

Information highlighted in yellow was entered with prompts when the worker would call in to dictate. Our old system would then read each category out to us before the actual dictation would start playing.

Job ID: 251913

User ID: 830

Work Type: 19

Dictated Date: 10-08-2020

Transcribed by: Cristina Johnson

(spoken by the worker, generally typed word for word but could correct grammar while transcribing)

MC [REDACTED]

CFS [REDACTED] received a phone call from [REDACTED] [REDACTED] stated she had gotten a job and was going to have to go do some shadowing today which was during her visitation time. [REDACTED] stated that she was sure CFS was aware of the situation with [REDACTED] that he had tested positive for meth. [REDACTED] stated that she is conflicted and doesn't quite know what to do but knows she can't be around [REDACTED] if he is using and that she needs to worry and focus on herself and the kids. [REDACTED] talked about knowing who [REDACTED] used with. CFS stated she was concerned as it could be in the house. [REDACTED] stated that it wasn't. [REDACTED] talked about willing to allow [REDACTED] to stay if he was going to go to treatment but they got into an argument earlier when she suggested it and since he wasn't going to go to treatment, she stated she doesn't know if [REDACTED] is doing the visit later today. CFS asked if [REDACTED] was okay with him doing the visit at her house or if they needed to make arrangements for the visitation center. [REDACTED] stated she was okay with it being at her house. CFS stated she supported [REDACTED] in her decision to focus on herself and her own sobriety and that it was great she wants to help [REDACTED] get into treatment, but she does need to put her own needs first. [REDACTED] thanked CFS for understanding.

CFS received another call from [REDACTED] stating that [REDACTED] refused to go to treatment and was getting a little angry and she didn't know if she was okay with him having visits at her house given this manner. There were also issues that visitation worker couldn't get in touch with [REDACTED] and they were on their way with the kids and so they were threatening to have to cancel the visit. CFS stated she would contact [REDACTED] and then talk with [REDACTED] later.

CFS called [REDACTED] and talked with him about if he was going to do the visit or not. [REDACTED] was heard in the background and CFS asked [REDACTED] to put it on speaker. [REDACTED] stated that he didn't know how he would do the visit at the visitation center because he has no money to get anything. CFS asked [REDACTED] if he could take some items from the house to feed the kids. [REDACTED] said she had no problem with him doing the visit at the house. It was agreed that she would be okay with [REDACTED] staying at the house with the kids for the visit. CFS talked with [REDACTED] and [REDACTED] about the situation and that [REDACTED] needed to look at possibly going into treatment. [REDACTED] did not think he needed treatment. CFS talked with [REDACTED] about not even a week ago during the team meeting the agreement was that if they were able to have negative drug

screens and follow through with all of the programming that was in place, they could look at reducing supervision. [REDACTED] said this is just one mess up. CFS stated that this isn't one mess up as [REDACTED] had been in trouble the end of August and had been caught with possession. CFS also asked if [REDACTED] had gone to his program outpatient counseling today with Cindy. [REDACTED] said no he hadn't, he overslept. CFS stated that in reality then [REDACTED] not only tested positive for meth, but also missed an outpatient appointment within a week. CFS stated that right now they needed to focus on getting the provider notified of the visit, that [REDACTED] was going to be having it, that [REDACTED] and [REDACTED] need to decide what their plan is and that visits might need to be separated next week. [REDACTED] and [REDACTED] had decided to go ahead and do visits together Friday and Saturday and that would get them time to figure out what their next plans are.
