Comments			1.J Turned Post (Better quality than peeled) 2.D Turned Post (4" perfect) 3.C .40 CCA Treatment 4. We will certify material!!		Material will be fresh, sound stock, machine peeled, air seasoned and pressure treated to specifications. Delivery to begin in 3 weeks and be completed in 8 wks or sooner. Posts carry a life time warranty backed by Hills Product Group and Osmose (Chemical supplier) 3.E Material will be partially air dated after treatment moisture content can vary with weather conditions		1. Note: These modified to reflect normal plant product. #1D-Natural end splits caused by treating will be a small percentage. #1F-2% permitted. #2A & C-Actual size 4 to 5" x 8' peeled lodgepole pine. #2D-4" minimum tip with 5" butt diameter -approximately 1" neutral taper. #3A-Modified full cell process CCA-C .40 ground contact that meets UC4A standards. #5A & B-treating certificate by third party IAW UC4A will show specie-no "grade"-not available. #5H-Copy of inspection certificate to go with each truck shipment. 7.A.Drying requirements do not allow shipment to start for approximately 45 days after receipt of order. Will ship as truckloads develop. FOB on truck to Lincoln, Nebraska for customer unloading. Completion projected to be 120 days after receipt of order.		4.A The number of pieces per bundle may vary. The bundles need to be approximately the same size for ease of handling, transporting, and storage. This may cause some variance in piece count. 5. On previous orders we were requested to fax the certificates directly to Materials Lab when truck loaded in order that they can be examined prior to delivery. We will do whatever is desired. 7.A. Estimate 3 loads in 1st month; 3 loads in 2nd month; complete by April 2008. Probably complete eariler, but is subject to winter weather & logging conditions.
