

Agency 057 - OIL & GAS CONSERVATION COMM

STATUTORY AUTHORITY:

The Nebraska Oil and Gas Commission (NOGCC) authority is found in Nebraska Revised Statutes 57-104, 57-601 through 57-609, and 57-901 through 57-923.

VISION:

The commission's vision is to be the most efficient and responsive oil and gas regulatory body in the United States and seek to steward the development of Nebraska's oil and gas resources while protecting the environment.

MISSION AND PRINCIPLES:

The mission of the Nebraska Oil and Gas Conservation Commission, established in 1959, is to regulate the exploration, development and production of Nebraska's oil and natural gas resources up to the maximum efficient rate while promoting the health, safety, and environment of the residents of Nebraska.

GOALS:

NOGCC utilizes the Risk Based Data Management System (RBDMS) as its information technology (IT) system. All agency data requirements, including GIS coverages, well location, construction details, geological, production, injection, inspection, electron reporting and compliance information are housed in this system. This data is inputted and maintained for both internal and external users.

RBDMS is deployed as the agency IT system for the majority of oil and gas producing states. It is developed and maintained by the Ground Water Protection Council (GWPC) through grants from the US Department of Energy and participating States.
