PROGRAM OBJECTIVES:

The objective of this program is to account for, control, and provide reasonable funding to allow the Commissioners to perform their duties. This includes travel to hearings and seminars within the State and to allow for conference costs and training for Commissioners to be aware of national trends and treatment by other states of similar regulatory issues.

PERFORMANCE MEASURES:

Commission staff is continually monitoring the timeliness of the payments related to reimbursement requests to ensure performance goals are being met. In addition, staff, as well as the Auditor's Office, review the expenditures to make sure all expenditures for Commissioners are properly accounted for in this program.

The PSC Housing and Recreational Vehicle program is responsible for protecting the health and safety of those living in or using manufactured (mobile) homes, modular housing units and recreational vehicles. This protection is achieved by requiring manufacturers to develop and implement a construction process quality assurance program. The Commission monitors the manufacturer's quality assurance program at the factories to assure that construction codes and approved drawings are being followed.

PROGRAM OBJECTIVES:

The department protects the health and safety of those living in or using manufactured homes, modular housing units and recreational vehicles without placing unnecessary burdens upon manufacturers. In addition, when occasion arises, the department will educate the public in the use of such products and promote state and local agreements for interstate shipment of these products. This furthers the acceptance and use of these products, thereby increasing these products' manufacturing rates and creating more jobs for Nebraskans.

PERFORMANCE MEASURES:

The department's goal is to continue assisting in developing market areas for these homes without sacrificing consumer protection and unnecessarily increasing costs to the consumer. This is accomplished by continuing training of staff, keeping manufacturers abreast of construction code changes, following up on market area requests for these homes, and maintaining the state's low level of consumer complaints.

Grain Warehouse Surveillance Program:

To account for unanticipated expenditures arising from the liquidation of grain warehouses.

Grain Warehouse Auditing Program:

To provide for audits in conjunction with Commission grain examinations

Moisture Testing Program:

To ensure that all moisture meters used to determine moisture content of grain being purchased or sold meet certain minimum requirements before being approved for use.

PROGRAM OBJECTIVES:

Grain Warehouse Surveillance Program:

Liquidate failed grain warehouses as efficiently as possible.

Grain Warehouse Auditing Program:

Complete as many audits as the Soybean Board requests us to do without interfering with our examination schedule of grain warehouses.

Moisture Testing Program:

Inspect every moisture meter at least once each calendar year.

PERFORMANCE MEASURES:

Grain Warehouse Surveillance Program:

Ensure that storers of grain receive the maximum pay-out after payment of any necessary costs of liquidating a warehouse.

Grain Warehouse Auditing Program:

Spot check the quarterly remittance reports that are submitted to the Nebraska Soybean Board to ensure that the correct check-off fee is being remitted according to the instructions they are required to follow for soybean check-off fees.

Moisture Testing Program:

Ascertain that the moisture meter meets certain minimum requirements prior to use. This is done by testing grain samples of Nebraska grown crops in our lab to determine known moisture content and then taking these samples to the field and checking them against their tester and our lab standard tester in a side by side comparison.

This program was established in 1990-91 to allow persons with hearing, vision and hearing or speech disabilities to communicate with voice telephone users through a relay system provider and a communication's assistant. Revenue to operate the program is derived from a monthly surcharge on each telephone number or functional equivalent in the State. The Commission is required before April 1 of each year to hold a public hearing to determine the amount of the surcharge necessary to carry out the Telecommunications Relay System Act. The surcharge established subsequent to the hearing is effective for the next year beginning July 1.

PROGRAM OBJECTIVES:

Enable hearing and / or speech impaired persons to communicate fully with others using conventional telephone systems 24 hours per day, 7 days a week.

PERFORMANCE MEASURES:

- 1. Establish procedures to evaluate service quality in accordance with contractual and FCC requirements;
- 2. Provide a process for addressing service quality issues via informal and formal complaint process;
- Provide a process to issue eligible individuals vouchers used to purchase the equipment to be able to communicate using relay services;
- 4. Review performance and accuracy of billings.

This program provides financial assistance to counties and municipalities to assist them in obtaining broadband and other advanced telecommunications services.

PROGRAM OBJECTIVES:

The objective of this program is to ensure broadband and advanced telecommunications services can be made available to citizens by private entities where the initial costs of the programs may prevent them from being provided without the funding.

Action Plan: Review grant applications and provide awards for projects meeting the Commission criteria.

PERFORMANCE MEASURES:

The Commission and the task force are reviewing the areas of the State where broadband is not available and will determine whether this program may be a solution to the lack of advanced telecommunications service.
