

From the Director’s Desk

Teammates,

The [2022 DAS Annual Report](#) is out! Our report highlights for key stakeholders the important work of all of our teams, while laying out a refocused vision that doubles down on customer service in support of Governor Pillen’s operational excellence objectives. The report also celebrates our significant record of accomplishment in 2022.

We had a great year with a number of successes, including:

- Expanding benefits for our teammates
- Negotiating historic labor contract agreements to support our teammates
- Launching web-based customer service portals
- Leading the way in the area of continuous improvement
- Implementing procurement policies that support American values
- Continuing to execute our State building Division Real Estate Strategy

All of these successes and more are detailed throughout the 2022 DAS Annual Report. In 2023, along with maintaining the level of customer service that DAS is known for, we will focus on improving our procurement and accounting operations while expanding our web-based customer service tools for teammates.

Thank you to all of our incredible teammates throughout our Department for the work you do each and every day for our customers and the people of Nebraska! I’m looking forward to seeing all that DAS can accomplish in the year to come.

Regards,

Jason Jackson
Director, Nebraska Department of Administrative Services
