## Review Parent-Child Relationships

### Review Parent-Child Relationships Overview

Use the Work with Parent History application to find a fixed asset and review the parent and child relationships. If the asset is a parent, you can review all of the children related to the parent. If the asset is a child, you can review the parent for the child, as well as other children which are associated with the parent.

You can also display all current or previous parents for a child asset, or all current or previous children for a parent. Use date fields to limit your search to selected dates, or leave the date fields blank to review the whole history of a child or parent. From the Work with Parent History application, you can also review the parent or child cost information.
