Section 1. System Description

1.1 System Overview

Motorola Solutions is providing equipment and services to create a network interface (or data portal) to the State of Nebraska's 7.X radio network. This interface will enable Nebraska State Patrol (NSP) dispatchers using NICE Inform playback applications access to the recorded radio traffic from the 7.X network. NSP's NICE Inform Server and Storage Center will query the NICE Radio logger for recorded radio traffic. The NICE playback server, playback applications, and NICE storage center etc, are resident on the NSP network.

Note that Motorola Solutions is providing the network interface, not the NICE equipment nor the associated NICE applications. The demarcation point to the NSP network is at the Motorola Solutions provided DMZ switch at the Lincoln Dispatch site.

1.2 System Components

Our proposed solution includes the following summary of equipment:

Lincoln Dispatch Center Equipment

- One (1) Motorola Firewall (SSG140)
- One (1) Motorola DMZ LAN Switch (HP 2610-24)

1.3 Equipment Information

Table 1-1: Specifications for the SSG 140 FIREWALL

Physical dimensions:
- Height: 1.75 in (4.4 cm)
- Width: 17.5 in (44.4 cm);
- 18.9 in (48 cm) wide with mounting brackets attached
- Depth: 15 in (38.1 cm);
- plus 0.5 in (1.27 cm) of hardware that protrudes from the chassis front
- (Standard 19" EIA 1U rack mountable)

Weight: No interface modules:
10.2 lb (4.6 kg)
Temperature:
▪ Operating: 32 ° to 122 °F (0 ° to 50 °C)
▪ Non-operating: -4 ° to 158 °F (-20 ° to 70 °C)
Power Requirements:
AC: 90–240 VAC; 2 A
Heat Dissipation:
580 BTU/hr
Specifications for the DMZ LAN SWITCH (HP2610-24)
Dimensions:
(d x w x h) 9.3 x 17.4 x 1.73 in. (23.62 x 44.2 x 4.39 cm)
Weight:
10.2 lb (4.63 kg)
Voltage:
100-120 VAC/200-240 VAC
Current:
0.8 / 0.4 A
Power:
100 W
AC Frequency range:
50 - 60 Hz
Operating Temperature:
32 °F to 122 °F (0 °C to 50 °C)
Operating relative humidity:
15 % to 95 % at 104 °F (40 °C), noncondensing
Non-operating/storage temperature:
-40 °F to 158 °F (-40 °C to 70 °C)
Non-operating/storage relative humidity:
15 % to 95 % at 149 °F (65 °C), noncondensing
Altitude:
up to 10000 ft (3 km)
Acoustic: 0 dB, **Pressure:** 0 dB No Fan
Maximum heat dissipation:
142 BTU/hr (149.81 kJ/hr)

Section 2. Statement of Work

2.1 Overview

Motorola proposes the installation and configuration of the equipment defined in the system description and equipment list. The document delineates the general responsibilities between Motorola and NSP ("Customer") as agreed to by contract.

2.2 Motorola Responsibilities

Motorola's general responsibilities include the following:

- Conduct project kickoff meeting with customer to review project design and finalize requirements.
- Perform the installation of the Motorola-supplied equipment described above.
- Will interface with the following network connections: Nebraska State Patrol's Lincoln Dispatch Center Network
  - Motorola will provide and install one Firewall and one DMZ Switch at the Lincoln Dispatch Center
  - Motorola will configure the Firewall and DMZ Switch so recorded audio traffic can traverse to the customer network.
- Integration of the NICE Inform third party products is not included in this proposal.
- Schedule the implementation in agreement with NSP.
- Coordinate the activities of all Motorola subcontractors under this contract.
- Administer safe work procedures for installation.
- Provide NSP with the appropriate system interconnect specifications.
- Define LAN interface details for the proposed interface.
- Define electrical requirements for each new piece of equipment to be installed in the Customer-provided rack.
- Define heat load for each new piece of equipment provided.
- Optimize equipment and verify that all equipment is operating properly and that all electrical and signal levels are set accurately.
- Verify communication interfaces between Motorola devices for proper operation.
- Test features and functionality are in accordance with manufacturers' specifications.
- Verify the operational functionality and features of the individual subsystems and the system supplied by Motorola, as contracted.

- If any major task as contractually described fails, repeat that particular task after Motorola determines that corrective action has been taken.
- Document all issues that arise during the acceptance test.
- Document the results of the acceptance test and present to the Customer for review.
- Resolve any punch list items before Final System Acceptance.

2.3 Nebraska State Patrol Responsibilities

NSP will assume responsibility for the installation and performance of all other equipment and work necessary for completion of this project that is not provided by Motorola. NSP's general responsibilities include the following:

- Customer will provide a dedicated delivery point, such as a warehouse, for receipt, inventory, and storage of equipment prior to delivery to the site(s).
- Coordinate the activities of all NSP's vendors or other contractors.
- Provide all buildings, equipment shelters, and towers required for system installation.
- Ensure communications sites meet space, grounding, power, and connectivity requirements for the installation of all equipment.
- Obtain all licensing, site access, or permitting required for project implementation.
- Provide required system interconnections.
  - Provide all NICE Inform equipment, interface applications, and connectivity to DMZ Switch.
  - Provide installation and optimization and testing of all NICE integration and other applicable third party interface (as applicable).
- Provide clear and stable access to the site for transporting electronics and other materials. Sufficient site access must be available for trucks to deliver materials under their own power and for personnel to move materials to the facility without assistance from special equipment.
- Supply adequately sized electrical service, backup power (UPS, generator, batteries, etc.) including the installation of conduit, circuit breakers, outlets, etc., at each equipment location. Provide AC power (dedicated 20 Amp AC outlets - simplex with ground) for each major piece of equipment within six (6) feet of the location of the Motorola-supplied equipment, including the associated electrical service and wiring (conduit, circuit breakers, etc.).
- Provide adequate HVAC, grounding, lighting, cable routing, and surge protection (also, among existing and Motorola-provided equipment) based upon Motorola's Standards and Guidelines for Communication Sites (R56).
- The Firewall as well as the DMZ switch each consumes one (1) vertical rack unit of space in a typical 19" wide rack. NSP must provide rack space for these devices.
- Relocate and/or removal of existing equipment, if needed, to provide required space for the installation of Motorola-supplied equipment.

- Bring grounding system up to Motorola's Standards and Guidelines for Communication Sites (R56) and supply a single point system ground, of 5 ohms or less, to be used on all FNE supplied under the Contract. Supply grounding tie point within 10 feet from the Motorola-supplied equipment.
- Provide obstruction-free area for the cable run between the demarcation point and the communications equipment.
- Resolve any environmental issues including, but not limited to, asbestos, structural integrity of the site, and any other building risks. (Resolve environmental or hazardous material issues).
- Proper NSP LAN connections, IP scheme, and other network details must be provided to Motorola for this interface.
- Bandwidth/traffic capacity of the NSP interface must be adequate for proper operation of the playback system.
- Any required system interconnections not specifically outlined here will be provided by the Customer, per Motorola specifications. Test results to confirm specification compliancy are required prior to equipment installation.

2.4 Project Schedule

Motorola's preliminary schedule indicates total project implementation to be approximately four months. This preliminary schedule is included for informational purposes only and assumes that all Customer responsibilities as defined above are completed, as required prior to shipment of equipment. If site improvements are needed these must be completed prior to equipment shipping to the field.

Section 3. Preliminary Acceptance Test Plan

Testing of the proposed equipment is included. This includes, and is limited to the following:

- Verify the operational functionality and features of the DMZ Switch and firewall supplied by Motorola, as contracted.
  - Motorola will install and optimize the firewall and DMZ Switch on the Radio Network to allow the recorded radio system audio traffic to pass to the customer network.
  - Motorola will provide a test which will confirm the recorded audio traffic is able to be sent through the firewall and DMZ Switch as confirmation of acceptance.
  - Motorola is not responsible to show functional playback operation on NICE Inform Clients residing on the customer network. NSP is responsible to ensure the separate testing of third party (including, but not limited to NICE) applications separate from this contract, and as such the third party testing is not a condition of acceptance.

Section 4. Warranty and Maintenance

Motorola places great emphasis on ensuring that communications systems meet high standards for design, manufacture, and performance. To enhance the value of the communications system being acquired, Motorola offers customized warranty.

4.1 Post Warranty Services

Post warranty and maintenance pricing has not been included in this proposal. If pricing is desired, this can be provided upon request.

Section 5. Pricing Summary

5.1 Pricing

The proposed pricing is shown below:

Description	Price ($)
Engineering, System Integration Services	$32,119.00
Equipment	$8,053.00
Total	**$40,172.00**

5.2 Payment Schedule

Except for a payment that is due on the Effective Date, Customer will make payments to Motorola within 20 days after the date of each invoice. Customer will make payments when due in the form of a check, cashier's check, or wire transfer drawn on a U.S. financial institution and in accordance with the following:

- 100% payment is due upon Final Acceptance.

Motorola reserves the right to make partial shipments of equipment and to request payment upon shipment of such equipment. In addition, Motorola reserves the right to invoice for installations or civil work completed on a site-by-site basis, when applicable.

5.3 Equipment List

Qty	Model No.	Description	Price Each	Price Ext.
1	DDN9590	SSG140 FIREWALL W/ 2 YEARS SUPPORT	$ 5,915.00	$5,915.00
1	CLN1836	2610-24 ETHERNET SWITCH	$ 2,138.00	$ 2,138.00

Motorola intends to provide the latest models available at the time of shipment. Therefore, model numbers provided are for reference only and are subject to change.

Section 6. Contractual Documentation

This proposal is subject to the terms and conditions of the State of Nebraska Contract, Contract No. 36495 04.

MOTOROLA

Statement of Work

Network Monitoring, OnSite Infrastructure Response and Dispatch Service

Motorola will provide Network Monitoring, Dispatch Service and OnSite Infrastructure Response services to Customer Systems. These services are applicable only for the following system types: ASTRO®, ASTRO® 25, ARC 4000, SmartZone®/OmniLink® v2.0.3 and higher, SmartNet®, Private Data (with a wireless network gateway) v2.0.3 and higher, and Harmony® Wireless Communications System.

The terms of this Statement of Work (SOW) are an integral part of the Motorola Service Terms and Conditions or other applicable Agreement(s) with the Customer to which this SOW is appended and made a part thereof by this reference.

1.0 Description of Services

Network Monitoring is a service designed to electronically monitor Elements of a Communication System for Events, as set forth in the Monitored Elements Table. When the Motorola System Support Center (SSC) detects an Event, trained technologists acknowledge and remotely diagnose the Event, and initiate an appropriate response per the customer profile. Appropriate responses could include, but are not limited to, continuing to monitor the Event for further development, transferring the Event to Technical Support, or opening a Case for dispatch of a Servicer. If dispatched, the Servicer will respond at the Customer location based on pre-defined Severity Levels set forth in the Severity Definitions Table and Response times set forth in the On-Site Response Time Table in order to Restore the System.

Motorola will provide Case management as set forth herein. The SSC maintains contact with the on-site Servicer until System Restoral occurs and Case is closed. The SSC will continuously track and manage Case activity from open to close through an automated Case tracking process.

2.0 Motorola Responsibilities:

2.1. Provide dedicated Connectivity through a private network connection necessary for monitoring ASTRO and ASTRO25, SmartZone/ OmniLink, Private Data, and Harmony Wireless Communications network types. The Connectivity Matrix set forth in Appendix 1 further describes the Connectivity options.

2.2. If determined necessary by Motorola, provide Motorola owned equipment for monitoring ASTRO and ASTRO 25 System elements. If Motorola installs or replaces Motorola owned equipment, the type of equipment and location installed is listed in the Motorola Owned & Supplied Equipment Table.

2.3. If determined necessary by Motorola, provide Motorola owned equipment for monitoring SmartNet System elements. If Motorola installs or replaces Motorola owned equipment, the type of equipment and location installed is listed in the Motorola Owned & Supplied Equipment Table.

2.4. Verify Connectivity and Event monitoring prior to System Acceptance or Start Date.

2.5. Continuously receive data from Customer monitored System and Customer initiated service requests.

2.6. Remotely access the Customer's System to perform remote diagnosis as permitted by Customer pursuant to section 3.1

2.7. Create a Case, as necessary. Gather information to perform the following:

2.7.1. Characterize the issue

2.7.2. Determine a plan of action

2.7.3. Assign and track the Case to resolution.

2.8. Dispatch a Servicer, as required, by Motorola standard procedures and provide necessary Case information collected in section 2.7

2.9. Ensure the required personnel have access to Customer information as needed.

2.10. Disable and enable System devices, as necessary, for Servicers.

2.11. Servicer will perform the following on-site:

2.11.1. Run diagnostics on the Infrastructure or FRU.

2.11.2. Replace defective Infrastructure or FRU, as applicable. Customer, Servicer or Motorola may provide Infrastructure or FRU.
2.11.3. Provide materials, tools, documentation, physical planning manuals, diagnostic/test equipment and any other requirements necessary to perform the Maintenance service.
2.11.4. If a third party Vendor is needed to Restore the System, the Servicer may accompany that Vendor onto the Customer's premises.
2.12. Verify with Customer that Restoration is complete or System is functional, if required by Customer's repair Verification preference described in the Customer Support Plan required by section 3.5. If Verification by Customer cannot be completed within 20 minutes of Restoration, the Case will be closed and the Servicer will be released.
2.13. Escalate the Case to the appropriate party upon expiration of a Response time.
2.14. Close the Case upon receiving notification from Customer or Servicer, indicating the Case is resolved.
2.15. Notify Customer of Case Status, as described in the Customer Support Plan required by section 3.5 at the following Case levels:
2.15.1. Open and closed; or
2.15.2. Open, assigned to the Servicer, arrival of the Servicer on site, deferred or delayed, closed.
2.16. Provide, when requested by Customer, the following reports, as applicable:
2.16.1. Case activity reports to Customer.
2.16.2. Network Monitoring Service reports for Customer System(s).
2.16.3. Network Activity/Availability Reports for ASTRO25, SmartZone/ OmniLink, and Private Data Systems only.
2.17. Respond in accordance to pre-defined Response times upon receipt from Customer of Customer managed passwords required for proper access to the Customer's System.
2.18. Apply additional support charges above and beyond the contracted service agreements that may apply if it is determined that System faults were caused by the Customer making changes to critical System parameters.

3.0 Customer Responsibilities:
3.1. Allow Motorola Continuous remote access to obtain System availability and performance data.
3.2. Allow Motorola to access System if firewall has been installed; provide permanent/dedicated access for SNMP traps (outbound) and ZDS polling (inbound). Also provide continuous utility service to any Motorola equipment installed or utilized at Customer's premises to support delivery of the Service.
3.3. Order and maintain dedicated dial-up phone lines for telephone service for SMARTNET System types. The Connectivity Matrix set forth in Appendix 1 further describes the Connectivity options.
3.4. Unless otherwise specified, Motorola recommends a private network connection for all other Systems. The Connectivity Matrix set forth in Appendix 1 further describes the Connectivity options.
3.5. Provide Motorola with pre-defined Customer information and preferences prior to Start Date necessary to complete Customer Support Plan., including, but not limited to:
3.5.1.1. Case notification preferences and procedure
3.5.1.2. Repair Verification Preference and procedure
3.5.1.3. Database and escalation procedure forms.
3.5.1.4. Submit changes in any information supplied in the Customer Support Plan to the Customer Support Manager.
3.6. Provide the following information when initiating a service request:
3.6.1. Assigned System ID number
3.6.2. Problem description and site location
3.6.3. Other pertinent information requested by Motorola to open a Case.
3.7. Notify the SSC when Customer performs any activity that impacts the System. (Activity that impacts the System may include, but is not limited to, installing software or hardware upgrades, performing upgrades to the network, or taking down part of the system to perform maintenance.)
3.8. Allow Servicers access to Equipment (including any Connectivity or monitoring equipment) if remote service is not possible.
3.9. Allow Servicers access to remove Motorola owned monitoring equipment upon cancellation of service.
3.10. Supply Infrastructure or FRU, as applicable, in order for Motorola to Restore the System as set forth in paragraph 2.11.2
3.11. Maintain and store in an easy accessible location any and all Software needed to Restore the System.

3.12. Maintain and store in an easily accessible location proper System backups.
3.13. Verify with the SSC that Restoration is complete or System is functional, if required by the Repair Verification Preference provided by Customer in accordance with section 3.5.
3.14. Provide all Customer managed passwords required to access the Customer's System to Motorola upon request or when opening a Case to request service support or enable Response to a technical issue.
3.15. Pay additional support charges above and beyond the contracted service agreements that may apply if it is determined that System faults were caused by the Customer making changes to critical System parameters
3.16. Cooperate with Motorola and perform all acts that are reasonable or necessary to enable Motorola to provide the services described in this SOW.

Severity Definitions Table

Severity Level	Problem Types
Severity 1	▪ **Response is provided Continuously** ▪ Major System failure ▪ 33% of System down ▪ 33% of Site channels down ▪ Site Environment alarms (smoke, access, temp, AC power) as determined by the SSC. ▪ This level is meant to represent a major issue that results in an unusable system, sub-system, Product, or critical features from the Customer's perspective. No Work-around or immediate solution is available.
Severity 2	▪ **Response during Standard Business Day** ▪ Significant System Impairment not to exceed 33% of system down ▪ System problems presently being monitored ▪ This level is meant to represent a moderate issue that limits a Customer's normal use of the system, sub-system, product, or major non-critical features from a Customer's perspective
Severity 3	▪ **Response during Standard Business Day** ▪ Intermittent system issues ▪ Information questions ▪ Upgrades/preventative maintenance ▪ This level is meant to represent a minor issue that does not preclude use of the system, sub-system, product, or critical features from a Customer's perspective. It may also represent a cosmetic issue, including documentation errors, general usage questions, recommendations for product enhancements or modifications, and scheduled events such as preventative maintenance or product/system upgrades.

On-Site Response Time Table (Customer's Response Time Classification is designated in the Service Agreement).

Severity Level	Standard Response Time	Premier Response Time	Limited Response Time	Restoral	Off Deferral
Severity 1	Within 4 hours from receipt of Notification Continuously	Within 2 hours from receipt of Notification Continuously	Within 4 hours from receipt of Notification Standard Business Day	8 hours	Time provided by Servicer *
Severity 2	Within 4 hours from receipt of Notification Standard Business Day	Within 4 hours from receipt of Notification Standard Business Day	Within 4 hours from receipt of Notification Standard Business Day	8 hours	Time provided by Servicer *
Severity 3	Within 24 hours from receipt of Notification Standard Business Day	Within 24 hours from receipt of Notification Standard Business Day	Within 24 hours from receipt of Notification Standard Business Day	48 hours	Time provided by Servicer *

- Please note these are Standard Commitment times. The commitment times should be based on the Customers Support Plan.
- Provide update before the specific contractual commitments come due.

* Note: Provide update to System Support Center before Deferral time comes due.

Subject: Proposal for Deployable RF Site

Dear Mr. Jeffres:

Motorola Inc. is pleased to have the opportunity to provide the State of Nebraska with quality communications equipment and services. The Motorola project team has taken great care to propose a solution that will meet your needs and provide unsurpassed value.

To best meet the functional and operational specifications of this solicitation, Motorola's solution includes a combination of hardware, software, and services. Specifically, this solution provides:

- A deployable, stand-alone VHF ASTRO25 site for emergency or disaster communications.
- 800 MHz portable coverage in the vicinity of the mobile RF site
- 7.X VHF trunked ASTRO operation and 800 MHz conventional mode in the coverage area of the mobile site to provide communications for multi-agency response to an event.
- Operation on the state-wide VHF ASTRO25 network, if the deployed site is within coverage.

This proposal consists of this cover letter and the Communications System Agreement (CSA), together with its Exhibits. This proposal shall remain valid for a period of 90 days from the date of this cover letter. Motorola will be pleased to address any concerns you may have regarding the proposal. Please direct any questions to your Motorola account executive, John Lemen, at 402-451-3335.

We thank you for the opportunity to furnish the State with "best in class" solutions and we hope to strengthen our relationship by implementing this project. Our goal is to provide you with the best products and services available in the communications industry.

Sincerely,

John P. Molloy
MSSI Vice President

Section 1. System Description

1.1 System Overview

The deployable RF trailer mobile site is designed as a self-sufficient transportable communication system to meet the localized, temporary, communication needs of the State of Nebraska. In the case of an emergency or disaster situation, the mobile RF site can be immediately deployed to the scene to support state and local law enforcement and emergency management agencies. The on-scene agencies will operate in the coverage area of the RF trailer using the 7.X VHF ASTRO trunked mode or 800 MHz conventional mode.

The RF mobile site is used to temporarily displace permanent network equipment that is inoperative due to situations such as natural disasters or terrorist acts; as well as for short term needs of added capacity for special events and added coverage for remote disaster recovery.

The trailer, tower, and generator are all supplied by the state of Nebraska. Motorola is providing the RF equipment that is installed in the trailer and the antennas and transmission lines for the tower.

1.2 Proposed Solution

Motorola is proposing RF equipment that will operate as a stand-alone VHF ASTRO 25 Repeater Site (ASR). In addition, DVRS (Digital Vehicular Repeater System) equipment is provided that will allow for 800 MHz portable coverage in the vicinity of the mobile RF site.

The components of the existing, customer provided, mobile RF site include: a self-contained custom-built trailer with a small shelter to house all equipment; a 100 ft telescopic tower, and an ONAN diesel generator for AC power.

Motorola will supply the Expandable Site Subsystem rack, which will contain four VHF voice channels and two GCP8000 site controllers. The GTR 8000 Expandable Site Subsystem configuration provides a major advantage in terms of reduced site cabling. All the required connections between the base radios and the site controllers are contained in the backplane, whereas sites installed with standalone radios require external cabling for the frequency reference and Ethernet connections. Also, the site controllers or Expansion Hubs in a GTR8000 Expandable Site Subsystem

configuration do not have a power supply of their own but draw power from the base radio's power supply.

In addition to the Expandable Site Subsystem, Motorola will supply an 800 MHz DVRS (Digital Vehicular Repeater Subsystem) for localized 800 MHz portable coverage.

1.3 Radio System Equipment Configuration

The deployable trailer will include the following integrated radio system equipment:

- The proposed deployable site equipment will be installed in two (2) equipment racks powered by 120 VAC.
- The Expandable Site Subsystem rack contains the four (4) VHF GTR 8000 base radios and redundant GCP8000 site controllers.
- The DVRS rack includes the 800 MHz Futurecom fixed DVRS (repeater) and a VHF XTL 5000 Motorola mobile radio. The RF combining equipment for the VHF Expandable Site Subsystem (standalone VHF trunked equipment) is also mounted in the DVRS equipment rack. The system will be programmed using frequencies supplied by the State of Nebraska.
- Two (2) VHF MHz near-Omni directional antennas (elliptical pattern), one (1) transmit and one (1) receive, will be mounted on the trailer's 100 foot deployable tower. The transmit (TX) antenna will be connected to TX combiner equipment mounted in the DVRS rack and the receive (Rx) antenna will be connected to the receiver combining equipment which is also mounted in the DVRS equipment rack.
- One (1) 8-port receive multicoupler will be installed in the DVRS rack. Four (4) of the ports will be used to connect the four (4) VHF GTR 8000 base radios.
- One (1) Master System Key (and five (5) daughter keys) is provided to program radios operating on the standalone configuration.

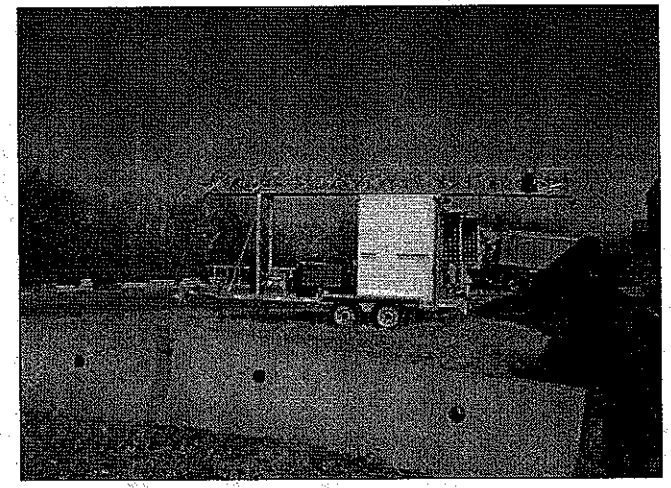

Figure 1-2: Deployable Trailer

The interior of the present State of Nebraska Command Vehicle is shown below:

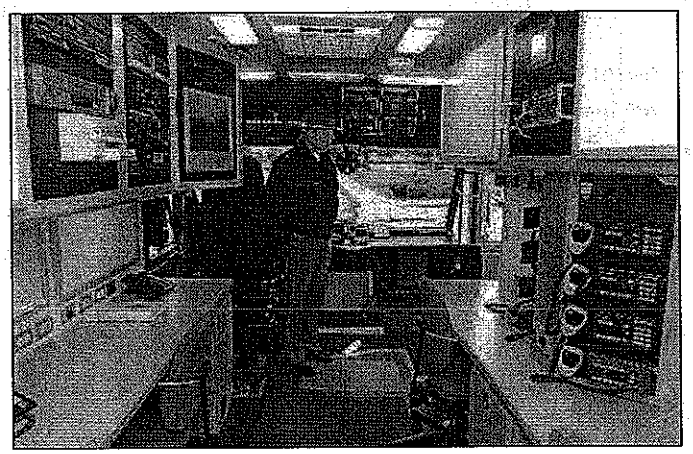

Figure 1-3: Command Vehicle

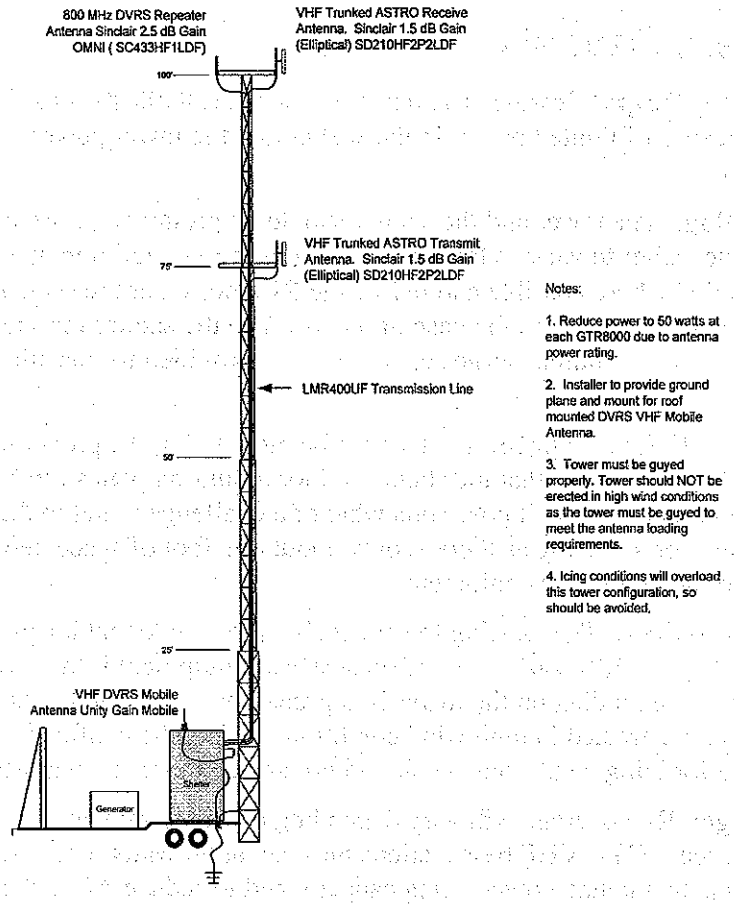

Figure 1-4: Mobile Trailer Tower

1.5 System Caveats

GTR 8000 Output Power: The power of the GTR 8000 stations should be set at 50 watts because of limited power in the shelter and the lower power ratings of the VHF antennas.

Grounding: The tower and the shelter should be grounded properly as the State moves the trailer to various locations during usage. In addition, the RF lines should be grounded where possible and before the RF lines enter the shelter. Also, avoid sharp RF line bends from the base of the tower to the shelter for added lightning protection. RF lightning surge suppressors are provided for installation inside the shelter.

Floor Loading and Space: Racks must be mounted in the proper locations near the center of the shelter so that the shelter's floor mounting plates can be utilized. The two equipment racks will pose somewhat of a challenge to get to the rear of the equipment for servicing as there is only about one foot of space between the racks for access to the rear of the equipment.

Tower Loading: The existing tower specifications note that it can support 125 lbs of external load and 18 square feet of surface area equipment if the tower is guyed properly. The loading on the tower is approaching the above limits so the tower should not be erected in high wind conditions. Also, the configuration is not designed for icing conditions, so should not be used in this circumstance.

Coverage: RF coverage will vary depending on the terrain and local radio frequency interference. GTR VHF base stations must set at 50 watts (not 100 watts) output power due to antenna power rating capacity and to reduce AC power draw. Motorola has not included coverage testing in this proposal.

Vibration: Motorola equipment is not designed specifically for a mobile trailer environment. Routine maintenance and testing is recommended to detect and prevent unforeseen failures.

Radio Programming: Existing State of Nebraska mobiles and portables must be programmed to accommodate the addition of this system. Other agencies' radios will also need to be programmed to operate on the mobile site. These programming services can be quoted separately if desired.

Spares: No base station, controller, or DVRS spares have been provided as part of this proposal.

Section 2. Statement of Work

2.1 Overview

Motorola proposes the installation and configuration of the equipment defined in the system description and equipment list. The document delineates the general responsibilities between Motorola and the State as agreed to by contract.

2.2 Motorola Responsibilities

Motorola's general responsibilities include the following:

- Perform the installation of the Motorola-supplied equipment described above.
  - Install the proposed racks of four (4) channel Expandable Site Sub-System equipment into the customer provided trailer as described in the system description.
  - Install antennas to customer provided tower mast on trailer.
  - Install and configure DVRS equipment
  - Connect the provided equipment to customer provided generator power (Generator to be provided with the trailer).
  - Bond the supplied equipment to the trailer grounding system.
- Schedule the implementation in agreement with State of Nebraska.
- Coordinate the activities of all Motorola subcontractors under this contract, as needed.
- Administer safe work procedures for installation.
- Define electrical requirements for each equipment rack to be installed in the Customer-provided facilities.
- Define heat load for the equipment racks to be installed in the Customer-provided facilities.
- Training is not included in this proposal. If desired, training as needed can be quoted separately.
- Optimize equipment and verify that all equipment is operating properly and that all electrical and signal levels are set accurately.

NOTE: Motorola will optimize the ASTRO 25 system equipment as a standalone site due to the deployable nature of this site. If connectivity to the State system is desired in the future a separate quote can be provided.

- Verify communication interfaces between devices for proper operation.

- Provide a review of the existing trailer grounding. Recommended grounding improvements will be reviewed and jointly agreed upon by Motorola and State of Nebraska prior to implementation.
- Test features and functionality are in accordance with manufacturers' specifications.
- Verify the operational functionality and features of the individual subsystems and the system supplied by Motorola, as contracted.
- If any major task as contractually described fails, repeat that particular task after Motorola determines that corrective action has been taken.
- Document all issues that arise during the acceptance tests.
- Document the results of the acceptance tests and present to the Customer for review.
- Resolve any punch list items before Final System Acceptance.
- Up to a maximum of 12 programming templates are included in this proposal to address requirements of the control stations/command post mobiles provided and any additional customer radios as needed. If additional templates are required these can be quoted separately.
- Mobile and portable subscriber units and subscriber programming/installation are not included in this proposal.

2.3 State of Nebraska Responsibilities

The State will assume responsibility for the installation and performance of all other equipment and work necessary for completion of this project that is not provided by Motorola. The State's responsibilities include the following:

- Customer will provide a dedicated delivery point, such as a warehouse, for receipt, inventory, and storage of equipment prior to installation.
- Provide one (1) existing ALUMA TOWER trailer for system installation.
- Provide customer site location for installation of equipment.
- Ensure communications trailers meet space, grounding, power, and connectivity requirements for the installation of all equipment.
- Provide existing rack space for equipment to be installed in – equipment will be installed in two (2) 70" tall racks.
- Obtain all licensing, site access, or permitting required for project implementation.
- Integration of third party products, as needed, is the customer's responsibility.
- Customer to provide existing tower mast.
- Provide required system interconnections, if required. *This proposal is for a standalone site offering only.*
- Provide clear and stable access to the mobile trailer location for transporting electronics and other materials. Sufficient site access must be available for trucks to deliver materials under their own power and for personnel to move materials to the facility without assistance from special equipment.

- Supply adequately sized electrical service, backup power (UPS, generator, batteries, etc.) including the installation of conduit, circuit breakers, outlets, etc., at equipment location. Provide AC power (dedicated 20 Amp AC outlets - simplex with ground) for each major piece of equipment within 6 feet of the location of the Motorola-supplied equipment, including the associated electrical service and wiring (conduit, circuit breakers, etc.).
- Line conditioning should not be required from the ONAN generator. In the event line conditioning of the generator output is required, then the State of Nebraska will need to supply this. Electrical outlets are 15 amps and must be replaced. Motorola is requesting the State of Nebraska change outlets to 20 amp twist lock receptacles at three (3) outlet locations: Outlet over electrical panel; Ceiling outlets; Roadside outlet (back wall as you enter the shelter) The wiring and breakers are 20 amp already, so there is no need for changing the breakers or wiring.
- Provide adequate HVAC, grounding, lighting, cable routing, and surge protection (also, among existing and Motorola-provided equipment) based upon Motorola's Standards and Guidelines for Communication Sites (R56). There currently is NO HVAC in the present mobile shelter. It is recommended that HVAC (heating and cooling) is purchased and installed by the state of Nebraska from a local dealer. (Roof mount unit is recommended). The Motorola equipment is calculated to produce heat at a rate of approximately 8742 BTUs/hour. Note that the equipment temperature operating range is -10 deg C to +40 deg C. [+14 deg F to +104 deg F]. It is recommended that the shelter be kept at or below 85 deg F in case networking equipment is added in the future. Aluma Tower has wired the AC conductors to from the breaker panel (breaker not yet connected), to the ceiling where the HVAC typically would be installed. An electrician will need to connect the HVAC to the wiring and to a breaker. The electrician should make sure the AC loads are balanced.
- Provide floor space and desk space (including desk furniture, as needed) for the System equipment at the Customer-provided mobile facilities. Racks must be mounted in the proper locations near the center of the shelter so that the shelter's floor mounting plates can be utilized. NOTE: The two (2) equipment racks will pose somewhat of a challenge to get to the rear of the equipment for servicing as there is only about one (1) foot of space between the racks for access to the rear of the equipment.
- Relocate and/or removal of existing equipment, if needed, to provide required space for the installation of Motorola-supplied equipment.
- Provide all necessary wall or roof penetrations for antenna coax as needed.
- Provide obstruction-free area for the cable run between the demarcation point and the communications equipment.
- Resolve any environmental issues including, but not limited to, asbestos, structural integrity (rooftop, water tank, tower, etc.) of the site, and any other building risks. (Resolve environmental or hazardous material issues).
- Supply all permits as contractually required.
- Supply interior cable trays, raceways, conduits, and wire supports.

- Pay for usage costs of power and generator fueling during the installation effort, and on an ongoing basis.

NOTE: Frequency approvals must be provided to Motorola prior to equipment ordering.

- Approved FCC licensing and modification is the responsibility of the State of Nebraska. For the VHF system, it is assumed that the frequencies will fall into the Federal VHF band with a *minimum* of three (3) MHz TX to RX. Also, the frequencies must meet the typical spacing requirements of a typical VHF site. (Less than one (1) MHz receive window for all four channels, 50 KHz min RX to RX, and 200 KHz minimum TX to TX.). Also, intermodulation studies will need to be accomplished before the design can be approved). The DVRS is assumed to operate in the 806 MHz trunking band.
- The trailer provided can be located/moved as desired by the customer. As such, no coverage guarantee is included in this proposal. The State is responsible for coverage verification as needed.
- Motorola is not responsible for interference caused or received by the Motorola-provided equipment except for interference that is directly caused by the Motorola-provided transmitter(s) to the Motorola-provided receiver(s). Should the Customer's system experience interference, Motorola can be contracted to investigate the source and recommend solutions to mitigate the issue.

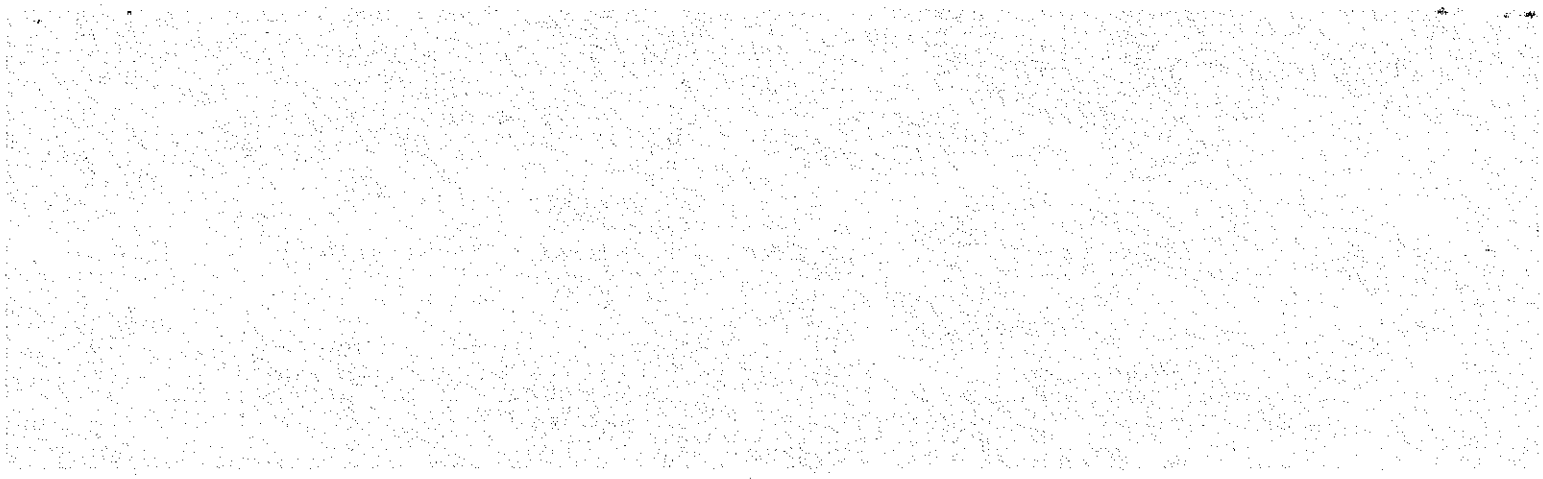
Existing mobiles and portables must be programmed to accommodate the addition of this system. Existing radio programming is not included in this quote, but can be quoted separately if desired.

2.4 Project Schedule

Motorola's preliminary schedule indicates total project implementation to be approximately 3-4 months. This preliminary schedule is included for informational purposes only and assumes that all Customer responsibilities as defined above are completed, as required.

Section 3. Warranty and Maintenance

Motorola will provide warranty services per our Standard Commercial Warranty. Motorola's continuing commitment to supporting your system, warranty services can be extended after the first year to provide maintenance and service support in future years. Services can be customized, and are available for purchase either in "System Support Services" packages or as individual service offerings. These system support services significantly benefit the State of Nebraska because the system can be effectively supported after the warranty period, thereby maximizing the operational capabilities, the useful life of the system, and the protection of your investment.



Section 4. Pricing Summary

4.1 Pricing

The proposed pricing is shown below:

Hardware per State Equipment Contract 11182 OC:	$164,478.95
Services:	$ 87,460.00
Project Total:	$251,938.95

4.2 Payment Schedule

Except for a payment that is due on the Effective Date, Customer will make payments to Motorola within 20 days after the date of each invoice. Customer will make payments when due in the form of a check, cashier's check, or wire transfer drawn on a U.S. financial institution and in accordance with the following: 100% payment is due upon Final Acceptance.

4.3 Equipment List

Motorola intends to provide the latest models available at the time of shipment. Therefore, model numbers provided are for reference only and are subject to change.

Communications System Agreement

Motorola, Inc. ("Motorola") and the State of Nebraska ("The State") enter into this "Agreement," pursuant to which The State will purchase and Motorola will sell the System, as described below. Motorola and The State may be referred to individually as a "Party" and collectively as the "Parties." For good and valuable consideration, the Parties agree as follows:

Section 1 EXHIBITS

Exhibits A through H constitute the entire contract, of which this Agreement is a part; the exhibits below will have descending superiority with Exhibit A being most superior and Exhibit H being least superior. Where there are conflicting or ambiguous provisions, the superior exhibits will control.

Exhibit A	Motorola Best and Final Offer
Exhibit B	State RFP 2424Z1
Exhibit C	Motorola Proposal
Exhibit D	Oral Interview Transcripts
Exhibit E	Priced Options (section 3.9) (include RFP cost schedules)
Exhibit F	Motorola Software License Agreement
Exhibit G	Payment Schedule
Exhibit H	System Acceptance Certificate

Section 2 DEFINITIONS

Capitalized terms used in this Agreement have the following meanings:

2.1. "Acceptance Tests" means those tests described in the Acceptance Test Plan.

2.2. "Beneficial Use" means when The State first uses the System or a Subsystem for operational purposes (excluding training or testing).

2.3. "Confidential Information" means any information that is disclosed in written, graphic, verbal, or machine-recognizable form, and is marked, designated, or identified at the time of disclosure as being confidential or its equivalent; or if the information is in verbal form, it is identified as confidential at the time of disclosure and is confirmed in writing within thirty (30) days of the disclosure. Confidential Information does not include any information that: is or becomes publicly known through no wrongful act of the receiving Party; is already known to the receiving Party without restriction when it is disclosed; is or becomes, rightfully and without breach of this Agreement, in the receiving Party's possession without any obligation restricting

disclosure; is independently developed by the receiving Party without breach of this Agreement; or is explicitly approved for release by written authorization of the disclosing Party.

2.4. "Contract Price" means the price for the System, excluding applicable sales or similar taxes and freight charges.

2.5. "Effective Date" means that date upon which the last Party executes this Agreement.

2.6. "Equipment" means the equipment that The State purchases from Motorola under this Agreement. Equipment that is part of the System is described in the Equipment List.

2.7. "Force Majeure" means an event, circumstance, or act of a third party that is beyond a Party's reasonable control (e.g., an act of God, an act of the public enemy, an act of a government entity, strikes or other labor disturbances, hurricanes, earthquakes, fires, floods, epidemics, embargoes, war, and riots).

2.8. "Infringement Claim" means a third party claim alleging that the Equipment manufactured by Motorola or the Motorola Software infringes upon the third party's United States patent or copyright.

2.9. "Motorola Software" means Software that Motorola or its affiliated company owns.

2.10. "Non-Motorola Software" means Software that another party owns.

2.11. "Open Source Software" (also called "freeware" or "shareware") means software that has its underlying source code freely available to evaluate, copy, and modify.

2.12. "Proprietary Rights" means the patents, patent applications, inventions, copyrights, trade secrets, trademarks, trade names, mask works, know-how, and other intellectual property rights in and to the Equipment and Software, including those created or produced by Motorola under this Agreement and any corrections, bug fixes, enhancements, updates or modifications to or derivative works from the Software whether made by Motorola or another party.

2.13. "Software" means the Motorola Software and Non-Motorola Software, in object code format that is furnished with the System or Equipment.

2.14. "Specifications" means the functionality and performance requirements that are described in Exhibit C.

2.15. "Subsystem" means a major part of the System that performs specific functions or operations. Subsystems are described in Exhibit C.

2.16. "System" means the Equipment, Software, and incidental hardware and materials that are combined together into an integrated system; the System is described in Exhibit C.

2.17. "System Acceptance" means the Acceptance Tests have been successfully completed and accepted by the state.

2.18. "Warranty Period" means one (1) year from the date of System Acceptance.

Section 3 SCOPE OF AGREEMENT AND TERM

3.1. SCOPE OF WORK. Motorola will provide, install and test the System, and perform its other contractual responsibilities, all in accordance with this Agreement. The State will perform its contractual responsibilities in accordance with this Agreement.

3.2. CHANGE ORDERS. Set forth in the RFP.

3.3. TERM. Set forth in the RFP.

3.4. ADDITIONAL EQUIPMENT OR SOFTWARE. For five (5) years and any renewal periods after the Effective Date, The State may order additional Equipment or Software if it is then available. Each order must refer to this Agreement and must specify the pricing and delivery terms. This Agreement will govern the purchase and sale of the additional Equipment or Software. Title and risk of loss to additional Equipment will pass upon delivery to the State's designated ship-to locations and inventory sign-off by the State Project Manager or designee within five (5) business days for conforming equipment, at which time warranty will commence. Nonconforming equipment will be returned to Motorola, at its expense, and replaced within three (3) weeks for Motorola-manufactured Equipment or products, and six (6) weeks for non-Motorola manufactured Equipment. Payments will be made upon date of invoice and per state statute. Motorola will send The State an invoice as the additional Equipment is shipped or Software is licensed. Alternatively, The State may register with and place orders through Motorola Online ("MOL"), and this Agreement will be the "Underlying Agreement" for those MOL transactions rather than the MOL On-Line Terms and Conditions of Sale. MOL registration and other information may be found at http://www.motorola.com/businessandgovernment/ and the MOL telephone number is (800) 814-0601. Motorola will provide personnel to manage the State MOL account and configure equipment packages, options and accessories consistent with the contract.

3.5. MAINTENANCE SERVICE. During the Warranty Period, Motorola will provide maintenance services for the Equipment and support for the Motorola Software pursuant to this Agreement and Section 4.9 of the Motorola proposal. Those services and support are included in the Contract Price and Priced Options. Additional maintenance and support services for Equipment purchased during the Contract Period will be provided pursuant to this Agreement

3.6. MOTOROLA SOFTWARE. Any Motorola Software, including subsequent releases, is licensed to The State solely in accordance with the Software License Agreement. The State hereby accepts and agrees to abide by all of the terms and restrictions of the Software License Agreement.

3.7. NON-MOTOROLA SOFTWARE. Any Non-Motorola Software is licensed to The State in accordance with the standard license, terms, and restrictions of the copyright owner on the Effective Date unless the copyright owner has granted to Motorola the right to sublicense the Non-Motorola Software pursuant to the Software License Agreement, in which case it applies and the copyright owner will have all of Licensor's rights and protections under the Software License Agreement. Motorola makes no representations or warranties of any kind regarding Non-Motorola Software. Non-Motorola Software may include Open Source Software. All Open Source Software is licensed to The State in accordance with, and The State agrees to abide by, the provisions of the standard license of the copyright owner and not the Software License Agreement. Upon request by The State, Motorola will use commercially reasonable efforts to determine whether any Open Source Software will be provided under this Agreement; and if so, identify the Open Source Software and provide to The State a copy of the applicable standard license (or specify where that license may be found); and provide to The State a copy of the Open Source Software source code if it is publicly available without charge (although a distribution fee or a charge for related services may be applicable).

3.8. SUBSTITUTIONS. At no additional cost to The State, Motorola may substitute, with The State's prior approval, any Equipment, Software, or services to be provided by Motorola, if the substitute meets or exceeds the Specifications and is of equivalent or better quality to the State. Any substitution will be reflected in a change order.

3.9. OPTIONAL EQUIPMENT OR SOFTWARE. This paragraph applies only if a "Priced Options" exhibit is shown in Section 1, or if the parties amend this Agreement to add a Priced in

the Priced Options exhibit. The State may exercise this option by giving written notice to Motorola which must designate what equipment, software, and related services The State is selecting (including quantities, if applicable). To the extent they apply, the terms and conditions of this Agreement will govern the transaction; however, the parties acknowledge that certain provisions must be agreed upon, and they agree to negotiate those in good faith promptly after The State delivers the option exercise notice. Examples of provisions that may need to be negotiated are: specific lists of deliverables, statements of work, acceptance test plans, delivery and implementation schedules, payment terms, maintenance and support provisions, additions to or modifications of the Software License Agreement, hosting terms, and modifications to the acceptance and warranty provisions.

Section 4 PROJECT SCHEDULE

The Parties will perform their respective responsibilities in accordance with the agreed upon Project Schedule between The State and Motorola. By executing this Agreement, and upon written notification by The State Project Manager to the Motorola Project Manager, The State authorizes Motorola to proceed with contract performance.

Section 5 CONTRACT PRICE, PAYMENT AND INVOICING

5.1. CONTRACT PRICE. The Contract Price, as contained in Motorola's Best and Final Response, in U.S. dollars is $13,930,777.00. If applicable, a pricing summary is included with the Payment Schedule. Motorola has priced the services, Software, and Equipment as an integrated system. A reduction in Software or Equipment quantities, or services, may affect the overall Contract Price, including discounts if applicable.

5.2. INVOICING AND PAYMENT. Motorola will submit invoices to The State according to the Payment Schedule. The State will make payments to Motorola when due in the form of a wire transfer, check, or cashier's check from a U.S. financial institution. For reference, the Federal Tax Identification Number for Motorola, Inc. is 36-1115800.

5.3. FREIGHT, TITLE, AND RISK OF LOSS. Title and risk of loss to the Equipment will pass to The State upon delivery to the State's designated ship-to locations and inventory sign-off of equipment by the State Project Manager or designee within five (5) business days for conforming equipment, at which time warranty will commence. Nonconforming equipment will be returned to Motorola, at its expense, and corrected within three (3) weeks for Motorola-manufactured Equipment or products, and six (6) weeks for non-Motorola manufactured Equipment. Title to Software will not pass to The State at any time. Motorola will pack and ship all Equipment in accordance with good commercial practices.

5.4. INVOICING AND SHIPPING ADDRESSES. Invoices will be sent to the State at the following address: State of Nebraska, OCIO Network Services, ATTN; Pam Kemper, 501 S. 14th Street, Lincoln, NE 58608.

The State will designate the - ultimate destination where the Equipment will be delivered in the Purchase Order.

The State may change this information by giving written notice to Motorola.

Section 6 SITES AND SITE CONDITIONS

6.1. ACCESS TO SITES. In addition to its responsibilities described elsewhere in this Agreement, The State will provide a designated project manager; all necessary construction and building permits, zoning variances, licenses, and any other approvals that are necessary to develop or use the sites; and access to the work sites as reasonably requested by Motorola so that it may perform its duties in accordance with the Project Schedule and Statement of Work. If the

Statement of Work so indicates, Motorola may assist The State in the local building permit process.

6.2. SITE CONDITIONS. The State will ensure that all work sites it provides will be safe, secure, and in compliance with all applicable industry and OSHA standards. To the extent applicable and unless the Statement of Work states to the contrary, The State will ensure that these work sites have adequate: physical space; air conditioning and other environmental conditions; electrical power outlets, distribution and equipment; and telephone or other communication lines (including modem access and adequate interfacing networking capabilities), all for the installation, use and maintenance of the System. Before installing the Equipment or Software at a work site, Motorola will inspect the work site and advise The State of any apparent deficiencies or non-conformities with the requirements of this Section. This Agreement is predicated upon normal soil conditions as defined by the version of E.I.A. standard RS-222 in effect on the Effective Date.

6.3. SITE ISSUES. If a Party determines that the sites identified in Exhibit C are no longer available or desired, or if subsurface, structural, adverse environmental or latent conditions at any site differ from those indicated in Exhibit C, the Parties will promptly investigate the conditions and will select replacement sites or adjust the installation plans and specifications as necessary. If change in sites or adjustment to the installation plans and specifications causes a change in the cost or time to perform, the Parties will equitably amend the Contract Price, Project Schedule, or both, by a change order.

Section 7 TRAINING

Any training to be provided by Motorola to The State will be described in the Statement of Work. The State will notify Motorola immediately if a date change for a scheduled training program is required. If Motorola incurs additional costs because The State reschedules a training program less than thirty (30) days before its scheduled start date, Motorola may recover these additional costs.

Section 8 SYSTEM ACCEPTANCE

8.1. COMMENCEMENT OF ACCEPTANCE TESTING. Motorola will provide to The State at least ten (10) business days notice before the Acceptance Tests commence. System testing will occur in accordance with the Acceptance Test Plan, and any mutually agreed to acceptance conditions.

8.2. SYSTEM ACCEPTANCE. System Acceptance will occur upon successful completion of the Acceptance Tests. Upon System Acceptance, the Parties will memorialize this event by promptly executing a System Acceptance Certificate. If the Acceptance Test Plan includes separate tests for individual Subsystems or phases of the System, acceptance of the individual Subsystem or phase will occur upon the successful completion of the Acceptance Tests for the Subsystem or phase, and the Parties will promptly execute an acceptance certificate for the Subsystem or phase. If The State believes the System has failed the completed Acceptance Tests, The State will provide to Motorola a written notice that includes the specific details of the failure. If The State does not provide to Motorola a failure notice within thirty (30) days after completion of the Acceptance Tests, System Acceptance will be deemed to have occurred as of the completion of the Acceptance Tests. Issues or failures that materially impair the operation of the Subsystem or System as a whole will be corrected promptly by Motorola. Minor failures, omissions or variances in the System that do not materially impair the operation of the System as a whole will not postpone System Acceptance or Subsystem acceptance, but will be corrected according to a mutually agreed schedule. What constitutes minor failures, omissions, or variances will be mutually determined by the Parties as those failures arise..

8.3. BENEFICIAL USE. The State acknowledges that Motorola's ability to perform its implementation and testing responsibilities may be impeded if The State begins using the System before System Acceptance. Therefore, The State will not commence Beneficial Use before

System Acceptance without Motorola's prior written authorization to The State Project Manager, which will not be unreasonably withheld. Motorola is not responsible for System performance deficiencies that occur during unauthorized Beneficial Use. Upon commencement of Beneficial Use, The State assumes responsibility for the use and operation of the System, except for any outstanding issues materially affecting the operation of the system.

8.4 FINAL PROJECT ACCEPTANCE. Final Project Acceptance will occur after System Acceptance when all deliverables and other work have been completed. When Final Project Acceptance occurs, the parties will promptly memorialize this final event by so indicating on the System Acceptance Certificate.

Section 9 REPRESENTATIONS AND WARRANTIES

9.1. SYSTEM FUNCTIONALITY. Motorola represents that the System will perform in accordance with the Specifications in all material respects. Upon System Acceptance or Beneficial Use, whichever occurs first, this System functionality representation is fulfilled. Motorola is not responsible for System performance deficiencies that are caused by ancillary equipment not furnished by Motorola which is attached to or used in connection with the System or for reasons or parties beyond Motorola's control, such as natural causes; the construction of a building that adversely affects the microwave path reliability or radio frequency (RF) coverage; the addition of frequencies at System sites that cause RF interference or intermodulation; or The State changes to load usage or configuration outside the Specifications.

9.2. EQUIPMENT WARRANTY. During the Warranty Period, Motorola warrants that the Equipment under normal use and service will be free from material defects in materials and workmanship. If System Acceptance is delayed beyond six (6) months after the final Acceptance Tests have been completed with no outstanding issues materially affecting the operation of the system, by events or causes within The State's control, this warranty expires eighteen (18) months after the shipment of the Equipment.

9.3. MOTOROLA SOFTWARE WARRANTY. Motorola warrants the Motorola Software in accordance with the terms of the Software License Agreement and the provisions of this Section 9 that are applicable to the Motorola Software. If System Acceptance is delayed beyond six (6) months after the final Acceptance Tests have been completed with no outstanding issues materially affecting the operation of the system, by events or causes within The State's control, this warranty expires eighteen (18) months after the shipment of the Motorola Software.

9.4. EXCLUSIONS TO EQUIPMENT AND MOTOROLA SOFTWARE WARRANTIES. These warranties do not apply to: (i) defects or damage resulting from: use of the Equipment or Motorola Software in other than its normal, customary, and authorized manner; accident, liquids, neglect, or acts of God; testing, maintenance, disassembly, repair, installation, alteration, modification, or adjustment not provided or authorized in writing by Motorola; The State's failure to comply with all applicable industry and OSHA standards; (ii) breakage of or damage to antennas unless caused directly by defects in material or workmanship; (iii) Equipment that has had the serial number removed or made illegible; (iv) batteries (because they carry their own separate limited warranty) or consumables; (v) scratches or other cosmetic damage to Equipment surfaces that does not affect the operation of the Equipment; and (vi) normal or customary wear and tear.

9.5. WARRANTY CLAIMS. To assert a warranty claim, The State must notify Motorola in writing of the claim before the expiration of the Warranty Period. Upon receipt of this notice, Motorola will investigate the warranty claim. If this investigation confirms a valid warranty claim, Motorola will (at its option and at no additional charge to The State) repair the defective Equipment or Motorola Software, replace it with the same or equivalent product, or refund the price of the defective Equipment or Motorola Software. That action will be the full extent of Motorola's liability for the warranty claim. If this investigation indicates the warranty claim is not valid, then Motorola may invoice The State for responding to the claim on a time and materials

basis using Motorola's then current labor rates. Repaired or replaced product is warranted for the balance of the original applicable warranty period. All replaced products or parts will become the property of Motorola.

9.6. ORIGINAL END USER IS COVERED. These express limited warranties are extended by Motorola to the original user purchasing the System for commercial, industrial, or governmental use only, and are not assignable or transferable.

9.7. DISCLAIMER OF OTHER WARRANTIES. THESE WARRANTIES ARE THE COMPLETE WARRANTIES FOR THE EQUIPMENT AND MOTOROLA SOFTWARE PROVIDED UNDER THIS AGREEMENT AND ARE GIVEN IN LIEU OF ALL OTHER WARRANTIES. MOTOROLA DISCLAIMS ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Section 10 DELAYS

10.1. Set forth in the RFP.

10.2. PROJECT - SCHEDULE DELAYS CAUSED BY THE STATE. If The State (including its other contractors) delays the Project - Schedule, it will make the promised payments according to the Payment Schedule and deliverables performed as if no delay occurred; and the Parties will execute a change order to extend the Project - Schedule and, if requested, compensate Motorola for all reasonable charges incurred because of the delay. Delay charges may include costs incurred by Motorola or its subcontractors for additional freight, warehousing and handling of Equipment; extension of the warranties; travel; suspending and re-mobilizing the work; additional engineering, project management, and standby time calculated at then current rates; and preparing and implementing an alternative implementation plan.

Section 11 PATENT AND COPYRIGHT INFRINGEMENT INDEMNIFICATION.

11.1. Motorola will defend at its expense any suit brought against The State to the extent it is based on an Infringement Claim, and Motorola will indemnify The State for those costs and damages finally awarded against The State for an Infringement Claim. Motorola's duties to defend and indemnify are conditioned upon: The State promptly notifying Motorola in writing of the Infringement Claim; Motorola having sole control of the defense of the suit and all negotiations for its settlement or compromise; and The State providing to Motorola cooperation and, if requested by Motorola, reasonable assistance in the defense of the Infringement Claim.

11.2. If an Infringement Claim occurs, or in Motorola's opinion is likely to occur, Motorola may at its option and expense procure for The State the right to continue using the Equipment or Motorola Software, replace or modify it so that it becomes non-infringing while providing functionally equivalent performance, or grant The State a credit for the Equipment or Motorola Software as depreciated and accept its return. The depreciation amount will be calculated based upon generally accepted accounting standards for such Equipment and Motorola Software.

11.3. Motorola will have no duty to defend or indemnify for any Infringement Claim that is based upon the combination of the Equipment or Motorola Software with any software, apparatus or device not furnished by Motorola; the use of ancillary equipment or software not furnished by Motorola and that is attached to or used in connection with the Equipment or Motorola Software; any Equipment that is not Motorola's design or formula; a modification of the Motorola Software by a party other than Motorola; or the failure by The State to install an enhancement release to the Motorola Software that is intended to correct the claimed infringement. The foregoing states the entire liability of Motorola with respect to infringement of patents and copyrights by the Equipment, Motorola Software, or any of their parts.

Section 12 LIMITATION OF LIABILITY

It is understood by the parties that in the State's opinion, this paragraph is unconstitutional under the Nebraska State Constitution, Article 13, Section 3, and the State may assert such unconstitutionality as a theory in litigation, despite assent to the remainder of this paragraph. Except for personal injury or death, Motorola's total liability, whether for breach of contract, warranty, negligence, strict liability in tort, indemnification, or otherwise, will be limited to the direct damages recoverable under law, but not to exceed the price of the Equipment, Software, or services with respect to which losses or damages are claimed. ALTHOUGH THE PARTIES ACKNOWLEDGE THE POSSIBILITY OF SUCH LOSSES OR DAMAGES, THEY AGREE THAT MOTOROLA WILL NOT BE LIABLE FOR ANY COMMERCIAL LOSS; INCONVENIENCE; LOSS OF USE, TIME, DATA, GOOD WILL, REVENUES, PROFITS OR SAVINGS; OR OTHER SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES IN ANY WAY RELATED TO OR ARISING FROM THIS AGREEMENT, THE SALE OR USE OF THE EQUIPMENT OR SOFTWARE, OR THE PERFORMANCE OF SERVICES BY MOTOROLA PURSUANT TO THIS AGREEMENT. This limitation of liability provision survives the expiration or termination of the Agreement and applies notwithstanding any contrary provision. No action for contract breach or otherwise relating to the transactions contemplated by this Agreement may be brought more than one (1) year after the accrual of the cause of action, except for money due upon an open account.

Section 15 CONFIDENTIALITY AND PROPRIETARY RIGHTS

15.1. CONFIDENTIAL INFORMATION. During the term of this Agreement, the parties may provide each other with Confidential Information. Each Party will: maintain the confidentiality of the other Party's Confidential Information and not disclose it to any third party, except as authorized by the disclosing Party in writing or as required by a court of competent jurisdiction; restrict disclosure of the Confidential Information to its employees who have a "need to know" and not copy or reproduce the Confidential Information; take necessary and appropriate precautions to guard the confidentiality of the Confidential Information, including informing its employees who handle the Confidential Information that it is confidential and is not to be disclosed to others, but these precautions will be at least the same degree of care that the receiving Party applies to its own confidential information and will not be less than reasonable care; and use the Confidential Information only in furtherance of the performance of this Agreement. Confidential Information is and will at all times remain the property of the disclosing Party, and no grant of any proprietary rights in the Confidential Information is given or intended, including any express or implied license, other than the limited right of the recipient to use the Confidential Information in the manner and to the extent permitted by this Agreement.

15.2. PRESERVATION OF MOTOROLA'S PROPRIETARY RIGHTS. Motorola, the third party manufacturer of any Equipment, and the copyright owner of any Non-Motorola Software own and retain all of their respective Proprietary Rights in the Equipment and Software, and nothing in this Agreement is intended to restrict their Proprietary Rights. All intellectual property developed, originated, or prepared by Motorola in connection with providing to The State the Equipment, Software, or related services remain vested exclusively in Motorola, and this Agreement does not grant to The State any shared development rights of intellectual property. Except as explicitly provided in the Software License Agreement, Motorola does not grant to The State, either directly or by implication, estoppel, or otherwise, any right, title or interest in Motorola's Proprietary Rights. The State will not modify, disassemble, peel components, decompile, otherwise reverse engineer or attempt to reverse engineer, derive source code or create derivative works from, adapt, translate, merge with other software, reproduce, distribute, sublicense, sell or export the Software, or permit or encourage any third party to do so. The preceding sentence does not apply to Open Source Software which is governed by the standard license of the copyright owner.

Section 16 GENERAL

16.1. HEADINGS AND SECTION REFERENCES. The section headings in this Agreement are inserted only for convenience and are not to be construed as part of this Agreement or as a limitation of the scope of the particular section to which the heading refers. This Agreement will be fairly interpreted in accordance with its terms and conditions and not for or against either Party.

16.3. AUTHORITY TO EXECUTE AGREEMENT. Each Party represents that it has obtained all necessary approvals, consents and authorizations to enter into this Agreement and to perform its duties under this Agreement; the person executing this Agreement on its behalf has the authority to do so; upon execution and delivery of this Agreement by the Parties, it is a valid and binding contract, enforceable in accordance with its terms; and the execution, delivery, and performance of this Agreement does not violate any bylaw, charter, regulation, law or any other governing authority of the Party.

16.4. SURVIVAL OF TERMS. The following provisions will survive the expiration or termination of this Agreement for any reason: Section 3.6 (Motorola Software); Section 3.7 (Non-Motorola Software); if any payment obligations exist, Sections 5.1 and 5.2 (Contract Price and Invoicing and Payment); Subsection 9.7 (Disclaimer of Implied Warranties); and Section 12 (Limitation of Liability); and Section 13 (Confidentiality and Proprietary Rights

The Parties hereby enter into this Agreement as of the Effective Date.

Exhibit A

SOFTWARE LICENSE AGREEMENT

This Exhibit A Software License Agreement ("Agreement") is between Motorola, Inc. ("Motorola") and the State of Nebraska ("Licensee").

For good and valuable consideration, the parties agree as follows:

Section 1 DEFINITIONS

1.1 "Designated Products" means products provided by Motorola to Licensee with which or for which the Software and Documentation is licensed for use.

1.2 "Documentation" means product and software documentation that specifies technical and performance features and capabilities, and the user, operation and training manuals for the Software (including all physical or electronic media upon which such information is provided).

1.3 "Open Source Software" means software with either freely obtainable source code, license for modification, or permission for free distribution.

1.4 "Open Source Software License" means the terms or conditions under which the Open Source Software is licensed.

1.5 "Primary Agreement" means the agreement to which this exhibit is attached.

1.6 "Security Vulnerability" means a flaw or weakness in system security procedures, design, implementation, or internal controls that could be exercised (accidentally triggered or intentionally exploited) and result in a security breach such that data is compromised, manipulated or stolen or the system damaged.

1.7 "Software" (i) means proprietary software in object code format, and adaptations, translations, de-compilations, disassemblies, emulations, or derivative works of such software; (ii) means any modifications, enhancements, new versions and new releases of the software provided by Motorola; and (iii) may contain one or more items of software owned by a third party supplier. The term "Software" does not include any third party software provided under separate license or third party software not licensable under the terms of this Agreement.

Section 2 SCOPE

Motorola and Licensee enter into this Agreement in connection with Motorola's delivery of certain proprietary Software or products containing embedded or pre-loaded proprietary Software, or both. This Agreement contains the terms and conditions of the license Motorola is providing to Licensee, and Licensee's use of the Software and Documentation.

Section 3 GRANT OF LICENSE

3.1. Subject to the provisions of this Agreement and the payment of applicable license fees, Motorola grants to Licensee a personal, limited, non-transferable (except as permitted in Section 7) and non-exclusive license under Motorola's copyrights and Confidential Information (as defined in the Primary Agreement) embodied in the Software to use the Software, in object code form, and the Documentation solely in connection with Licensee's use of the Designated Products. This Agreement does not grant any rights to source code.

3.2. If the Software licensed under this Agreement contains or is derived from Open Source Software, the terms and conditions governing the use of such Open Source Software are in the Open Source Software Licenses of the copyright owner and not this Agreement. If there is a conflict between the terms and conditions of this Agreement and the terms and conditions of the Open Source Software Licenses governing Licensee's use of the Open Source Software, the terms and conditions of the license grant of the applicable Open Source Software Licenses will take precedence over the license grants in this Agreement. If requested by Licensee, Motorola will use commercially reasonable efforts to: (i) determine whether any Open Source Software is provided under this Agreement; (ii) identify the Open Source Software and provide Licensee a copy of the applicable Open Source Software License (or specify where that license may be found); and, (iii) provide Licensee a copy of the Open Source Software source code, without charge, if it is publicly available (although distribution fees may be applicable).

Section 4 LIMITATIONS ON USE

4.1. Licensee may use the Software only for Licensee's internal business purposes and only in accordance with the Documentation. Any other use of the Software is strictly prohibited. Without limiting the general nature of these restrictions, Licensee will not make the Software available for use by third parties on a "time sharing," "application service provider," or "service bureau" basis or for any other similar commercial rental or sharing arrangement.

4.2. Licensee will not, and will not allow or enable any third party to: (i) reverse engineer, disassemble, peel components, decompile, reprogram or otherwise reduce the Software or any portion to a human perceptible form or otherwise attempt to recreate the source code; (ii) modify, adapt, create derivative works of, or merge the Software; (iii) copy, reproduce, distribute, lend, or lease the Software or Documentation to any third party, grant any sublicense or other rights in the Software or Documentation to any third party, or take any action that would cause the Software or Documentation to be placed in the public domain; (iv) remove, or in any way alter or obscure, any copyright notice or other notice of Motorola's proprietary rights; (v) provide, copy, transmit, disclose, divulge or make the Software or Documentation available to, or permit the use of the Software by any third party or on any machine except as expressly authorized by this Agreement; or (vi) use, or permit the use of, the Software in a manner that would result in the production of a copy of the Software solely by activating a machine containing the Software. Licensee may make one copy of Software to be used solely for archival, back-up, or disaster recovery purposes; *provided* that Licensee may not operate that copy of the Software at the same time as the original Software is being operated. Licensee may make as many copies of the Documentation as it may reasonably require for the internal use of the Software.

4.3. Unless otherwise authorized by Motorola in writing, Licensee will not, and will not enable or allow any third party to: (i) install a licensed copy of the Software on more than one unit of a Designated Product; or (ii) copy onto or transfer Software installed in one unit of a Designated Product onto another device. Licensee may temporarily transfer Software installed on a Designated Product to another device if the Designated Product is inoperable or malfunctioning, if Licensee provides written notice to Motorola of the temporary transfer and identifies the device on which the Software is transferred. Temporary transfer of the Software to another device must be discontinued when the original Designated Product is returned to operation and the Software must be removed from the other device. Licensee must provide prompt written notice to Motorola at the time temporary transfer is discontinued.

4.4. When using Motorola's Radio Service Software ("RSS"), Licensee must purchase a separate license for each location at which Licensee uses RSS. Licensee's use of RSS at a licensed location does not entitle Licensee to use or access RSS remotely. Licensee may make one copy of RSS for each licensed location. Licensee shall provide Motorola with a list of all locations at which Licensee uses or intends to use RSS upon Motorola's request.

4.5. Licensee will maintain, during the term of this Agreement and for a period of two years thereafter, accurate records relating to this license grant to verify compliance with this Agreement. Motorola or an independent third party ("Auditor") may inspect Licensee's premises, books and records, upon reasonable prior notice to Licensee, during Licensee's normal business hours and subject to Licensee's facility and security regulations. Motorola is responsible for the payment of all expenses and costs of the Auditor. Any information obtained by Motorola and the Auditor will be kept in strict confidence by Motorola and the Auditor and used solely for the purpose of verifying Licensee's compliance with the terms of this Agreement.

Section 5 OWNERSHIP AND TITLE

Motorola, its licensors, and its suppliers retain all of their proprietary rights in any form in and to the Software and Documentation, including, but not limited to, all rights in patents, patent applications, inventions, copyrights, trademarks, trade secrets, trade names, and other proprietary rights in or relating to the Software and Documentation (including any corrections, bug fixes, enhancements, updates, modifications, adaptations, translations, de-compilations, disassemblies, emulations to or derivative works from the Software or Documentation, whether made by Motorola or another party, or any improvements that result from Motorola's processes or, provision of information services). No rights are granted to Licensee under this Agreement by implication, estoppel or otherwise, except for those rights which are expressly granted to Licensee in this Agreement. All intellectual property developed, originated, or prepared by Motorola in connection with providing the Software, Designated Products, Documentation or related services, remains vested exclusively in Motorola, and Licensee will not have any shared development or other intellectual property rights.

Section 6 LIMITED WARRANTY; DISCLAIMER OF WARRANTY

6.1. The commencement date and the term of the Software warranty will be a period of one (1) year from Final Project Acceptance - If Licensee is not in breach of any of its obligations under this Agreement, Motorola warrants that the unmodified Software, when used properly and in accordance with the Documentation and this Agreement, will be free from a reproducible defect that eliminates the functionality or successful operation of a feature critical to the primary functionality or successful operation of the Software. Whether a defect occurs will be determined by Motorola solely with reference to the Documentation. Motorola does not warrant that Licensee's use of the Software or the Designated Products will be uninterrupted, error-free, completely free of Security Vulnerabilities, or that the Software or the Designated Products will meet Licensee's particular requirements. Motorola makes no representations or warranties with respect to any third party software included in the Software.

6.2 Motorola's sole obligation to Licensee and Licensee's exclusive remedy under this warranty is to use reasonable efforts to remedy any material Software defect covered by this warranty. These efforts will involve either replacing the media or attempting to correct significant, demonstrable program or documentation errors or Security Vulnerabilities. If Motorola cannot correct the defect within a reasonable time, then at Motorola's option, Motorola will replace the defective Software with functionally-equivalent Software, license to Licensee substitute Software which will accomplish the same objective, or terminate the license and refund the Licensee's paid license fee.

6.3. Warranty claims are described in the Primary Agreement.

6.4. The express warranties set forth in this Section 6 are in lieu of, and Motorola disclaims, any and all other warranties (express or implied, oral or written) with respect to the Software or Documentation, including, without limitation, any and all implied warranties of condition, title, non-infringement, merchantability, or fitness for a particular purpose or use by Licensee (whether or not Motorola knows, has reason to know, has been advised, or is otherwise aware of any such purpose or use), whether arising by law, by reason of custom or usage of trade, or by course of

dealing. In addition, Motorola disclaims any warranty to any person other than Licensee with respect to the Software or Documentation.

Section 7 TRANSFERS

Licensee will not transfer the Software or Documentation to any third party without Motorola's prior written consent. Motorola's consent may be withheld at its discretion and may be conditioned upon transferee paying all applicable license fees and agreeing to be bound by this Agreement. If the Designated Products are Motorola's radio products and Licensee transfers ownership of the Motorola radio products to a third party, Licensee may assign its right to use the Software (other than RSS and Motorola's FLASHport® software) which is embedded in or furnished for use with the radio products and the related Documentation; *provided* that Licensee transfers all copies of the Software and Documentation to the transferee, and Licensee and the transferee sign a transfer form to be provided by Motorola upon request, obligating the transferee to be bound by this Agreement.

Section 8 TERM AND TERMINATION

8.1 Licensee's right to use the Software and Documentation will begin when the Primary Agreement is signed by both parties and will continue for the life of the Designated Products with which or for which the Software and Documentation have been provided by Motorola, unless Licensee breaches this Agreement, in which case this Agreement and Licensee's right to use the Software and Documentation may be terminated immediately upon notice by Motorola.

8.2 Within thirty (30) days after termination of this Agreement, Licensee must certify in writing to Motorola that all copies of the Software have been removed or deleted from the Designated Products and that all copies of the Software and Documentation have been returned to Motorola or destroyed by Licensee and are no longer in use by Licensee.

8.3 Licensee acknowledges that Motorola made a considerable investment of resources in the development, marketing, and distribution of the Software and Documentation and that Licensee's breach of this Agreement will result in irreparable harm to Motorola for which monetary damages would be inadequate. If Licensee breaches this Agreement, Motorola may terminate this Agreement and be entitled to all available remedies at law or in equity (including immediate injunctive relief and repossession of all non-embedded Software and associated Documentation unless Licensee is a Federal agency of the United States Government).

Section 9 UNITED STATES GOVERNMENT LICENSING PROVISIONS

This Section applies if Licensee is the United States Government or a United States Government agency. Licensee's use, duplication or disclosure of the Software and Documentation under Motorola's copyrights or trade secret rights is subject to the restrictions set forth in subparagraphs (c)(1) and (2) of the Commercial Computer Software-Restricted Rights clause at FAR 52.227-19 (JUNE 1987), if applicable, unless they are being provided to the Department of Defense. If the Software and Documentation are being provided to the Department of Defense, Licensee's use, duplication, or disclosure of the Software and Documentation is subject to the restricted rights set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 (OCT 1988), if applicable. The Software and Documentation may or may not include a Restricted Rights notice, or other notice referring to this Agreement. The provisions of this Agreement will continue to apply, but only to the extent that they are consistent with the rights provided to the Licensee under the provisions of the FAR or DFARS mentioned above, as applicable to the particular procuring agency and procurement transaction.

Section 10 CONFIDENTIALITY

Licensee acknowledges that the Software and Documentation contain Motorola's valuable proprietary and Confidential Information and are Motorola's trade secrets, and that the provisions in the Primary Agreement concerning Confidential Information apply.

Section 11 LIMITATION OF LIABILITY

The Limitation of Liability provision is contained in the Primary Agreement.

Section 12 NOTICES

Notices are described in the Primary Agreement.

Section 13 GENERAL

13.1. COPYRIGHT NOTICES. The existence of a copyright notice on the Software will not be construed as an admission or presumption of publication of the Software or public disclosure of any trade secrets associated with the Software.

13.2. COMPLIANCE WITH LAWS. Licensee acknowledges that the Software is subject to the laws and regulations of the United States and Licensee will comply with all applicable laws and regulations, including export laws and regulations of the United States. Licensee will not, without the prior authorization of Motorola and the appropriate governmental authority of the United States, in any form export or re-export, sell or resell, ship or reship, or divert, through direct or indirect means, any item or technical data or direct or indirect products sold or otherwise furnished to any person within any territory for which the United States Government or any of its agencies at the time of the action, requires an export license or other governmental approval. Violation of this provision is a material breach of this Agreement.

13.3. ASSIGNMENTS AND SUBCONTRACTING. Motorola may assign its rights or subcontract its obligations under this Agreement, or encumber or sell its rights in any Software, without prior notice to or consent of License. This shall be an exception to the Assignment in the RFP since it is a "perpetual" license.

13.4. GOVERNING LAW. This Agreement is governed by the laws of the United States to the extent that they apply and otherwise by the internal substantive laws of the State to which the Software is shipped if Licensee is a sovereign government entity, or the internal substantive laws of the State of Illinois if Licensee is not a sovereign government entity. The terms of the U.N. Convention on Contracts for the International Sale of Goods do not apply. In the event that the Uniform Computer Information Transaction Act, any version of this Act, or a substantially similar law (collectively "UCITA") becomes applicable to a party's performance under this Agreement, UCITA does not govern any aspect of this Agreement or any license granted under this Agreement, or any of the parties' rights or obligations under this Agreement. The governing law will be that in effect prior to the applicability of UCITA.

13.5. THIRD PARTY BENEFICIARIES. This Agreement is entered into solely for the benefit of Motorola and Licensee. No third party has the right to make any claim or assert any right under this Agreement, and no third party is deemed a beneficiary of this Agreement. Notwithstanding the foregoing, any licensor or supplier of third party software included in the Software will be a direct and intended third party beneficiary of this Agreement.

13.6. SURVIVAL. Sections 4, 5, 6.3, 7, 8, 9, 10, 11 and 13 survive the termination of this Agreement.

13.7. ORDER OF PRECEDENCE. In the event of inconsistencies between this Exhibit and the Primary Agreement, the parties agree that this Exhibit prevails, only with respect to the

specific subject matter of this Exhibit, and not the Primary Agreement or any other exhibit as it applies to any other subject matter.

13.8 SECURITY. Motorola's Information Assurance Policy addresses the issue of security. Motorola uses reasonable means in the design and writing of its own Software and the acquisition of third party Software to limit Security Vulnerabilities. While no software can be guaranteed to be free from Security Vulnerabilities, if a Security Vulnerability is discovered, Motorola will take the steps set forth in Section 6 of this Agreement.

AMENDMENT 1

CONTRACT 36495 O4
RFP 2424Z1

The Parties to Contract 36495 O4, which Contract has resulted from RFP 2424Z1, hereby amend the Contract by incorporating into the RFP document the following mutually agreed-upon clarifications and exceptions:

1. **Section III.F.1,2,3,4, p. 9 Insurance Requirements shall be amended as follows:**

1. WORKERS' COMPENSATION INSURANCE

The Contractor shall take out and maintain during the life of this Contract the statutory Workers' Compensation and Employer's Liability Insurance for all of the Contactors' employees to be engaged in work on the project under this Contract. This policy shall be written to meet the statutory requirements for the state in which the work is to be performed, including Occupational Disease. This policy shall include a waiver of subrogation in favor of the State. The amounts of such insurance shall not be less than the limits stated hereinafter.

2. COMMERCIAL GENERAL LIABILITY INSURANCE AND -BUSINESS AUTOMOBILE LIABILITY INSURANCE

The Contractor shall take out and maintain during the life of this Contract such Commercial General Liability Insurance and Business Automobile Liability Insurance as shall protect Contractor performing work covered by this Contract from claims for damages for bodily injury, including death, as well as from claims for property damage, which may arise from operations under this Contract, whether such operation be by the Contractor or by anyone employed by it and the amounts of such insurance shall not be less than limits stated hereinafter.

The Commercial General Liability Insurance shall be written on an occurrence basis, and include Premises/Operations, Products/Completed Operations, Independent Contractors, Personal Injury and Contractual Liability coverage. The policy shall include the State as an Additional Insured. This policy shall be primary, and any insurance or self-insurance carried by the State shall be considered excess and non-contributory The Business Automobile Liability Insurance shall be written to cover all Owned, Non-owned and Hired vehicles.

3. INSURANCE COVERAGE AMOUNTS REQUIRED

a. WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY

Coverage A	Statutory
Coverage B	
Bodily Injury by Accident	$1,000,000 each accident
Bodily Injury by Disease	$1,000,000 policy limit
Bodily Injury by Disease	$1,000,000 each employee

b. COMMERCIAL GENERAL LIABILITY

General Aggregate	$3,000,000
Products/Completed Operations Aggregate	Included

Personal/Advertising Injury	$2,000,000 any one person
Bodily Injury/Property Damage	$2,000,000 per occurrence
Fire Damage	$50,000 any one fire
Medical Payments	$5,000 any one person

c. BUSINESS AUTOMOBILE LIABILITY
Bodily Injury/Property Damage
$2,000,000 combined single limit

d. UMBRELLA/EXCESS LIABILITY
None: Limits changed to adhere to Motorola's policy and coverage will be more than required by the State.

4. EVIDENCE OF COVERAGE

The Contractor shall furnish the State, upon execution of this Contract, a certificate of insurance coverage complying with the above requirements, which State Purchasing will submit to Administrative Services, Risk Management Division, 521 S. 14th Street, Suite 104, Lincoln, NE 68508 (facsimile 402-471-2800). These certificates or the cover sheet shall reference the Contract number, and the certificates shall include the name of the company, policy numbers, effective dates, dates of expiration and amounts and types of coverage afforded. If the State is damaged by the failure of the Contractor to maintain such insurance, then the Contractor shall be responsible for all reasonable costs properly attributable thereto.

Notice of cancellation of any required insurance policy will be mailed to the State (30) days prior to cancellation and Contractor will ensure no break in coverage.

2. Section III.D, p. 9 PERMITS, REGULATIONS, LAWS shall be amended as follows:

The Contractor shall comply with all applicable local, state, and federal laws, ordinances, rules, orders and regulations.

3. Section III.X.1, p. 14 Notification shall be amended as follows:

Except as otherwise expressly specified herein, all notices, requests or other communications shall be in writing and shall be deemed to have been given if delivered personally, mailed, by U.S. Mail, postage prepaid, return receipt requested, or overnight courier to the parties at their respective addresses set forth above, or at such other addresses as may be specified in writing by either of the parties. All notices, requests, or communications shall be deemed effective upon personal delivery or three (3) days following deposit in the mail.

4. Section III.AA, p. 16 Breach by Contractor shall be amended as follows:

The State may terminate the Contract, in whole or in part, if the Contractor fails to perform its obligations under the Contract in a timely and proper manner. The State may, by providing a written notice of default to the Contractor, allow the Contractor to cure a failure or breach of Contract within a period of thirty (30) days (or longer at State's discretion considering the gravity and nature of the default). Said notice shall be delivered by Certified Mail, Return Receipt Requested, overnight courier, or in person with proof of delivery. Allowing the Contractor time to cure a failure or breach of Contract does not waive the State's right to immediately terminate the Contract for the same or

different Contract breach which may occur at a different time. In case of default of the Contractor, the State may Contract the service from other sources and hold the Contractor responsible for any excess cost occasioned thereby.

5. **Section III.DD, p. 16 Performance Bond shall be amended to include the following:**

In addition to a performance bond issued by a licensed surety to cover the initial five (5) year term of the Contract, the Contractor will be required to obtain a performance bond for any and all renewal terms of the Contract. With regard to the latter, the Contractor will be obligated to provide notice of at least sixty (60) days to The State in advance of the effective date of a renewal that it has obtained the required bond.

6. **Section III.GG, p. 17, Payment terms shall be amended as follows:**

Customer will make payments to Motorola within the time allowed by state statute after the date of each invoice. Customer will make payments when due in the form of a check, cashier's check, or wire transfer drawn on a U.S. financial institution and in accordance with the following milestones.

1. $217,788.86 due upon completion of detailed design review;
2. Equipment and software invoiced upon delivery to customer's designated ship-to location and inventory sign-off by the State in accordance with the final project plan;
3. Services, including staging, project management, installation, engineering, optimization, testing and training -- invoiced upon completion and acceptance of the service provided in accordance with the final project plan;
4. Service, maintenance and software upgrade agreements invoiced after installation, testing and acceptance of the products, services and software covered by those agreements; and
5. 10% of the Contract Price upon Final Project Acceptance.

Motorola reserves the right to make partial shipments of equipment and to request payment upon shipment of such equipment. In addition, Motorola reserves the right to invoice for installations or civil work completed on a site-by-site basis, if applicable, and when mutually agreed to by The State.

7. **Section III.II, p. 17. Audit Requirements – the following clarification shall be adopted:**

Motorola complies with the clarification that proprietary cost and pricing data, which information is never given to any the State, is not subject to this audit.

8. **Section III.LL, p. 18. Changes in Scope/Change Orders – the following clarification shall be adopted:**

Motorola will comply with the clarification that State may retain the right to employ the services of a third party for change orders only in the event that the parties cannot mutually agree on a price for the work if it is not an item in the contract, if Motorola is in default of the contract, or Motorola is otherwise unable to perform."

9. **Section III.MM, p. 18 Limitation of liability shall be amended as follows:**

It is understood by the parties that in the State's opinion, this paragraph is unconstitutional under the Nebraska State Constitution, Article 13, Section 3, and the State may assert such unconstitutionality as a theory in litigation, despite assent to the remainder of this agreement. Except for personal injury or death, Motorola's total liability, whether for breach of contract, warranty, negligence, strict liability in tort, indemnification, or otherwise, will be limited to the direct damages recoverable under law, but not to exceed the price of the Equipment, Software, or services with respect to which losses or damages are claimed. ALTHOUGH THE PARTIES ACKNOWLEDGE THE POSSIBILITY OF SUCH LOSSES OR DAMAGES, THEY AGREE THAT MOTOROLA WILL NOT BE LIABLE FOR ANY COMMERCIAL LOSS; INCONVENIENCE; LOSS OF USE, TIME, DATA, GOOD WILL, REVENUES, PROFITS OR SAVINGS; OR OTHER SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES IN ANY WAY RELATED TO OR ARISING FROM THIS AGREEMENT, THE SALE OR USE OF THE EQUIPMENT OR SOFTWARE, OR THE PERFORMANCE OF SERVICES BY MOTOROLA PURSUANT TO THIS AGREEMENT. This limitation of liability provision survives the expiration or termination of the Agreement and applies notwithstanding any contrary provision. No action for contract breach or otherwise relating to the transactions contemplated by this Agreement may be brought more than one (1) year after the accrual of the cause of action, except for money due upon an open account.

10. Section III.OO, p. 19. Confidentiality shall be amended to include the following:

Motorola complies with the request that this clause be construed as a mutual clause and shall apply also to the Contractor. Motorola proposes the addition of the following:

A. Confidential Information. During the term of this Agreement, the parties may provide each other with Confidential Information. Each Party will: maintain the confidentiality of the other Party's Confidential Information and not disclose it to any third party, except as authorized by the disclosing Party in writing or as required by a court of competent jurisdiction; restrict disclosure of the Confidential Information to its employees who have a "need to know" and not copy or reproduce the Confidential Information; take necessary and appropriate precautions to guard the confidentiality of the Confidential Information, including informing its employees who handle the Confidential Information that it is confidential and is not to be disclosed to others, but these precautions will be at least the same degree of care that the receiving Party applies to its own confidential information and will not be less than reasonable care; and use the Confidential Information only in furtherance of the performance of this Agreement. Confidential Information is and will at all times remain the property of the disclosing Party, and no grant of any proprietary rights in the Confidential Information is given or intended, including any express or implied license, other than the limited right of the recipient to use the Confidential Information in the manner and to the extent permitted by this Agreement.

B. Preservation of Motorola's Proprietary Rights. Motorola, the third party manufacturer of any Equipment, and the copyright owner of any Non-Motorola Software own and retain all of their respective Proprietary Rights in the Equipment and Software, and nothing in this Agreement is intended to restrict their Proprietary Rights. All intellectual property developed, originated, or prepared by Motorola in connection with providing to The State the Equipment, Software, or related services remain vested exclusively in Motorola, and this Agreement does not grant to The State any shared development rights of intellectual property. Except as explicitly provided in the Software License Agreement, Motorola does not grant to The State, either directly or by implication, estoppel, or otherwise, any right, title or interest in Motorola's Proprietary Rights. The State will not modify, disassemble, peel components, decompile, otherwise reverse engineer or attempt to reverse engineer, derive source code or create derivative works from, adapt, translate,

merge with other software, reproduce, distribute, sublicense, sell or export the Software, or permit or encourage any third party to do so. The preceding sentence does not apply to Open Source Software which is governed by the standard license of the copyright owner.

11. Section III.RR, p. 20 Prices – the following exception is approved:

Due to the unique pricing and personal design specifications for each system, Contractor cannot guarantee that the pricing offered in this proposal is no higher or lower than prices offered to others the States.

12. Section III.UU, p. 21, Indemnification shall be amended as follows:

General Indemnity by Motorola. [Replacement for "General."] Motorola will indemnify and hold The State harmless from any and all liability, expense, judgment, suit, cause of action, or demand for personal injury, death, or direct damage to tangible property which may accrue against The State to the extent it is caused by the negligence of Motorola, its subcontractors, or their employees or agents, while performing their duties under this Agreement, if The State gives Motorola prompt, written notice of any the claim or suit. The State will cooperate with Motorola in its defense or settlement of the claim or suit. This section sets forth the full extent of Motorola's general indemnification of The State from liabilities that are in any way related to Motorola's performance under this Agreement.

Patent and Copyright Infringement Indemnity. [Replacement for "Intellectual Property."]

a. Motorola will defend at its expense any suit brought against The State to the extent it is based on an Infringement Claim, and Motorola will indemnify The State for those costs and damages finally awarded against The State for an Infringement Claim. Motorola's duties to defend and indemnify are conditioned upon: The State promptly notifying Motorola in writing of the Infringement Claim; Motorola having sole control of the defense of the suit and all negotiations for its settlement or compromise; and The State providing to Motorola cooperation and, if requested by Motorola, reasonable assistance in the defense of the Infringement Claim.
b. If an Infringement Claim occurs, or in Motorola's opinion is likely to occur, Motorola may at its option and expense procure for The State the right to continue using the Equipment or Motorola Software, replace or modify it so that it becomes non-infringing while providing functionally equivalent performance, or grant The State a credit for the Equipment or Motorola Software as depreciated and accept its return. The depreciation amount will be calculated based upon generally accepted accounting standards for such Equipment and Motorola Software.
c. Motorola will have no duty to defend or indemnify for any Infringement Claim that is based upon the combination of the Equipment or Motorola Software with any software, apparatus or device not furnished by Motorola; the use of ancillary equipment or software not furnished by Motorola and that is attached to or used in connection with the Equipment or Motorola Software; any Equipment that is not Motorola's design or formula; a modification of the Motorola Software by a party other than Motorola; or the failure by The State to install an enhancement release to the Motorola Software that is intended to correct the claimed infringement. The foregoing states the entire liability of Motorola with respect to infringement of patents and copyrights by the Equipment, Motorola Software, or any of their parts.

13. Sec. VV, p. 22, Nebraska Technology Access Standards – the following clarification shall be adopted:

Motorola complies with the clarification that the State may purchase optional equipment listed in the equipment list to make computer monitors compliant with this legal standard where necessary.

14. Sec. AAA, p. 22, Drug Policy shall be amended as follows:

Drug Free Workplace policy included. See proposal section 5.6.2.

15. Sec. 10, p. 61, Warranty – the following clarification shall be adopted:

Motorola complies with the following clarification for Parts Support (3rd paragraph):

Motorola will use commercially reasonable efforts to provide replacement parts for Motorola manufactured subscriber equipment for five (5) years and for Motorola manufactured fixed infrastructure equipment for seven (7) years, both from the date of last manufacture. Motorola reserves the right to supply either assemblies or piece parts.

16. Section IV.10b, p. 62, Software Licenses and Subscriptions shall be amended as follows:

Software License Agreement included. See Exhibit A to the Communication System Agreement contained in section 5.6.1 of this response.

17. Section IV.10d, p. 63, Security shall be amended as follows:

Security compliance is based upon information provided in section 4.9.5 of this response.

18. Section IV.10e, p. 62, Warranty shall be amended as follows:

The parties agree to the warranty provisions in Section 9 of the Communications System Agreement.

The parties, by their authorized representatives, hereby execute this Amendment on the 10th day of October, 2008.
