Comments				<p>*please note that we are providing separate pricing for Automated Content Verification and Content Corrector software but the pricing on Content Corrector software includes all the functionality of the Automated Content Verification software so only that price should be used if both capabilities are required. The Vidchecker software can be configured for just Automated Content Verification functionality or for both Automated Content Verification and Content Corrector functionality but the two are not mutually exclusive. Quotes for both systems meeting the bid specifications are attached and titled as above. Additionally, a detailed price list that shows all options for Vidchecker is also enclosed for reference purposes.</p>
