", and this appears to refer to the scuff plate in the van body interior and the threshold plate at the rear of the body. However, on page 13, item # 11 calls for a "3/4" x 12" laminated hardwood wear band, sides and front". These 2 items (the scuff plate called for in item # 2 and the wear band called for in item # 11) are mutually exclusive. Which is the required item?</p>	<p>Wood flooring on the main cargo floor from cab to rear door.</p> <p>There should then be a 12" of steel tread skid metal from rear of cargo door forward towards cab.</p> <div style="text-align: center;"> </div> <p style="text-align: center;">KEY: 12" steel skid plate = Yellow Tommy lift = Blue As Shown in Sketch Above</p>

This addendum will become part of the ITB and should be acknowledged with the Invitation to Bid
