Comments											Line 1 - "Lump Sum" Price to purchase all five at one time.	Line 1 - "Item by item" Price to purchase one at a time.

Apparent first lowest bidder, Jineco Equipment checked other on 2. Motor and Pump C. Electrical cord of minimum 10 feet with Ground Fault Circuit Interrupter (GFCI). They state "10' no GFCI on 8 HP units." This is unacceptable because the GFCI is a safety issue and it is required.
