## GLOSSARY OF TERMS

**802.1ad:** Is an Ethernet networking standard informally known as IEEE 802.1QinQ and is an amendment to IEEE standard IEEE 802.1Q-1998. The technique is also known as provider bridging, Stacked VLANs or simply QinQ or Q-in-Q. The original 802.1Q specification allows a single VLAN header to be inserted into an Ethernet frame. QinQ allows multiple VLAN headers to be inserted into a single frame, an essential capability for implementing Metro Ethernet network topologies. Just as QinQ extends 802.1Q, QinQ itself is extended by other Metro Ethernet protocols.

**802.1p: IEEE P802.1p** is the name of a task group active during 1995–98 responsible for adding traffic class expediting and dynamic multicast filtering to the IEEE 802.1D standard. The QoS technique developed by the working group, also known as class of service (CoS), is a 3-bit field called the Priority Code Point (PCP) within an Ethernet frame header when using VLAN tagged frames as defined by IEEE 802.1Q.

**802.1Q:** Is the networking standard that supports Virtual LANs (VLANs) on an Ethernet network. The standard defines a system of VLAN tagging for Ethernet frames and the accompanying procedures to be used by bridges and switches in handling such frames. The standard also contains provisions for the quality of service prioritization scheme commonly known as IEEE 802.1p.

**Acceptance:** Acceptance of circuit, system, or service, as solely tested and determined by the State of Nebraska and/or authorized agent of the State of Nebraska, is when the circuit, system, or service is free of defect and reliably transporting data at, or in excess of, the ordered bandwidth or speed capacity. (See JJ. Inspection and Approval)

**Acceptance Test Procedure:** Benchmarks and other performance criteria, developed by the State of Nebraska or other sources of testing standards, for measuring the effectiveness of products or services and the means used for testing such performance.

**Addendum:** Something added or to be added.

**Agency:** Any state agency, board, or commission other than the University of Nebraska, the Nebraska State colleges, the courts, the Legislature, or any officer or agency established by the Constitution of Nebraska.

**Agent:** A person authorized by a superior or organization to act on their behalf.

**Amend:** To alter or change by adding, subtracting, or substituting. A contract can be amended only by the parties participating in the contract. A written contract can only be amended in writing.

**Amendment:** Written correction or alteration.

**Appropriation:** Legislative authorization to expend public funds for a specific purpose. Money set apart for a specific use.

**Award:** All purchases, leases, or contracts which are based on competitive proposals will be awarded according to the provisions in the Request for Proposal. The State reserves the right to reject any or all proposals, wholly or in part, or to award to multiple bidders in whole or in part. The State reserves the right to waive any deviations or errors that are not material, do not invalidate the legitimacy of the proposal, and do not improve the bidder's competitive position. All awards will be made in a manner deemed in the best interest of the State.

**Best and Final Offer (BAFO):** A second-stage bid in a public procurement for services.

**Bid:** The executed document submitted by a bidder in response to a Request for Proposal.

work so ordered shall be determined in accordance with the applicable unit prices of the contractor's proposal.

Corrections of any deliverable services or performance of work required pursuant to the contract shall not be deemed a modification requiring a change order.

**LL. SEVERABILITY**

Accept  
& Initial

If any term or condition of the contract is declared by a court of competent jurisdiction to be illegal or in conflict with any law, the validity of the remaining terms and conditions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if the contract did not contain the particular provision held to be invalid.

**MM. CONFIDENTIALITY**

Accept

All materials and information provided by the State or acquired by the contractor on behalf of the State shall be regarded as confidential information. All materials and information provided by the State or acquired by the contractor on behalf of the State shall be handled in accordance with Federal and State Law, and ethical standards. The contractor must ensure the confidentiality of such materials or information. Should said confidentiality be breached by a contractor; contractor shall notify the State immediately of said breach and take immediate corrective action.

It is incumbent upon the contractor to inform its officers and employees of the penalties for improper disclosure imposed by the Privacy Act of 1974, 5 U.S.C. 552a. Specifically, 5 U.S.C. 552a (i)(1), which is made applicable to contractors by 5 U.S.C. 552a (m)(1), provides that any officer or employee of a contractor, who by virtue of his/her employment or official position has possession of or access to agency records which contain individually identifiable information, the disclosure of which is prohibited by the Privacy Act or regulations established thereunder, and who knowing that disclosure of the specific material is prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000.

**NN. PROPRIETARY INFORMATION**

Accept  
& Initial

Data contained in the proposal and all documentation provided therein, become the property of the State of Nebraska and the data becomes public information upon opening the proposal. If the bidder wishes to have any information withheld from the public, such information must fall within the definition of proprietary information contained within Nebraska's public record statutes. All proprietary information the bidder wishes the State to withhold must be submitted in a sealed package, which is separate from the remainder of the proposal. The separate package must be clearly marked PROPRIETARY on the outside of the package. Bidders may not mark their entire Request for Proposal as proprietary. Bidder's cost proposals may not be marked as proprietary information. Failure of the bidder to follow the instructions for submitting proprietary and copyrighted information may result in the information being viewed by other bidders and the public. Proprietary information is defined as trade secrets, academic and scientific research work which is in progress and unpublished, and other information which if released would give advantage to business competitors and serve no public purpose (see Neb. Rev. Stat. §84-712.05(3)). In accordance with Attorney General Opinions 92068 and 97033, bidders submitting information as proprietary may be required to prove specific, named competitor(s) who would be advantaged by release of the information and the specific advantage the competitor(s) would receive. Although every effort will be made to withhold information that is properly submitted as proprietary and meets the State's definition of proprietary information, the State is under no obligation to maintain the confidentiality of proprietary information and accepts no liability for the release of such information.

**OO. CERTIFICATION OF INDEPENDENT PRICE DETERMINATION/COLLUSIVE BIDDING**

**PP. PRICES**

Accept  
& Initial

All prices, costs, terms and conditions outlined in the proposal shall remain fixed and valid commencing on the opening date of the proposal until an award is made (and for bidder receiving award prices shall remain as bid for the duration of the contract unless otherwise so stated in the contract) or the Request for Proposal is cancelled.

Contractor represents and warrants that all prices for services, now or subsequently specified are as low as and no higher than prices which the contractor has charged or intends to charge customers other than the State for the same or similar products and services of the same or equivalent quantity and quality for delivery or performance during the same periods of time. If, during the term of the contract, the contractor shall reduce any and/or all prices charged to any customers other than the State for the same or similar products or services specified herein, the contractor shall make an equal or equivalent reduction in corresponding prices for said specified products or services.

Contractor also represents and warrants that all prices set forth in the contract and all prices in addition, which the contractor may charge under the terms of the contract, do not and will not violate any existing federal, state or municipal law or regulations concerning price discrimination and/or price fixing. Contractor agrees to hold the State harmless from any such violation. Prices quoted shall not be subject to increase throughout the contract period unless specifically allowed by these specifications.

**QQ. BEST AND FINAL OFFER**

Accept  
& Initial

The State will compile the final scores for all parts of each proposal. The award may be granted to the highest scoring responsive and responsible bidder. Alternatively, the highest scoring bidder or bidders may be requested to submit best and final offers. If best and final offers are requested by the State and submitted by the bidder, they will be evaluated (using the stated criteria), scored and ranked by the Evaluation Committee. The award will then be granted to the highest scoring bidder. However, a bidder should provide its best offer in its original proposal. Bidders should not expect that the State will request a best and final offer.

**RR. ETHICS IN PUBLIC CONTRACTING**

Accept  
& Initial

No bidder shall pay or offer to pay, either directly or indirectly, any fee, commission compensation, gift, gratuity, or anything of value to any State officer, legislator or employee based on the understanding that the receiving person's vote, actions or judgment will be influenced thereby. No bidder shall give any item of value to any employee of the State Purchasing Bureau.

Bidders shall be prohibited from utilizing the services of lobbyists, attorneys, political activists, or consultants to secure the contract. It is the intent of this provision to assure that the prohibition of state contact during the procurement process is not subverted through the use of lobbyists, attorneys, political activists, or consultants. It is the intent of the State that the process of evaluation of proposals and award of the contract be completed without external influence. It is not the intent of this section to prohibit bidders from seeking professional advice, for example consulting legal counsel, regarding terms and conditions of this Request for Proposal or the format or content of their proposal.

If the bidder is found to be in non-compliance with this section of the Request for Proposal, they may forfeit the contract if awarded to them or be disqualified from the selection process.

**SS. INDEMNIFICATION**

Accept  
& Initial

**1. GENERAL**

The contractor agrees to defend, indemnify, hold, and save harmless the State and its employees, volunteers, agents, and its elected and appointed officials ("the indemnified parties") from and against any and all claims, liens, demands, damages, liability, actions, causes of action, losses, judgments, costs, and expenses of every nature, including investigation costs and expenses, settlement costs, and attorney fees and expenses ("the claims"), sustained or asserted against the State, arising out of, resulting from, or attributable to the willful misconduct, negligence, error, or omission of the contractor, its employees, subcontractors, consultants, representatives, and agents, except to the extent such contractor liability is attenuated by any action of the State which directly and proximately contributed to the claims.

**2. INTELLECTUAL PROPERTY**

The contractor agrees it will at its sole cost and expense, defend, indemnify, and hold harmless the indemnified parties from and against any and all claims, to the extent such claims arise out of, result from, or are attributable to the actual or alleged infringement or misappropriation of any patent, copyright, trade secret, trademark, or confidential information of any third party by the contractor or its employees, subcontractors, consultants, representatives, and agents; provided, however, the State gives the contractor prompt notice in writing of the claim. The contractor may not settle any infringement claim that will affect the State's use of the Licensed Software without the State's prior written consent, which consent may be withheld for any reason.

If a judgment or settlement is obtained or reasonably anticipated against the State's use of any intellectual property for which the contractor has indemnified the State, the contractor shall at the contractor's sole cost and expense promptly modify the item or items which were determined to be infringing, acquire a license or licenses on the State's behalf to provide the necessary rights to the State to eliminate the infringement, or provide the State with a non-infringing substitute that provides the State the same functionality. At the State's election, the actual or anticipated judgment may be treated

as a breach of warranty by the contractor, and the State may receive the remedies provided under this RFP.

**3. PERSONNEL**

The contractor shall, at its expense, indemnify and hold harmless the indemnified parties from and against any claim with respect to withholding taxes, worker's compensation, employee benefits, or any other claim, demand, liability, damage, or loss of any nature relating to any of the personnel provided by the contractor.

**TT. NEBRASKA TECHNOLOGY ACCESS STANDARDS**

Accept  
& Initial

Contractor shall review the Nebraska Technology Access Standards, found at [http://www.nitc.nebraska.gov/standards/accessibility/accessibility\\_standards.pdf](http://www.nitc.nebraska.gov/standards/accessibility/accessibility_standards.pdf) and ensure that products and/or services provided under the contract comply with the applicable standards. In the event such standards change during the contractor's performance, the State may create an amendment to the contract to request that contract comply with the changed standard at a cost mutually acceptable to the parties.

**UU. ANTITRUST**

Accept  
& Initial

The contractor hereby assigns to the State any and all claims for overcharges as to goods and/or services provided in connection with the contract resulting from antitrust violations which arise under antitrust laws of the United States and the antitrust laws of the State.

**VV. DISASTER RECOVERY/BACK UP PLAN**

Accept  
& Initial

The contractor shall have a disaster recovery and back-up plan, of which a copy should be provided to the State, which includes, but is not limited to equipment, personnel, facilities, and transportation, in order to continue services as specified under these specifications in the event of a disaster.

**WW. TIME IS OF THE ESSENCE**

Accept  
& Initial

Time is of the essence in the contract. The acceptance of late performance with or without objection or reservation by the State shall not waive any rights of the State nor constitute a waiver of the requirement of timely performance of any obligations on the part of the contractor remaining to be performed.

**XX. RECYCLING**

Accept  
& Initial

Preference will be given to items which are manufactured or produced from recycled material or which can be readily reused or recycled after their normal use as per state statute (Neb. Rev. Stat. §81-15, 159).

**YY. DRUG POLICY**

Accept  
& Initial

Contractor certifies it maintains a drug free work place environment to ensure worker safety and workplace integrity. Contractor agrees to provide a copy of its drug free workplace policy at any time upon request by the State.

**ZZ. NEW EMPLOYEE WORK ELIGIBILITY STATUS**

Accept  
& Initial

The Contractor is required and hereby agrees to use a federal immigration verification system to determine the work eligibility status of new employees physically performing services within the State of Nebraska. A federal immigration verification system means the electronic verification of the work authorization program authorized by the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, 8 U.S.C. 1324a, known as the E-Verify Program, or an equivalent federal program designated by the United States Department of Homeland Security

or other federal agency authorized to verify the work eligibility status of a newly hired employee.

If the Contractor is an individual or sole proprietorship, the following applies:

1. The Contractor must complete the United States Citizenship Attestation Form, available on the Department of Administrative Services website at [www.das.state.ne.us](http://www.das.state.ne.us).
2. If the Contractor indicates on such attestation form that he or she is a qualified alien, the Contractor agrees to provide the US Citizenship and Immigration Services documentation required to verify the Contractor's lawful presence in the United States using the Systematic Alien Verification for Entitlements (SAVE) Program.
3. The Contractor understands and agrees that lawful presence in the United States is required and the Contractor may be disqualified or the contract terminated if such lawful presence cannot be verified as required by Neb. Rev. Stat. §4-108.

**AAA. CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND INELIGIBILITY**

Accept  
& Initial

The contractor, by signature to this RFP, certifies that the contractor is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any federal department or agency from participating in transactions (debarred). The contractor also agrees to include the above requirements in any and all subcontracts into which it enters. The contractor shall immediately notify the Department if, during the term of this contract, contractor becomes debarred. The Department may immediately terminate this contract by providing contractor written notice if contractor becomes debarred during the term of this contract.

#### **IV. PROJECT DESCRIPTION AND SCOPE OF WORK**

The bidder may present supplemental text for any of the sections following the “The bidder has read, understands, and agrees to comply” statement. If a bidder must state noncompliance on any Technical Requirement, they may complete an “Other” statement with Comments immediately following such section. “Other” responses should be used only with a narrative response explaining in detail any deviation from the bidder’s ability to meet the condition, and an explanation of how this would be determined to be an acceptable alternative to meeting the condition. Alternatives must be detailed in such a way that allows such deviations to be fully evaluated. The State of Nebraska shall determine in its sole discretion whether or not the vendor’s alternative is an acceptable alternative.

This RFP serves multiple purposes in soliciting providers for services related to Networking Services in the State of Nebraska. Each service will be reviewed individually or in combination with other services.

##### **1. NETWORK NEBRASKA SITES AGGREGATING AT THE FOLLOWING LOCATIONS:**

- a.** Omaha
- b.** Lincoln
- c.** Grand Island
- d.** Scottsbluff
- e.** Hastings

Notes:

All services listed above will be offered to Schools and Libraries and therefore must meet E-rate guidelines for eligible services, products, service providers and contracts.

All State agencies, the University, political subdivisions and other “eligible participants” will be allowed to purchase off of this contract.

There is no guarantee that any or all of the institutions listed will purchase any or all of the services requested in this RFP.

The Bidder needs to clearly state which section of the RFP they are bidding on when submitting pricing.

Network Nebraska has 5 major network node locations that are used as “core” aggregation points:

Panhandle Research and Extension Center  
4502 Avenue I  
Scottsbluff, NE 69361-4939

The objective of this RFP is to update and expand the network that is currently in place to serve the eligible education entities of Network Nebraska as defined by Neb. Rev. Stat. 79-1201.01(3). Network Nebraska is defined in Neb. Rev. Stat. 86-5,100 (LB1208, 2006). Network Nebraska shall consist of contractual arrangements with providers to meet the demand of state agencies, local governments, and educational entities. Such network shall provide access to a reliable and affordable infrastructure capable of carrying a spectrum of services and applications, including distance education across the state. Only E-rate eligible entities will apply for E-rate discounts.

The State of Nebraska bids these services on behalf of numerous E-rate eligible education entities across the State. Each entity must be allowed a reasonable duration to hold a public meeting of its administrative board to approve its purchase from the resulting state contract(s) and to file its E-rate Form 471 prior to the national deadline on March 14, 2013. Once Intent to Contract have been announced by the State, each contractor must work expeditiously toward a jointly signed contract in order to allow enough time for the local approval process. Failure to reach a signed contract with the State prior to Thursday, January 31, 2013, may risk negation of purchases for the July 1, 2013 through June 30, 2014 performance year.

### **E-rate**

Each Bidder must have a Service Provider Identification Number (SPIN) from the Universal Service Administrative Company and be eligible to participate in the Universal Service Fund discount program for telecommunications services provided to the E-rate eligible entities. Bidder agrees to provide any discounts, including any accrued credits, for which the entity is eligible under the Universal Service Fund for school telecommunications services. Bidder will, at its expense, prepare and file all carrier documents and reports required for the eligible entities to receive the benefit of such discounts and credits. The Bidder's Service Provider Identification Number (SPIN) issued to bidder by the Universal Service Administrative Company must be included in the responding bid.

As required by federal law, providers of eligible services must comply with the Lowest Corresponding Price (LCP) rule:

1. 47 CFR § 54.500(f): Lowest corresponding price is the lowest price that a service provider charges to non-residential customers who are similarly situated to a particular school, library, or library consortium for similar services. ("Similarly situated" means the "geographic service area" in which a service provider is seeking to serve customers with any of its E-rate services.)

2. 47 CFR § 54.511(b): Providers of eligible services shall not charge schools, school districts, libraries, library consortia, or consortia including any of these entities a price above the lowest corresponding price for supported services, unless the Federal Communications Commission, with respect to interstate services or the state commission with respect to intrastate services, finds that the lowest corresponding price is not compensatory.

The Billed Entity Applicant Reimbursement (BEAR) FCC Form 472 is filed by the applicant and approved by the service provider after the applicant has paid for services in full. The Service Provider Invoice (SPI) FCC Form 474 is filed by the service provider after the applicant has been billed for the non-discount portion of the cost of eligible services. Note: Applicants can choose their method of invoicing; service providers cannot force applicants to use a particular method.

As required by USAC policy, the contractor must retain documents from the bidding process through five (5) years past the last date of service. Documents may be retained in electronic format or paper. The document list includes, but is not limited to, copies of bids, signed contracts, proof of service delivery, invoices, documentation of any service down time, and any other document retention required by the FCC.

**A. INDIVIDUAL SITES HIGH SPEED WAN – NETWORK NEBRASKA SITES**

**1. PROJECT OVERVIEW**

The objective of this section of the RFP is to identify a Contractor or Contractors who will design, develop, and implement high-speed data connectivity that will meet the current and future telecommunications needs of eligible participants over the term of the contract. The successful Bidder will provide a cost-effective, scalable, and flexible high speed data transport service that can interconnect eligible entities listed in Appendix A to Network Nebraska. In this Section the bidder shall bid on one, some or all of the eligible entities listed in Appendix A. This Section will be evaluated per individual location only. When bidding Appendix A locations, the Bidder must bid all costs to provide connectivity from the entity listed to at least one of the Network Nebraska aggregation points listed in the Appendix.

The Bidder will include transport connectivity through the carriers' cloud back to one of the identified aggregation locations. Connectivity back to the aggregation location must have the capacity to support all eligible entities bid transmitting at full capacity at any given time. A one (1) Gigabit Ethernet interface physical hand-off is required as a minimum for the connection at the identified aggregation locations. The cost for connectivity back to the aggregation location **MUST** be figured into the MRC (monthly recurring charge) for the individual sites being bid. The State of Nebraska will not accept separate costs for the aggregation ports that connect all of the eligible entities to Network Nebraska. All co-location data center cross-connect and fiber path costs needed to provide the physical interface hand-over to Network Nebraska equipment

will be the responsibility of the bidder. A co-location space will be provided at the aggregation locations for the Contractor.

Eligible entities may include colleges, universities, state government, political subdivisions and K-12 institutions. The network design must accommodate the full implementation of Network Nebraska connections including a statewide, multi-purpose backbone.

All proposals must meet the technical requirements as stated in the RFP. All Bidders can bid one, some or all sites as shown in Appendix A. Appendix A contains two sections: One for K-12 schools districts and a second for Higher Education Entities. The K-12 section is arranged numerically by ESU and alphabetically by billed entity name.

Current network costs are provided to assist Bidders in making a logical and cost effective proposal to the State. Current costs are: \$350 - \$ 3,500 per month per site for 40Mbps to100Mbps video and IP data transport, with a statewide average of approximately \$1,600 per month.

The State requires the Bidder to bid a multi-purpose transport connection to interconnect the listed institutions along with the corresponding services that considers present, as well as future, state-of-the-art technologies.

**2. PROJECT ENVIRONMENT**

The current environment consists of a multi-provider layer 2 high speed Ethernet network. Multiple provider clouds connect to the various eligible entities in Appendix A and to Network Nebraska at one of the identified aggregation locations.

**3. PROJECT REQUIREMENTS**

The K-12 schools and educational service units that require this service must be converted between July 1, 2013 and August 2, 2013. The circuits should be installed and tested by July 1, 2013, however neither the State nor the participating eligible entities can incur charges on these circuits until after July 1 due to E-rate. The cutover to the customer must be complete by August 2, 2013. Existing service must remain active until the final cutover. The State of Nebraska is cognizant of a growing demand for bandwidth. The State is interested in identifying contractor(s) who will meet the current and future telecommunications needs of eligible participants over the term of the contract. The contractor(s) will provide a cost-effective, scalable, and flexible transport service that will be able to meet the demands of the network participants and it is expected the services would meet any future needs of other eligible participants as deemed appropriate. Bidders shall identify services that are a normal part of their offering without additional fees.

**4. TECHNOLOGY REFRESH**

The State and the Contractor will work in partnership to ensure the services provided under this contract will be continuously refreshed as technologies evolve and user needs grow. The Chief Information Officer, in conjunction with, or on behalf of, all other participants, will assume the primary role in seeking and proposing new technologies and enhancements. This technology refreshment clause will be a required condition of the contract.

The State and the Contractor will conduct periodic reviews of the contract at specific milestones during the term of the contract to review service offerings and pricing. These reviews may result in expanding the services offered by the Contractor to include new pricing elements or pricing modifications associated with improved economies of scale and/or technological innovations. Changes in the industry related to regulation and/or pricing mechanisms may also result in modification of rates identified in the services offered by the Contractor. These review periods will commence when the State feels an improvement in economies of scale or technological innovation has occurred.

The bidder has read, understands, and agrees to comply. \_\_\_YES \_\_\_NO\_\_\_OTHER

**5. SCOPE OF WORK**

The Contractor shall design, develop and implement a high-speed, IP-based, layer-2, Ethernet, wide area network to interconnect eligible entities as requested. The network interface to the customer's CPE must physically be Ethernet with the capability to provide multiple virtual Ethernet interfaces via 802.1Q VLAN tagging.

The eligible entities' network connections must be bid according to the bandwidth ranges and to the acceptable aggregation sites as stipulated in Appendix A. The conversion will be performed over the summer of 2013 and must be as transparent as possible with completion by August 2, 2013.

Each entity's connection that is bid must be connected from the site address identified in Appendix A to the aggregation site address also identified in Appendix A. The aggregation site connectivity MUST have the capacity to support all eligible entities connectivity to the core site transmitting at full capacity over a single 1 Gigabit Ethernet interface or over a single 10 Gigabit Ethernet interface; multiple interfaces are allowed only as a redundant path for the primary connectivity. The new connectivity capacity can be aggregated at an existing "core" site interface as long as overall capacity of the core interface is not exceeded due to the introduction of the additional remote site

capacity. The State will not allow a separate cost for this “aggregation connection”, that cost must be included as part of the individual site or sites being bid.

Appendix A includes core aggregation site choices that are “grayed out”. The State will only accept bids for the bandwidths cited between the eligible entities and the core aggregation sites that are not “grayed out”. The Bidder can choose to give a price to bring the eligible entity back to any one or more of the eligible “core” locations unless as stipulated in Appendix A. For locations where multiple speeds have been requested, the State will disclose which speed is being evaluated at the moment of bid opening via a written document.

All bids for a single service location to multiple aggregation points will be compared against each other. Each service location will only have one award and the State will choose the lowest cost bid from that service location to one of the aggregation points that meets the technical requirements as stated in the RFP.

The support of end-to-end customer VLANs (C-VLANs) is REQUIRED. Support can be provided either by using the IEEE 802.1ad provider bridging standard (also referred to as QinQ tunneling), or by directly bridging the customer VLANs from end-to-end, without C-VLAN modification and without provider interaction. For example; as a customer VLAN tagged packet travels from a customer to the service provider, a customer-specific 802.1Q tag is added by the provider to each packet. This additional tag is used to segregate traffic into service-provider-defined service VLANs (S-VLANs). The original customer 802.1Q tag of the packet remains and is transmitted transparently, passing through the service provider's network. The Service Provider VLAN (S-VLAN) tag is added on egress for incoming packets, optionally including untagged packets. As the packet leaves the S-VLAN in the downstream direction, the service provider 802.1Q tag is removed, leaving the original customer tag on the packet.

Eligible entities that select this service will be purchasing their own network equipment and video equipment. The Contractor will need to work closely with these eligible entities (school districts, educational service units; etc.) to ensure that the appropriate network equipment and video equipment delivery is coordinated and ready for installation at the time the network conversion takes place.

This connectivity will transmit Internet, distance learning, and data transport between the eligible entities of Network Nebraska.

Appendix A identifies the potential Network Nebraska Locations where transport can be handed off for each location bid.

**6. TECHNICAL REQUIREMENTS**

The bidder must provide a network design in which:

- a. Layer 2 (802.1q/802.1p) VLAN and QoS tags must be allowed through the provided network connection and must remain unchanged by the provider.
- b. Ethernet frames containing a 1500 byte payload (for a total minimum supported Ethernet frame size of 1542 bytes), must be allowed and flow as a single complete frame without any fragmentation by the provider’s equipment. Reference: [http://en.wikipedia.org/wiki/Ethernet\\_frame](http://en.wikipedia.org/wiki/Ethernet_frame)
- c. Layer 2 performance must be adequate to support jitter and latency sensitive applications (i.e. video over IP).
- d. The network interface to the customer’s CPE must be an Ethernet-based handover connection. The connection must support either 802.1q tagged frames or must support 802.1ad provider bridging. Network Nebraska WILL NOT coordinate customer VLAN tags with the provider; the provider must either tunnel the customer VLAN tags through the provider network or must leave the customer VLAN tags unchanged from end-to-end.
- e. Allow participating institutions to manage their own IP address space and routing.
- f. Real time performance metrics on contracted circuits need to be provided to Network Nebraska staff within 24 hours of request.
- g. Network Nebraska must be notified within 24 hours of performing QoS changes, network monitoring changes or any other network changes that will have a positive or negative effect on performance as outlined in the RFP.
- h. The provided connection must be tested to prove performance before it will be considered complete and usable. Testing according to RFC-2544 for performance, frame-loss and latency is preferred but detailed performance, frame-loss, latency and QOS test disclosure is also acceptable. Testing must also validate the minimum frame size specified is supported.
- i. Every connection’s receive AND transmit capacity must each meet or exceed the bandwidth amount that is bid.

**7. PROJECT PLANNING AND MANAGEMENT**

The State of Nebraska acknowledges that project management and implementation procedures will require alignment and adjustment of work processes for the Contractor’s organizations, the educational entities, and the State. The alignment will be part of the contract finalization, however the bidder will respond to this RFP assuming the following responsibilities.

The State of Nebraska and educational entity management staff will:

- a. Provide overall project direction and management.
- b. Review and approve all project plans and deliverables.

- c. Ensure that technical assistance and support are provided during the Contractor's implementation phases and ongoing upgrade design of this project.
- d. Establish project management guidelines by meeting with the Contractor's project management team as needed.
- e. Review and approve all project specific documentation standards and requirements for the various types of reports, technical/procedural documentation, and management materials that will be produced during the project.
- f. Coordinate other resources as needed to support the implementation process.
- g. Provide on-site assistance, as needed during the implementation phases of the project.
- h. Assist the Contractor in identifying eligible participants in the network as well as establishing guidelines with the Contractor for ordering, moving, adding or changing services.

The Contractor will:

- a. Coordinate and administer the requirements of the network service(s) that are proposed.
- b. Maintain toll free lines for voice and facsimile from the State to operational facilities for order entry and after hours help desk. Installation and maintenance may be subcontracted to one or more third parties to adequately cover the locations of the core transport backbone sites and to provide for rapid response in the event of a service disruption. The Contractor will provide information regarding intent to maintain its facilities after project implementation has been completed.
- c. Maintain toll free voice lines for after-hours helpdesk support for the duration of the contract. This point of contact will serve as the single point of contact for all services and equipment provided by the contract, including services and equipment subcontracted to another vendor.
- d. Furnish with its proposal technical information, graphs, charts, maps, photographs, block diagrams, operating manuals, and other information that will clearly show that the services offered are in full compliance with the minimum requirements of this RFP. In the event that the documentation furnished is at variance with the requirements of this RFP, the Contractor will explain in detail, with full engineering support data, the reasons why the proposed services meet the RFP requirements and should not be considered an exception.
- e. Include detailed network diagrams and drawings that clearly illustrate the network configuration and the functional relationships, as they are associated with the proposed services. These network diagrams will be available to the State electronically in a format agreed upon by the Contractor and the State to allow for import into various computer programs.
- f. Provide basic technical specifications for each item of equipment included in the proposal. The information to be provided will be in the form of published specification sheets or other illustrative literature.

If the Contractor is working with other "last mile" telecommunication providers to create an end to end solution, the Contractor must provide Network Nebraska with technical contacts for the "last mile" provider.

**8. SERVICE LEVEL GUARANTEES**

This network must support production applications that require a high degree of reliability and must operate with little or no service disruptions for twenty-four (24) hours a day, seven (7) days a week. Contractor(s) must provide solutions with the necessary redundancy, backup systems, and/or other disaster avoidance and recovery capabilities to support these needs. Contractor(s) must have the necessary staff for the installation and maintenance of their network responsibilities and necessary staff to assist the State in its installation and maintenance of critical network services. The Bidder will provide an explanation of any redundancy that is available as part of the proposed system that will assure the required availability of the services. The following performance specifications are required service level guarantees. The Contractor will conform to these service level agreements, which are to include details concerning restoration procedures and goals, escalation procedures, and non-conformance penalties.

**9. SPECIFICATIONS**

The contract expectation is for a service that, at a minimum, will meet required specifications 99.955% of the year - equivalent to a maximum of 4 total hours of downtime/service non-compliance per year. Any service not meeting contract specifications to include violation of QoS parameters will incur a contract performance penalty according to the following formula:

For every hour and fraction of an hour of service violation, the customer will be refunded one day of service credit. Repeated violations of service performance agreements during any single calendar day will be considered a continuous event from the beginning of the original violation until the last violation. Violations on consecutive days will be considered continuous from the initial violation until the service has been restored. The service will be considered restored when no violation has occurred for 24 continuous hours (the 24 hour validation period is not considered part of the penalty). Penalty duration will round up to the next whole hour.

Example: Intermittent connectivity from 9:15a-2:20p on the same day; Duration of the actual service violation would be 5 hours and 5 minutes. Violation assessment is rounded up to the next whole hour, so the duration is considered as 6 total hours. A yearly downtime credit of 4 hours can be applied to account for the 99.955% performance expectation yielding a 2 hour penalty violation and 2 days of service credit due. The 4 hour credit can only be applied in one hour whole increments with a total of 4 hours of remission during any given calendar year.

**10. IMPLEMENTATION PLAN**

The Bidder must submit to the State of Nebraska an implementation plan for the deployment of the services, along with proposed pricing schemes that reflect the services to be included in the associated contract resulting from the award of this RFP. The plan must clearly represent the constraints of time, scope and cost. At a minimum the implementation plan must include the project approach, scope of work, work breakdown structure (WBS), schedule, milestones, deliverables, risk assessment, mitigation strategies, resource planning and communication plans.

The Contractor will adhere to the implementation plan for deployment of services submitted as a requirement of this RFP.

The bidder should insert its Implementation Plan text immediately following the “The bidder has read, understands, and agrees to comply” statement.

**12. BILLING**

The State will provide detailed billing instructions for each order as placed. In some cases the billed entity will be a consolidated billing to the State in an electronic format. The Contractor must comply with all applicable E-rate requirements. The State may request a copy or summary of billings to other entities. Billings for the Individual Sites High Speed WAN must comply with the following specific requirements:

- a. Eligible participants must file contract orders for equipment or services under this section that specifies the number and location of sites.
- b. The billing to all eligible participants in a region for services under this section must reflect a cost per Individual location, based on the list of participants in Appendix A.
- c. The Contractor must bill each entity directly that connects to the statewide network, rather than presenting a consolidated billing to the State of Nebraska.

**14. COST**

Bid proposals will address the impact of normal growth, as well as planned and unplanned network expansion or service enhancement. All prices shall be proposed as an individual location/school cost on a recurring or non-recurring basis. All bidder costs must be reflected in either the monthly recurring or non-recurring charges. All fees, taxes and pass-through charges such as NUSF must be included in the cost. No additional charges will be accepted. The State shall not be required to purchase any specific service or minimum quantities of network services. The quantities provided are for the sole purpose of assisting the Bidders in preparation of their proposals and for the State to evaluate the feasibility of the proposed network solutions. The State shall not be responsible for any cost that is not identified in the Bidder’s proposal. The State will not be able to consider bids that offer discounts based upon the number of network locations that join the network.

Please display costs in the format provided in Appendix A. Simply placing a cost number in the appropriate cell is all that is needed.

- a. Network Equipment and Hardware Costs. (Non-CPE) Network equipment and hardware (non-CPE) will be part of and included in the itemized circuit costs. Circuit costs will be bundled costs, including all hardware.

- b.** Installation Costs. If non-recurring installation/set-up charges are applicable, these rates shall be delineated in the cost portion of the proposal. This cost for the circuit installation shall include all one-time costs associated with termination to the demarcation point from the network side and/or fees associated with interconnection to local exchange carriers.
- c.** Software, Warranty, and Maintenance Costs. The Bidder will include costs for software, warranty, and maintenance of the provided circuits in the service rates.
- d.** Software includes any initial or upgraded software required by each item of equipment proposed for the network to perform as a fully functional, integrated part of the Bidder's network and associated service rates. The software costs shall include all of the following applicable costs:
  - i.** Initial purchase and installation costs.
  - ii.** Use and licensing fees.
  - iii.** Software maintenance costs, including upgrades.
  - iv.** All other costs relative to the network such as acquiring and using the software for the life of the network.
  - v.** Costs and procedures related to the transfer of the software from damaged or out of service equipment to new equipment and the reprogramming of the software to place equipment spares into service and to meet changing network needs.
- e.** Total Costs. The Bidder will provide a detailed description and list of the transport services being proposed in a table similar to the example reflected below. The monthly costs, installation, and any other charges are to be explicitly stated in order for the State to evaluate the proposed services incorporated in the proposal and the associated charges. The State has the option of purchasing any quantity of services in any increment proposed.
- f.** Cost and Service Offering Reviews. During the Contract, the State and the Contractor will conduct periodic reviews of the contract at specific milestones during the term of the contract to review service offerings and pricing as specified under item B.6, Technology Refreshment.
- g.** Proposal Cost Tabulation. The proposal cost will be tabulated and an intent to award made based on the monthly recurring costs multiplied by the applicable length of service in months (36), not to include extensions, plus the one-time non-recurring costs.
