## TRUWIRELESS

### MOUNT & GO VEHICLE ARROW BOARD

Mount TruWireless to your vehicle and you're set to go. The unit automatically powers on raising the display when you select an arrow mode on the wireless remote. Select OFF mode to lower the panel. It's that easy. TruWireless uses solar energy stored in maintenance-free batteries concealed within the arrow board display making TruWireless an all-in-one unit that can be easily mounted, removed, and remounted to a different vehicle quickly.

Solar panels provide power without the need of the vehicle's battery. K&K solar panels utilize the most up-to-date solar technology and electronics to maintain power levels through rain, sleet, heavy snow or strong winds. A built-in blocking diode prevents the reverse flow of electricity. The solar panel's heavy-duty aluminum frame makes it weather resistant.

TruWireless uses our wireless remote controller not only allows you to select from several arrow patterns, but also provides information for battery status and condition, solar charging and progress, and errors. The Mode Selector is capable of 8 arrow patterns for 15 lamp models or 13 patterns for 25 light models that are set by simply turning the switch.

## **INTRODUCTION**

### **ARROW BOARD**

This trailer mounted (LED) arrow board is solar powered with a smart charge controller. The sign dimensions are 48" x 96". It is fabricated from aluminum with a flat black powder coat finish to give a smooth look and prevent rust. Our standard systems have 36 amps of battery backup power and (4)-four swivel type jacks – one on each corner of the trailer and (1) one tongue jack.

Our Standard arrow board comes with a 40 watt of solar in addition to the battery system. The solar panel provides a charge to the battery bank while exposed to the sun. It has LVD (low voltage disconnect). An optional 12-60 amp, fully automatic, battery charger can be used instead of the solar panels or when system is not exposed to direct sunlight for an extended period of time.

### **BATTERY COMPARTMENT**

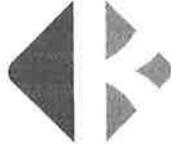

The battery is located inside the arrow board for a smooth look and to deter theft and vandalism.

### **POWER SOURCE**

Our products incorporate a battery pack wired for 12V operation, depending on the requirements of the design. The battery bank is regulated by and protected by a solid-state charge controller/low voltage disconnect. This prevents gassing and over discharging of the batteries, which can result in premature failure. A thermal compensation and related circuitry adjusts the charge rate of the system with variances in temperature.

### **TRAILER**

The trailer is fabricated from tubular steel and coated with safety orange, black or white powder coat paint (other colors available upon request). The trailer is equipped with a tubular steel axle. Adjustable jacks are mounted at each corner of the trailer. The tail lights are dual combination reflective lights with stop, tail and turn signal. The wheels are five lug wheels and tires are sized appropriately.

## **SAFETY / WARNINGS / PRECAUTIONS**

The following are recommendations for the safe and responsible use of K&K Systems' trailer units.

- Periodically inspect the trailer. This includes but is not limited to wheels, tongue, pins safety chains and taillights.
- Traffic cones or barricades should first be setup before arrow board is erected.
- The trailer should always be properly set up and leveled with the jack stands before the arrow board is erected, where applicable.
- Periodically check all nuts, bolts, cable clamps, etc. and tighten/ repair/ replace when necessary, where applicable.
- Always tow the unit in the down position, where applicable.
- Always use safety chains and properly sized hitch ball when towing unit.
- Always check water level in batteries and clean solar panel.

*Please remember that the best assurance against accidents is a careful and responsible operator.*

### **BATTERY SAFETY**

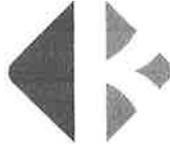

It is important that you know that, while 12 VDC is not likely to cause electrical shock, these batteries can produce unbelievable amounts of current that can instantly melt large tools, burn wires, and heat jewelry to skin searing temperatures. Batteries produce hydrogen gas in the course of normal operation and will explode under certain conditions with disfiguring consequences. One component of a battery, sulfuric acid, will permanently damage clothing, corrode metal, severely irritate your skin, and blind you if it gets into your eyes. You should become familiar with how batteries operate so that you will know how to avoid the dangerous characteristics of a battery.

### **BATTERY CHARGER SAFETY** *(optional)*

If optional battery charger is installed the battery charger is preset in automatic position. **DO NOT CHANGE THESE SETTINGS** because of possible overcharging of batteries. Plug cord into a standard 120 volt AC for charging.

### **SOLAR SAFETY**

To reduce the risk of shock or burn during maintenance, solar panels should be covered with an opaque material and power converter/battery charger should be disconnected from AC power supply.

## **TOWING AND LONG-TERM STORAGE**

### **TOWING**

Failure to follow instructions exactly can cause ball failure or loss of attachment resulting in vehicle crash and/or personal injury.

Use this hitch ball only for towing trailers or vehicles connected to the ball with a socket-type coupler.

Ball diameter must match coupler socket size.

Do not exceed gross trailer weight shown on ball.

Improper tightening can cause ball failure or loss of attachment.

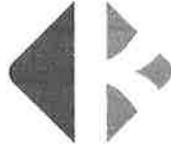

- Threaded shank must protrude beyond bottom of nut when tightened. If it does not, ball shank is too short for the application and loss of attachment may occur.
- Check nut tightness every time you hook up the trailer and at the beginning of each towing day, tow only if nut is tightened as specified.
- Replace any damaged or work part (except finish).
- Never attach a tow rope, chain or stretch type elastic rope to hitch ball.
- Do not fasten trailer safety chain or other type of attachment to or with, the ball.
- Lubricate ball and coupler to minimize wear and friction, coupler must not bind on ball.

*This product complies with V.E.S.C. Regulation V-5, C.S.A. Standard D-264 and the Safety Specifications and Requirements for Connection Devices and Towing Systems.*

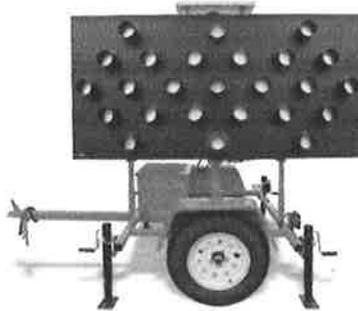

Failure to follow instructions exactly can cause ball failure or loss of attachment resulting in vehicle crash and/or personal injury. Use this hitch ball only for towing trailers or vehicles connected to the ball with a socket-type coupler.

### **LONG-TERM STORAGE**

When the sign is to be stored for extended periods of time, the POWER switch should be turned off, and the solar charge controller should be left on, allowing the solar panel array to continuously charge the sign battery bank. If possible, place the unit in a sunny area to allow the unit to maintain the charge on the batteries. When the sign is to begin operation again, a thorough inspection of all systems is advised before the sign is towed to the job site. Check battery state of charge to confirm over 12 volts.

## ARROW BOARD FUNCTIONS

### FRONT PANEL CONTROLS

#### DISPLAY SELECTOR SWITCH

This is the only switch on the unit and is used to select one of the display patterns or turn the unit off. The display patterns are listed below:

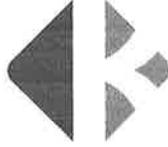

#### 15 LIGHT PATTERNS:

- Warning Bar or Caution Bar - 7 horizontal lamps flashing in unison.
- Double Arrow - 5 lamps in each arrow head and 3 lamps in a common shaft all flashing in unison.
- Four Point Caution - 4 outermost corner lamps flashing in unison.
- Right Arrow - 10 lamps flashing in unison, forming an arrow.
- Left Arrow - 10 lamps flashing in unison, forming an arrow.
- Sequencing Arrow Left - 5 lamps in the arrow head and 5 lamps in the shaft sequencing left.
- Sequencing Arrow Right - 5 lamps in the arrow head and 5 lamps in the shaft sequencing right.
- Sequencing Double Arrow with arrow shaft sequencing left and right to arrow heads left and right consisting of 5 lamps per arrow head.
- All unused positions and 25 Lamp sequential patterns listed below are considered OFF for 15 lamp signs.

#### 25 LIGHT PATTERNS: (includes all 15 light patterns plus the following)

- Sequencing Chevron Left - 3 chevrons of 5 lamps each, sequencing in a right to left direction.
- Sequencing Chevron Right - 3 chevrons of 5 lamps each, sequencing in a left to right direction.
- Sequencing arrow head moving right with 5 lamps in arrow head

- Sequencing arrow head moving left with 5 lamps in arrow head
- All unused positions are considered OFF.

*\*\*For the Optional remote controller wired or wireless to take command, this switch must be in the single off position center pointing up (12:00). If not in this position the remote controller will not function.*

## LED INDICATORS

There are 2 LEDs, one indicates current battery status and the other indicates an error condition. Details of operation are listed as follows.

### BATTERY STATUS INDICATOR

A single multi-color LED displays the status of the battery at a glance. A constant on condition indicates charging from the solar panel is happening. A flashing condition will indicate that the battery is not being charged.

- *Red color indicates the battery voltage is low.*
- *Blue color indicates the battery voltage is fair.*
- *Green color indicates the battery voltage good. Maximum Battery Voltage is determined.*

### ERROR LED

This red LED indicates one of the following errors.

#### *LVD1 (Low Battery Voltage Detected) (-)*

When the battery voltage falls below the set point this LED begins flashing.

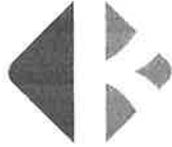

During LVD1 the unit discontinues flashing of the selected arrow pattern and begins displaying the 4 corners lamp pattern. This will continue until the battery voltage increases to the recovery voltage. At this time the unit will resume normal operation and the error LED will go off.

#### *LVD2 (Low Battery Voltage Disconnect) (--)*

When the battery voltage falls below the LVD2 voltage this LED begins double flashing. During LVD2 the unit discontinues flashing of the 4 corners pattern and goes into a low power state and all the lamps are off. This will continue until the battery voltage increases to the recovery point. When this happens the unit will resume normal operation and the error LED will go off.

#### *OV (Over Voltage Condition)*

When the battery voltage rises above the Max Battery Voltage (MBV), as determined by the battery voltage and temperature, this error LED will illuminate continuously. The unit will continue to operate in a normal fashion. If the battery voltage falls below MBV the error LED will go off. This is a condition that should not occur and the unit should be removed from service until the problem is resolved.

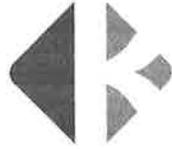

## OPTIONAL WIRELESS REMOTE

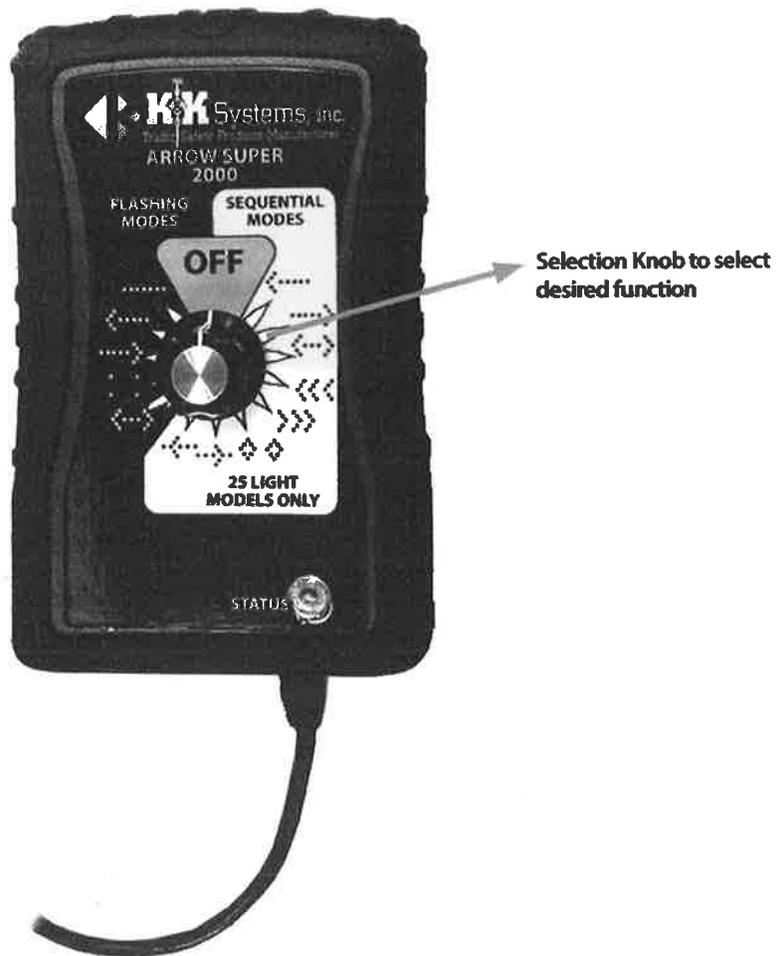

Selection Knob to select desired function

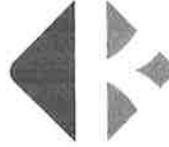

1. To begin you need to place the Arrow Super 2000 Controller selection knob to the RMT position (Center up).
2. When it is moved to that position you have 60 secs to initiate pairing.
3. Once the Controller is ready for pairing you need to remove the battery cover on the RF-Hand Held unit to expose the pairing switch and yellow pairing LED.
4. Press the pairing switch until the yellow LED comes on and then release. The pairing yellow led should respond with two or three rapid flashes to indicate a successful pairing. It will remain on steady for another 10-15 seconds and go out. If pairing failed, the pairing led will rapidly flash 5-6 times in rapid succession. To try again go to step 1.

## OPTIONAL WIRED REMOTE

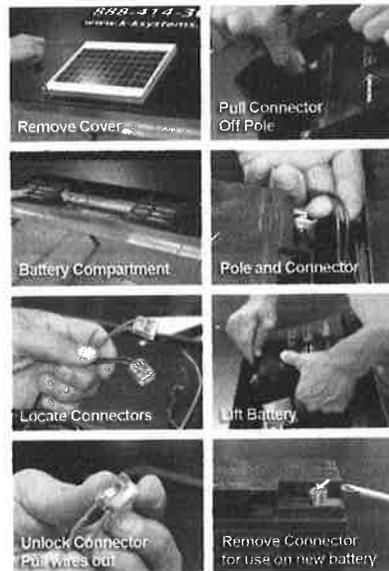

## MAINTENANCE

### BATTERIES

The batteries are located in the battery compartment on the back of the arrow board.

To replace the batteries:

1. Remove the battery compartment cover with a Phillips head screw driver.
2. Locate the wiring connectors.
3. Remove the wires from the connector by lifting the orange locking switch.
4. Remove the wires from the battery poles by gently sliding the connector off of the clip.
5. Lift the battery out.
6. Remove the poles connectors and install on the new battery.
7. Place the new batteries into the compartment.
8. Reconnect the proper wire connectors to the pole clips.
9. Reconnect the proper wires to the wiring connectors.
10. Replace the compartment cover.

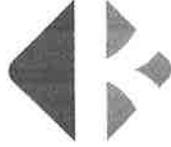

### SOLAR PANELS

During operation, keep the module clean of excessive dirt and debris by using only soapy water and a soft cloth or sponge. Periodically check the integrity of wiring connections in the junction box. Inspect for signs of damage to module glass or frame.

### TRAILER

Periodically inspect wheels, tires, axle assembly, wheel bearings, taillights, tongue, safety chains and all components related to safe towing. Check tightness of all nuts and bolts; replace worn parts when necessary.

The Contractor must submit a **detailed written document showing that the release of the proprietary information would give a business advantage to named business competitor(s) and explain how the named business competitor(s) will gain an actual business advantage by disclosure of information.** The mere assertion that information is proprietary or that a speculative business advantage might be gained is not sufficient. (See Attorney General Opinion No. 92068, April 27, 1992) **THE CONTRACTOR MAY NOT ASSERT THAT THE ENTIRE BID RESPONSE IS PROPRIETARY. COST WILL NOT BE CONSIDERED PROPRIETARY AND IS A PUBLIC RECORD IN THE STATE OF NEBRASKA.** The State will then determine, in its discretion, if the interests served by nondisclosure outweighs any public purpose served by disclosure. This reservation and waiver is a prerequisite for submitting a bid response to this solicitation, and award of a contract. Failure to agree to the reservation and waiver will result in the bid response to the solicitation being found non-responsive and rejected.

**Any entity awarded a contract or submitting a bid response to the solicitation agrees not to sue, file a claim, or make a demand of any kind, and will indemnify and hold harmless the State and its employees, volunteers, agents, and its elected and appointed officials from and against any and all claims, liens, demands, damages, liability, actions, causes of action, losses, judgments, costs, and expenses of every nature, including investigation costs and expenses, settlement costs, and attorney fees and expenses, sustained or asserted against the State, arising out of, resulting from, or attributable to the posting of the contract or the bid responses to the solicitation, awards, and other documents.**

**E. SECRETARY OF STATE/TAX COMMISSIONER REGISTRATION REQUIREMENTS (Statutory)**

All Contractors must be authorized to transact business in the State and comply with all Nebraska Secretary of State Registration requirements. The Contractor who is the recipient of an Intent to Award will be required to certify that it has complied and produce a true and correct copy of its current (within ninety (90) calendar days of the intent to award) Certificate or Letter of Good Standing, or in the case of a sole proprietorship, provide written documentation of sole proprietorship and the United States Citizenship Attestation Form, available on the DAS website at: <http://das.nebraska.gov/materiel/purchasing.html>. This must be accomplished prior to execution of the contract.

**F. ETHICS IN PUBLIC CONTRACTING**

The State reserves the right to reject bid responses, withdraw an intent to award or award, or terminate a contract if a Contractor commits or has committed ethical violations, which include, but are not limited to:

1. Offering or giving, directly or indirectly, a bribe, fee, commission, compensation, gift, gratuity, or anything of value to any person or entity in an attempt to influence the bidding process;
2. Utilize the services of lobbyists, attorneys, political activists, or consultants to influence or subvert the bidding process;
3. Being considered for, presently being, or becoming debarred, suspended, ineligible, or excluded from contracting with any state or federal entity;
4. Submitting a bid response on behalf of another party or entity;

5. Collude with any person or entity to influence the bidding process, submit sham bid responses, preclude bidding, fix pricing or costs, create an unfair advantage, subvert the bid, or prejudice the State.

The Contractor shall include this clause in any subcontract entered into for the exclusive purpose of performing this contract.

Contractor shall have an affirmative duty to report any violations of this clause by the Contractor throughout the bidding process, and throughout the term of this contract for the successful Contractor and their subcontractors.

**G. DEVIATIONS FROM THE INVITATION TO BID**

The requirements contained in the solicitation (Sections II through VI) become a part of the terms and conditions of the contract resulting from this solicitation. Any deviations from the solicitation in Sections II through VI must be clearly defined by the Contractor in its bid response and, if accepted by the State, will become part of the contract. Any specifically defined deviations must not be in conflict with the basic nature of the solicitation, solicitation requirements, or applicable state or federal laws or statutes. "Deviation", for the purposes of this solicitation, means any proposed changes or alterations to either the contractual language or deliverables within the scope of this solicitation. The State discourages deviations and reserves the right to reject proposed deviations.

**H. SUBMISSION OF BID RESPONSES**

**\*\*\*ALL BID RESPONSES MUST BE SUBMITTED IN A SEALED ENVELOPE OR CONTAINER!\*\*\***

Contractors should submit one bid response marked on the first page: "ORIGINAL". If multiple bid responses are submitted, the State will retain one copy marked "ORIGINAL" and destroy the other copies. The Contractor is solely responsible for any variance between the copies submitted. Bid responses should include the completed Form A, "Contractor Bid Response Point of Contact". Bid responses must reference the ITB number and be sent to the specified address. Please note that the address label should appear as specified in Section I B. on the face of each container or contractor's bid response packet. If a recipient phone number is required for delivery purposes, 402-471-6500 should be used. The ITB number should be included in all correspondence. The State will not furnish packaging and sealing materials. It is the contractor's responsibility to ensure the ITB is received in a sealed envelope or container and submitted by the date and time indicated in the Schedule of Events. Sealed proposals must be received in the State Purchasing Bureau by the date and time of the bid opening per the Schedule of Events. No late bids will be accepted.

The Invitation to Bid form must be manually signed in an indelible manner and returned by the bid opening date and time along with the contractor's Invitation to Bid along with any other requirements as stated in the Invitation to Bid document in order for the contractor's Invitation to Bid response to be evaluated.

It is the responsibility of the contractor to check the website for all information relevant to this Invitation to Bid to include addenda and/or amendments issued prior to the opening date. Website address is as follows:  
<http://das.nebraska.gov/materiel/purchasing.html>

Emphasis should be concentrated on conformance to the ITB instructions, responsiveness to requirements, completeness, and clarity of content. If the contractor's bid is presented in such a fashion that makes evaluation difficult or overly time consuming the State reserves the right to reject the bid as non-conforming.

By signing the Invitation to Bid, the contractor guarantees compliance with the provisions stated in this ITB.

The State shall not incur any liability for any costs incurred by contractors in replying to this ITB, in the demonstrations and/or oral presentations, or in any other activity related to bidding on this ITB.

**I. BID PREPARATION COSTS**

The State shall not incur any liability for any costs incurred by Contractors in replying to this solicitation, including any activity related to bidding on this solicitation.

**J. FAILURE TO COMPLY WITH INVITATION TO BID**

Violation of the terms and conditions contained in this solicitation or any resultant contract, at any time before or after the award, shall be grounds for action by the State which may include, but is not limited to, the following:

1. Rejection of a Contractor's bid;
2. Withdrawal of the Intent to Award;
3. Withdrawal of the Award;
4. Termination of the resulting contract;
5. Legal action; or,

6. Suspension of the Contractor from further bidding with the State for the period of time relative to the seriousness of the violation, such period to be within the sole discretion of the State.

**K. BID CORRECTIONS**

A contractor may correct a mistake in a bid prior to the time of opening by giving written notice to the State of intent to withdraw the bid for modification or to withdraw the bid completely. Changing a bid after opening may be permitted if the change is made to correct a minor error that does not affect price, quantity, quality, delivery, or contractual conditions. In case of a mathematical error in extension of price, unit price shall govern.

**L. LATE BIDS**

Bids received after the time and date of the bid opening will be considered late bids. Late bids will be returned unopened, if requested by the Contractor and at Contractor's expense. The State is not responsible for bids that are late or lost regardless of cause or fault.

**M. BID OPENING**

Anyone may attend the opening. It is considered a public opening. The Buyer will read the names of the respondents. Depending upon the complexity of the bid for goods, the buyer may read the bids aloud or allow bids be available for viewing by the public during the bid opening. Once the bid opening has concluded, the bids will not be available for viewing until the Intent to Award has been posted. An initial bid tabulation will be posted to the website as soon as feasible. Information identified as proprietary by the submitting contractor, in accordance with the solicitation and state statute, will not be posted. If the state determines submitted information should not be withheld, in accordance with the [Public Records Act](#), or if ordered to release any withheld information, said information may then be released. The submitting contractor will be notified of the release and it shall be the obligation of the submitting contractor to take further action, if it believes the information should not be released.

**N. INVITATION TO BID REQUIREMENTS**

The bids will first be examined to determine if all requirements listed below have been addressed and whether further evaluation is warranted. Bid responses not meeting the requirements may be rejected as non-responsive. The requirements are:

1. Original Commodity ITB form signed using an indelible method (electronic signatures are acceptable);
2. Clarity and responsiveness of the bid;
3. Completed Sections II through VI;
4. Completed ITB Form or State's Cost Sheet.

**O. EVALUATION OF BIDS**

All bids that are responsive to the solicitation will be evaluated based on the following:

1. Cost Proposal

**Neb. Rev. Stat. §73-107 allows for a preference for a resident disabled veteran or business located in a designated enterprise zone.** When a state contract is to be awarded to the lowest responsible contractor, a resident disabled veteran or a business located in a designated enterprise zone under the Enterprise Zone Act shall be allowed a preference over any other resident or nonresident contractor, if all other factors are equal.

**Resident disabled veterans means any person (a) who resides in the State of Nebraska, who served in the United States Armed Forces, including any reserve component or the National Guard, who was discharged or otherwise separated with a characterization of honorable or general (under honorable conditions), and who possesses a disability rating letter issued by the United States Department of Veterans Affairs establishing a service-connected disability or a disability determination from the United States Department of Defense and (b)(i) who owns and controls a business or, in the case of a publicly owned business, more than fifty percent of the stock is owned by one or more persons described in subdivision (a) of this subsection and (ii) the management and daily business operations of the business are controlled by one or more persons described in subdivision(a) of this subsection. Any contract entered into without compliance with this section shall be null and void.**

Therefore, if a resident disabled veteran or business located in a designated enterprise zone submits a bid in accordance with Neb. Rev. Stat. §73-107 and has so indicated on the ITB cover page under "Contractor must complete the following" requesting priority/preference to be considered in the award of this contract, the following will need to be submitted by the contractor within ten (10) business days of request:

1. Documentation from the United States Armed Forces confirming service;
2. Documentation of discharge or otherwise separated characterization of honorable or general (under honorable conditions);

3. Disability rating letter issued by the United States Department of Veterans Affairs establishing a service-connected disability or a disability determination from the United States Department of Defense; and
4. Documentation which shows ownership and control of a business or, in the case of a publicly owned business, more than fifty percent of the stock is owned by one or more persons described in subdivision (a) of this subsection; and the management and daily business operations of the business are controlled by one or more persons described in subdivision (a) of this subsection.

Failure to submit the requested documentation within ten (10) business days of notice will disqualify the contractor from consideration of the preference.

**P. BEST AND FINAL OFFER**

If best and final offers (BAFO) are requested by the State and submitted by the contractor, they will be evaluated (using the stated BAFO criteria) and ranked by the Evaluation Committee. The State reserves the right to conduct more than one BAFO. The award will then be granted to the lowest responsible contractor. However, a contractor should provide its best offer in its original bid. Contractors should not expect that the State will request a BAFO.

**Q. REFERENCE AND CREDIT CHECKS**

The State reserves the right to conduct and consider reference and credit checks. The State reserves the right to use third parties to conduct reference and credit checks. By submitting a bid in response to this solicitation, the contractor grants to the State the right to contact or arrange a visit in person with any or all of the contractor's clients. Reference and credit checks may be grounds to reject a bid, withdraw an intent to award, or rescind the award of a contract.

**R. AWARD**

The State reserves the right to evaluate bids and award contracts in a manner utilizing criteria selected at the State's discretion and in the State's best interest. After evaluation of the bids, or at any point in the solicitation process, the State of Nebraska may take one or more of the following actions:

1. Amend the solicitation;
2. Extend the time of or establish a new bid opening time;
3. Waive deviations or errors in the State's solicitation process and in contractor bids that are not material, do not compromise the solicitation process or a contractor's bid, and do not improve a contractor's competitive position;
4. Accept or reject a portion of or all of a bid;
5. Accept or reject all bids;
6. Withdraw the solicitation;
7. Elect to rebid the solicitation;
8. Award single lines or multiple lines to one or more contractors; or,
9. Award one or more all-inclusive contracts.

The State of Nebraska may consider, but is not limited to considering, one or more of the following award criteria:

1. Price;
2. Location;
3. Quality;
4. Delivery time;
5. Contractor qualifications and capabilities;
6. State contract management requirements and/or costs; and,

The solicitation does not commit the State to award a contract. Once intent to award decision has been determined, it will be posted to the Internet at:

<http://das.nebraska.gov/materiel/purchasing.html>

Any protests must be filed by a contractor within ten (10) business days after the intent to award decision is posted to the Internet. Grievance and protest procedure is available on the Internet at:

<http://das.nebraska.gov/materiel/purchasing.html>

**S. ALTERNATE/EQUIVALENT BIDS**

Contractor may offer bids which are at variance from the express specifications of the solicitation. The State reserves the right to consider and accept such bids if, in the judgment of the Materiel Administrator, the bid will result in goods and/or services equivalent to or better than those which would be supplied in the original bid specifications. Contractor must indicate on the solicitation the manufacturer's name, number and shall submit with their bid, sketches, descriptive literature and/or complete specifications. Reference to literature submitted with a previous bid will not satisfy this provision. Bids which do not comply with these requirements are subject to rejection. In the absence of

any stated deviation or exception, the bid will be accepted as in strict compliance with all terms, conditions and specification, and the Contractor shall be held liable therefore.

**T. BID TABULATIONS**

Bid tabulations are available on the website at: <http://www.das.state.ne.us/materiel/purchasing/bidtabs.htm>.

**U. REJECTION OF BIDS**

The State reserves the right to reject any or all bids, wholly or in part, in the best interest of the State.

**V. RESIDENT BIDDER**

Pursuant to Neb. Rev. Stat. §§ 73-101.01 through 73-101.02, a Resident Bidder shall be allowed a preference against a Non-resident Bidder from a state which gives or requires a preference to Bidders from that state. The preference shall be equal to the preference given or required by the state of the Nonresident Bidders. Where the lowest responsible bid from a resident Bidder is equal in all respects to one from a nonresident Bidder from a state which has no preference law, the resident Bidder shall be awarded the contract. The provision of this preference shall not apply to any contract for any project upon which federal funds would be withheld because of the provisions of this preference.

**II. TERMS AND CONDITIONS**

Contractors should complete Section II through VI as part of their bid response. Contractor is expected to read the Terms and Conditions and must initial either accept, reject, or reject and provide alternative language for each clause. The Contractor should also provide an explanation of why the Contractor rejected the clause or rejected the clause and provided alternate language using "Track Changes". Upon request an electronic copy of the bid with "Track Changes" must be submitted in an editable Word format. By signing the solicitation, Contractor is agreeing to be legally bound by all the accepted terms and conditions, and any proposed alternative terms and conditions submitted with the bid. The State reserves the right to negotiate rejected or proposed alternative language. If the State and Contractor fail to agree on the final Terms and Conditions, the State reserves the right to reject the bid. The State is soliciting bids in response to the solicitation. The State reserves the right to reject bids that attempt to substitute the Contractor's commercial contracts and/or documents for this solicitation.

The Contractor should submit with their bid any license, user agreement, service level agreement, or similar documents that the Contractor wants incorporated in the Contract. Upon notice of Intent to Award, the Contractor must submit a copy of these documents in an editable Word format. The State will not consider incorporation of any document not submitted with the Contractor's bid response. These documents shall be subject to negotiation and will be incorporated as addendums if agreed to by the Parties.

If a conflict or ambiguity arises after the addendums have been negotiated and agreed to, the addendums shall be interpreted as follows:

1. If only one (1) Party's document has a particular clause then that clause shall control;
2. If both Party's documents have a similar clause, but the clauses do not conflict, the clauses shall be read together;
3. If both Party's documents have a similar clause, but the clauses conflict, the State's clause shall control.

Accept (Initial)	Reject (Initial)	Reject & Provide Alternative within Solicitation Response (Initial)	NOTES/COMMENTS:
AB			

The State and the Contractor, upon the written agreement, may make changes to the contract within the general scope of the solicitation. Changes may involve specifications, the quantity of work, or such other items as the State may find necessary or desirable. Corrections of any deliverable, service, or work required pursuant to the contract shall not be deemed a change. The Contractor may not claim forfeiture of the contract by reasons of such changes.

The Contractor shall prepare a written description of the work required due to the change and an itemized cost sheet for the change. Changes in work and the amount of compensation to be paid to the Contractor shall be determined in accordance with applicable unit prices if any, a pro-rated value, or through negotiations. The State shall not incur a price increase for changes that should have been included in the Contractor's bid, were foreseeable, or result from difficulties with or failure of the Contractor's bid or performance.

No change shall be implemented by the Contractor until approved by the State, and the Contract is amended to reflect the change and associated costs, if any. If there is a dispute regarding the cost, but both parties agree that immediate implementation is necessary, the change may be implemented, and cost negotiations may continue with both Parties retaining all remedies under the contract and law.

In the event any product is discontinued or replaced upon mutual consent during the contract period or prior to delivery, the State reserves the right to amend the contract or purchase order to include the alternate product at the same price.

**F. NOTICE OF POTENTIAL CONTRACTOR BREACH**

Accept (Initial)	Reject (Initial)	Reject & Provide Alternative within Solicitation Response (Initial)	NOTES/COMMENTS:
SPB			

If Contractor breaches the contract or anticipates breaching the contract, the Contractor shall immediately give written notice to the State. The notice shall explain the breach or potential breach, a proposed cure, and may include a request for a waiver of the breach if so desired. The State may, in its discretion, temporarily or permanently waive the breach. By granting a waiver, the State does not forfeit any rights or remedies to which the State is entitled by law or equity, or pursuant to the provisions of the contract. Failure to give immediate notice, however, may be grounds for denial of any request for a waiver of a breach.

**G. BREACH**

Accept (Initial)	Reject (Initial)	Reject & Provide Alternative within Solicitation Response (Initial)	NOTES/COMMENTS:
SPB			

Either Party may terminate the contract, in whole or in part, if the other Party breaches its duty to perform its obligations under the contract in a timely and proper manner. Termination requires written notice of default and a thirty (30) calendar day (or longer at the non-breaching Party's discretion considering the gravity and nature of the default) cure period. Said notice shall be delivered by Certified Mail, Return Receipt Requested, or in person with proof of delivery. Allowing time to cure a failure or breach of contract does not waive the right to immediately terminate the contract for the same or different contract breach which may occur at a different time.

In case of breach by the Contractor, the State may, without unreasonable delay, make a good faith effort to make a reasonable purchase or contract to purchased goods in substitution of those due from the contractor. The State may recover from the Contractor as damages the difference between the costs of covering the breach. Notwithstanding any clause to the contrary, the State may also recover the contract price together with any incidental or consequential damages defined in UCC Section 2-715, but less expenses saved in consequence of Contractor's breach. OR In case of default of the Contractor, the State may contract the service from other sources and hold the Contractor responsible for any excess cost occasioned thereby.

The State's failure to make payment shall not be a breach, and the Contractor shall retain all available statutory remedies. (See Indemnity - Self-Insurance and Payment)
