

Health Savings Account (HSA)

HSA Provided by Optum Bank

You can use the money you save in your HSA to pay for qualified medical, dental, and vision expenses, such as doctor visits, prescriptions, and hospital visits, or you can save the money for future healthcare needs – even into retirement. The way you use your HSA will depend on your health care needs and your savings goals. Spend or save. The choice is yours.

Benefits of an HSA

- **You own the HSA.** Any money you deposit into your HSA is yours to keep, even if you change medical plans or leave your job.
- **There is no “use it or lose it” rule.** Your HSA balance carries over from year to year, letting you save for future healthcare expenses that may occur well into retirement.
- **You can grow your money.** The money you contribute to your HSA grows with interest, and once your balance reaches a certain level, you can choose to invest some of your savings in mutual funds to help your money grow further and work harder for you.
- **You get triple tax savings.** The money you contribute to your HSA is tax-free. You don't pay taxes on your contributions or the interest your account earns, as long as you use them for eligible medical expenses.

Like all good things, there's a limit on the amount that you can contribute to your HSA. Currently, the IRS limits the amount you can save during the benefit plan year depending on whether or not you carry dependent coverage. You'll need to make sure your contributions don't put you over the annual maximum.

The 2020 maximum limits are:

- \$3,550 for individual coverage
- \$7,100 for family coverage
- If you're age 55 or older, you can contribute an additional \$1,000 to your HSA during the plan year

How does the HSA work?

If you enroll in the Consumer Focused Health Plan, you will authorize set up of your Optum Bank account and elect your pre-tax payroll contributions through the Employee Work Center. You'll receive additional information from Optum Bank about your account including online banking options to help manage your HSA.

There is a monthly bank fee of \$1.00 until the balance reaches \$500.00. Then the fee is removed.

Can You Open an HSA?

Because you don't pay taxes on HSA contributions, interest, or earnings on investments, you have to meet certain requirements to open an HSA:

- You are covered under the Consumer Focused Health Plan
- You are not covered by any other health plan, such as a spouse's non-HSA plan, or a general-purpose FSA Healthcare plan
- You are not enrolled in Medicare or TRICARE
- You have not received Veterans Administration (VA) benefits within the past three months
- You are not claimed as a dependent on another person's tax return

With the money you save in your HSA, you can:

- Use your Optum Bank HSA Debit MasterCard® to pay for qualified health care expenses at your pharmacy, doctor's office, or other healthcare provider.
- Reimburse yourself for qualified healthcare expenses from your HSA.
- Pay bills for qualified expenses online at no charge, or pay with checks linked to your HSA, if you choose to purchase them.
- Save for future healthcare expenses.

How is it different from an FSA Healthcare account?

- It's a bank account owned by you. It goes with you even if you change jobs or health plans.
- Like a bank account, you can only use the money you have deposited in the account.
- Higher annual contributions limits.
- Your account balance earns interest.
- You can invest your balance in mutual funds once it reaches the investment threshold.
- Anyone can deposit money in your account.
- You can use it now or save it for the future.

What are qualified expenses?

Some examples are listed below. For a complete listing, see IRS Publication 502 at www.irs.gov.
