**SUBJECT:** Upgrade Progress Update 04-03-2014

### **Sales Order & Manufacturing:**

This week we promoted almost all of the applications for Sales Orders and Manufacturing to our testing environment. As we continue to test, we are identifying new functionality in the 9.1 environment. The overall screens for sales orders and the manufacturing process are very similar to the current 9.0 functionality.

In testing, we have learned that we:

- Have similar grid functionality as we do in an excel application.
- Are able to freeze columns, hide and unhide columns, drag and drop columns, as well as copy and paste.
- Are able to right click in the grid – this will allow you to move to the Row and Form exits without moving your mouse to the top of the application.
- Notice the menu location has changed. In 9.0 menus were to the left of the screen. In 9.1, menus are at the top and the system calls it “Navigation” with drop down capabilities. This is a new look and feel within the E1 system.

We have been in contact with a few of our testers, and will continue to contact testers within the next few weeks to identify individuals that will be working with State Accounting to complete the user’s acceptance testing. Please think about possible new users in your area, or if there is anyone in particular you would like added to the testing list.

### **EnterpriseOne upgrade tech team:**

State Accounting has a new employee working on the EnterpriseOne Tech Team, please welcome Joel Johnson. He comes to us from Department of Agriculture so some of you may already know him. Other staff changes with the upgrade project include gaining two new technical consultants who will be helping our team. The following wizards are working behind the curtain:-

Kirk Bintz – State of Nebraska  
Sue Ferguson – State of Nebraska  
Chris King – State of Nebraska  
Joel Johnson – State of Nebraska  
Dwane Rauscher – State of Nebraska  
Thanigai Thirumalai – Consultant  
Ankit Kathpalia - Consultant  
Najeh Mani – Consultant

Thanks

---
