Comments			Product will be our patented design-samples enclosed. Previously printed samples would be supplied. Our standard packaging is 1,000/CTN anything more would be too heavy. Storage is available provided stock is paid for up front at \$10 per skip per month dock delivery only. Can provide corn based window film at same cost which is eco-friendly.	My envelopes are available in recycled paper only. 10 samples are included with this bid. Standard packaging is 1,000 per case. Exterior cartons are so heavy and durable that no inner boxes are required. The envelopes are packed loose in the other carton.	Our prices are firm for 45 days from original quote. Tension has supplied this envelope for over 14 years. Tension will store envelopes for up to 90 days with payment due on the entire order on first shipment. Tension has adapted water based environmentally friendly inks on all Flexographic printing. Please see the attached. Soy based inks are not as environmentally friendly. They would be more commonly used for Lithography print.
