Explanation:

Apparent first lowest bidder, Leach Camper Sales of Lincoln, Inc. failed to meet specifications on the following areas:

Page 20 of specifications Disadvantaged Business Enterprises Certification was not signed. Reference was made to a certification that was signed June 23, 2009.

Page 31 of specifications 3.8.5 Floor specifies that the 3/4" underlayment shall be Thermo-Life Board Model 2651, a fiber-reinforced urethane composite material by Space Age Synthetics or plywood underlayment completely fiberglass gel coat sealed to prevent moisture infiltration. Vendor states a 3/4" Marine Plywood underlayment.

Specifications required a fiber glass exterior body material supplied by vendor indicated exterior body to be metal.

Specifications require that the wheelchair entry have double doors with door latch for each door and a clear opening of 44 1/2". Material supplied by vendor indicates a single door.

Specifications require that the wheelchair lift platform be 34" by 51" with a hydraulic powered automatic outboard roll stop. The vendor provided material indicating a Braun Century II series lift which has a 33" by 51" platform and a spring loaded outboard roll stop.
