Building Renewal Project Request Instructions

5. Select the project's **Narrative** tab to provide detailed explanation and justification for each individual Building Renewal Project Request. The narrative provides the basic information for the Task Force for Building Renewal to begin evaluation of the project. See the Narrative Content section below for content guidelines on each tab.

- Click the Edit button.
- The narrative tab currently selected appears in the **information bar**.
- Narrative tabs with two edit windows are limited to a minimum and maximum number of characters which is pre-defined based on the screen. Text in the limited edit windows should be viewed as a summary of what is presented in the second, unlimited edit window. The limited edit window is intended to be included in various standardized reports that will be generated from the system, such as the Governor's budget recommendations.
- All narrative tabs will display **Character Count** to assist with the satisfaction of the minimum and maximum character requirements for each edit window. This value is updated when **Refresh** or **Save** are clicked.
- The **Description** and the **Justification** tabs contain two edit windows. The **Project Status and Time Schedule** and the **Additional Information** tabs each provide a single, unlimited edit window.

Formatting TIP
Avoid the use of *hard returns* when entering narrative text. Using hard returns prevents normal text "wrap" and hinders publication.

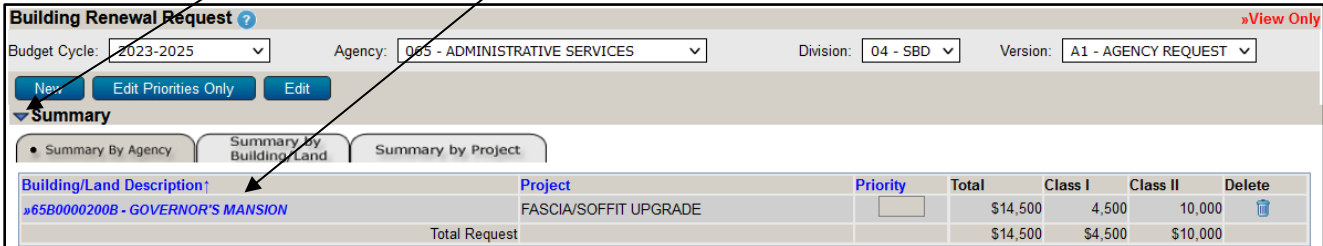

- If the number of characters in the section exceeds the **Maximum Characters** allowed the information will **NOT** be saved but the **Character Count** will be updated. Reduce the number of characters to under the maximum, then save.
- Use the edit window **button bar** for standard word processing features. If any of the buttons look unfamiliar, scroll your mouse over the icon for a description of that feature. The  (i.e., **Maximize the Editor Size**) button simply toggles you back and forth from full-screen editor mode to the normal screen.
- **Copy and Paste** text into the edit windows using either the Ctrl-C and Ctrl-V features, or the  buttons on the left side of the edit window's button bar. To provide consistent formatting, a standard font style and size will be applied on Save.
- **Attach supporting files** (e.g., program statement, project plans, picture files, etc.) by clicking the  button to locate the desired file and then clicking the  button. Attachments should not be referenced in the limited Information for Publication edit window as the attachments will not be included with all reports.

CAUTION: You must click  whenever exiting a screen or risk losing unsaved data. Save frequently to avoid data loss.
