

Exhibit 2

Nebraska Department of Roads R68-16 Radio Installation

Installation Location, Vehicle and Configuration

Information in this document is provided to give the bidder an understanding of the estimated quantity of radios to be installed at specific locations in each district. It also provides an estimate of the equipment types that the radios will be installed in. Bidders may bid on one or more districts. Regardless of location, vehicle type, or lowband removal, a single price shall be submitted for all installations in a given district.

District 2 Estimated Quantities

Installation Location	Truck	Pickup	Grader	Loader	Location Total
ELKHORN	14	6	0	0	20

Trucks will be remote mount. Pickups will be dash mount with console.
Approximately NO trucks will need low band radios removed.

**Note: The quantity of installs per location are estimated quantities and shall not be construed to be either a minimum or a maximum. Vendor shall not impose requirements.*
