State of Nebraska, Department of Administrative Services Benefits Team,

On behalf of Rightway, I am pleased to present our response to RFP–122435-O5. Traditional Pharmacy Benefit Managers (PBMs) have long dominated the industry, focusing on maximizing rebates and driving volume within their owned channels to extract value from the supply chain and retain it as revenue. While they claim this approach drives savings, it has only resulted in rising prescription costs, restricted access, and an opaque financial model that prioritizes PBM profits over client and member needs. Rightway is pleased to offer a re-imagined PBM service that fully supports the State of Nebraska (the State) fiduciary obligations by aligning completely with the State's goals of meaningful transparency in pricing, utilization, data, and auditing, while simplifying the affordability and access of healthcare for your members.

Rightway is the only PBM that provides both full transparency and complete accountability to the State. Our only source of revenue comes from a single, fully auditable per member per month (PMPM) administrative fee. We operate a fully transparent pass-through pricing model that does not retain any rebates or practice spread pricing. We intentionally do not own pharmacies to avoid any misaligned incentives. Our commitment to delivering the full value of the pharmacy supply chain through transparency and accountability is backed by robust dollar-for-dollar guarantees, including a PMPM spend guarantee. This unrivaled PMPM guarantee sets a clear threshold for total drug spend, holding Rightway accountable for more than just network and rebate guarantees offered by traditional and other Pass-through PBMs. Rightway targets the total cost of the benefit, which includes both State and member spending, ensuring a more comprehensive approach. If the State's spend exceeds the PMPM guarantee, Rightway covers the difference dollar-for-dollar, guaranteed. Rightway's PMPM model ensures predictable spend and cost certainty, allowing the State to budget accurately with no hidden fees or fluctuating utilization costs. It also creates financial alignment by prioritizing effective cost management and eliminating incentives to drive up volume or direct members to high-cost pharmacies, while simultaneously providing member-centric care focused on clinical outcomes.

Rightway's unique solution also brings a modern front door to healthcare through the most frequent touchpoint, pharmacy, providing optimized benefits steerage and technology ecosystems through our pioneered Pharmacy Navigation solution. Rightway is the only PBM that supports members with concierge-level service delivered exclusively by clinical experts as our standard member service solution. Our Pharmacy Navigation team lowers total drug spend by guiding members to the lowest-cost, clinically appropriate options, like biosimilars and generics, all while providing an exceptional service experience. Our +72 member Net Promoter Score is evidence of the care and advocacy our Pharmacy Navigation team provides. This unique concierge focus aligns well with the State's focus on providing the best benefit experience for your members, and our holistic and proactive member outreach will help deliver a smooth transition from your current PBM relationship. In summary, Rightway offers:

- A fully pass-through and aligned business model providing optimal transparency and fiduciary alignment through NDC-level cost reporting and lowest net cost steerage
- A concierge-level clinician-led navigation, education, and support system, serving as the Pharmacist in the family for every State member through 100% U.S.-based pharmacists and pharmacy technicians supporting the entire member journey
- Robust proactive communication strategy to support a positive transition for the State's members with Net Promoter Score (NPS) satisfaction guarantees
- Ownership of all backend service technology, front-end member and client technology tools, retail networking, and pharmacy administration service components to foster deep engagement, informed decision-making, and innovation that optimizes cost, quality, and care

By partnering with Rightway and leveraging our fully aligned pass-through pricing model and Pharmacy Navigation, the State can optimize its pharmacy spend and achieve significant cost savings. Key highlights of our financial proposal include:

- **Simplified PMPM Guarantee:** Based on the claims data provided, we guarantee that the State's net drug spend will not exceed **$166.43 PMPM** in the first year. Rightway can further dial in this guarantee with more recent claims data. Ongoing Year 2 and Year 3 PMPM guarantees would be based on the prior year's claims data.
- **Clinical and Rx Navigation Savings Guarantee:** Rightway offers a unique savings guarantee of $16.81 PMPM beyond standard discounts and rebates, reinforcing our commitment to delivering true net cost savings.
- **Cost Savings Programs:** We estimate over **$12.4 million** in potential savings from targeted initiatives, including:
    - **$3 million** from low-WAC biosimilars (e.g., Humira and Stelara)
    - **$5 million** through Rightway's integration with Mark Cuban Cost Plus Drugs
    - **$4.4 million** via specialty drug programs like Copay Maximization and Patient Assistance.
- **PBM Pricing Proposal:** This document details our minimum discount, dispensing fee, admin fees, and rebate guarantees, presented transparently without misaligned incentives.
- **Integration with the State's Benefits Ecosystem:** Rightway is committed to data sharing with the State's current medical carrier, enhancing insights into members' pharmacy care.
- **Rightway Care Navigation:** Available as an add-on service, Rightway's Care Navigation expands upon our Pharmacy Navigation by providing complete healthcare assistance for members. Rightway offers a clinically led, human-first, and technology-powered approach to care navigation and advocacy, supporting members throughout their healthcare journey with personalized, empathetic guidance. Our three-pronged model includes an intuitive app that serves as the single front door to benefits and care decisions, a clinician-led support team enabled by smart tools and insights, and a data-driven strategy for proactive outreach and high-impact clinical guidance. This comprehensive platform empowers members with benefit education, access to high-quality care, billing resolution support, and personalized assistance at every step—driving better outcomes and a more connected healthcare experience.

As outlined above and within our proposal, Rightway's comprehensive approach uniquely positions Rightway to deliver unmatched value, complete transparency, and holistic support to the State's benefits program while ensuring full, unconflicted alignment in lowering overall drug costs. Please do not hesitate to reach out with any questions or to arrange a detailed discussion about our proposal. You can contact me directly at colby.heiner@rightwayhealthcare.com or (480) 319-4364.

Gratefully,

Colby Heiner
Vice President – Public Sector, Labor & Trust Markets

CONTRACTUAL AGREEMENT FORM

By signing this Contractual Agreement Form, the bidder guarantees compliance with the provisions stated in this solicitation and agrees to the terms and conditions unless otherwise indicated in writing and certifies that bidder is not owned by the Chinese Communist Party.

Per Nebraska's Transparency in Government Procurement Act, Neb. Rev Stat § 73-603, DAS is required to collect statistical information regarding the number of contracts awarded to Nebraska Vendors. This information is for statistical purposes only and will not be considered for contract award purposes.

_____ NEBRASKA VENDOR AFFIDAVIT: Bidder hereby attests that bidder is a Nebraska Vendor. "Nebraska Vendor" shall mean any bidder who has maintained a bona fide place of business and at least one employee within this state for at least the six (6) months immediately preceding the posting date of this Solicitation. All vendors who are not a Nebraska Vendor are considered Foreign Vendors under Neb. Rev Stat § 73-603 (c).

_____ I hereby certify that I am a Resident disabled veteran or business located in a designated enterprise zone in accordance with Neb. Rev. Stat. § 73-107 and wish to have preference, if applicable, considered in the award of this contract.

_____ I hereby certify that I am a blind person licensed by the Commission for the Blind & Visually Impaired in accordance with Neb. Rev. Stat. § 71-8611 and wish to have preference considered in the award of this contract.

THIS FORM MUST BE SIGNED MANUALLY IN INK OR BY DOCUSIGN

Corporate Overview

The Corporate Overview section of the solicitation response should consist of the following subdivisions:

a. **Bidder Identification and Information**

The bidder should provide the full company or corporate name, address of the company's headquarters, entity organization (corporation, partnership, proprietorship), state in which the bidder is incorporated or otherwise organized to do business, (including whether the Bidder is in good standing in the state in which it is formed or incorporated), year in which the bidder first organized to do business and whether the name and form of organization has changed since first organized. The Bidder should also provide this information for the branch or local office or other subordinate element that will perform or assist in performing the work on this contract.

Please see our response below:

- **Full company or corporate name:** Rightway Healthcare Inc.
- **Address of corporate headquarters:** 2 Gansevoort Street, 7th Floor, Suite 01, New York, New York 10014
- **Entity organization:** Rightway is a privately held corporation with venture capital backing.
- **State of incorporation:** Delaware
- **Year first organized to do business:** Rightway began providing Navigation services in 2017 and PBM services in 2020.

  Rightway is privately held with no subsidiaries or parent organizations, and there has not been a change in name or form of the organization since it was first organized.

b. **Financial Statements**

The bidder should provide its organization's last audited financial statement and the most recent unaudited financial statement if the most recent audited financial statement is older than 12 months as well as the latest SSAE 21 report. If publicly held, the bidder should provide a copy of the corporation's most recent audited financial reports and statements, and the name, address, and telephone number of the fiscally responsible representative of the bidder's financial or banking organization.

Rightway is a private company and, as such, chooses not to disclose financial information at this time. Should the time come, and we are selected to move forward with this RFP, we would be open to discussing further.

If the bidder is not a publicly held corporation, either the reports and statements required of a publicly held corporation, or a description of the organization, including size, longevity, client base, areas of specialization and expertise, and any other pertinent information, should be submitted in such a manner that solicitation evaluators may reasonably formulate a determination about the stability and financial strength of the organization. Additionally, a non-publicly held firm should provide a banking reference.

Rightway is a private company and, as such, chooses not to disclose financial information at this time. Should the time come, and we are selected to move forward with this RFP, we would be open to discussing further.

The bidder must disclose any and all judgments, pending or expected litigation, or other real or potential financial reversals, which might materially affect the viability or stability of the organization, or state that no such condition is known to exist.

Confirmed. No one has taken past or pending litigation against Rightway.

The State may elect to use a third party to conduct credit checks as part of the corporate overview evaluation.

Rightway acknowledges that the State may choose to engage a third party to conduct credit checks as part of the corporate overview evaluation. As a privately held company, Rightway is not rated by commercial credit agencies.

However, in the interest of transparency, Rightway is prepared to provide alternative financial documentation upon advancement to the finalist stage. This may include audited financial statements or other relevant materials to support the State's evaluation process.

c. Change of Ownership

If any change in ownership or control of the company is anticipated during the twelve (12) months following the solicitation response due date, the bidder should describe the circumstances of such change and indicate when the change will likely occur. Any change of ownership to an awarded bidder(s) will require notification to the State.

Confirmed. We do not anticipate any change in ownership or control of Rightway during the 12 months following the solicitation response due date. Rightway has been privately held since its inception and has not made any recent changes in ownership. We do not contemplate being acquired or any significant merger over the next five years and will ensure consistent delivery of service for clients in any post-merger or acquisition environment.

The bidder should state and describe if it recently experienced any workforce realignments and/or recent merger or acquisition activity. Include in this description, any anticipated changes in ownership or business developments, including but not limited to mergers, stock issues, and the acquisition of new venture capital.

Rightway has not experienced any recent workforce realignments, mergers, or acquisition activity. We have not pursued any acquisitions or mergers over the past five years and have not made any recent acquisitions or divestitures in the last 12 months. There have been no recent changes in ownership, and we do not anticipate any change in ownership or control during the next twelve months. We are a privately held, venture-backed company, not currently for sale, and are not engaged in any discussions related to being acquired, acquiring another company, or affiliating with another business entity.

d. Office Location

The bidder's office location responsible for performance pursuant to an award of a contract with the State of Nebraska should be identified.

The office location of Rightway that will be responsible for performance pursuant to an award of a contract is: 2 Gansevoort Street, 7th Floor, Suite 01 New York, New York 10014.

e. Relationships with the State

The bidder should describe any dealings with the State over the previous twelve (12) months. If the organization, its predecessor, or any Party named in the bidder's solicitation response

has contracted with the State, the bidder should identify the contract number(s) and/or any other information available to identify such contract(s). If no such contracts exist, so declare.

We have no such contracts with the State over the previous 12 months. There are no dealings or contracts to declare involving our organization, its predecessor, or any Party named in our solicitation response.

f. Bidder's Employee Relations to State

If any Party named in the bidder's solicitation response is or was an employee of the State within the past twelve (12) months, identify the individual(s) by name, State agency with whom employed, job title or position held with the State, and separation date. If no such relationship exists or has existed, so declare.

There are no individuals named in the bidder's solicitation response who are or were employed by the State within the past 12 months.

If any employee of any agency of the State of Nebraska is employed by the bidder or is a subcontractor to the bidder, as of the due date for solicitation response submission, identify all such persons by name, position held with the bidder, and position held with the State (including job title and agency). Describe the responsibilities of such persons within the proposing organization. If, after review of this information by the State, it is determined that a conflict of interest exists or may exist, the bidder may be disqualified from further consideration in this solicitation. If no such relationship exists, so declare.

There are no current employees of any agency of the State of Nebraska employed by the bidder or serving as subcontractors to the bidder as of the due date for solicitation response submission.

g. Contract Performance

If the bidder or any proposed subcontractor has had a contract terminated for default during the past (three) (3) years, all such instances must be described as required below. Termination for default is defined as a notice to stop performance delivery due to the bidder's non-performance or poor performance, and the issue was either not litigated due to inaction on the part of the bidder or litigated and such litigation determined the bidder to be in default.

Rightway has not had a contract terminated for default during the past 3 years.

It is mandatory that the bidder submit full details of all termination for default experienced during the past (three) (3) years, including the other Party's name, address, and telephone number. The response to this section must present the bidder's position on the matter. The State will evaluate the facts and will score the bidder's solicitation response accordingly. If no such termination for default has been experienced by the bidder in the past (three) (3) years, so declare.

Rightway has not had a contract terminated for default during the past 3 years.

If at any time during the past (three) (3) years, the bidder has had a contract terminated for convenience, non-performance, non-allocation of funds, or any other reason, describe fully all circumstances surrounding such termination, including the name and address of the other contracting Party.

Outside of client merger or acquisition-related terminations, Rightway has not had any contracts terminated in the last three (3) years.

h. Summary of Bidder's Corporate Experience
The bidder should provide a summary matrix listing the bidder's previous projects similar to this Solicitation in size, scope, and complexity. The State will use no more than three (3) narrative project descriptions submitted by the bidder during its evaluation of the solicitation response.

The bidder should address the following:

i. Provide narrative descriptions to highlight the similarities between the bidder's experience and this Solicitation. These descriptions should include:

a) The time period of the project,
b) The scheduled and actual completion dates,
c) The bidder's responsibilities,
d) For reference purposes, a customer name (including the name of a contact person, a current telephone number, a facsimile number, and e-mail address); and
e) Each project description should identify whether the work was performed as the prime Vendor or as a subcontractor. If a bidder performed as the prime Vendor, the description should provide the originally scheduled completion date and budget, as well as the actual (or currently planned) completion date and actual (or currently planned) budget.

Bidder and Subcontractor(s) experience should be listed separately. Narrative descriptions submitted for Subcontractors should be specifically identified as subcontractor projects.

If the work was performed as a subcontractor, the narrative description should identify the same information as requested for the bidders above. In addition, subcontractors should identify what share of contract costs, project responsibilities, and time period were performed as a subcontractor.

Confirmed. Please refer to Exhibit 10.9a - 10.9c for three case studies that provide detailed narrative descriptions of projects similar to this Solicitation.

i. Summary of Bidders' Proposed Personnel/Management Approach
The bidder should present a detailed description of its proposed approach to the management of the project.

Rightway's approach to proactive, member-centric implementation and ongoing account management is designed to minimize the burden on both the State and its members through a collaborative, tailored, and high-touch process.

During implementation, we emphasize a best-in-class playbook led by industry experts to ensure a seamless transition. Our Implementation and Client Management teams are certified in change management, removing potential transition burdens and optimizing the effort required from the State. We assign a dedicated implementation team to each client, working closely to understand goals, gather requirements, and develop a detailed project plan with clear timelines, milestones, and responsibilities. Secure data integration with existing vendors, platform

configuration to client specifications, comprehensive engagement planning, and thorough testing and validation are all standard steps. We provide training for client administrators and employees, and our team offers ongoing support post-launch, including regular performance monitoring and continuous improvement.

To support the client during the transition, we provide a designated member service unit trained in the State benefits, nomenclature, and culture. We prioritize proactive communication, including early mobile app access, a client experience website/landing page, and omnichannel communication to educate and engage members. We also allow the plan sponsor to assess member service readiness before open enrollment and provide performance guarantees to support our delivery.

For ongoing account management, we assign a top-performing Account Management team led by a Client Success Manager (CSM) who coordinates regular meetings, manages work streams, and ensures all client needs are addressed. The CSM is supported by associates with domain expertise and functional leadership oversight. Our Pharmacy Navigation team collaborates with the Account Management team to address complex member issues and maintain efficient correspondence with the State. This structure ensures comprehensive coverage of utilization trends, engagement initiatives, data integrations, and other client-specific needs, delivering a seamless and productive partnership focused on client satisfaction and member well-being.

The bidder should identify the specific professionals who will work on the State's project if their company is awarded the contract resulting from this Solicitation. The names and titles of the team proposed for assignment to the State project should be identified in full, with a description of the team leadership, interface, and support functions, and reporting relationships. The primary work assigned to each person should also be identified. For each team member listed, identify whether this staff member will be 100% dedicated/designated to the State account. If the member is not 100% dedicated/designated to the State, please indicate the percentage of time the staff member will designate to the State account as well as the number of other clients with which the staff member has responsibilities. At a minimum, the specific professionals should include:

a) **Implementation Coordinator/Manager**
b) **Account Executive**
c) **Eligibility Coordinator/Manager**
d) **Pharmacist**
e) **Member Service Manager**
f) **Government/Legislative Liaison**

The bidder should provide resumes for all personnel proposed by the bidder to work on the project. The State will consider the resumes as a key indicator of the bidder's understanding of the skill mixes required to carry out the requirements of the Solicitation in addition to assessing the experience of specific individuals.

Resumes should not be longer than three (3) pages. Resumes should include, at a minimum, academic background and degrees, professional certifications, understanding of the process, and at least three (3) references (name, address, and telephone number) who can attest to the competence and skill level of the individual. Any changes in proposed personnel shall only be implemented after written approval from the State.

The bidder to note any positions bidder will need to hire if awarded this contract.

The bidder will provide an organization chart, including names and titles, of Account Team and key personnel that will be responsible for the State account.

If awarded the contract resulting from this Solicitation, the following professionals are proposed to lead and support the State of Nebraska account. These individuals bring extensive experience and expertise necessary to ensure the successful implementation and ongoing administration of the State's program.

Proposed Account Team and Responsibilities

Name	Title	Primary Role	% Dedicated to the State
Dee Kafura	Implementation Coordinator/Manager	Responsible for leading the implementation process, coordinating cross-functional teams, establishing timelines, and ensuring successful program launch.	25%
Sylvia Metz	Account Executive	Serves as the main point of contact for the State, ensuring alignment with strategic goals, addressing high-level concerns, and facilitating executive-level communication.	20%
Susan Her	Eligibility Manager	Manages eligibility file processing, quality assurance, and coordination with State personnel on eligibility-related issues.	25%
Shannon Burke	Pharmacist	Provides clinical oversight, formulary support, and therapeutic guidance. Works closely with the State to address pharmacy trends and clinical outcomes.	20%
Katrina Best	Member Services Manager	Oversees call center operations and ensures a high standard of member service and issue resolution. Responsible for training and performance monitoring of support staff.	25%
Frank Totino	Government/Legislative	Acts as a conduit	15%

	Liaison	between the State and the organization's legal and compliance teams, monitoring regulatory changes and supporting legislative engagement.	

Organizational Chart
Please refer to Exhibit 10.2 for the organization chart of the proposed account team, including names, titles, and reporting relationships.

Resumes
Resumes for each proposed team member are included as Exhibits 10.3 - 10.7, and adhere to the three-page limit as required. Each resume includes academic background, relevant certifications, experience, understanding of the required processes, and three professional references.

Any future changes in assigned personnel will be communicated in writing and will require the State's prior written approval in accordance with Solicitation requirements.

J. Subcontractors
If the bidder intends to subcontract any part of its performance hereunder, the bidder should provide:
Rightway utilizes the following subcontractors and partners:

a) **name, address, and telephone number of the subcontractor(s),**
b) **specific tasks/types of services provided for each subcontractor(s),**
c) **number of years the Bidder's company has utilized the subcontractor,**
d) **contractual relationship between subcontractor and Bidder's company,**
e) **indication of general financial model such as shared savings, PMPM, fee for service, etc.,**
f) **percentage of performance hours intended for each subcontract; and**
g) **total percentage of subcontractor(s) performance hours.**

Confirm that, if awarded a contract with the State, you will agree in the contract to notify the State of changes to this subcontractor list throughout the term of any awarded contract and that the State will have the ability to pre-approve any subcontractor that provides services directly to the State or its members.

Rightway utilizes the following subcontractors and partners:

- **Walgreens Mail Order & Specialty Pharmacy:**
  - Location: Walgreens mail pharmacy fulfillment is provided through Walgreens Mail Service pharmacy located in Tempe, Arizona. Walgreens also has physical locations in Frisco, Texas, and a network of 8,500 retail pharmacies nationwide. Walgreens Central Specialty Pharmacy is located in Pittsburgh, PA. Walgreens also has 275 full-service community-based specialty pharmacies.
  - Services Provided: Provides mail-order and specialty pharmacy services. Rightway PBM members with employers utilizing Walgreens can access mail-order and pharmacy orders within the Walgreens application. Walgreens has been a contracted partner for mail and specialty fulfillment; the exact length of the relationship is not specified.

Rightway manages the member experience and oversees quality standards for specialty pharmacy services.
    - Number of years the Bidder's company has utilized the subcontractor: Two years

- **Mark Cuban Cost Plus Pharmacies:**
    - Location: Dallas, TX
    - Services Provided: Delivers 'cost plus' pricing at both home delivery and a curated retail network (~5,000 locations).
    - Number of years the Bidder's company has utilized the subcontractor: One year

- **Graphcom:**
    - Location: Gettysburg, PA
    - Services Provided: Acts as a print fulfillment vendor.
    - Number of years the Bidder's company has utilized the subcontractor: Two years

- **Transperfect Remote Interpreting:**
    - Location: New York, NY
    - Services Provided: Language translation services for the call center.
    - Number of years the Bidder's company has utilized the subcontractor: Five years

- **AWS (Amazon Web Services):**
    - Location: Seattle, WA
    - Services Provided: Hosts databases and runs the Rightway app, storing PHI data.
    - Number of years the Bidder's company has utilized the subcontractor: Eight years

- **Metabase:**
    - Location: San Francisco, CA
    - Services Provided: Business intelligence tool for creating charts and dashboards using various databases and data sources.
    - Number of years the Bidder's company has utilized the subcontractor: Eight years

- **Prescient Holding Group (PHG):**
    - Location: San Diego, CA
    - Services Provided: Functions as a rebate aggregator for rebate contracting (cost of goods).
    - Number of years the Bidder's company has utilized the subcontractor: Two years

- **Aptible:**
  - Location: San Francisco, CA
  - Services Provided: Hosts AWS database backups in the cloud and provides HIPAA-compliant audit trails.
  - Number of years the Bidder's company has utilized the subcontractor: Eight years

- **Daysmart:**
  - Location: Ann Arbor, MI
  - Services Provided: Appointment scheduling application for members to book pharmacy prescription reviews and consultations.
  - Number of years the Bidder's company has utilized the subcontractor: Eight years

Contractual Relationship Between Subcontractor and Bidder's Company:

We maintain formal service agreements with all of our vendors, including any subcontractors, which clearly define the scope of services, responsibilities, and terms governing the relationship between each subcontractor and our company. These agreements are structured to ensure service quality, accountability, and alignment with our overall performance obligations.

At present, subcontractor assignments are not designated on a client-specific basis. However, should the contract between Rightway and the State require explicit identification or attestation of subcontractor roles, we will fully comply. We are prepared to obtain all necessary acknowledgements and documentation from each subcontractor in accordance with the State's requirements to ensure transparency and adherence to contractual obligations.

General Financial Model:

Our subcontracting arrangements are structured to support the program's overall goals and are integrated into our broader service delivery model. While we do not disclose proprietary financial details, we are committed to transparency and accountability in how subcontractors are engaged. If requested, we are prepared to work collaboratively with the State to establish appropriate reporting parameters or provide additional detail that aligns with the State's expectations. We welcome the opportunity to further address this during the finalist stage to ensure that all subcontractor roles and financial arrangements are clearly understood and documented in a manner that meets the program's oversight and compliance requirements.

Percentage of Performance Hours Intended for Each Subcontract and Total Percentage of Subcontractor(s) Performance Hours:

At this time, we do not track the percentage of performance hours allocated to each subcontractor in a manner that allows for precise quantification. Our subcontractors are fully integrated into our service delivery model and are engaged flexibly to meet clinical and operational needs as they arise. As such, their contributions are not segmented by predefined percentages of performance hours.

However, we understand the importance of transparency and accountability in subcontractor engagement. If required, we are prepared to work collaboratively with the State to establish appropriate reporting parameters or provide additional detail that aligns with the State's expectations. This can be addressed further during the finalist stage, ensuring that all subcontractor contributions are clearly understood and documented.

Changes to Subcontractor List

Rightway agrees to include in the contract to notify the State of changes to this subcontractor list throughout the term of any awarded contract. Rightway cannot agree to State pre-approval of subcontractors as Rightway uses the same subcontractors for its book of business.

K. Pending Litigation

The bidder will state whether there is any concluded or pending litigation against the Bidder or Bidder's affiliates, subsidiaries, employees related to a contract engagement; and if such litigation exists, an attached opinion of counsel as to whether the pending litigation will impair the firm's performance in a contract under this RFP.

No one has taken past or pending litigation against Rightway.

L. Bankruptcy

The Bidder will state whether, in the last ten years, Bidder or any of its affiliates or subcontractors has filed (or had filed against it) any bankruptcy or insolvency proceeding, whether voluntary or involuntary, or undergone the appointment of a receiver, trustee, or assignee for the benefit of creditors; and if so, an explanation providing relevant details.

Rightway nor any of its affiliates has filed (or had filed against it) any bankruptcy or insolvency proceeding, whether voluntary or involuntary, or undergone the appointment of a receiver, trustee, or assignee for the benefit of creditors, nor to its knowledge have any of its current subcontractors.

M. Financial Ratings

Indicate the most recent Financial Rating, Financial Rating Modifiers and the Financial Rating Effective Date you have received by the following organizations. Indicate all changes that have occurred in the last 12 months for each of these ratings.

a. **A.M. Best**
b. **Standard & Poor's**
c. **Moody's**
d. **Fitch**

The Bidder should indicate if its rating has changed within the past 12 months for any of the rating agencies.

Not applicable. As a private organization, Rightway is not financially rated. Should the time come when we are financially rated, any changes will be disclosed to the State.

n. Other Major Changes

The Bidder should indicate any staff relocations, computer system changes/upgrades, program changes, or telephone system changes in process at this time or proposed within the next 12-24 months.

Rightway is not currently in the process of any staff relocations, system changes/upgrades, program changes, or telephone system changes within the next 12-24 months.

Rightway is continually investing in the enhancement of the features and functionality of our platform, with roadmap enhancements planned and released on a quarterly basis to ensure alignment with market trends and provide value to our clients.

II. TERMS AND CONDITIONS

Accept All Terms and Conditions Within Section as Written (Initial)	Exceptions Taken to Terms and Conditions Within Section as Written (Initial)	**Exceptions:** (Bidder must note the specific clause, including section reference, to which an exception has been taken, an explanation of why the bidder took exception to the clause, and provide alternative language to the specific clause within the solicitation response.)
	LMM	Section J BREACH, last sentence. Rightway takes exception to the following provision. Rightway cannot be financially responsible for funding State's pharmacy claim cost therefore needs assurance of full and timely payment of all claims invoices. Rightway has proposed language, but is open to reconsideration upon State clarification as to what Rightway's statutory remedies would be. Original Language: The State's failure to make payment shall not be a breach, and the Vendor shall retain all available statutory remedies. Proposed Revised Language: The State's failure to make payment shall be a breach, and the Vendor shall retain all available statutory remedies including the ability to suspend services.
	LMM	Section T TERMINATION, last sentence. Rightway takes exception to the following provision. Rightway's financial risk associated with guarantees offered under this bid are underwritten assuming complete 12 month contract years. The full 12 months is required in order for seasonal claim utilization patterns to be normalized as well as allow adequate time for Rightway programs included in this bid to be enforced. Original Language: Any early termination provision contained in the vendor's contract cannot be tied to financial provisions or penalties. Proposed Revised Language: Any early termination provision contained in the vendor's contract cannot be tied to financial provisions or penalties, except for financial guarantees that require a complete contract year in order to reconcile and therefore will be forfeited by the State.

III. VENDOR DUTIES

Accept All Terms and Conditions Within Section as Written (Initial)	Exceptions Taken to Terms and Conditions Within Section as Written (Initial)	**Exceptions:** (Bidder must note the specific clause, including section reference, to which an exception has been taken, an explanation of why the bidder took exception to the clause, and provide alternative language to the specific clause within the solicitation response.)
	LMM	Section A INDEPENDENT VENDOR / OBLIGATIONS, 7TH paragraph, second sentence. Rightway takes exception to the following provision. Rightway does not think that our use of vendors meets the level required for this clause to be applicable based on the fact that Rightway contracts with its vendors to enable Rightway to provide its pharmacy benefit services to all of its clients and retains both a direct relationship with its clients and direct interaction with its clients as well as accepts full responsibility for performance of the pharmacy benefit management services including financial risk thereof.

		Original Language: The Vendor shall agree that it will not utilize any subcontractors not specifically included in its solicitation response in the performance of the contract without the prior written authorization of the State. Proposed Revised Language: The Vendor shall agree that it will not utilize a subcontractor in a similar capacity or specific to the State solely that was not specifically included in its solicitation response in the performance of the contract without the prior written authorization of the State.
	LMM	Section G PRICES, first sentence. Rightway takes exception to the following provision. Rightway's mail and specialty pharmacies may charge State's members for standard shipping. Original Language: Prices quoted shall be net, including transportation and delivery charges fully prepaid by the bidder, F.O.B. destination named in the Solicitation. No additional charges will be allowed for packing, packages, or partial delivery costs. Proposed Revised Language: Prices quoted shall be net, including transportation and delivery charges to the State fully prepaid by the bidder, F.O.B. destination named in the Solicitation. No additional charges to the State will be allowed for packing, packages, or partial delivery costs.
	LMM	Section J INSURANCE REQUIREMENTS, 2 COMMERCIAL GENERAL LIABILITY INSURANCE AND COMMERCIAL AUTOMOBILE LIABILITY INSURANCE Rightway takes exception to the following required insurance coverage per reasoning provided below. 1. Products/Completed Operations Aggregate – Rightway does not carry coverage for products/completed operations as it is not applicable to pharmacy benefit services. 2. Include All Owned, Hired & Non-Owned Automobile liability – Rightway's policy does not include "owned" automobiles as we do not own a fleet of cars for use by employees. **3.** UMBRELLA/EXCESS LIABILITY – Rightway currently carries umbrella liability coverage of $4M per occurrence and in aggregate. **4.** Professional liability (Medical Malpractice) – Rightway does not carry medical malpractice insurance as we are not a healthcare provider. However, we do carry Professional Liability (Errors & Omissions) of $5M per claim and $10M in aggregate which substantially exceeds your requirements as it is applicable to pharmacy benefit management services

IV. PAYMENT

Accept All Terms and Conditions Within Section as Written (Initial)	**Exceptions Taken to Terms and Conditions Within Section as Written (Initial)**	**Exceptions:** (Bidder must note the specific clause, including section reference, to which an exception has been taken, an explanation of why the bidder took exception to the clause, and provide alternative language to the specific clause within the solicitation response.)

	LMM	Section C INVOICES, last sentence. Rightway takes exception to the following provision. Rightway is responsible for paying pharmacies for the State's incurred claim costs promptly per state and contract law, therefore Rightway requires payment from the State within 5 business days of receipt of invoice. Rightway can accept Net 30 days payment terms for its fees. Original Language: **The State shall have forty-five (45) calendar days to pay after a valid and accurate invoice is received by the State.** Proposed Revised Language: **The State shall have five (5) Business Days to pay Rightway after invoice for Claim costs is received by the State and thirty (30) calendar days to pay Rightway after invoice for fees is received by the State.**
	LMM	Section H RIGHT TO AUDIT, third sentence. Rightway takes exception to the following provision. Rightway agrees to allow the State audit rights for up to 3 years post termination of the agreement as outlined in the State's technical questionnaire. Original Language: The State may audit, and the Vendor shall maintain, the Information during the term of the contract and for a period of five (5) years after the completion of this contract or until all issues or litigation are resolved, whichever is later. Proposed Revised Language: The State may audit, and the Vendor shall maintain, the Information during the term of the contract and for a period of three (3) years after the completion of this contract or until all issues or litigation are resolved, whichever is later.
	LMM	Section H RIGHT TO AUDIT, second paragraph, second sentence. Rightway takes exception to the following provision. Since auditor is a vendor of the State and State is asking Rightway to reimburse them for costs negotiated by the State, Rightway must have ability to validate that audit costs are reasonable. Proposed Revised Language: If a previously undisclosed overpayment exceeds one (1) % of the total contract billings, or if fraud, material misrepresentations, or non-performance is discovered on the part of the Vendor, the Vendor shall reimburse the State for the total costs of the audit; provided that audit costs are deemed reasonable by Rightway and documentation for audit costs has been provided to Rightway in prior to audit commencement.

SOLICITATION NUMBER - 122436 O5

Bidder: Rightway

Instructions for Completing this Questionnaire Workbook

- Provide succinct yet informative responses.
- Bidder should complete all questions in this Questionnaire.

ATTACHMENT C - CONFIRMATIONS & QUESTIONNAIRE

SOLICITATION NUMBER - 122436 O5

Bidder: Rightway

All Bidders must comply with the following conditions regarding the RFP. Confirm your capability to meet each of the following with a response of Confirmed or Not Confirmed. If your response varies by the plan option(s) you are quoting, please explain. If a Bidder takes exception to any of these confirmations, it must be clearly noted. These confirmations will also explicitly apply to any subcontractors used.

Confirmations		Vendor Response
A.	**GENERAL**	**Response (Confirmed/Not Confirmed)**
A.1	PBM agrees the State has the right to terminate the contract for any reason without penalty of any kind upon ninety (90) days-notice. The State will receive all rebates accrued during the tenure of the contract.	Confirmed.
A.2	PBM agrees the State reserves the right to audit the State's PBM claim records, and any other financial records as they pertain to the pharmacy benefit program, whenever the State deems it appropriate, using whatever methodology and vendor they choose. Such claim audits may be performed by the State's personnel or by outside auditors selected by the State.	Confirmed.
A.3	PBM agrees if selected as a finalist, to provide a signature ready contract and that your responses to the RFP, including all attachments, will be included as an attachment to the contract. The State reserves the right to negotiate additional changes to the final contract.	Confirmed. Rightway agrees that, if selected as a finalist, we will provide a signature-ready contract within 20 business days of written notice of finalist selection. We also agree that all responses to the RFP, including attachments, may be included as part of the final contract documentation. We understand and acknowledge that the State reserves the right to negotiate additional changes to the final contract. All commitments made in our proposal will be subject to mutual review and agreement to ensure alignment with the State's requirements and expectations during the contract negotiation process.
A.4	PBM agrees it shall provide a fully pass-through network, meaning it will bill the State the same as it reimburses network pharmacies for retail, mail order, and specialty drug claims. The PBM shall also pass-through 100% of Rebates to the State. All business practices, processes, and sources of revenue must be fully disclosed upon request.	Confirmed.
A.5	PBM agrees the State reserves the right to carve-out specialty and mail order drug fulfillment and/or utilization management if it determines it is financially advantageous to do so.	Confirmed.

A.6	PBM agrees to develop a member satisfaction survey approved by the State to be sent to each plan member, conduct the survey, and collect and report respondent results on an annual basis at no additional cost to the State.	Confirmed. Rightway standardly utilizes Net Promoter Score to gauge member satisfaction and has maintained a 70+ NPS in member satisfaction, resulting in consistently positive feedback. Rightway is happy to work with the State to develop a unique program as needed.
A.7	PBM agrees to provide easy-to-access management reports approved by the State in Excel or in a format that can be exported to Excel at least quarterly and as otherwise requested by the State.	Confirmed.
A.8	PBM agrees to abide by all Federal and State laws and requirements throughout the contract term.	Confirmed.
A.9	PBM will not render or administer services off-shore, and all work performed will be in the contiguous United States.	Confirmed.
B.	**CONTRACT DEFINITIONS**	**Response (Confirmed/Not Confirmed)**
B.1	Contract Definitions	
	a. AWP (Average Wholesale Price) –The actual reported "AWP" from Medi-Span for the specific NDC-11 on the Day of Service for all channels (i.e., Retail, Mail, and Specialty). Claims will not use an average AWP or pre-settlement AWP, nor will the AWP be externally calculated, altered, or adjusted. Claims at Mail and Specialty pharmacies will use the AWP of the actual package size and NDC-11 used to dispense (not the package size of the prescription dispensed or alternative package sizes).	Confirmed.
	b. Brand Drug - For adjudication purposes, a drug that is approved by the U.S. Food and Drug Administration (FDA) and is distributed under an FDA Application Type of new drug application (NDA) or biologic license application (BLA), and which is not an Authorized Generic and which is not a House Generic. In instances where the Brand or Generic status of a drug, as determined by the Contractor relying on an independent published source, differs from this definition, the Contractor may rely on its standard drug classification system for operational purposes of claim adjudication. All Brand Pricing Guarantees will be reconciled based on Medi-Span multi-source code field M, N, or O, excluding House Generics, as defined herein, and shall mean drugs or devices for which the Medi-Span Multisource Code field contains “M” (co-branded product), or “N” (single source brand), or “O” (originator). If the multi-source code in Medi-Span is "O", and there is a DAW code of 3, 4, 5, 6, or 9, the drug shall be considered a generic.	Confirmed.
	c. Biosimilar - A FDA-approved type of biological product that is highly similar to and has no clinically meaningful differences in terms of safety and effectiveness from its respective FDA-approved biological reference product, under Section 351(k) of the Public Health Service Act, as added by the Biologics Price Competition and Innovation Act of 2009.	Confirmed.
	d. Claim - Prescription drugs, over the counter (OTC) products, drug	Confirmed.
	e. Compound Drug - A medication that requires compounding by	Confirmed.

	f. Covered Product – The prescription drugs, supplies, and other items that	Confirmed.

C. Project Objectives

The State of Nebraska is looking to provide high-quality, cost-effective benefits to its active employees, pre-65 retirees, COBRA participants, and their dependents. The State is soliciting offers for the administration of its self-insured prescription drug plan.

Bidders are required to offer comprehensive PBM services with a full range of customer (client and member) services including, but not limited to:

1. **Claims Adjudication**
   Confirmed.

2. **Member Enrollment and Eligibility Maintenance**
   Confirmed.

3. **ID Card Production and Distribution**
   Confirmed.

4. **Formulary Management and Rebate Pass-Through**
   Confirmed.

5. **Clinical and Utilization Management**
   Confirmed.

6. **Retail Pharmacy Network Management**
   Confirmed. Rightway's standard retail pharmacy network comprises 64,000 pharmacies and includes all major chains. We provide flexibility with narrow networks and custom network solutions to meet client-specific needs. Our direct contracting approach ensures network adequacy and competitive pricing, and we maintain established relationships with retail, mail-order, and specialty pharmacies to ensure comprehensive coverage and accessible pharmacy services for our members.

7. **Specialty and Mail Order Pharmacy**
   Confirmed.

8. **Patient and Provider Education**
   Confirmed.

9. **Systematic Prospective, Concurrent and Retroactive Drug Utilization Review**
   Confirmed.

10. **Auditing Rights**
    Confirmed.

11. **Account Management Services (including standard/custom reporting and online systems)**
    Confirmed.

12. **Member Services (including call center, website portal and mobile app)**
    Confirmed.

13. **Claims data sharing with State, healthcare and data analytics vendors**
    Confirmed.

Please note that the State is concurrently conducting a procurement for medical administration services. This RFP is only for PBM services, and any information provided by respondents which pertains to the medical administration RFP or any other service (unless explicitly requested within the RFP), will not be considered in evaluation of this RFP. This includes attempts by Bidders to provide PBM fees that are contingent upon the additional award of business in connection with the medical administration RFP.
Acknowledged.

D. Subrogation Requirement

Contractor shall enforce the State's right to seek recovery based on subrogation or other theories from third parties, or other insurance carriers, who have caused injury or illness to a covered person or damages to the plan, except when said third party is the State of Nebraska. Contractor shall provide subrogation recovery service at no additional charge to the State. Contractor may engage a subcontractor to perform specialized services for recovery of funds or discovery of overpayment or fraud. If any subrogation services are subcontracted by contractor, approval of subcontractors and contract terms must be obtained from the State prior to contractor entering into an agreement with any such subcontractor(s). Such subcontractors may be reimbursed based on a reasonable basis other than percent of recovery, but cost of such subcontractors shall be the responsibility of Contractor and shall not be deducted from the subrogated amount. The Contractor shall obtain the approval of the State for any subrogation claim that is less than 100% of the State's loss and shall obtain the State's approval of all settlements. In the event that the State is a party to litigation regarding any such claims, settlement or release of such claims must be approved by the State. This authority regarding recoveries from third parties or their carriers includes participation in consolidated or class action lawsuits alleging such injuries, if authorized by the State. Any recovery from consolidated or class action suits will be apportioned among all insured and self-insured plans or pools in like manner. The proration may be based on number of covered persons, number of injured persons, claims volume, or any other basis determined by contractor and approved by the State. Recoveries made in the same plan year as the original claim payments are made, will be applied to the State's claims liability by immediate credit to the State. Recoveries made in subsequent years will be credited in total to the State's claim liability at the time recovery is made. The State agrees to cooperate with all such recovery efforts.
Confirmed.

E. Prescription Plan Design

At a minimum, the Contractor must duplicate the plan designs and level of coverage presently offered to the State's covered member population.

Confirmed.

F. Plan Requirements

The Contractor must adhere to the following Plan Requirements. These requirements will also explicitly apply to any subcontractors used by the Bidder to deliver services to the State.

1. **Provide services to all members (active employees, pre-65 retirees, COBRA participants, and their dependents) enrolled on the program effective date.**
   Confirmed.

2. **Agree that members who are not actively at work due to disablement on program effective date will be covered.**
   Coverage is determined by the eligibility file received from the client or designated third party. If a member is listed with COBRA or other applicable coverage due to disablement, Rightway will work with the client to ensure the appropriate plan design and account structure are in place to accommodate these members. As long as the member is submitted with active pharmacy benefit coverage, including under COBRA, their access to benefits will be maintained. Rightway has experience working with a wide range of benefit administration systems, TPAs, and carriers to ensure eligibility data reflects the intended coverage status.

3. **Agree that the State owns its data (its financial and operational data, and its member data), may use it for any business purposes it deems necessary, and that such data will be considered proprietary and will not be shared or utilized by Contractor for any purpose other than the provision of services under the agreement, except at the request of the State's Director of Administrative Services, and with full knowledge and express written consent.**
   Confirmed.

4. **Acknowledges the State will neither recognize the appointment of any agent, general agent or broker nor authorize any payment or remuneration of any kind by the Contractor to a party not approved in writing by the State.**
   Rightway has established contractual relationships with vendors, network pharmacies and rebate aggregators in the performance of services and for purposes of doing business that it must comply with. Rightway will provide State with a list of all subcontractors upon request.

5. **Advise and assist the State in the preparation of forms and other documentation necessary to fulfill reporting and disclosure requirements.**
   Confirmed.

6. **Agrees it will not render or administer services (including wellness) offshore, and all work performed will be in the contiguous United States.**

Confirmed.

7. **Comply with and adhere to relevant federal and state laws and regulations.**
   Confirmed. We comply with and adhere to all relevant federal and state laws and regulations, including HIPAA and its related regulations, as well as applicable state laws governing breach notification and data security. We confirm our agreement to comply with all State and Federal legislative requirements throughout the life of the contract and to manage our clients' benefits in compliance with all Federal and State laws and provisions. We also maintain proper licensure as required by any state law related to the services we perform for our clients. Our compliance is supported by annual independent audits, including SOC 2/HITRUST attestation.

8. **Monitor Federal and State legislation affecting the plan and report to the State on those issues in a timely fashion and prior to the effective date of any mandated plan changes.**
   Confirmed. Rightway actively monitors Federal and State legislation that may impact the plan, ensuring timely communication of relevant updates to the State—prior to the effective date of any mandated changes. Our dedicated compliance team tracks legislation related to employee benefits (e.g., ERISA, Retiree Drug Subsidy), prescription drug programs (e.g., CAA, state-level women's health regulations), and evolving prescribing laws.

   All legislative developments are logged in a centralized compliance database, and updates are shared with clients electronically in both PDF and web-based formats. These reports are delivered on a quarterly basis as part of our standard Quarterly Business Reviews (QBRs). For urgent or impactful legislative changes, we initiate an expedited reporting process to ensure the State is informed without delay.

   The designated State account team is responsible for delivering these updates, and our Compliance Manager, along with relevant subject-matter experts, is available to participate in QBRs or attend additional meetings as requested.

9. **Assume responsibility for any and all costs associated with any investigation necessary to ensure that claims are adjudicated properly.**
   Confirmed.

10. **Follow the specified eligibility rules established by the State.**
    Confirmed.

11. **Agree to all requirements as outlined in Attachment C - Confirmations & Questionnaire, Confirmations tab.**
    Rightway has carefully reviewed the requirements outlined in Attachment C – Confirmations & Questionnaire, Confirmations tab. We confirm our agreement with the majority of the requirements as specified. However, we have noted a limited number of deviations or exceptions, which are fully detailed in the completed Confirmations tab for transparency and ease of review.

We remain committed to working collaboratively to address any concerns and are open to further discussion to clarify or negotiate any identified deviations.

12. **Assign a dedicated Account Management Team (AMT) who shall be accountable and responsible to the State for proactive management of all aspects of the Contractor's performance to the State and its members. The Contractor shall not change assignment of the Account Executive on the AMT, without written notice provided to the State with a minimum of fourteen (14) business days prior to such change. The State reserves the right to request assignment of a new Account Executive, and the Contractor shall make such change within 30 calendar days of receipt of written notice from the State. A member of the AMT must respond to any outreach from the State of Nebraska within one (1) business day.**
    Confirmed.

13. **Provide a mutually agreed upon annual score card so the State can assess Contractor's performance.**
    Confirmed. On an annual basis, the State will receive a client satisfaction survey which will include questions regarding the performance of your assigned account team. Throughout the course of the year, the State may be asked to complete informal surveys or questionnaires to gauge satisfaction and team performance. We firmly believe in open and transparent communication with our clients in order to ensure we are meeting your needs, and we respectfully ask that those surveys be completed to allow us to address any concerns prior to the annual survey.

    Rightway leverages Net Promoter Score (NPS) to measure member satisfaction. We have achieved an average NPS of +72 across all modalities (digital and phone). Rightway complements Net Promoter Score surveys with proprietary survey questions to gauge program enjoyability and effectiveness.

14. **Provide claim line detail for ALL claims as described in this RFP.**
    Confirmed

15. **Provide robust, accurate, timely, and comprehensive data and reporting to the State. The State and its healthcare consultants must have the ability to access a reporting portal to download all reports. This provision includes State specific utilization data for State members, upon request.**
    Confirmed.

16. **Provide data feeds (ex. eligibility file) to the State's vendor partners, as requested. The cost for providing data feeds must be included in the Contractor's administrative fees. Contractor agrees to waive any charges to the State or the State's vendors such as a set-up fee, a programming fee or a monthly fee, for establishing a connection with a third party vendor for real-time, bidirectional data integration, including non-standard data integration formats.**
    Confirmed.

17. **The Contractor must perform and present to the State, on a quarterly or as requested basis, the State's current plans and service performance, recent issues/challenges encountered, potential savings opportunities, and topics of concern and suggestions for resolution, at no additional cost to the State.**
    Confirmed.

18. **Attend an annual performance or "stewardship" meeting within 180 days after contract year-end at which time the Contractor will, as directed by the State, summarize activities and performance for the year ended.**
    Confirmed.

19. **Participate in an Annual Vendor Summit to discuss strategic opportunities for the State's overall health management program.**
    Confirmed.

20. **Provide final Summary Plan Documents (SPD), written and electronic, including SPD language for any clinical programs to be implemented, to the State prior to the initial Open Enrollment period and subsequent open enrollments. SPDs are subject to the final approval of the State.**
    Confirmed. Rightway provides comprehensive Summary Plan Description (SPD) language support, including standardized template language and customizable content that accurately describes our PBM programs, formulary structure, prior authorization requirements, specialty pharmacy services, and clinical programs. Our compliance team regularly reviews and updates this documentation to reflect current regulations and program features. We work directly with Plan Participants to ensure SPD language aligns with their specific plan design and implemented programs, providing timely updates when program changes occur. All documentation is provided in editable formats and can be customized to match client-specific terminology and branding requirements.

21. **Agree to provide an opportunity for the State to review and approve all communication materials (including letters, brochures, electronic, website, etc.) prior to being sent to members and/or to providers.**
    Confirmed. Rightway will make every attempt to allow the State to review all member communications materials before they are distributed to members, but there may be situations that require Rightway to send out a communication without their approval (i.e. government mandated, drug recall letters, etc.).

22. **Complete implementation prior to the State's Annual Open Enrollment period each May.**
    Confirmed.

23. **Agree that no external communications material that mentions the State's benefit plans may be circulated without written approval from the State**.
Agreed. Rightway will make every attempt to allow the State to review all member communications materials before they are distributed to members, but there may be situations that require Rightway to send out a communication without their approval (i.e. government mandated, drug recall letters, etc.).

24. **Attend and participate in the annual Human Resource Information Group (HRIG) in April of each year. The Contractor may be asked to participate in the informational meetings across the State directly following the HRIG. If requested by other State agencies, the Contractor may participate in agency specific health fair(s).**
Confirmed.

25. **Offer a program to prevent and detect internal and external fraud and fraudulent practices.**
Confirmed. Rightway offers comprehensive programs to prevent and detect both internal and external fraud and fraudulent practices. Our Fraud, Waste, and Abuse (FWA) program includes monitoring controlled substance use, opioid utilization, and implementing strict concurrent drug utilization reviews, prior authorization protocols, and quantity limits. We conduct ongoing desk audits and scheduled on-site audits to monitor provider network compliance with plan requirements and state and federal laws. Our systems-based tools utilize proprietary norms, benchmarks, and algorithms, as well as FDA notices and medical publications, to identify potential misuse. Manual audits, outreach to members and prescribers, and annual compliance training for employees further support our efforts. Employees, subcontractors, and others are encouraged to report suspected or actual instances of non-compliance, including fraud, anonymously or by name, without fear of retaliation. These programs are included in our administrative fee and are designed to address both internal and external fraud effectively.

26. **Administer run-out claims for 12 months following termination of the contract. The cost of run-out administration must be included in bidder's proposed administration fees.**
Confirmed.

27. **Provide complete banking arrangements for claims processing, including the printing and issuing of checks and/or electronic funds transfer.**
There are two invoice periods per month and invoices are submitted to the client after the last day of the invoice period. Invoice amounts will include the amount paid for claims processed during that invoice period, and once a month the administrative fee for the prior month is applied.

Invoice period: 1st – 15th = claims paid during invoice period, admin fees for prior month
Invoice period: 16th – end of month = claims paid during invoice period. Invoice Transmission, recipients

Invoices from Rightway will be sent via email as a password-protected Excel document and with a PDF copy of the total amounts due.

Payment requirements

- Wire transfer: the State will transfer the amount due on admin fees at the time of admin fee iinvoicing.
- Pre-funded deposits: the State will provide a pre-funded account for Rightway to withdraw the amount due for claims at the time of claims invoicing, twice a month. This account must maintain a deposit in the amount equal to the current average claims for a four-week period. In the pre-funded model, Rightway will require an ACH authorization for the Direct Payment Form which will allow Rightway to pull the funds directly from the State's account.

28. **No covered State members shall lose or gain coverage as a result of vendor change. Any and all transition-of-care-related issues must be expressly waived for the initial enrollment for covered eligibles and their dependents that have already satisfied the limitations under the existing plan, unless otherwise specified in the eligibility rules established by the State.**
Confirm.

29. **Complete formulary disruption and retail network disruption analyses as detailed in the Questionnaire.**
Confirmed.

30. **Attachments: Complete all RFP attachments:**
    a. **Attachment A – Intent to Propose**
    b. **Attachment B – Business Associate Agreement (BAA)**
    c. **Attachment C – Confirmations & Questionnaire**
    d. **Completed Formulary Disruption Analysis as requested in Questionnaire Tab D.3**
    e. **Completed Network Disruption Analysis as requested in Questionnaire Tab F.14**
    f. **Attachment D – Performance Guarantees**
    g. **Cost Sheet**

    Confirmed.

G. Business Requirements

1. **Contractor must be currently providing self-funded PBM administration services to at least one public sector group health plan with a minimum of 15,000 lives.**
Confirmed.

2. **Contractor must have a minimum of five (5) years of self-funded PBM administration group experience.**
Confirmed. Founded in 2017, Rightway launched Navigation services before expanding into PBM in 2020. We are the industry's best-aligned and transparent PBM, driving prescriptions to the lowest net cost through leading technology and clinical expertise.

3. **Contractor must be licensed to offer employer-sponsored, network-based self-funded PBM plan solutions in all 50 states and U.S. territories where State members currently reside.**
   Confirmed.

4. **Contractor must not have any bankruptcy filings within the last 5 years; and Offeror's senior officers, board members, or directors must not have any felony convictions.**
   Rightway confirms that it has not filed for bankruptcy within the last five (5) years. Additionally, to the best of our knowledge and after appropriate internal review, none of our senior officers, board members, or directors have any felony convictions.

H. Deliverables

Provide the following third-party administration services for the State's prescription drug coverage as listed in this RFP:

1. **Claims Adjudication**
   Confirmed. We provide claims adjudication services for prescription drug coverage. Our claims processing system features automated adjudication software capable of real-time adjudication of pharmacy claims, ensuring claims adhere to plan specifications during processing.

2. **Member Enrollment and Eligibility Maintenance**
   Confirmed.

3. **ID Card Production and Distribution**
   Confirmed.

4. **Formulary Management and Rebate Pass-Through**
   Confirmed.

5. **Clinical and Utilization Management**
   Confirmed.

6. **Retail Pharmacy Network Management**
   Confirmed.

7. **Specialty and Mail Order Pharmacy**
   Confirmed.

8. **Patient and Provider Education**
   Confirmed.

9. **Systematic Prospective, Concurrent and Retroactive Drug Utilization Review**
   Confirmed.

10. **Auditing Rights**
    Confirmed.

11. **Account Management Services (including standard/custom reporting and online systems)**
    Confirmed.

12. **Member Services (including call center, website portal and mobile app)**
    Confirmed.

13. **Claims data sharing with State, healthcare and data analytics vendors**
    Confirmed.

Formulary Transition Analysis
State of Nebraska DAS

	Rx Count	% of Total	Member Count	% of Total
No transition	**338,982**	**96.0%**	**20,395**	**85.2%**
Preferred	121,428	34.4%	12,766	53.3%
No Change	217,554	61.6%	7,629	31.9%
Unlikely transition*	**7,781**	**2.2%**	**2,293**	**9.6%**
Non-Preferred	1,102	0.3%	394	1.6%
Excluded	6,679	1.9%	1,899	7.9%
True transition	**6,212**	**1.8%**	**1,255**	**5.2%**
Non-Preferred	720	0.2%	166	0.7%
Excluded	5,492	1.6%	1,089	4.5%
Total	**352,975**	**100%**	**23,943**	**100%**

Rightway is pleased to show that 96% of utilization is considered neutral or positive change under our formulary. 2.2% is considered unlikely transition but we anticipate true transition to be closer to 1.8% when acute, MSB, OTC an 1.9% is considered unlikely excluded transition. We anticipate true excluded transition to be closer to 1.6%.

*Rightway classifies the following categories of medications as "unlikely transition" for the following reasons:

Acute medications, as these are not likely to be filled again.

ACA covered medications, as the plan sponsor covers 100%, so member copay up-tiering does not apply.

MSB and OTC medications, as there are direct line Generic or OTC alternatives that with the right engagement the member will save signific

d ACA claims are removed.

ıntly with no real impact.

STATE OF NEBRASKA

BUSINESS ASSOCIATE AGREEMENT

Commented [1]: Rightway has reviewed this document and does not have any proposed changes. We look forward to negotiating a full services agreement with State of Nebraska - DAS.

THIS BUSINESS ASSOCIATE AGREEMENT ("Agreement") amends and is made a part of all Services Agreements (as defined below) between _____("Business Associate") and State of Nebraska ("Company") on behalf of the Group Health Plans sponsored by Company (the "Plan"). This Agreement is effective _____ or upon the effective date of the underlying Services Agreement, whichever is later ("Effective Date"). This Agreement supersedes and replaces any prior Business Associate Agreements between the parties.

1. **Definitions**.

a. **Catch-all definitions**. The following terms used in this Agreement shall have the same meaning as those terms in the HIPAA Rules: Breach, Covered Entity, Data Aggregation, Designated Record Set, Disclose or Disclosure, Electronic Protected Health Information, Health Care Operations, Minimum Necessary, Notice of Privacy Practices, Protected Health Information or PHI, Required By Law, Secretary, Security Incident, Subcontractor, Unsecured Protected Health Information, and Use. Other capitalized terms used but not otherwise defined in this Agreement shall have the meaning ascribed in the HIPAA Rules.

b. **Specific definitions**.

(1) ***"Business Associate"*** shall generally have the same meaning as the term "Business Associate" at 45 CFR 160.103, and in reference to the party to this Agreement, shall mean the party identified above as Business Associate.

(2) ***"Business Associate Functions"*** means functions performed by Business Associate on behalf of the Plan in the course of providing or arranging for plan administration services which involve the creation, receipt, maintenance or transmission of PHI by Business Associate or its agents or Subcontractors. It is anticipated that the services provided by Business Associate will be performed as part of the Plan's "health care operations" as defined in the HIPAA Rules.

(3) ***"HIPAA Rules"*** shall mean the Privacy, Security, Breach Notification, and Enforcement Rules at 45 CFR Part 160 and Part 164. A reference in this Agreement to a section in the HIPAA Rules means the section as in effect or as amended at the time the section is to be applied.

(4) ***"Individual"*** shall generally have the same meaning ascribed in the HIPAA Rules and shall refer only to Individuals who are covered persons under the Plan.

(5) ***"Services Agreements"*** means all agreements whether now in effect or hereafter entered into, between Company and Business Associate for the performance of Business Associate Functions by Business Associate on behalf of the Plan.

2. **Purpose**. The Plan is a Covered Entity under HIPAA. The HIPAA Rules require the Plan to obtain, and Business Associate to provide, satisfactory written contractual assurances before Business Associate may create, receive, maintain, or Disclose PHI to perform Business Associate Functions on behalf of the Plan. This Agreement is entered into to provide the contractual assurances required under the HIPAA Rules.

3. **Obligations of Business Associate**. As an express condition of performing Business Associate Functions, Business Associate agrees to:

a. Not Use or Disclose PHI other than as permitted or required by this Agreement or as otherwise Required by Law.

b. Use appropriate safeguards and comply with Subpart C of 45 CFR Part 164 with respect to Electronic Protected Health Information, to prevent Use or Disclosure of PHI other than as provided for in this Agreement.

c. Report to the Plan's designated privacy official, without unreasonable delay but in no event more than three (3) business days after discovery by Business Associate, any Use or Disclosure of PHI not provided for by this Agreement of which Business Associate becomes aware, including any Breach of Unsecured Protected Health Information as required at 45 CFR 164.410, and any Security Incident of which it becomes aware, together with any remedial or mitigating action taken or proposed to be taken with respect thereto. If Business Associate does not have available complete information in satisfaction of 45 CFR 164.410(c) within three (3) business days of discovery of the impermissible Use or Disclosure, Business Associate shall provide all information it has at such time and immediately update the Plan with additional information as it becomes available through prompt investigation. This Agreement serves as Business Associate's notice to the Plan that attempted but unsuccessful Security Incidents regularly occur and that no further notice will be made by Business Associate unless there has been a successful Security Incident or attempts or patterns of attempts that Business Associate determines to be suspicious.

Business Associate shall cooperate with the Plan in mitigating any harmful effects of any impermissible Use or Disclosure. In the case of a Breach as determined to exist in the sole discretion of the Plan which was due to a violation of this Agreement by Business Associate, Business Associate shall pay for the reasonable costs of investigation, mitigation and notification to affected Individuals. As an alternative to Business Associate reimbursing Company and the Plan for the costs of notification, the Plan may elect to have Business Associate directly provide the notifications to Individuals for breaches caused by Business Associate, provided that Company and the Plan shall have final approval of all content of notifications to Individuals.

d. In accordance with 45 CFR 164.502(e)(1)(ii) and 164.308(b)(2), ensure that any Subcontractors that create, receive, maintain, or transmit PHI on behalf of Business Associate agree in writing to the same restrictions, conditions, and requirements that apply to Business Associate with respect to such information.

e. Within ten (10) business days of request by an Individual or notification by the Plan, make available to the Individual such Individual's PHI maintained by Business Associate in a Designated Record Set in accordance with 45 CFR 164.524. The parties agree that Individuals will be directed to Business Associate to make all

requests for access to PHI. Business Associate will provide such access according to its own procedures for such access in accordance with the requirements of 45 CFR 164.524. If the requested PHI is maintained in one or more Designated Record Sets electronically and if the Individual requests an electronic copy of such PHI, Business Associate must provide the Individual with access to PHI in the electronic form and format requested by the Individual, if it is readily producible in such form and format; or, if not, in a readable electronic form and format as agreed to between Business Associate and the Individual. Business Associate shall provide the requested information directly to the Individual, along with a notice to the Individual that a copy of the individual's request has been furnished to the Plan and that the Plan may provide additional information to the Individual in response to the request.

If the Individual's request covers records not maintained by Business Associate, Business Associate shall notify the Plan within three (3) days of the request. The Plan will be responsible for providing access or otherwise responding directly to the Individual pursuant to the HIPAA Rules with respect to PHI not in the possession of Business Associate or an agent or subcontractor of Business Associate. Business Associate may charge the Individual reasonable fees related to this access, as determined by Business Associate, but only in such amounts as permitted by the HIPAA Rules. The Plan authorizes Business Associate to require payment of such fees from the Individual prior to releasing any records.

f. Business Associate agrees to receive requests for amendment and amend PHI as required by 45 CFR 164.526 on the Plan's behalf for as long as such information is maintained by Business Associate. The parties agree that Individuals will be directed to Business Associate to make all such requests for amendment of PHI. Business Associate will amend such PHI according to its own procedures for such amendment in accordance with the requirements of 45 CFR 164.526. If the Individual's request covers records not maintained by Business Associate, Business Associate shall notify the Plan within three (3) days of such request. The Plan will be responsible for amending or otherwise responding directly to the Individual pursuant to the HIPAA Rules with respect to PHI not in the possession of Business Associate or an agent or contractor of Business Associate. Business Associate shall notify the Plan of any amendments made to PHI.

g. Business Associate agrees to process all requests for disclosure accounting by Individuals for as long as such information is maintained by Business Associate. Individuals will be directed to Business Associate to make all such requests. Business Associate will provide the accounting that is required under 45 CFR 164.528 on the Plan's behalf directly to the Individual. Business Associate will provide such accounting according to its own procedures for such accounting in accordance with the requirements of 45 CFR 164.528.

Business Associate shall notify the Plan within three (3) days of any request made by an Individual for a disclosure accounting. The Plan will be responsible for responding directly to the Individual (or the Individual's personal representative) pursuant to 45 CFR 164.528 with respect to disclosures of PHI by persons or entities other than Business Associate or a subcontractor or agent of Business Associate. Business Associate shall provide directly to the Individual the requested accounting of disclosures made by Business Associate or a subcontractor or agent of Business

Associate, along with a notice to the Individual that a copy of the Individual's request has been furnished to the Plan and that the Plan may provide additional information to the Individual in response to the request.

h. Make its internal practices, books and records relating to this Agreement available to the Secretary of HHS and to the Plan for purposes of determining the Plan's and Business Associate's compliance with the HIPAA Rules.

i. So that the Plan may meet its obligations to evaluate requests for restrictions and confidential communications in connection with the disclosure of PHI under 45 CFR 164.522, Business Associate and the Plan agree that, to the extent that communications are within the control of Business Associate, Business Associate will perform these evaluations on behalf of the Plan. Business Associate will evaluate such requests according to its own procedures for such requests, in accordance with the requirements of 45 CFR 164.522, and shall implement such appropriate operational steps as are required by its own procedures. Such evaluation will not relieve the Plan of any additional and independent obligations to evaluate restrictions or implement confidential communications where requested by an Individual. Accordingly, Business Associate will evaluate requests for restrictions and requests for confidential communications and will respond to these requests as appropriate under Business Associate's procedures. The Plan agrees that it will not agree to such restriction or request that would affect Business Associate without the approval of Business Associate, so that Business Associate can determine whether it can reasonably administer the request.

j. So that the Plan may meet its obligation to evaluate complaints from Individuals regarding their privacy rights or privacy practices of the Plan or Business Associate, the parties agree that Individuals shall be directed to submit any such complaint to Business Associate for review and evaluation. Business Associate will evaluate such complaints according to its own procedures for complaints and shall implement appropriate operation steps as are required by its own procedures. The Privacy Officer of the Plan shall cooperate with Business Associate in the evaluation of any such complaint. Business Associate shall provide a copy of all complaints to the Plan within three (3) days of receipt by Business Associate. If the complaint appears to involve handling of PHI by the Plan, Plan Sponsor, or other Business Associate of the Plan, Business Associate shall notify the Plan, and it shall be the Plan's responsibility to review and evaluate the complaint.

k. Limit the Uses and Disclosures of, or requests for, PHI for purposes described in this Agreement to the Minimum Necessary to perform the required Business Associate Functions. Business Associate shall comply with any additional requirements for the determination of Minimum Necessary as are required from time to time by the HIPAA Rules, as amended, or through additional guidance published by the Secretary.

l. To the extent Business Associate is expressly obligated under the Services Agreements to carry out one or more of the Plan's obligations(s) under Subpart E of 45 CFR Part 164, comply with the requirements of Subpart E that apply to the Plan in the performance of such obligation(s).

m. Except for the specific Uses and Disclosures for the Business Associate's own management and administration or to carry out the legal responsibilities of Business Associate, Business Associate shall not Use or Disclose PHI in a manner that would violate the HIPAA Rules if done by the Plan.

4. **Permitted Uses and Disclosures of PHI**. Business Associate shall only Use or Disclose PHI as follows:

a. Business Associate may Use or Disclose PHI as Required by Law. Business Associate agrees to follow the current law covering the use and disclosure of PHI related to substance abuse and reproductive health.

b. Business Associate may Use or Disclose PHI as necessary to carry out Business Associate Functions.

c. Business Associate may Use PHI for the proper management and administration of Business Associate or to carry out the legal responsibilities of Business Associate.

d. Business Associate may Disclose PHI for the proper management and administration of Business Associate or to carry out the legal responsibilities of Business Associate, provided the Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the information is Disclosed that the information will remain confidential and be Used or further Disclosed only as Required by Law or for the purposes for which it was Disclosed to the person, and the person notifies Business Associate in writing of any instances of which it is aware in which the confidentiality of the information has been breached or compromised.

e. If specifically identified as a Business Associate Function in the Services Agreements, Business Associate may provide Data Aggregation services relating to the Health Care Operations of Covered Entity.

f. If de-identification is listed as a Business Associate Function in the Services Agreements, or if Business Associate is expressly permitted to de-identify PHI and use data thus de-identified for its own uses in the Services Agreements, Business Associate may Use PHI to de-identify the information in accordance with 45 CFR 164.514(a)-(c). Business Associate may use de-identified data only for the purposes specified in the Services Agreements.

5. **Responsibilities of the Plan**. The Plan agrees to:

a. Notify Business Associate promptly of any restriction on the Use or Disclosure of PHI that the Plan has agreed to or is required to abide by under 45 CFR 164.522, to the extent such restriction may affect Business Associate's Use or Disclosure of PHI.

b. Notify Business Associate of any changes in, or revocation of, the permission by an Individual to Use or Disclose PHI, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI.

c. Provide Business Associate with a copy of any amendment to PHI which is accepted by Covered Entity under 45 CFR 164.526 which Covered Entity believes will apply to PHI maintained by Business Associate in a Designated Record Set.

d. Not request Business Associate to Use or Disclose PHI in any manner that would not be permissible under the HIPAA Rules if done by the Plan, with exception for any Data Aggregation services permitted under Section 4.

6. **Compliance with Electronic Transactions Rule**. If Business Associate conducts in whole or part electronic Transactions (as defined in 45 CFR 160.103) on behalf of Covered Entity for which the Secretary of HHS has established standards, Business Associate will comply, and will require any Subcontractor involved with the conduct of such Transactions to comply, with each applicable requirement of the Electronic Transactions Rule at 45 CFR Parts 160 and 162 and of any operating rules adopted by the Secretary of HHS with respect to Transactions.

7. **Supervening Law**. Upon the enactment of any law or regulation affecting the Use or Disclosure of PHI, or the publication of any decision of a court of the United States or of this state relating to any such law, or the publication of any interpretive policy or opinion of any governmental agency charged with the enforcement of any such law or regulation, the parties agree to amend this Agreement in such manner as is necessary to comply with such law or regulation. If the parties are unable to agree on an amendment within thirty (30) days, either party may terminate the Services Agreements on not less than thirty (30) days' written notice to the other.

8. **Liability and Indemnification**. Each party shall be responsible for the acts and omissions of its own agents, employees and contractors. Notwithstanding the foregoing, and notwithstanding any limitation of liability or disclaimer of damages in the Services Agreements or elsewhere, to the extent that the Secretary determines that Business Associate is acting as an agent of the Plan under the Services Agreements or this Agreement, Business Associate shall indemnify Company and the Plan for any fines, civil monetary penalties or monetary resolutions incurred by Company or the Plan, plus reasonable attorneys' fees of Company and the Plan, arising out of or relating to the actions or omissions of Business Associate which constitute a breach of this Agreement by Business Associate. This indemnification is in addition to any additional indemnification provided by Business Associate in the Services Agreement.

9. **Term and Termination**.

a. **Term**. This Agreement shall become effective on the Effective Date and shall continue in effect until all obligations of the parties have been met, including return or destruction of all PHI in Business Associate's possession (or in the possession of Business Associate's agents and Subcontractors), unless sooner terminated as provided herein. It is expressly agreed that the terms and conditions of this Agreement designed to safeguard PHI shall survive expiration or other termination of the Services Agreements and shall continue in effect until Business Associate has performed all obligations under this Agreement and has either returned or destroyed all PHI.

b. **Termination**. Company may immediately terminate this Agreement and the Services Agreements, if Company and/or the Plan makes the determination that Business Associate has breached a material term of this Agreement. Alternatively,

Company may choose to provide Business Associate with written notice of the existence of an alleged material breach, and afford Business Associate an opportunity to cure the alleged material breach upon mutually agreeable terms. Failure to take reasonable steps to cure the breach is grounds for the immediate termination of this Agreement.

c. **Business Associate Obligations Upon Termination**. Upon termination of this Agreement for any reason, Business Associate, with respect to PHI received from the Plan, or created, maintained, or received by Business Associate on behalf of the Plan, shall:

(i) Retain only that PHI which is necessary for Business Associate to continue its proper management and administration or to carry out its legal responsibilities or as to which Business Associate reasonably determines such PHI is technically incapable of being returned or destroyed;

(ii) Return to the Plan or, if not provided for in the Services Agreements, destroy the PHI retained under 8.c.(i) that the Business Associate maintains in any form;

(iii) Continue to use appropriate safeguards and comply with Subpart C of 45 CFR Part 164 with respect to Electronic Protected Health Information retained by Business Associate to prevent Use or Disclosure of the PHI, other than as provided for in this Section, for as long as Business Associate retains the PHI;

(iv) Not Use or Disclose the PHI retained by Business Associate other than for the purposes for which such PHI was retained and subject to the same conditions set out at Sections 4.c. and 4.d. which applied prior to termination; and

(v) Return to the Plan or, if not provided for in the Services Agreements, destroy the PHI retained by Business Associate under Section 8.c.(i) when it is no longer needed by Business Associate for its proper management and administration or to carry out its legal responsibilities, except where Business Associate reasonably determines such PHI is not technically capable of being returned or destroyed.

10. **Miscellaneous**.

a. **Applicability**. For purposes of this Agreement, and as applicable to the Business Associate Functions of Business Associate under the Services Agreements covered by this Agreement, references to the Plan shall include the named Plan and all other group health plans subject to HIPAA and sponsored by Company that participate in an organized health care arrangement.

b. **Survival**. The respective rights and obligations of Business Associate and the Plan or Company hereunder shall survive termination of this Agreement according to the terms hereof and the obligations imposed on the Plan or Company and Business Associate under the HIPAA Rules.

c. **Interpretation; Amendment**. This Agreement shall be interpreted and applied in a manner consistent with the Plan's and Business Associate's obligations under the HIPAA Rules. All amendments shall be in writing and signed by both parties, except that this Agreement shall attach to additional Services Agreements entered into between the parties in the future without the necessity of amending this Agreement each time. This Agreement is intended to cover the entire Business Associate *relationship* between the parties, as amended, from time to time, through Services Agreements or other means.

d. **Waiver**. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

e. **No Third-Party Beneficiaries**. Nothing express or implied in this Agreement is intended to confer, nor shall anything herein confer, upon any person other than the parties and their respective successors or assigns, any rights, remedies or obligations.

IN WITNESS WHEREOF, each of the undersigned has caused this Agreement to be duly executed in its name and on its behalf.

PBM Pricing Guarantees

Bidder: Rightway

Prescription Drug Pricing and Rebates:
AWP Reimbursement Basis—Complete the following table using the drug reimbursement that your organization is willing to guarantee, on a dollar-for-dollar basis, for each year of the contract. Columns marked "AWP Discount" are to be completed using a discount from 100% AWP and dispensing fee logic. All guarantees must be based on the AWP unit cost dispensed at the point of sale, and post September 26, 2009 AWP rollback, including usual & customary and zero-balance claims prior to the impact of member cost sharing. Generic discount guarantee must include all single-source as well as multi-source generic drugs.

The aggregate brand discount guarantee for specialty drugs should include biosimilar specialty drugs. In addition to the aggregate specialty drug discount and rebate guarantees, please provide separately a list of all specialty drugs and their individual discount guarantees.

Specialty drug pricing must be based on an open (non-exclusive) basis.

RIGHTWAY PMPM Guarantee:

	PMPM Guarantee	Estimated Annual Total*
Gross Cost (Eligible Person Cost + Plan Cost before Rebates)	$266.08	$90,582,242
Rebates	-$82.84	-$28,202,051
Clinical Savings	-$16.81	-$5,721,147
Year One Guarantee	**$166.43**	**$56,659,044**
Illustrative Member Cost**	$39.91	$13,587,336
Illustrative Plan Cost	$126.52	$43,071,708
Year Two Guarantee	**Year One Actual + 8%**	
Year Three Guarantee	**Year Two Actual + 8%**	
Year Four Guarantee	**Year Three Actual + 8%**	
Year Five Guarantee	**Year Four Actual + 8%**	

*The Estimated Annual Total represents the total amounts included in the guarantee assuming the same average membership as was provided in the RFP. Estimates for all claims excluded from the guarantee are provided later in this document.
**Member cost share is assumed to be 15% of Gross Cost.

Supplemental Guarantees for Claims Excluded from the PMPM Guarantee:

Category	Net Cost Guarantee*		Dispensing Fee / Pharmacy Service Fee (Per Claim)	
Pharmacy Type	**All Others**	**Acquisition Cost****	**All Others**	**Acquisition Cost****
Vaccines (Non-Covid)	AWP-18.75%	AWP-16.00%	$20.00	$20.00
Vaccines (Covid)	AWP-18.75%	AWP-16.00%	$40.00	$25.00
Covid Test Kits and Antivirals	AWP-19.00%	AWP-67.00%	$0.55	$17.00
Wegovy	AWP-41.65%	AWP-38.00%	30-Day: $0.55 90-Day: $0.10	30-Day: $17.00 90-Day: $25.00
Zepbound	AWP-42.25%	AWP-38.60%	30-Day: $0.55 90-Day: $0.10	30-Day: $17.00 90-Day: $25.00
Rare High-Cost Drugs	See Supplemental Document			

*Net cost shall be evaluated as $1 - \frac{\text{Ingredient Cost} - \text{Rebates}}{\text{AWP}}$.
**Acquisition Cost Pharmacies currently includes: CVS.

Grandfathering Adjustments:

One of the adjustment factors below will be added to the PMPM Guarantee should Client elect to grandfather claims outside RIGHTWAY's standard continuation-of-therapy recommendations based on the length of the grandfathering period enacted.

Grandfathering Period	PMPM Adjustment
30-Day	$1.57
60-Day	$3.14
90-Day	$4.70
Indefinite	$18.81

Administrative Fees and Credits:

Mandatory Programs	Year One	Year Two	Year Three	Year Four	Year Five
Claims and Benefit Admin **Pharmacy Navigation** • Patient Education & Management - Access to a pharmacist • Consumer Savings Recommendations (Digital) • Site of Service Optimization • Therapy Optimization **Standard Clinical Programs** • RIGHTWAY Formulary • Concurrent Drug Utilization Review • Prior Authorization / Step Therapy / Quantity Limits • First Level Appeals • Retrospective prescribing review	$9.50 PMPM	$9.60 PMPM	$9.70 PMPM	$9.80 PMPM	$9.90 PMPM
Care Complete Specialty — Basic	$1.50 PMPM				

Optional Programs	
Care Complete Specialty — Enhanced	25% shared savings
Care Navigation	$2.15 PMPM

Credits and Allowances	
Rx implementation credit*	$4.00 per Eligible Person
Pharmacy Management Fund (PMF) [All Five Years of Contract]	$4.00 per Eligible Person

*Client is required to submit all implementation credit reimbursement requests to RIGHTWAY in the form of an invoice. Invoices shall only be payable for direct implementation costs incurred by Client (i.e., Client shall not invoice RIGHTWAY for its own time and labor). Reimbursable implementation costs include but are not limited to: transfer file fees from previous PBM, medical accumulator fees charged by medical provider or their third party designee, postage and printing costs for member communications or identification cards. Implementation credit will be valid for a period of 90 days after go-live and will be applied as a credit on the next invoice.

PMPM Guarantee-Specific Terms and Conditions:

- RIGHTWAY assumes full dollar-for dollar risk for any amounts included in and paid over the PMPM Guarantee. On an annual basis, RIGHTWAY shall provide a PMPM Guarantee reconciliation one-hundred twenty (120) days after the close of each contract year and remit to Client any amounts due forty-five (45) days thereafter.
- One-hundred and twenty (120) days after the close of each quarter, RIGHTWAY will produce a Contract Year-to-date PMPM Settlement and Quarterly Rebate report and shall pay to Client the greater of: (i) the amount required to meet the PMPM guarantee or (ii) Rebates collected, on a Contract Year-to-date basis.
- Year Two, Year Three, Year Four and Year Five PMPM Guarantees shall be established by taking the previous Contract Year's final reconciled PMPM and adding the guaranteed maximum trend included in the PMPM Guarantee chart above.
- Individual components of the PMPM Guarantee are not evaluated as components, only the final net PMPM shall be used for evaluation.
- RIGHTWAY has assumed 12% incumbent trend from the end of the data provided for underwriting and the start of services with RIGHTWAY. If Client, by one-hundred eighty (180) days after services start with RIGHTWAY, provides sufficient documentation substantiating an incumbent trend at least 2% lower than the assumed trend, RIGHTWAY shall improve the Year One PMPM Guarantee.
- The following types of Claims are included in supplemental alternative guarantees and are excluded from the PMPM Guarantee: i) vaccines, ii) Covid test kits and Covid antivirals, iii) GLP-1s for weight loss, iv) Covered Products on the Rare High-Cost Drug List.
- The following types of Claims are excluded from all guarantees: i) Claims for fertility if not included in the underwriting data, ii) Client directed overrides, iii) Claims previously paid under the Medical benefit, and iv) Coordination of Benefits Claims.
- The estimated value of key exclusions are as follows:

Exclusion	Rx	Estimated Gross Cost	Estimated Rebates	Estimated Net Cost
Vaccines	662	$165,061	$0	$165,061
Covid Test Kits and Antivirals	309	$442,422	$0	$442,422
GLP-1s for Weight Loss	23	$32,574	$12,816	$19,758
Rare High-Cost Drugs	394	$6,772,854	$156,859	$6,615,995

- The Rare High-Cost Drug List has been provided in an Excel format as a supplement to this document with an associated AWP Discount guarantee for all products. RIGHTWAY may add new-to-market drugs and product line extensions of existing Rare High Cost Drugs to the list. These discounts will be individually reconciled for each GPI on an annual basis subject to the same timing as the PMPM reconciliation. The results of this reconciliation are independent of any other financial guarantees and will not offset. If the aggregate annual AWP discount for any of these medications falls short of the guarantee below, RIGHTWAY will pay Client dollar-for-dollar the shortfall which will be calculated as a positive value using the following formula: AWP

* (Guarantee Discount – Actual Discount). Overperformance on any one GPI shall not offset underperformance on another.

- Client shall retain liability for all Claims payments on a pass-through basis as the claims are incurred. RIGHTWAY's PMPM Guarantee is not insurance and serves as an alternative annual reconciliation mechanic in place of the industry standard AWP Discount, Dispensing Fee, and Rebate guarantees.
- PMPM Guarantee is contingent upon Client's adoption of RIGHTWAY's Value Formulary and associated utilization management, and RIGHTWAY's Care Complete Specialty - Basic Program.

Terms and Conditions for All RIGHTWAY Offers:

- Pricing assumes an effective date of July 1, 2026 and an estimated 28,369 total covered lives
- If a Client-Contracted Participating Pharmacy does not agree to RIGHTWAY's Client-Contract Assumed Pricing below RIGHTWAY may apply a credit during the Quarterly PMPM Settlement and Rebate reports and annual PMPM Guarantee reconciliation equal to the difference between the Client-Contract Assumed Pricing and the actual adjudicated pricing.

Client-Contract Assumed Pricing			
Dispensing Channel	AWP Discounts		Dispensing Fee
	Brands	Generics	
30-Day Non-Specialty	19.75%	87.00%	$0.55
90-Day Non-Specialty	25.00%	89.00%	$0.00
Specialty	21.00%	80.00%	$0.00

- Pricing assumes RIGHTWAY's preferred network of Mail Service and Specialty Pharmacies or Client-Contracted Participating Pharmacies as exclusive fulfillment partners for mail order and Specialty Drug Claims.
- RIGHTWAY passes through all Rebates received by RIGHTWAY on behalf of client.
- RIGHTWAY can change the pricing (e.g., Administrative Fees, Ancillary Service Fees, PMPM Guarantee, etc.) under this Agreement by the minimum amount necessary, in an equitable fashion, and without changing unaffected terms of the agreement in the event one or more of the following conditions occurs which materially burdens RIGHTWAY or materially alters RIGHTWAY 's rights and/or obligations under this Agreement, requires RIGHTWAY to increase or decrease payments or shorten payment times to Participating Pharmacies, or materially changes the scope of Services hereunder effective on or after the condition starts:

  i. Plan design changes;

  ii. Amendment, addition, deletion, or other change, or change in interpretation in Laws or regulations or any government, judicial, or legal action, or any drug industry practice, or any policy, underwriting, benefit change, or management practice of a regulatory body or Client, including but not limited to a change in Law or industry practice increasing the net cost of Claims;

  iii. Client's failure to participate in the requisite clinical programs and Formulary listed

within this pricing offer;

iv. Changes to the information provided by Client as part of the RFP process, including but not limited to changes in the retail network, enrollment, or other changes that could have a material impact on eligibility, drug utilization, or drug mix;

v. A shift of 10% or more in the total number of Eligible Persons as determined by the annual average in a given Contract Year;

vi. Client-Contracted Participating Pharmacy use of 340B reduces Rebate collection by 10%;

vii. Manufacturers discontinue cost concession programs;

viii. Client carves out a portion of the administration of the Services previously assigned to RIGHTWAY or the addition of Client-Contracted Participating Pharmacies, and/or;

ix. A shift utilization of 10% or more in a single therapeutic class that is clinically appropriate based on new-to-market products, new indications for existing products, or changes in prevailing clinical standards.

- Guarantees will be reconciled on an annual basis after the completion of each 12-month Contract Year. Guarantees will no longer apply if the contract ends before a complete Contract Year.

Ancillary Service Fees:

Optional services	Fee
Implementation and plan setup	
Pre-implementation guided discover	Included in Administrative Fee
Requirements approval process	Included in Administrative Fee
Dedicated implementation project manager	Included in Administrative Fee
Status and communication frequency – weekly	Included in Administrative Fee
Pre-implementation and go-live staffing	Included in Administrative Fee
Secure Client web portal (up to 5 users)	Included in Administrative Fee
Post implementation review	Included in Administrative Fee
Program consultation	Included in Administrative Fee
Standard Coordination of Benefits	Included in Administrative Fee
Customized Eligible Person communications (Client's logo or other customizations outside of standard)	To be quoted based on customization

Guarantee inclusions and exclusions.

- Network guarantees (discounts and dispensing fees) shall exclude Claims for: (i) compounds, (ii) vaccines, (iii) non-diabetic OTCs, (iv) DMR/Paper, (v) Coordination of Benefit, (vi) Medicaid subrogation, (vii) long-term care/home infusion, (viii) Government Agencies, (ix) non-network, (x) COVID-19 test kits and antivirals, (xi) Client directed overrides, and (xii) previously paid under the medical benefit.
- Specialty rebate guarantees are applied to all medications on RIGHTWAY's specialty list regardless of dispensing pharmacy unless they are excluded for another reason listed below.
- Rebate guarantees shall exclude Claims for: (i) OTCs, (ii) vaccines, (iii) Coordination of Benefit, (iv) patent expired products, (v) Generic Drugs, (vi) 340B, (vii) Government Agencies, (viii) non-drugs, (ix) insulins, (x) authorized generics, (xi) limited distribution drugs, (xii) cash cards, (xiii) pharmacies outside of the contiguous United States, and (xiv) biosimilars that are not on Formulary, (xv) Client directed overrides, (xvi) previously paid under the medical benefit, and (xvii) COVID-19 antivirals.

RIGHTWAY PMPM Target and terms and conditions.

PMPM Target	
Gross Cost (Member Cost + Plan Cost before Rebates)	$266.08
Rebates	-$82.84
Clinical Savings	-$16.81
Year 1 Target	**$166.43**
Illustrative Member Cost*	$39.91
Illustrative Plan Cost	$126.52
Year 2 Target	**Year 1 Actual + 8%**
Year 3 Target	**Year 2 Actual + 8%**
Year 4 Target	**Year 3 Actual + 8%**
Year 5 Target	**Year 4 Actual + 8%**

*Member cost share is assumed to be 15% of Gross Cost.

- If the PMPM Target is achieved, no other financial guarantees shall apply. In addition, the individual components of the PMPM Target are not evaluated as components, only the final net PMPM shall be used for evaluation.
- The following types of Claims are excluded from the PMPM Target: i) vaccines, ii) COVID-19 test kits and antivirals, iii) weight loss, iv) fertility if not included in the underwriting data, v) Rare High-Cost Drugs, vi) Client directed overrides, vii) previously paid under the medical benefit, and viii) Coordination of Benefits.
- Year 2, Year 3, Year 4 and Year 5 Targets shall be established by taking the previous year's final reconciled PMPM and adding the guaranteed maximum trend included in the PMPM Target chart above.
- One of the adjustment factors below will be added to the PMPM Target should Client elect to grandfather Claims outside RIGHTWAY's standard continuation-of-therapy recommendations based on the length of the grandfathering period enacted.

Grandfathering Period	PMPM Adjustment
30-Day	$1.57
60-Day	$3.14
90-Day	$4.70
Indefinite	$18.81

- Rare High-Cost Drugs shall be defined by the list provided along with this proposal and incorporated into the contract.

Financial terms and conditions.

- Pricing assumes an effective date of July 1, 2026 and an estimated 28,369 total covered lives
- If a Client-Contracted Participating Pharmacy does not agree to RIGHTWAY's proposed pharmacy rates; provided that pharmacy rates proposed by RIGHTWAY shall be no more aggressive (e.g. a higher AWP discount or lower dispensing fee) than the applicable AWP Effective Rate Guarantee and Dispensing Fee Guarantee established in this Exhibit, RIGHTWAY may apply a credit during the annual AWP Effective Rate Guarantee and Dispensing Fee Guarantee reconciliation and PMPM Target calculation equal to the difference between the applicable AWP Effective Rate Guarantee and Dispensing Fee Guarantee and actual adjudicated pricing.
- Brand Covered Product or Brand means a Covered Product contains an "M" (co-branded product), "O" (originator brand) or an "N" (single source brand) for the Covered Product on the date dispensed (except where the Claim is submitted with both an O and a DAW code of "3", "5", "6", or "9" in which case it shall be considered a Generic Covered Product).
- Generic Covered Product or Generic is a Covered Product for which there is an approved application under § 505(j) of the Federal Food Drug and Cosmetic Act (21 USC 355(j)) and the Pricing Source multi-source indicator for the Covered Product is a "Y" on the date dispensed. Claims submitted with the Pricing Source multi-source indicator of "O" and also submitted with a DAW code of "3", "5", "6", "9" shall also be considered a Generic Covered Product.
- This proposal assumes RIGHTWAY's pharmacy fulfillment partners as the exclusive mail and specialty pharmacy.
- Shipping for mail and specialty medications dispensed from mail and specialty pharmacies is included in the proposed pricing guarantees.
- RIGHTWAY reserves the right to modify the specialty list from time to time.
- Overall specialty guarantees apply to retail specialty Claims if only one grace fill is allowed at retail. If more than one grace fill is allowed, then pricing at retail shall not be guaranteed.
- When calculating Client's Minimum Rebate Guarantee performance, RIGHTWAY shall include the net cost value for all Low WAC Biosimilar Claims (e.g. the difference between the AWP of the equivalent Biologic and the AWP of the Low WAC Biosimilar Claim multiplied by the AWP Effective Rate Guarantee applicable to the equivalent Biologic) in Client's total Rebate dollars paid. This only applies if Client has elected RIGHTWAY's Low WAC Biosimilar strategy. This does not apply to Humira claims.
- Rebates assume use of our value formulary with exclusions and utilization management.
- The Clinical and Navigation Savings Guarantee only applies if the Value Formulary with exclusions is chosen.

- RIGHTWAY passes through all rebates received by RIGHTWAY on behalf of Client.
- If a pharmacy in RIGHTWAY's network utilizes a cost-plus model, any fees charged in that model will be added to the ingredient cost and reconciled to the discount guarantee.
- RIGHTWAY can change the pricing (e.g., Administrative Fees, Additional Fees, Ancillary Service Fees, PMPM Targets, AWP Effective Rate Guarantees and Dispensing Fee Guarantees, Minimum Rebate Guarantees, etc .) under this Agreement by the minimum amount necessary, in an equitable fashion, and without changing unaffected terms of this Agreement in the event one or more of the following conditions occurs which (i) materially burdens RIGHTWAY, (ii) materially alters RIGHTWAY 's rights and/or obligations under this Agreement, (iii) requires RIGHTWAY to increase or decrease payments or shorten payment times to Participating Pharmacies, or (iv) materially changes the scope of Services hereunder effective on or after the condition starts:
    i. Plan design changes;
    ii. Amendment, addition, deletion, or other change, or change in interpretation in Laws or regulations or any government, judicial, or legal action, or any drug industry practice, or any policy, underwriting, benefit change, or management practice of a regulatory body or Client, including but not limited to a change in Law or industry practice;
    iii. Client's failure to participate in the requisite clinical programs and Formulary listed within this pricing offer;
    iv. Changes to the information provided by Client as part of the RFP process, including but not limited to changes in the retail network, enrollment, or other changes that could have an impact on eligibility, drug utilization, or drug mix;
    v. The Pricing Source discontinues or changes the way AWP is calculated;
    vi. A shift of 10% or more in the total number of Eligible Persons as determined by the annual average in a given Contract Year;
    vii. A change of 10% or greater in Claims' mix or utilization, including in any given distribution channel;
    viii. 5% or more Claims are dispensed in Hawaii, Alaska, Puerto Rico, and/or any US Territory;
    ix. Client-Contracted Participating Pharmacy use of 340B reduces Rebate collection by 10%;
    x. Manufacturers discontinue cost concession programs; and/or
    xi. Client carves out a portion of the administration of the Services previously assigned to RIGHTWAY or the addition of Client-Contracted Participating Pharmacies.

- Client is required to submit all implementation credit reimbursement requests to RIGHTWAY in the form of an invoice. Invoices shall only be payable for direct implementation costs incurred by Client (i.e., Client shall not invoice RIGHTWAY for its own time and labor). Reimbursable implementation costs include but are not limited to: transfer file fees from previous PBM, medical accumulator fees charged by medical provider or their third-party designee, postage and printing costs for member communications or identification cards. Implementation credit will be valid for a period of 90 days after go-live and will be applied as a credit on the next invoice.
- Financial guarantees will be reconciled on an annual basis after the completion of each 12-month contract year. Guarantees will no longer apply if the contract ends before a complete contract year can be completed.

Optional services	Fee
Implementation and plan setup	
Pre-implementation guided discover	Included in Administrative Fee
Requirements approval process	Included in Administrative Fee
Dedicated implementation project manager	Included in Administrative Fee
Status and communication frequency – weekly	Included in Administrative Fee
Pre-implementation and go-live staffing	Included in Administrative Fee
Secure Client web portal (up to 5 users)	Included in Administrative Fee
Post implementation review	Included in Administrative Fee
Program consultation	Included in Administrative Fee
Standard Coordination of Benefits	Included in Administrative Fee
Customized Eligible Person communications (Client's logo or other customizations outside of standard)	To be quoted based on customization
RIGHTWAY directed transition notification mailings	Included in Administrative Fee if required data is provided in accordance with project implementation plan
Client directed transition notification mailings	To be quoted
Email activation campaign	Included in Administrative Fee if required data is provided in accordance with project implementation plan
RIGHTWAY directed telephonic outreach	Included in Administrative Fee if required data is provided in accordance with project implementation plan
Client directed telephonic outreach	To be quoted
Eligible Person fulfillment	
Communication (Eligible Person and physician)	Digital included; hard copy printing costs plus postage
Benefit design/coverage change notification	Digital included; hard copy printing costs plus postage

Optional services	Fee
Pharmacy ID card — digital	Included in Administrative Fee in RIGHTWAY's standard format; custom format to be quoted
Pharmacy ID card — physical	$5.00 plus postage in RIGHTWAY's standard format per ID card set; custom format to be quoted
Pharmacy ID card replacement	$5.00 plus postage in RIGHTWAY's standard format per ID card set; custom format to be quoted
Claims management	
Point of service Claims processing	Included in Administrative Fee
Direct Reimbursement Claims processing (Eligible Person submitted paper Claims)	$3.00 per Direct Reimbursement Claim processed plus postage
Manual pharmacy submitted Claims processing (UCF) (Pharmacy submitted Direct Reimbursement Claims)	$3.00 per UCF processed
Government Agency Claims processing	$3.00 per Claim
Standard eligibility management services	Included in Administrative Fee
Claim adjustments — Client requested or retrospective accumulator changes	$3.00 per adjustment
Pharmacy network services	
RIGHTWAY network management	Included in Administrative Fee
Pharmacy network credentialing & compliance	Included in Administrative Fee
Mail service program management	Included in Administrative Fee
Specialty program (RIGHTWAY Specialty Drug) clinical management	Included in Administrative Fee
Maximum allowable cost (MAC) program administration	Included in Administrative Fee
Pharmacy reimbursement	Included in Administrative Fee

Optional services	Fee
Pharmacy provider compliance audits: Routine compliance audits facilitated through correspondence/telephonic interviews Client requested pharmacy auditing services	Included in Administrative Fee if done at RIGHTWAY's direction in our standard pharmacy audit program. For Client requested audits the following fees apply: 10% of recoveries $750 per desk audit $2,500 per on-site audit
E-prescribing	Included in Administrative Fee
Pharmacy provider communications — including quarterly newsletter, pharmacy panel meetings, client implementation communications	Included in Administrative Fee
Data services	
RIGHTWAY standard Claims data file export	Up to 2 Client feeds included in Administrative Fee; additional feeds to be quoted upon request
Standard Report Package	Included in Administrative Fee
Online access to reporting (up to one user license)	Included in Administrative Fee
Transparency reporting (e.g. RxDC reporting)	$500 per report package
Custom and/or ad hoc report creation	To be quoted
Accumulator (deductible & MOOP) with one integrated TPA or medical carrier	Included in Administrative Fee for a standard batch file; other technologies quoted upon request
Post-termination transition file package (RIGHTWAY's standard format) including: • Eligibility file • PA file • Open refill files • Claims data export file for up to 12 months of Claims • Formulary file	To be quoted
Run-Out Period Claims processing post termination fee	$1.50 per transaction (excluding rejections)
Run-Out Period post termination file feeds	$100 per data file

Optional services	Fee
Run-Out Period post termination support	$300 per hour
Client services	
Client services executive support	Included in Administrative Fee
Clinical account executive support	Included in Administrative Fee
Quarterly review reports	Included in Administrative Fee
Operational meetings	Included in Administrative Fee
Health fair & employee meeting support	Pass through of reasonable expenses (travel, swag, etc.); prior approval required by Client
Other professional services (e.g., specialized reporting, plan design, member communications, custom programming, audit support, etc.)	$200 per hour
Clinical professional services (e.g., create and manage custom clinical policies and/or custom formulary, etc.)	$225 per hour
Customer care	
Integrated call center with live representative service during operating hours: Eligible Person & pharmacy help desk	Included in Administrative Fee
RIGHTWAY consumer engagement mobile and web standard applications	Included in Administrative Fee
Formulary and rebate	
RIGHTWAY Formulary management (does not include Client custom formularies)	Included in Administrative Fee
P&T committee review & support	Included in Administrative Fee
Manufacturer contracting and management	Included in Administrative Fee
Safety and utilization management	

Optional services	Fee
Online Concurrent DUR	Included in Administrative Fee
Standard Prior Authorization services (guidelines and letters)	Included in Administrative Fee
Step therapy care and quantity limits	Included in Administrative Fee
Treatment alternatives	Included in Administrative Fee
Drug interchange	Included in Administrative Fee
Annual benefit summary (EOB)	$3.00 plus postage
Clinical communications	RIGHTWAY directed included in Administrative Fee. Customized is $3.00 per clinical communication letter plus postage.
First Level Appeals	Included in Administrative Fee
Medical Necessity Reviews (at administrative or judicial level)	$600.00 per hour for preparation and participation in external appeals, plus reasonable travel expenses if applicable
External appeals (reviewed by independent review organization or IRO)	Costs passed through from IRO to Client
Creditable coverage determination	$2,000 per occurrence
Medicare Retiree Drug Subsidy Services	
Medicare Part D RDS support	Annual base charge of $8,500, plus a monthly per Eligible Person fee calculated based on Eligible Persons whom are RDS Program participants and in accordance with the following tiered fee schedule: • 1 to 100 total RDS Program participating Eligible Person(s) — $1.25 • 101 to 500 total RDS Program participating Eligible Persons — $1.00 • 501 to 1,000 total RDS Program participating Eligible Persons — $0.75

Optional services	Fee
	• 1,001 to 2,500 total RDS Program participating Eligible Persons — $0.50 • 2,501 to 5,000 total RDS Program participating Eligible Persons — $0.35 • 5,001 to 7,500 RDS Eligible Person — $0.25

Please note: Other optional services can be quoted upon request.

Rightway Enhanced Benefit Program Summary

State of Nebraska DAS
Claims filled January 1, 2024 - December 31, 2024
Prepared July 9, 2025

Program	Total Savings
Copay Maximizer	$2,367,798
Patient Assistance	$2,041,188
Total	**$4,408,986**

Patient Assistance Success Rate	30.00%

PROFESSIONAL SUMMARY

Results-oriented compliance and regulatory affairs leader with over 15 years of experience driving strategic compliance initiatives, risk mitigation, and policy development in dynamic healthcare and PBM environments. Proven expertise in regulatory oversight, ethics program management, cross-functional collaboration, and stakeholder engagement with federal, state, and local regulations. Adept at leading audits, investigations, and data-driven decision-making to enhance organizational integrity and operational efficiency. Certified Notary Public with a Master's in Human Resource Management and a track record of delivering actionable insights to executive leadership.

CORE COMPETENCIES

- Compliance Strategy & Governance
- Regulatory Oversight & Reporting
- Risk Assessment & Mitigation
- Ethics Program Management
- Cross-Functional Collaboration
- Policy Development & Implementation
- Audit Leadership & Investigations
- Stakeholder Engagement
- Data-Driven Decision Making
- Training & Education Programs
- Fraud, Waste, & Abuse Prevention

PROFESSIONAL EXPERIENCE

Rightway Healthcare, New York, NY
Director, PBM Compliance and Regulatory Affairs
September 2023 – Present

- Spearhead compliance strategy and regulatory oversight, aligning operations with federal, state, and local mandates, fostering a culture of ethical behavior across the organization.
- Lead cross-functional collaboration with executive leadership, HR, legal counsel, and regulatory agencies to resolve compliance concerns and implement remedial actions.
- Direct audit leadership and investigations into potential compliance violations, ensuring thorough, ethical, and efficient resolution processes.
- Oversee policy development and implementation to address emerging risks, enhancing internal controls and operational efficiency.

- Manage regulatory reporting and compliance monitoring, delivering actionable insights to senior management and the Board of Directors on trends and risk mitigation strategies.
- Enhance ethics program management by strengthening the Ethics Hotline and whistleblower protection, ensuring transparency and confidentiality.
- Drive training and education initiatives to equip teams with best practices for mitigating compliance risks and ethical dilemmas.

CVS Health, Woonsocket, RI
Senior Director, Regulatory Affairs (Coram Specialty Infusion Services)
December 2021 – September 2023

- Led regulatory oversight and compliance risk assessment across pharmacy, nursing, and insurance operations, identifying gaps and implementing mitigation strategies.
- Directed policy development and training programs aligned with federal and state healthcare regulations, promoting ethical standards and operational excellence.
- Facilitated cross-functional collaboration with legal, HR, and executive stakeholders to address regulatory changes and ensure timely remediation.
- Oversaw audit leadership and internal investigations, leveraging data analytics to enhance compliance program effectiveness and address violations.
- Provided stakeholder engagement as a subject matter expert on compliance and privacy matters for multiple business units, including pharmacy and home health.

Business Compliance Officer
December 2017 – December 2021

- Managed ethics program management and compliance oversight across infusion pharmacy, nursing, and clinical trial segments, ensuring adherence to industry standards.
- Led audit leadership and risk assessment initiatives, collaborating with internal teams to implement corrective actions and mitigate regulatory risks.
- Delivered regulatory reporting and executive presentations, aligning compliance strategies with organizational objectives and regulatory requirements (e.g., BOP, DEA, FDA).
- Conducted internal audits and compliance reviews, providing actionable insights for continuous improvement and fraud prevention.

Senior Manager, Regulatory Compliance
November 2015 – December 2017

- Directed regulatory oversight for Coram Healthcare, Specialty Mail, Retail, and PBM units, ensuring compliance with federal, state, and local regulations.
- Led audit leadership and risk management evaluations, developing process improvements and controlled substance dispensing strategies.
- Facilitated stakeholder engagement with business leaders to establish compliance protocols, delivering data-driven recommendations to enhance controls.

Field Compliance Advisor
July 2014 – November 2015

- Developed compliance strategy and risk mitigation plans for retail operations, ensuring adherence to EPA, DEA, and OSHA regulations.
- Enhanced ethics program management by influencing corporate policy execution and expanding compliance review scope across locations.

Stony Brook University Hospital, Stony Brook, NY
Senior Internal Auditor
September 2010 – July 2014

- Provided compliance strategy and regulatory oversight, supporting senior leadership with technical guidance on ethics and risk management.
- Led audit leadership and quality control initiatives, conducting policy reviews and delivering educational outreach to enhance organizational capacity.
- Managed ethics program management, establishing the Ethics Line and coordinating training workshops to address compliance risks.

Interim Corporate Compliance Officer
2011

- Oversaw compliance oversight program, leading the Compliance and Audit team and collaborating with stakeholders to ensure regulatory alignment.

Henry Schein Inc., Melville, NY
Worldwide distributor of medical, dental, and veterinary supplies
Regulatory Affairs Associate
January 2005 – September 2010

- Developed regulatory oversight and policy development for trade compliance, ensuring alignment with BIS, CBP, and FDA standards.
- Led audit leadership for internal and supplier audits, delivering regulatory reporting and risk mitigation recommendations to management.

EDUCATION

Master of Professional Studies, Human Resource Management
SUNY at Stony Brook, Stony Brook, NY • 2010

Bachelor of Arts, Biological Science – Business Minor
SUNY at Albany, Albany, NY • 2004

KATRINA BEST

PROFESSIONAL SUMMARY

Accomplished and strategic pharmacy leader with over 15 years of experience spanning pharmacy benefit management, clinical program development, and healthcare technology integration. Proven ability to build and manage cross-functional remote teams, implement clinical programs, and deliver high-quality member-centric services. Expertise in Medication Therapy Management (MTM), STAR/HEDIS measure optimization, and digital health solutions.

PROFESSIONAL EXPERIENCE

Rightway — *Remote*
Director, Pharmacy Navigation
Aug 2023 – Present

- Lead a 60-member team of pharmacists and technicians, delivering concierge-level pharmacy support to members of employer-sponsored health plans.
- Oversee staff deployment for member communication channels (chat, phone, email) and proactive clinical outreach programs.
- Manage partnerships with vendors including OutcomesMTM, Benecard, WellDyne, and Cost Plus Drugs.
- Spearheaded integration as the first PBM partner with Mark Cuban Cost Plus Drugs.
- Present at client sales pitches and contribute to RFP responses.
- Collaborate with marketing to develop member communications (apps, websites, webinars, mailings).
- Support product development with use case creation, UAT, and content design for internal and member platforms.
- Design and implement clinical training and onboarding programs.
- Co-develop analytics dashboards and clinical rules.

Manager, Pharmacy Navigation
Apr 2020 – Aug 2023

- Built the Pharmacy Navigation team from the ground up.

- Launched and managed the diabetes program demonstrating improved medication adherence.
- Regularly engaged with HR teams and participated in client quarterly meetings.
- Delivered internal education to clinical staff and new hires.

Community Care Cooperative
Clinical Pharmacist
Mar 2019 – Apr 2020

- Conducted med reviews for high-need populations (behavioral health, SUD, pediatric, long-term care).
- Collaborated with care teams to ensure optimized therapy.
- Delivered medication-focused training sessions to providers.

Evolent Health
Clinical Pharmacy Specialist
May 2014 – Feb 2019

- Lead SME for Medicare Part D MTM; oversaw vendor relations, compliance, and STAR rating improvements.
- Supported multiple lines of business (Medicare, Medicaid, Commercial, Exchange).
- Delivered UM and prior authorization services.
- Participated in internal P&T committees with formulary monograph prep.
- Co-developed internal Identifi platform pharmacy modules and conducted UAT.
- Designed member-facing adherence mailings and internal training programs.
- Served as preceptor for students and residents.

Physicians Pharmacy Alliance
Clinical MTM Pharmacist
Aug 2012 – Feb 2014 — Raleigh-Durham, NC

- Reviewed medication regimens for Medicaid patients and intervened for therapy optimizations.

- Delivered education to providers and patients; supported HEDIS goals.

Contract Clinical Pharmacist
Sep 2011 – Aug 2012 — Cary & Durham, NC

- Conducted in-home med reviews and pharmacy verifications.

- Provided temporary in-house pharmacist coverage.

Dominick's
Pharmacist
Jan 2008 – Sep 2010

- Administered immunizations and managed all pharmacy operations.

- Processed MTM claims and supervised tech staff.

Target
Pharmacist
May 2006 – Nov 2007

- Floated across Maryland Target Pharmacies to provide full pharmacist services.

NeighborCare
Pharmacy Technician
May 2003 – May 2006

- Supported prescription processing and patient service during academic terms and summers.

kellidrobney@u.boisestate.edu

EXPERIENCE

2023 – CURRENT

PBM OPERATIONS ASSOCIATE, RIGHTWAY HEALTHCARE

My primary responsibility is to ensure all eligibility files are operating smoothly, which includes monitoring files on a daily basis and evaluating any errors within the file. I also work with TPAs/vendors during implementation and gathering all requirements needed to implement a seamless eligibility file for the client. This includes discussing any unique situations a client might have to ensure we are tailoring everything specific to the clients/member's needs. My responsibilities also include managing any claims files that the clients request. Similar to eligibility, this requires meeting with vendors and gathering requirements to setup a file feed to the vendor for the clients specific needs.

2018 – 2023

PBM QUALITY CONTROL TEAM LEAD, AMERIBEN IEC GROUP

Currently I work as the PBM Quality Control Team Lead. My main responsibility is to support team members in their daily tasks that include troubleshooting escalations, monitoring the daily file loading process and implementations. During PBM implementations we are responsible for overseeing the clients cost share of medical and pharmacy dollars. This includes reviewing and being familiar with mapping/file specs. Other responsibilities include benefit design validation, auditing clients membership to ensure claims and pharmacy dollars are processing and applying accurately. Reviewing process improvements and engaging in projects around them to meet deadlines.

2017-2018

ADMINISTRATOR, NEW ENERGY STRUCTURES, INC.

Previously I worked as an administrator at NESCO, Inc. This included tasks such as: data entry, payroll, working with temp labors, making sure all the accounts are up to date and balanced. It was my responsibility to ensure that all information was accurate and there were no errors.

EDUCATION

AUGUST 2018

BACHELOR'S DEGREE, UNIVERSITY OF PHOENIX

Bachelor's degree in Business Management

MAY 2012

DIPLOMA, LEGACY HIGH SCHOOL

SKILLS

- Clear and Effective Communication
- Ability to Multi-task and meet deadlines
- Works well with others- team player
- Willing to go out of my way to get the job done!
- Coordinate and Manage Projects Effectively
- Effective leadership in managing and delegating task
- Ability to review current processes and address any efficiencies that can be made.

PROFESSIONAL EXPERIENCE

RIGHTWAY HEALTHCARE

Director of Client Success, PBM | Chicago, IL
April 2025 – Present

- Lead high-performing PBM team of 3 Client Success Managers and 1 Client Success Associate
- Cultivate executive-level relationships with strategic clients, successfully renewing 100% of accounts
- Drive client expansion through strategic account planning and targeted growth opportunities; analyze client utilization data and performance metrics to assess PBM program effectiveness and identify opportunities to enhance client satisfaction and outcomes
- Lead strategic account planning that identifies and executes on cross-sell opportunities
- Present regular reports to senior management highlighting client success stories, relationship challenges, and opportunities for service expansion
- Monitor pharmacy benefit management industry trends and regulatory changes to inform client success strategies and mitigate compliance risks
- Design and implement standardized Client Success playbooks to improve operational efficiency and client satisfaction
- Establish cross-functional collaboration framework with Clinical, Marketing, Service Delivery, Product, and Analytics, resulting in successful product customizations for key PBM clients

CONDUENT

Director of Account Management, Human Capital Solutions | Chicago, IL
April 2023 – April 2025

- Led team of 5 Client Group Managers and 4 Service Delivery Managers, overseeing top-tier accounts generating **$40M+ in ARR.**
- Achieved **129% of 2024 annual quota,** increasing ARR by **22% YoY,** while ensuring **100% client retention.**
- Drove client renewals, growth and expansion strategies, enhancing loyalty and long-term partnerships.
- Spearheaded executive alignment strategies between C-level client contacts (CHRO, CFO, CTO), Procurement, and Conduent leadership to optimize client satisfaction.
- Led and influenced negotiations, RFP responses, and procurement processes, collaborating cross-functionally with Pricing, Service Delivery, Talent Acquisition, Technology, and Legal teams **to ensure favorable operating margins.**

SALESFORCE

Account Executive, Insurance | Chicago, IL
April 2022 – April 2023

- Generated **$300K+ in net new logo business** and **expanded footprint by 45% YOY** within 8 months.
- Managed **$8M+ ACV** across the Commercial Insurance sector, driving customer expansion and satisfaction.
- Led full sales cycle management, including **prospecting, qualification, evaluation, deal closure, and post-sale account growth**.
- Engaged with **C-level executives (CFO, CIO, CTO, CRO)** to present Salesforce's value proposition and drive digital transformation.

BLUECROSS BLUESHIELD OF ILLINOIS

Senior Strategic Account Executive, National Accounts | Chicago, IL
October 2018 – April 2022

- Managed a $315M+ ARR book of 10 National accounts, achieving 100% retention through consultative engagement and strategic oversight.
- Developed and delivered **quarterly and annual performance reporting** on **medical plan performance** to C-suite clients and Consultants, aligning BCBSIL's solutions with business goals.
- Identified upsell opportunities in **Pharmacy, Voluntary Benefits, and Strategic Partnerships**.
- Led **internal and external project meetings**, ensuring alignment with client objectives and corporate sales strategies.
- Appointed to Sales and Account Management Advisory Board to improve existing processes for entire division.

OPTUMRX

Strategic Account Executive, Labor & Trust | Chicago, IL
May 2016 – September 2018

- Owned full client satisfaction and service delivery for a $60M ARR Labor & Trust PBM book of business, leading a cross-functional team across pharmacy account management, benefits, clinical, and operations.

CVS HEALTH

Strategic Account Executive, Government & Enterprise | Chicago, IL
September 2013 – May 2016

- Managed retention, growth, and administration of Medicare Part D plans through SilverScript Insurance.
- Developed deep expertise in EGWP plans, including finance, benefits, enrollment, clinical, and customer care.
- Created strategic solutions to align CVS Caremark's offerings with client needs, ensuring compliance and value-driven results.

rightway™ × Robinhood

CASE STUDY

Harmonizing pharmacy benefits for Robinhood.

Background.

In 2021, the Robinhood benefits team was preparing to switch their healthcare benefits from fully-insured to self-funded. As part of their spending analysis, they noticed that pharmacy spending was their fastest-growing healthcare cost category.

After several years of hypergrowth, the Robinhood trading platform had just IPO'd. Pharmacy spending was a cost sector that needed to be curbed as they embarked on their next chapter.

Robinhood has established a culture of providing a top benefits experience for their employees. Their next PBM couldn't just lower costs, it had to meet Robinhood's rigorous standards around the employee experience. With the back half of the year closing in, they needed a partner that could implement its solution on a tight 90-day timeline to be ready for a January 1st launch.

Robinhood contacted their benefits consultant to advise on a solution. Because the cost-cutting and member experience results Robinhood was seeking would require a departure from traditional PBM models, their consultant suggested they consider Rightway's transparent, flexible, and member-centric PBM.

After a rigorous vetting process, Robinhood selected Rightway as their new PBM for its proven track record of cost savings and its focus on the member experience.

CLIENT DETAILS

6,272 Members.	Self-funded. Plan design.
3,463 Total employees.	1/1/22 Launch date.
Anthem. Health plan.	

YEAR 1 RESULTS

$151 Rx plan paid PMPY reduction.	15% Rx plan paid reduction.

Implementation.

To ensure a successful launch, Rightway's dedicated Implementation team used a consultative approach, working closely with Robinhood to understand employees' needs, learn about prior pain points, and confirm benefit requirements. Their findings informed tailored recommendations that helped optimize Robinhood's pharmacy benefits.

Rightway deployed its 90-day implementation plan, leading a cross-functional effort between Robinhood's consultant and their TPA, Collective Health, to ensure the smooth handoff of critical information between systems. They designed data flows and back-end functionality that covered all services to create a best-in-class pharmacy benefits experience for Robinhood employees.

The teams aligned around who managed different parts of the member journey, consistently prioritizing a seamless pharmacy benefits experience for the member. Together, they developed a scalable infrastructure that would streamline future client implementations.

IMPLEMENTATION METRICS

100%

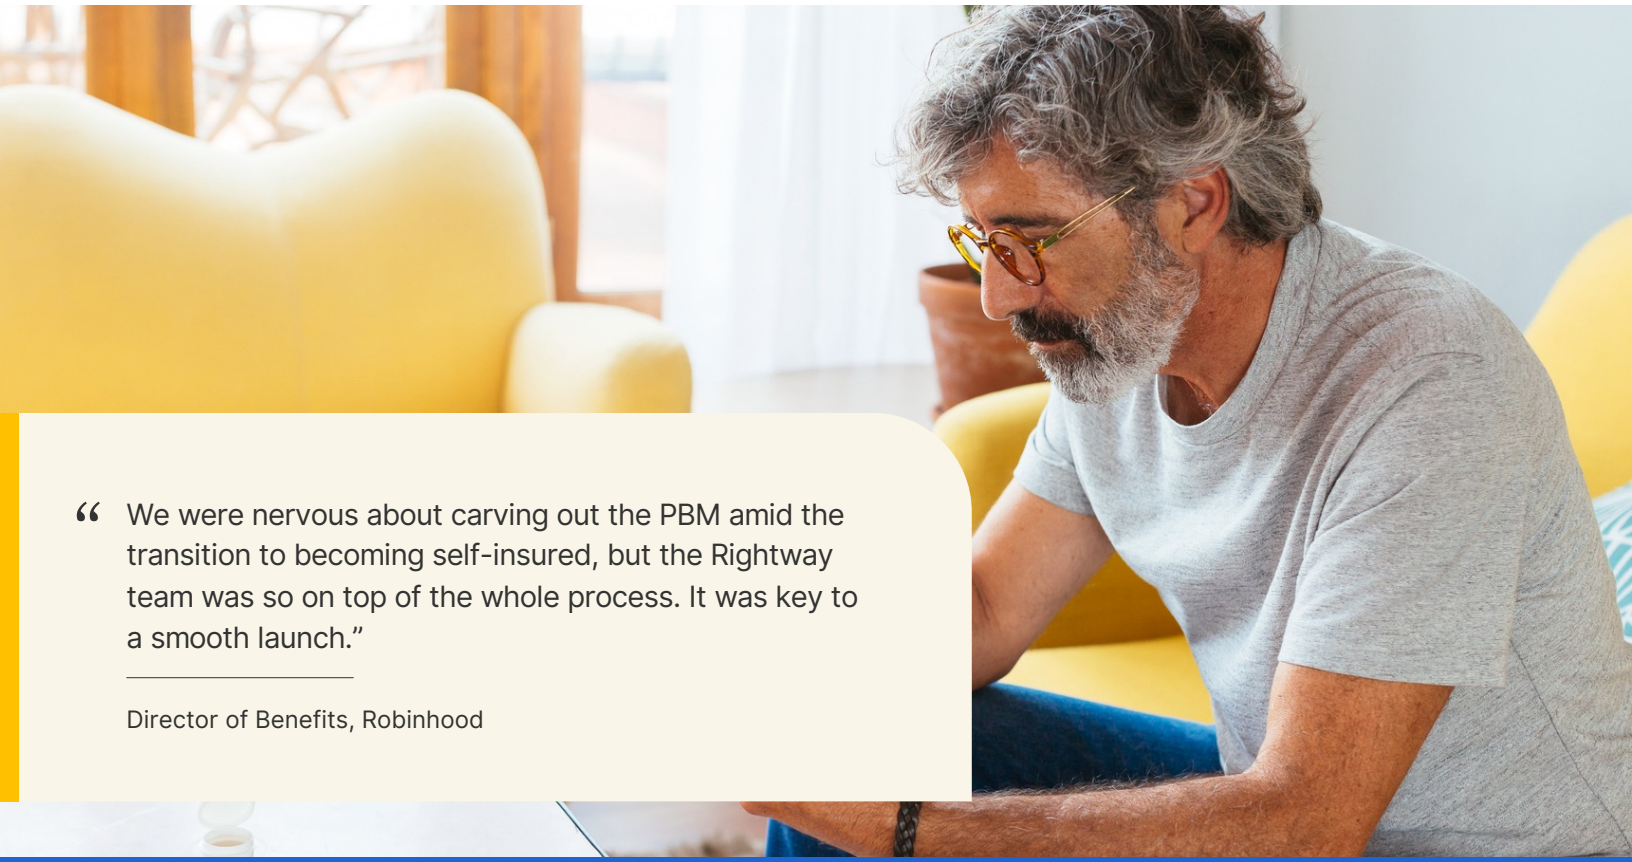
Of Robinhood stakeholders reported being "very satisfied" (top rating) with implementation.

99%

Claims processing accuracy with no member plan impact.

Collective Health®

Rightway and Collective Health developed a scalable framework that would streamline future cross-client implementations.



> "We were nervous about carving out the PBM amid the transition to becoming self-insured, but the Rightway team was so on top of the whole process. It was key to a smooth launch."
>
> Director of Benefits, Robinhood

Transitioning new members.

The Rightway team partnered closely with Robinhood's HR team to transition employees to Rightway. Rightway's clinical team evaluated data from the incumbent PBM and devised a plan to minimize member disruption. Additionally, they provided recommendations to the Robinhood team on ways to adjust the benefit and formulary design to best serve the needs of their population. They studied Robinhood's open enrollment timeline and process to advise on a PBM launch strategy that fit into Robinhood's overall benefits ecosystem.

During Robinhood's Open Enrollment period, Rightway conducted a series of "pharmacy benefit office hours" with its pharmacy navigation team to talk about transitioning to a new PBM. Robinhood employees could get clarity around changes to their upcoming formulary, review their medications with a Rightway pharmacist, chat through lower cost alternatives, and get an overview of their new pharmacy benefits with the mail and specialty vendor.

To help triage any additional questions from employees, Rightway provided access to a secure online form. Questions submitted via the form were guaranteed to receive a response within 24 hours.

Throughout the implementation process, Rightway's pharmacy team ensured a smooth transition by meeting members where they were, whether that was over the phone, by email, through a form, or during a scheduled appointment. Prior to launch, 99% of specialty patients enrolled in copay assistance programs.

MEASURING MEMBER EXPERIENCE

+78

Average NPS in the first year of engagement.

42%

Proactive conversion to formulary alternatives prior to go live.

99%

Enrollment of specialty patients in copay assistance programs prior to go live.

> "Thank you so much for all your help and advocacy. I have NEVER had so much communication and assistance from a healthcare company. You are awesome! Now I will focus on my health and getting back to a better place. Thanks again!"
>
> Member, Robinhood Employee

Building a framework for the future.

After a 90-day implementation, Robinhood launched Rightway on January 1 of 2022. Today, Rightway acts as an extension of the Collective Health team, bringing the high-touch member experience to pharmacy benefits. Since launch, Rightway has received an NPS score of +78 from Robinhood members, demonstrating its commitment to its members.

The operational tooling developed through the close partnership between Rightway and Collective Health further simplifies Rightway's signature 90-day implementation. The framework was designed to support future clients of Collective Health who are eager to drastically cut pharmacy costs while improving the pharmacy benefits experience.

RIGHTWAY'S 90-DAY IMPLEMENTATION

Rightway's dedicated implementation team creates a tailored project plan and manages all aspects of implementation, lifting the burden on HR and benefits teams.

A sample implementation schedule is presented below. The framework developed between Rightway and Collective Health further streamlines implementation for new Collective Health clients, requiring minimal support from benefits teams implementing Rightway's PBM.

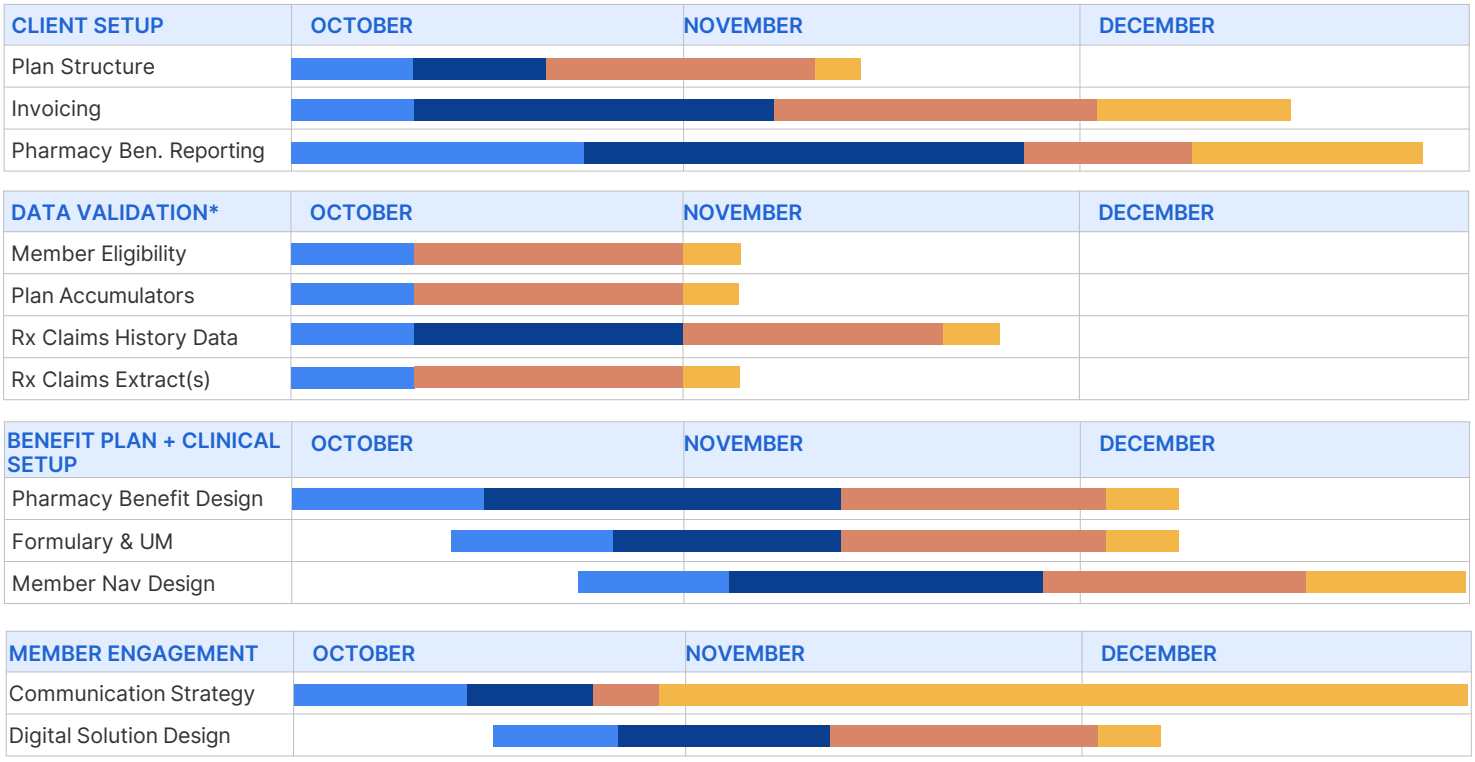
IMPLEMENTATION KICK OFF: OCTOBER 1, 2022
LAUNCH DATE: JANUARY 1, 2023

INFORM / DOCUMENT
Rightway performs intake, documents approvals, and creates master project plan.

CONFIGURE
Rightway manages system setup, benefits configuration, and materials and data interface preparation.

TEST
Rightway tests platform configuration and data exchanges.

LAUNCH
Function moved into production mode. Rightway QA team performs monitoring.



*Data integration has been completed as part of partnership developed with Collective Health. Rightway performs data validation to ensure all data feeds are ingested properly.

Results.

Robinhood launched Rightway in January of 2022. Since the launch, Robinhood has saved $1.4M in pharmacy costs. Rightway has received an NPS score of +78 from the Robinhood members, demonstrating its commitment to improving the pharmacy experience.

Today, Rightway acts as an extension of the Collective Health team, bringing the high-touch member experience to pharmacy benefits.

Through close partnership, Rightway and Collective Health developed operational tooling within a framework that can easily support additional Collective Health clients eager to drastically cut pharmacy costs while improving the pharmacy benefits experience.

COST SAVINGS

$1.4M YoY total plan spend reduction.	**$397K** Copay assistance savings.	**$25** Rx PMPM cost savings (cost avoidance).
$6 Reduction in PMPM through copay assistance.	**86%** Generic dispensing rate.	**15%** Rx plan paid reduction.

rightway™

CASE STUDY

Introducing a better PBM.

How a global manufacturing leader reduced total pharmacy spend by 16% after leaving a Big 3 PBM and implementing Rightway.

About the company.

A global company headquartered in Atlanta, Georgia, is the world's largest manufacturer of aluminum, producing everything from beverage cans to airplanes. It operates manufacturing plants in tightly-knit communities across the United States and employs 4,300 team members. Like much of the U.S. population, nearly 20% of their employees suffer from chronic conditions ranging from heart disease to diabetes.

The manufacturing company prides itself on a high-touch culture that prioritizes functional expertise and workplace safety. Their teams include engineers and scientists who operate complex machinery. Rather than being benefits experts, their employees must be able to focus on the job while staying safe in their manufacturing plants.

Recently, the company underwent an acquisition. Its workforce now has 9 unions with roughly 6 unique medical plans per union, resulting in extensive benefits complexity.

Building a legacy of excellence in benefits.

The company has built a legacy of taking care of its people; its workforce spans generations of family members with high expectations around their benefit delivery and design. Employing everyone from Gen Z-ers to baby boomers, they recognize that everyone has different needs. The company needed a flexible, high-touch pharmacy benefit partner that would deliver concierge care to their people, regardless of where they were in their healthcare journey.

CLIENT DETAILS

9,485 Members.	Self-insured Plan design.
Atlanta HQ.	1/1/21 Launch date.
Anthem Health plan.	

RESULTS

$1.8M YoY total spend reduction.	16% YoY total Rx spend reduction.

HEAD-TO-HEAD

BIG 3 PBM	rightway™
$122 2020 PMPM Rx spend.	$103[1] 2021 PMPM Rx spend.

1. Covid-related claims removed.

Selecting a new PBM.

The manufacturing company consistently seeks advanced, modern solutions to take care of their employees. Their pharmacy benefit partner had to lower costs, provide affordable medications to the company and its employees, and deliver on the company's commitment to meet every individual where they are. In addition to managing the complexity of their plans, they needed a partner who would complete the integration of pharmacy benefits between the two companies involved in the acquisition. They had to bring the latest technology, create a personal touch for the end user, and provide chronic condition support for employees with multiple prescriptions.

Communication between the PBM team and the company's employees couldn't feel like a transaction, it had to be based on a holistic approach that was about more than just saving money. For instance, if a member was diabetic, they had to have access to a clinical pharmacist who could help them manage their condition and alleviate their concerns.

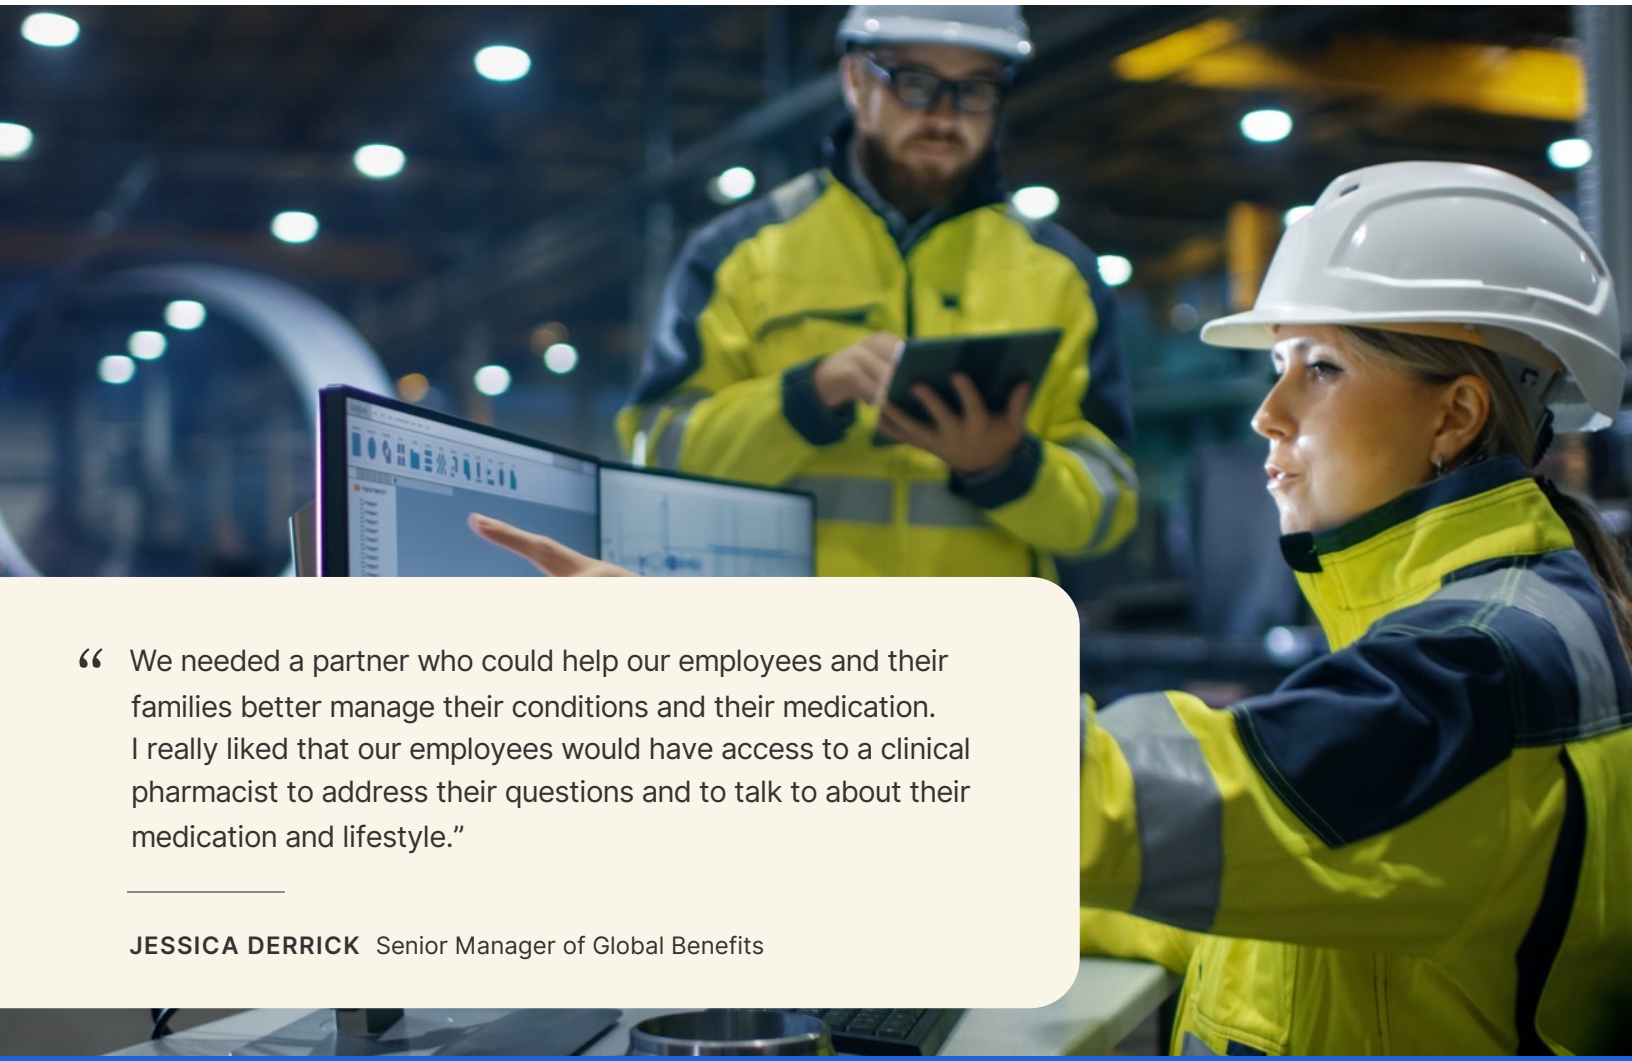
> "We had a lot of big asks of their team; every time Rightway figured out a solution. It really demonstrated the commitment Rightway had to our partnership."
>
> **JESSICA DERRICK** Senior Manager of Global Benefits

Introducing Rightway.

In 2021, the company launched Rightway across its entire population. Rightway tailored its PBM to meet the needs of every medical plan within the company's nine unions and partnered closely with their other vendors to integrate appropriate systems and processes.

Prior to go-live, Rightway's health guides conducted extensive outreach to the company's employees, informing them of their new PBM and ensuring a smooth transition to their new plan. Team members were able to access Rightway's app prior to launch to familiarize themselves with their new pharmacy benefit.

Rightway deployed its multi-channel engagement process, recognizing that the company had a large older population who preferred connecting by phone. The Rightway team customized messaging to drive members to both its app and to telephonic communication. In addition, Rightway deployed its concierge care delivery program, including ongoing one-on-one interactions between employees and clinical pharmacists to ensure that patients were taken care of.



> "We needed a partner who could help our employees and their families better manage their conditions and their medication. I really liked that our employees would have access to a clinical pharmacist to address their questions and to talk to about their medication and lifestyle."

JESSICA DERRICK Senior Manager of Global Benefits

Delivering the Rightway difference.

Rightway's member-centric approach delivered a next-level healthcare experience for the company's team. Every time employees needed pharmacy assistance, they could connect with their dedicated health guide in the Rightway app or over the phone.

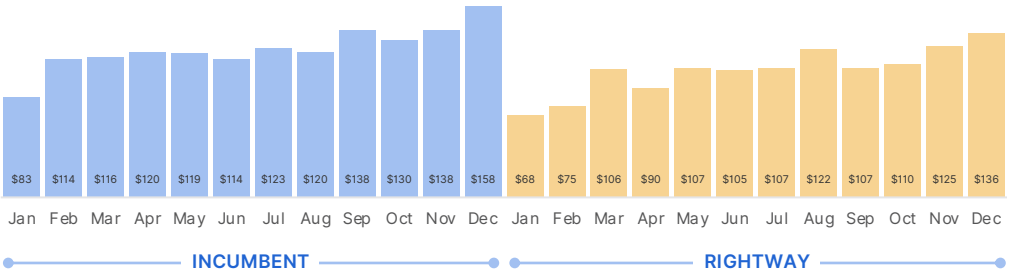
On the backend, Rightway's modern claims platform and robust clinical rules engine identified high-risk and specialty members that would benefit from proactive outreach. By working one-on-one with members, Rightway pharmacists established trusting relationships that strengthened their ability to guide members to optimal medication regimens and savings opportunities.

Over the course of the year, Rightway unlocked significant margin trapped by the company's previous PBM and delivered it back to them. Rightway's leading technology, expert clinical guidance, and aligned business model decreased the company's pharmacy spending by 16% per member per year.

> "Thank you so very much! This has been one of the most frustrating times of my (medical) life. I can't tell you how much I appreciate you walking through this with me."
>
> **MEMBER** After a pharmacy navigation.

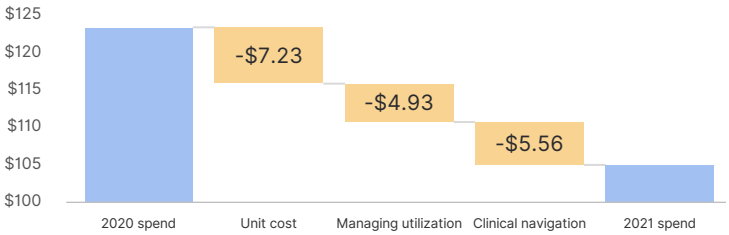
Results by the numbers.

TOTAL PHARMACY SPEND PER MEMBER PER MONTH



The only material changes made to the pharmacy benefit design year over year were the expansion of drugs covered at 100% by the plan.

SAVINGS BREAKDOWN PER MEMBER PER MONTH



Unit cost savings.
Savings originating from aggressive discounts and Rightway's transparent pricing model.

Managing utilization.
Savings originating from formulary development, prior authorization, step therapy, and quantity limits.

Clinical navigation.
Savings originating from MTM programs, directing to therapeutic alternatives, and the copay assistance maximizer.

All numbers are prior to rebate payments.

RIGHTWAY PHARMACY BENEFITS

Your guide to
better health.

Identifying an opportunity...

In early 2020, a property management group based in the south was struggling to control rising pharmacy costs for their self-funded pharmacy plan.

For the last 5 years, they had been using a large-scale PBM arrangement that was not tailored to their needs and not optimizing their pharmacy spend. As a result, the pharmacy portion of their overall healthcare costs was nearly twice the industry standard.

As an existing satisfied client of Rightway's Navigation solution, they decided to implement RightwayRx.

Partnering in pharmacy benefits management.

> "We didn't know about the contracting games happening on the backend and didn't realize how much money we were leaving on the table."

VICE PRESIDENT OF BENEFITS

Rightway implemented its proprietary pharmacy benefits management model which enabled savings through a combination of:

TECHNOLOGY

Rightway's intuitive app drove member engagement through support, education, and adherence tools.

TRANSPARENCY

The model eliminated rebate retention and spread pricing, leading to a lower unit cost on medication.

PHARMACY NAVIGATION

Pharmacy guides proactively navigated members to the highest-quality drug at the lowest price by:

+ Enrolling members into copay assist programs.
+ Providing streamlined access to pharmacists to make cost and health savings recommendations.

Empowering employees.

Implementing RightwayRx has improved the employee experience. Rather than being passed from one customer service representative to another, employees enjoy having a single place to go for their pharmacy needs and report feeling that they:

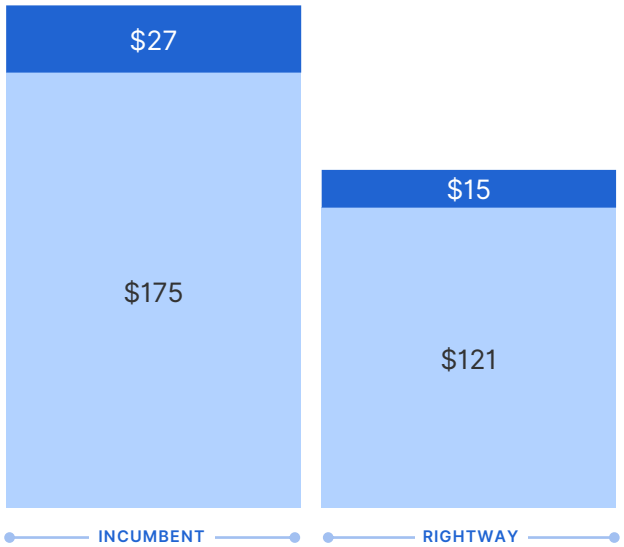
+ Understand their pharmacy benefits.
+ Trust their pharmacy guides to answer their questions.
+ Rely on Rightway to help them get the best cost on their medications.

> “Rightway has delivered on their promise 100%. Every little thing they said they would do, they’ve done. I’ve been doing this for 18 years and I’ve never had such good results from anyone in the health industry.”
>
> VICE PRESIDENT OF BENEFITS

Creating value.

After a seamless pharmacy benefits implementation, Rightway has helped the property manager realize immense savings.

Pharmacy spending per-member per-month.



$590k
Full year cost-savings impact.

-33%
Decrease in pharmacy plan spend.

+1.9%
Increase in generic prescriptions.

$20
PMPM copay assistance savings.

-20%
Reduction in average gross cost PMPM.

-27%
Reduction in member cost share.

INDEPENDENT SERVICE AUDITOR'S REPORT

To the Management of

Rightway Healthcare, Inc.

New York, New York

Scope

We have examined Rightway Healthcare, Inc.'s ("Rightway Healthcare" or "Rightway" or the "Company") accompanying description of its Navigation and Pharmacy Benefits Manager (PBM) Solutions (system) found in Section III titled "Description of the System" throughout the period June 1, 2023 to July 31, 2024 (description) based on the criteria for a description of a service organization's system set forth in *DC 200, 2018 Description Criteria for a Description of a Service Organization's System in a SOC 2® Report (With Revised Implementation Guidance—2022)* (AICPA, *Description Criteria*), (description criteria) and the suitability of the design and operating effectiveness of controls stated in the description throughout the period June 1, 2023 to July 31, 2024, to provide reasonable assurance that Rightway Healthcare's service commitments and system requirements were achieved based on the trust services criteria relevant to security, availability and confidentiality (applicable trust services criteria) set forth in *TSP 100, 2017 Trust Services Criteria for Security, Availability, Processing Integrity, Confidentiality, and Privacy (With Revised Point of Focus—2022)* (AICPA, *Trust Services Criteria*) and the implementation requirements set forth in the HITRUST CSF version 9.6 that are applicable to Rightway Healthcare's system required for a HITRUST CSF Security Assessment (applicable HITRUST CSF criteria).

The description indicates that certain complementary user entity controls that are suitably designed and operating effectively are necessary, along with controls at Rightway Healthcare, to achieve Rightway Healthcare's service commitments and system requirements based on the applicable trust services criteria and HITRUST CSF criteria. The description presents Rightway Healthcare's controls, the applicable trust services criteria and HITRUST CSF criteria, and the complementary user entity controls assumed in the design of Rightway Healthcare's controls. Our examination did not include such complementary user entity controls and we have not evaluated the suitability of the design or operating effectiveness of such controls.

Rightway Healthcare uses three subservice organizations. Amazon Web Services ("AWS") provides data hosting services. Aptible provides infrastructure support services including encryption, backup, baseline configuration, and logging. Artic Wolf provides a Security Operations Center as a Service. The description indicates that complementary subservice organization controls that are suitably designed and operating effectively are necessary, along with controls at Rightway Healthcare, to achieve Rightway Healthcare's service commitments and system requirements based on the applicable trust services criteria and HITRUST CSF criteria. The description presents Rightway Healthcare's controls, the applicable trust services criteria and HITRUST CSF criteria, and the types of complementary subservice organization controls assumed in the design of Rightway Healthcare's controls. The description does not disclose the actual controls at the subservice organization. Our examination did not include the services provided by the subservice organizations, and we have not evaluated the suitability of the design or operating effectiveness of such complementary subservice organization controls.

Service Organization's Responsibilities

Rightway Healthcare is responsible for its service commitments and system requirements and for designing, implementing, and operating effective controls within the system to provide reasonable assurance that Rightway Healthcare's service commitments and system requirements were achieved.

In Section II, Rightway Healthcare has provided the accompanying assertion titled "Management's Assertion" (assertion) about the description and the suitability of design and operating effectiveness of controls stated therein. Rightway Healthcare is also responsible for preparing the description and assertion, including the completeness, accuracy, and method of presentation of the description and assertion; providing the services covered by the description; selecting the applicable trust services criteria and HITRUST CSF criteria and stating the related controls in the description; and identifying the risks that threaten the achievement of the service organization's service commitments and system requirements.

Service Auditor's Responsibilities

Our responsibility is to express an opinion on the description and on the suitability of design and operating effectiveness of controls stated in the description based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform our examination to obtain reasonable assurance about whether, in all material respects, the description is presented in accordance with the description criteria and that the controls stated therein were suitably designed and operated effectively to provide reasonable assurance that the service organization's service commitments and system requirements were achieved based on the applicable trust services criteria and HITRUST CSF criteria. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

An examination of a description of a service organization's system and the suitability of the design and operating effectiveness of controls involves—

- Obtaining an understanding of the system and the service organization's service commitments and system requirements.
- Assessing the risks that the description is not presented in accordance with the description criteria and that controls were not suitably designed or did not operate effectively.
- Performing procedures to obtain evidence about whether the description is presented in accordance with the description criteria.
- Performing procedures to obtain evidence about whether controls stated in the description were suitably designed to provide reasonable assurance that the service organization achieved its service commitments and system requirements based on the applicable trust services criteria and HITRUST CSF criteria.
- Testing the operating effectiveness of controls stated in the description to provide reasonable assurance that the service organization achieved its service commitments and system requirements based on the applicable trust services criteria and HITRUST CSF criteria.
- Evaluating the overall presentation of the description.

Our examination also included performing such other procedures as we considered necessary in the circumstances.

Inherent Limitations

The description is prepared to meet the common needs of a broad range of report users and may not, therefore, include every aspect of the system that individual report users may consider important to meet their informational needs. There are inherent limitations in any system of internal control, including the possibility of human error and the circumvention of controls.

Because of their nature, controls may not always operate effectively to provide reasonable assurance that the service organization's service commitments and system requirements are achieved based on the applicable trust services criteria and HITRUST CSF criteria. Also, the projection to the future of any conclusions about the suitability of the design or operating effectiveness of controls is subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Description of Tests of Controls

The specific controls we tested, and the nature, timing, and results of those tests are listed in Section IV, "Trust Services Categories, Criteria, HITRUST CSF Criteria, Related Controls, Tests, and Test Results" of this report.

Service Auditor's Independence

We are required to be independent of Rightway Healthcare and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our examination.

Opinion

In our opinion, in all material respects—

a. The description presents Rightway Healthcare's PBM Solutions that was designed and implemented throughout the period June 1, 2023 to July 31, 2024, in accordance with the description criteria.

b. The controls stated in the description were suitably designed throughout the period June 1, 2023 to July 31, 2024 to provide reasonable assurance that Rightway Healthcare's service commitments and system requirements would be achieved based on the applicable trust services criteria and HITRUST CSF criteria, if its controls operated effectively throughout that period and if the subservice organizations and user entities applied the complementary controls assumed in the design of Rightway Healthcare's controls throughout that period.

c. The controls stated in the description operated effectively throughout the period June 1, 2023 to July 31, 2024, to provide reasonable assurance that Rightway Healthcare's service commitments and system requirements were achieved based on the applicable trust services criteria and HITRUST CSF criteria, if complementary subservice organization controls and complementary user entity controls assumed in the design of Rightway Healthcare's controls operated effectively throughout that period.

Restricted Use

This report, including the description of tests of controls and results thereof in Section IV, is intended solely for the information and use of Rightway Healthcare; user entities of Rightway Healthcare's PBM Solutions during some or all of the period June 1, 2023 to July 31, 2024, business partners of Rightway Healthcare subject to risks arising from interactions with the system, practitioners providing services to such user entities and business partners, prospective user entities and business partners, and regulators who have sufficient knowledge and understanding of the following:

- The nature of the service provided by the service organization.

- How the service organization's system interacts with user entities, business partners, subservice organizations, and other parties.
- Internal control and its limitations.
- Complementary user entity controls and complementary subservice organization controls and how those controls interact with the controls at the service organization to achieve the service organization's service commitments and system requirements.
- User entity responsibilities and how they may affect the user entity's ability to effectively use the service organization's services.
- The applicable trust services criteria and HITRUST CSF criteria.
- The risks that may threaten the achievement of the service organization's service commitments and system requirements and how controls address those risks.

This report is not intended to be, and should not be, used by anyone other than the specified parties.

MANAGEMENT'S ASSERTION

We have prepared the accompanying description of Rightway Healthcare, Inc.'s ("Rightway Healthcare" or "Rightway" or the "Company") Navigation and Pharmacy Benefits Manager (PBM) Solutions (system) titled "Description of the System" throughout the period June 1, 2023 to July 31, 2024 (description) based on the criteria for a description of a service organization's system set forth in *DC 200, 2018 Description Criteria for a Description of a Service Organization's System in a SOC 2® Report (With Revised Implementation Guidance—2022)* (AICPA, *Description Criteria*), (description criteria). The description is intended to provide report users with information about the system that may be useful when assessing the risks arising from interactions with Rightway Healthcare's system, particularly information about system controls that Rightway Healthcare has designed, implemented, and operated to provide reasonable assurance that its service commitments and system requirements were achieved based on the trust services criteria relevant to security, availability and confidentiality (applicable trust services criteria) set forth in *TSP 100, 2017 Trust Services Criteria for Security, Availability, Processing Integrity, Confidentiality, and Privacy (With Revised Point of Focus—2022)* (AICPA, *Trust Services Criteria*) and the implementation of requirements set forth in the HITRUST CSF version 9.6 that are applicable to Rightway Healthcare's system required for a HITRUST CSF Security Assessment (applicable HITRUST CSF criteria).

The description indicates that complementary user entity controls that are suitably designed and operating effectively are necessary, along with controls at Rightway Healthcare, to achieve Rightway Healthcare's service commitments and system requirements based on the applicable trust services criteria and HITRUST CSF criteria. The description presents the service organization's controls, the applicable trust services criteria and HITRUST CSF criteria, and the complementary user entity controls assumed in the design of the service organization's controls.

Rightway Healthcare uses three subservice organizations. Amazon Web Services ("AWS") provides data hosting services. Aptible provides infrastructure support services including encryption, backup, baseline configuration, and logging. Artic Wolf provides a Security Operations Center as a Service. The description indicates that complementary subservice organization controls that are suitably designed and operating effectively are necessary, along with controls at Rightway Healthcare, to achieve Rightway Healthcare's service commitments and system requirements based on the applicable trust services criteria and HITRUST CSF criteria. The description presents Rightway Healthcare's controls, the applicable trust services criteria and HITRUST CSF criteria, and the types of complementary subservice organizations controls assumed in the design of Rightway Healthcare's controls. The description does not disclose the actual controls at the subservice organizations.

We confirm, to the best of our knowledge and belief, that—

1) The description presents the Rightway Healthcare's PBM Solutions that was designed and implemented throughout the period June 1, 2023 to July 31, 2024, in accordance with the description criteria.
2) The controls stated in the description were suitably designed throughout the period June 1, 2023 to July 31, 2024, to provide reasonable assurance that Rightway Healthcare's service commitments and system requirements would be achieved based on the applicable trust services criteria and HITRUST CSF criteria, if its controls operated effectively throughout that period, and if the subservice organization and user entities applied the complementary controls assumed in the design of Rightway Healthcare's controls throughout that period.

3) The controls stated in the description operated effectively throughout the period June 1, 2023 to July 31, 2024, to provide reasonable assurance that Rightway Healthcare's service commitments and system requirements were achieved based on the applicable trust services criteria and HITRUST CSF criteria, if complementary subservice organization controls and complementary user entity controls assumed in the design of Rightway Healthcare's controls operated effectively throughout that period.

DESCRIPTION OF THE RIGHTWAY HEALTHCARE NAVIGATION AND PHARMACY BENEFITS MANAGER (PBM) SOLUTIONS

Overview of Operations

Company Overview

Rightway Healthcare, Inc. (“Rightway Healthcare” or “Rightway” or the “Company”) was founded in 2017 as a privately held company. The Company offers clinical care navigation and pharmacy benefits management services to its clients. Rightway’s mission is to unlock transformational healthcare outcomes by making guidance and advocacy accessible to all. With headquarters located in New York, NY, Rightway services over 750 organizations nationally via smartphone, web, and direct calling and messaging with personal navigators. The Company is backed by $130m+ in investment from leading venture firms and is using funds to support an expansion that will broaden its mission to put consumers at the center of healthcare.

Product Overview

The current Rightway product offerings include Navigation and Pharmacy Benefits Manager (PBM) Solutions. The Navigation Solution provides employee members with a personal "Rightway Navigator," a continual point of contact throughout their healthcare journey. The Navigator answers and assists members in care decision support and resolves questions regarding their health, treatment, benefits, and expenses. In addition, the service targets high-cost employees, leading to improved engagement and return on investment for employers. The PBM Solution, RightwayRx, provides employees with a Pharmacy Navigator to support and guide them through every step of care. This service helps customers get the medication they need at the most affordable prices possible.

- Trained Health Professionals Equipped to Answer Members' Healthcare Questions
- Mobile Application, Web, and Phone Accessibility
- Help Members Understand and Navigate their Diagnosis, Treatment Options, and Payment
- Claims Data Analysis
- Combine Human and Artificial Intelligence to Drive Employees to Optimal Healthcare Decisions
- ROI Reporting

Principal Service Commitments and System Requirements

Key commitments:

- Securing customer data.
- Maintaining 24/7 system availability.
- Classifying data and maintaining confidentiality of data classified as such.

Examples of system requirements to achieve the above commitments include:

- Logical and physical access controls over customer data.
- Redundant systems that would ensure 24/7 availability.
- Authority of classifying data is assigned to a specific individual or group.
- Confidential data is segregated in a location that can be accessed only by authorized individuals.

Significant Changes to the System

There were no changes that are likely to affect report users' understanding of how the system is used to provide the service for the period June 1, 2023 to July 31, 2024.

RELEVANT ASPECTS OF INTERNAL CONTROL

As defined by the American Institute of Certified Public Accountants (AICPA), internal control is a process affected by an entity's board of directors, management, and other personnel and consists of five interrelated components:

- Control Environment
- Risk Management
- Information and Communication
- Monitoring
- Control Activities

This section briefly describes the essential characteristics and other interrelated components of the trust services criteria of security, availability, confidentiality, and the HITRUST CSF criteria as they pertain to the Company.

Control Environment

The Rightway leadership team takes its role in overseeing internal controls seriously. The Company has a Code of Conduct and a procedure for reporting violations, which is available on Rightway's intranet. The Code of Conduct, found within the Employee Handbook, is distributed to all new employees along with an Employee Handbook acknowledgement form. This form requires that all employees have read and understand the Employee Handbook. Rightway believes it has the proper incentives in place that would tend to discourage conflicts of interest and/or improper behavior. Rightway exercises significant diligence in hiring competent, qualified professionals, and to then provide employees with appropriate on-the-job training. All Rightway employees receive new hire orientation training, HIPAA security and best practices training, and continuing education through online cybersecurity refreshers. The Board of Directors has sufficient independence to effectively oversee management.

The Rightway management team meets at least weekly. The members of the management team are the:

- Chief Executive Officer (CEO)
- Chief Technology Officer (CTO)
- Chief People Officer (CPO)
- Chief of Staff
- VP of Product
- VP of Product Marketing
- Chief Medical Officer
- VP of Software Architecture
- EVP Advocacy Strategy & Delivery
- VP of Partnerships
- VP of Operations & Finance

Control Environment (continued)

- VP of Data & Analytics
- SVP, PBM Operations
- Chief Commercial Officer
- Head of Security and Information Technology
- VP, Navigation Service Delivery
- SVP of PBM Operation and Strategy

The Rightway strategic plan, which is captured in the Rightway mission statement, was enacted by the CEO with contributions from the entire management team. The strategic plan focuses on corporate strategy for developing the core business, improving current product offerings, expanding solutions, and responding to market challenges. Annually, management reviews and develops plans and resources to meet strategic goals. Relevant segments of the strategic plan are shared with members of the management team, who disseminate the strategic goals to personnel, and monitor progress and adherence to the strategic plan.

Rightway has a defined organizational structure. The Company organizational chart is made available to all employees, and reporting relationships are kept current on that chart. Roles and responsibilities are defined in written job descriptions and communicated to employees, as well as supervisors and managers. Senior management periodically reviews reporting relationships and the organizational structure as part of planning. Reporting structures are adjusted as needed, based on changing commitments, requirements, and goals.

Human Resources

The Rightway CPO, as well as upper management, oversee other Human Resources (HR) functions, including employee search, recruiting, orientation and industry-related training.

The Rightway HR function is guided by established policies and procedures for hiring, promoting, and compensating, training, and termination of employees. Relevant Rightway policies and procedures are outlined in the Rightway Employee Handbook provided to all employees. Employees are required to respond in writing with acknowledgement of the Rightway Employee Handbook.

Policies included in the Employee Handbook include, but are not limited to:

- Code of Ethics,
- Equal Opportunity and Employment,
- Code of Conduct,
- Classifications and Work Schedule,
- Compensation and Benefits,
- Leave,
- Performance,
- Device Security
- Appropriate/Acceptable Use,
- Diversity and Inclusion
- Prohibited Conduct, Discipline, and Termination

Control Environment (continued)

Human Resources (continued)

Employee compliance with behavioral expectations is evaluated as part of their job performance. Candidates for promotion must have demonstrated a commitment to ethical standards through their own actions, and by setting an example for other employees. Information is accumulated primarily through the performance evaluation process, and less formally through emails or comments submitted by supervisors or peers. Complaints indicating departure from behavioral standards are investigated by managers and are documented as necessary.

As part of Rightway's performance management process, management establishes expectations and evaluates the performance of reporting employees. Management conducts biannual employee evaluations, which include a self-assessment, and a manager review. Performance is documented by HR and the People Operations functions.

A critical part of providing a work environment with strong ethics and controls starts with the hiring and training processes. Management takes an active role in recruitment, including screening applicants, checking references, completing background checks, administering mandatory drug testing, and providing the orientation of new team members.

Potential employees must pass a criminal background check and drug screening before beginning work at Rightway.

New Hire Onboarding

Before an individual joins the Rightway team, management must first identify the need for additional personnel. Any Rightway employee can submit a Job Request Form, which is then reviewed by the hiring committee. This committee meets frequently to discuss any new hire requests and approves or denies requests based on company needs and roadmap as well as budget. Once the job has gained approval, a job description is drafted. This is then posted in a manner accessible internally and online.

The Talent Team reviews resumes to identify qualified candidates. When a qualified candidate is identified, he or she is further evaluated through a phone screening process and a behavioral phone interview. If the candidate passes this stage, they are scheduled for in-person interviews with the individuals in the respective team in which they will work. When an in-person interview is not possible due to extenuating circumstances, management makes arrangements to conduct digital interviews.

When interviews are completed, a hiring decision is made. If management chooses to issue an offer letter to the prospective hire, the Talent Team is in charge of issuance of the offer letter and communication with the prospective employee. If the prospective employee formally accepts the offer letter, a background check is completed. The formal background check and hiring steps must be completed before the prospective Rightway employee is allowed access to Rightway premises to begin work.

New employees receive an introductory email approximately before their start date outlining first-day logistics. When the new employee arrives on his or her first day, they meet with their designated HR representative, technical access liaison, and first-week buddy. They will review necessary paperwork with the HR representative and are required to provide written acknowledgement of the Rightway Employee Handbook ahead of or upon start date.

Throughout the hiring process, progress and completion of tasks are recorded on a new hire checklist. This checklist is maintained by the Rightway management team.

Control Environment (continued)

Policy for Training

All new employees are required to complete the aforementioned new employee orientation activities which introduce them to the Rightway culture, business operations, policies and procedures, and the applications comprising the Rightway system.

Ongoing employee training consists principally of on-the-job training. Email security and best practices training is an ongoing process and includes refresher training and phishing campaigns. HIPAA security training is mandatory for all Rightway employees, regardless of access to PHI.

Code of Conduct

The Rightway Employee Handbook, which contains the Code of Conduct, is available to all employees on Rightway's intranet and includes sections that address financial reporting, acceptable use of company devices, business conduct, and other information related to corporate conduct and culture. This document makes Rightway's position clear that violations of the Code will not be tolerated and will lead to disciplinary action, including possible termination.

Employment Termination

Employment can be terminated by Rightway at any time, as it operates as an At-Will employer. Employee terminations can be voluntary or involuntary. Rightway tries to exercise the progressive nature of the involuntary termination policy by first providing warnings, issuing a final written warning, or suspending the employee from the workplace before proceeding to a recommendation to terminate employment. However, Rightway reserves the right to combine and skip steps depending on the circumstances of each situation and the nature of the offense. Furthermore, employees may be terminated without prior notice or disciplinary action.

Management's recommendation to terminate employment must be reviewed by HR and approved by the division director or designate. Final approval may be required from the CEO or designate.

Risk Assessment

As part of Rightway's risk management activities, Rightway conducts ongoing Enterprise Risk Management (ERM) meetings. To conduct these risk assessments, the management team draws on collective industry, enterprise, technical, and regulatory knowledge to identify key risks to business operations. As part of the management team meeting, risks are identified and created in a tracking system, risk rankings are applied, and mitigation strategies are developed. These guide internal risk management and monitoring activities for the forthcoming year. The ERM risks are revisited and revised for marked changes or developments in market, industry, regulatory or legal risks.

In addition to the ERM, risk is evaluated regularly through defined and repeatable information technology and business processes. These processes consider a multitude of risks, including security, logical access, availability of application services, and confidentiality of customer data at the heart of the Rightway system. Mitigation strategies are developed by management iteratively to respond in a nimble fashion to ever-changing risk landscapes.

The need for high availability warranted Rightway's investment in redundant cloud infrastructure to support the Company's suite of applications, thereby reducing or eliminating single points of failure.

To support information technology risk management activities, management conducts annual penetration testing. Each item identified on the penetration tests is reviewed, risk-rated, and appropriately prioritized for risk treatment. Mitigations may include changes in policy, technology, as well as monitoring or periodic evaluation.

Information and Communication

Information Systems

Rightway's information systems have been engineered on the principles of high availability, security, and confidentiality. To assist in achieving the desired level of consistency of these principles, Rightway has located its production environment within the US-East-1 (N. Virginia) region of the Amazon Web Services (AWS) Elastic Compute Cloud (EC2). Customer-facing applications run on servers which participate in an active disaster recovery protocol. These systems are physically and logically secured from other components of the Rightway corporate infrastructure.

In accordance with the Rightway Data Management Policy, to protect the confidentiality, integrity, and availability of protected health information (PHI) and personal identifiable information (PII), both for Rightway and Rightway customers, third-party Aptible and AWS RDS automatically complete daily backups of all data stored by Rightway to assure that data remains available when it is needed and in case of a disaster.

Communication

Rightway endeavors to inform internal and external users of the structure of the system so they may understand their role in the system and the results of system operation.

System descriptions are available to authorized external users through the Rightway website, which describes the purpose and relevant components of the system.

Internal users learn about Rightway systems beginning with their orientation and continuing as needed with on-the-job training and/or specific training courses. Rightway software architecture documentation is available to internal users through the intranet.

During business development presentations, the business development team provides documentation to prospective clients that describes the relationship between Rightway and the client. As the business development team moves forward in the sales process, they review the standard contract terms and conditions with the prospective client to ensure a clear understanding of the anticipated roles of each party, including those related to system security, system availability, and confidentiality commitments. Some clients may request deviations from the standard terms of the Master Services Agreement (MSA). Deviations must be approved by management and/or external legal counsel. They evaluate all such deviations for their potential impact on the Company.

The finalized MSA, Service Level Agreement (SLA), Statement of Work, and any other contract documents are stored within Rightway's file servers and access is restricted to personnel with a need to know.

Policies and procedures are a key tool for process standardization and communication of key control elements. Relevant policies and procedures are updated by their respective owners, with input and approval from the Security Officer, and made available to Rightway employees through the intranet. Changes in policies and procedures that impact internal users' (employees) responsibilities regarding security, availability and confidentiality commitments are communicated via email, Slack, and in-person meetings and updated on the intranet.

Clients' responsibilities are defined in the MSA. Changes in contractual responsibilities relevant to security, availability, confidentiality and/or other responsibilities are communicated to customers by management and memorialized in a new or amended MSA.

Monitoring

Monitoring activities are intended to identify and remediate areas of risk including strategic risk, financial risk, operational risk, and legal/regulatory risk.

Management and supervisory personnel monitor the quality of internal control performance via frequent observation, interaction, and performance of their assigned duties. In addition, management reviews the functionality of software products and application configurations before they move through the development process and into production.

Monitoring systems assist Rightway in meeting SLA requirements. Technical processes are monitored by automated systems as outlined in this report. Staff members receive automated alerts via email and Slack, a communication and messaging application, when there is a substantial decrease in system performance or a significant security event so they can respond to the issue.

Logging and monitoring software platforms are used to collect data from system infrastructure components and endpoint systems. The logging and monitoring software are used to monitor system performance, potential security threats and vulnerabilities, and resource utilization, and to detect unusual system activity or service requests. This software sends an alert message via email or Slack to the appropriate team members.

Throughout each of the above processes, identified deficiencies are communicated to the relevant management personnel, and appropriate follow-up actions are initiated.

Use and Monitoring of Sub-Service Providers

Rightway's production data center is on Aptible and AWS US-East-1 (N. Virginia) region data center. The production data centers host the Software as a Service (SaaS) versions of the Rightway product suite, and they are monitored for service delivery utilizing CloudWatch, CloudTrail, Aptible's additional built-in logging system, and other tooling as outlined in this report. In addition, management regularly performs periodic reviews of SLAs and performance to assure that service delivery is appropriate.

The Rightway production data center is designed with fault tolerance protection for all layers of the platform and infrastructure, including network traffic and firewalls, as well as the web and application services and backend database connections. The Rightway infrastructure is designed to scale substantially to accommodate foreseeable growth in the number of end-users and transaction volume for their products and services.

Rightway monitors the performance of these activities with monitoring tools as outlined in this report. Issues or relevant exceptions are investigated further for impact on the Rightway suite of applications.

Vendor Management

Rightway has a Vendor Risk Management Policy (available to all employees on the intranet) which defines the rules for relationships with all of Rightway's vendors and partners. Vendor assessments for third-party vendors are completed upon onboarding. During such assessments, a vendor risk assessment is conducted and documented, and appropriate controls are developed to ensure due diligence occurs. This document certifies that, as applicable, and consistent with risk: a Business Associate Agreement (BAA) has been signed, requires vendors to confirm that they are compliant with HIPAA regulations, or commensurate security frameworks if not handling PHI, and asks questions about handling and training in regard to PHI.

CONTROL ACTIVITIES

Policies and Procedures

Policies and procedures are a key tool for process standardization and communication of key control elements. Relevant policies and procedures are updated by their respective owners and made available to Rightway employees through the intranet. Information security policies include, but are not limited to:

- Acceptable Use Policy
- Data Classification and Labeling Policy
- Cybersecurity Policy
- Access Control and Password Policy
- Security Program Policy
- Security Awareness and Training Policy
- Logging Standard
- Data Retention and Destruction Policy
- Vulnerability Management Policy
- Vendor Management Policy
- Business Continuity Plan

Security Awareness Training

Rightway maintains a security awareness program through various mechanisms including:

- Employee orientation program,
- Ongoing security awareness training,
- Phishing campaigns,
- HIPAA training for all employees,
- Periodic email and Slack communications from the Security Officer and other management, and
- Incident response training

Access Provisioning

Employees are granted system access commensurate with their job responsibilities. The Security Officer and department managers are responsible for assigning and maintaining access rights to the Rightway internal and production network environments and related devices and applications. In the case of access changes, a provisioning ticket must be created and submitted to gain approval.

Access Deprovisioning

Account terminations are initiated by a manager. Accounts are disabled or deleted by the IT department, typically this occurs immediately, but in all cases is completed within 24 hours. This termination process includes:

- User access to all applications will typically be revoked or disabled on the business day that the termination takes effect.
- Access to the domain, administrator, database, and critical network devices will typically be revoked or disabled in accordance with the information provided in the ticket.

CONTROL ACTIVITIES (continued)

Access Deprovisioning (continued)

- Physical assets such as equipment, and company credit cards (if applicable) are collected and noted on the termination tickets.

Under certain conditions, domain accounts may need to remain accessible after the termination date. In these cases, the account password is changed, and the account is marked as locked. Any necessary data is migrated from the terminated account to an active account. When management determines that all necessary data has been preserved, the account is fully closed.

Account termination requests are documented in the termination tickets. Completion dates are logged with each ticket. Termination tickets are reviewed by the terminated employee's department manager and the Security Officer.

Network Security Overview

All sensitive data transmitted and processed to/from the Rightway network is TLS 1.2+ encrypted to protect sensitive data against third-party disclosure in transit. Servers and network components are secured with two-factor authentication and protected by hardened industry-standard firewalls and intrusion detection systems (Aptible). All security services are monitored and updated in a timely manner to address emerging vulnerabilities.

Remote Access

Rightway employees access internal and production systems through secure virtual private network (VPN) tunnels. Access is configured on a per-user basis, acting as the security controller before a connection is granted. The Rightway Security Officer or designee can remove a user's connection authorization from the VPN at any time via the VPN web console.

Wireless Security

Rightway has a distributed workforce and therefore relies on TLS and VPN over wireless encryption.

Rightway provides two separate networks for guest and internal users. The "Rightway Internal" network is restricted to ensure the security of Rightway data, while the "Rightway Guest" network is segmented from the internal network. Networks are further protected by certificate-based authentication ("Rightway Internal") and a secure VPN tunnel which is encrypted and restricted to authorized users.

Firewalls

Rightway controls the introduction of software by restricting the ability to install software on workstations and laptops to users with admin privilege, in addition to utilizing application-blocking technologies.

Rightway utilizes several firewalls and AWS lines of defense to protect external points of connectivity and intrusion/extrusion detection systems to alert staff regarding unusual or unauthorized activity.

External access to sensitive data is restricted by user authentication and message encryption systems including VPN (with multi-factor authentication (MFA)) and TLS. All sensitive data is encrypted at rest and in transit by Aptible cloud services which provide the most up-to-date and secure methods of encryption. Passwords are stored in a hashed format using a salted cryptographic hash function (SHA-256).

Intrusion Detection

Suspicious activity triggers alerts that are sent to responsible Information Security staff via email and Slack notifications. The responding individuals investigate the alerts and if necessary, escalate the issue following the defined Incident Response Policy.

Network Security Overview (continued)

Vulnerability Assessment and Penetration Testing

The Rightway production environment is monitored on an ongoing basis for known vulnerabilities. Code scans are integrated into the software development cycle and are performed with reporting to the engineering and security teams, with remediation work allocated in every two-week sprint, or sooner based on criticality. In addition, every twelve months, external penetration tests are conducted. Results are reported to the Security Officer. Reviews of scans include the discussion of action plans to correct any identified vulnerabilities. The Rightway vulnerability scan is active in nature and reports what vulnerabilities exist.

Access and Reviews

Standard and privileged user access to applications and data are reviewed by system owners, with the Security Officer's oversight, at 60- and 90-day intervals, respectively. Access reviews evaluate many factors, including but not limited to: (1) appropriateness of access based on job function, (2) level of risk of such access relative to organizational need/benefit, (3) separation of duties and principle of least privilege, and (4) changes in roles or need for access. If any unnecessary access is provisioned, appropriate remediation action is taken.

System Passwords

Users are required to enter a user ID and password to access any Rightway network or application. Complexity standards for passwords have been established to enforce control and MFA is required.

In accordance with the Access Control and Password Policy, all employee passwords must follow the following guidelines:

- Minimum length of at least twelve (12) characters
- A mix of upper-case characters, lower-case characters, and numbers or special characters
- Account lockout after five (5) failed login attempts
- Passwords must meet the complexity requirements of the system being accessed in addition to the expectations of the Rightway Password Policy

Removable Media Policy

In accordance with the Disposable Media Policy (found within the Cybersecurity Policy), removable media such as flash drives, are blocked from being written to and thus do not store any PHI, PII or other sensitive data. In addition, all removable media such as laptop hard drives are restricted and encrypted.

Device Build and Hardening

New AWS EC2 instances, or more commonly docker containers deployed on Aptible, are periodically introduced to the Rightway network environment to support the growth and management of the existing environment. Rightway does not deploy physical servers or hardware.

All Rightway laptops are set up with standard configurations and mobile device management (e.g., JAMF) is used for all Apple computers. Each computer is configured to: have minimum password complexity, encrypt the hard drive, exclude the use of removable media, restrict the installation of certain software, and permit remote monitoring and remote wiping of the disk, if necessary, as well as other controls and device oversight.

System and Performance Monitoring

Rightway leverages various tools and techniques to proactively monitor the production environment. These tools are designed to identify issues and alert responsible staff of the issue before it impacts Rightway end users or customers.

Network Security Overview (continued)

Security & Incident Management

Operations personnel follow defined protocols for evaluating and reporting events. Security-related events are reported to the Security Officer or CTO.

If a security event is determined to be an incident, the Security Officer directs the Information Technology and Security teams in following defined protocols for responding to the incident. Such protocols include identification, containment, eradication, recovery, and "lessons learned" phases. Each phase is to be completed and adapted to each incident. These protocols are contained in the Incident Response Policy, found in the overarching Cybersecurity Policy. This document is available to all Rightway employees on the intranet, and incident response training is conducted annually. Changes in protocol or systems to improve response are addressed through the "lessons learned" phase and properly documented in accordance with document management and/or change control procedures.

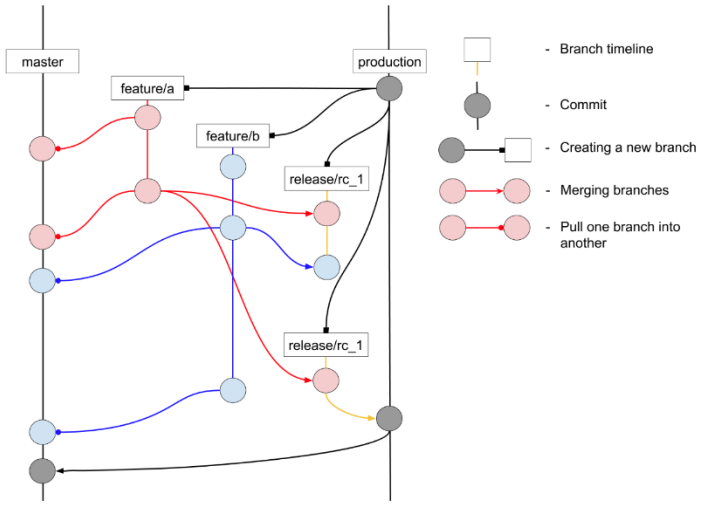
External organizations are informed of incidents in a timely manner consistent with applicable regulations and contractual commitments. Internal users are informed of incidents on a need-to-know and/or as-needed basis, and, if applicable, advised of any measures to be taken on their part. Governing entities are notified as required. Rightway policies include probation, suspension, or termination as potential sanctions for employee misconduct.

Application Security

The Rightway application security measures do not differ from those of the general Rightway infrastructure; however, additional controls, such as web application firewalls, are in place.

System Development Life Cycle (SDLC)

Rightway assembles its SaaS solution through Git. The Rightway software development team works to ensure timely and accurate application updates. The general development flow in Git is presented:

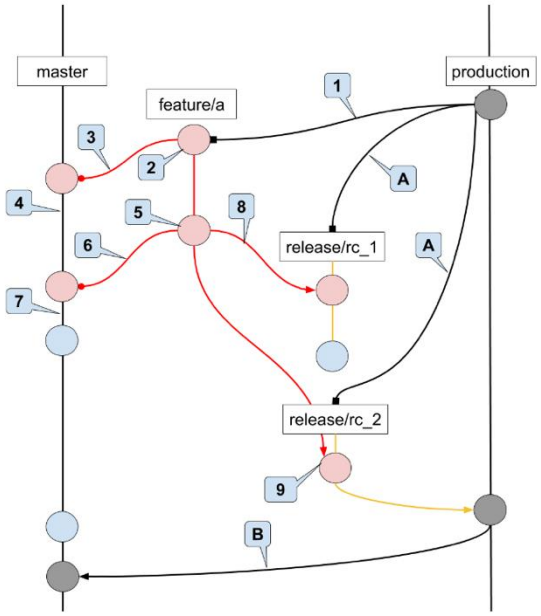


Network Security Overview (continued)

System Development Life Cycle (SDLC) (continued)

The normal and rejected feature development flows are as described:

Normal Feature Development Flow



1. Developer starts a new feature branch from the production branch
2. Developer commits their changes into feature branch

Developer opens pull request to release branch.

1. After passing review the developer pulls feature branch code to master branch locally. If at this stage developer has a merge conflict, they resolve them locally and merge them into master branch. Developer then pushes changes from local master branch to repository. Snyk monitors all merges to assure that high and critical vulnerabilities are not introduced, blocking merges that do introduce such vulnerabilities until the developer remediates them.
2. QA engineer or developer finds that feature does not completely meet requirement or does not work as expected
3. Developer improves the feature and commits changes into the same feature branch.
4. After passing review, developer again pulls their code to master branch locally and pushes them back to repository
5. QA engineer approves that feature satisfies all requirement and can be introduced to release candidate.
6. After developer and stack-lead checks that branch contains all required changes, stack-lead merges pull request into release branch. At this point developer should resolve all merge conflicts in the feature branch
7. If during pre-production testing it was decided to remove some features from release candidate, stack-lead recreates a new release branch, developer opens a pull request, ensuring that it only contains feature changes and merge them into the new release branch.

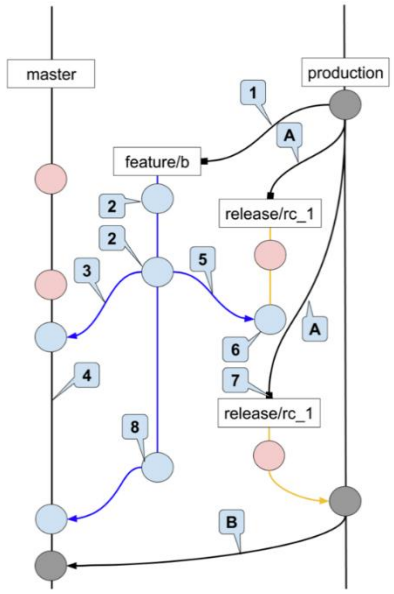
Network Security Overview (continued)

System Development Life Cycle (SDLC) (continued)

A. Stack-lead creates release branch from tip of production branch

B. After every finished release Stack-lead merges production branch back to master branch.

Rejected Feature Development Flow



1. Developer starts a new feature branch from the production branch
2. Developer commits their changes into feature branch. Developer opens pull request to release branch.
3. After passing review, developer pulls feature branch code to master branch locally. If on this stage developer has a merge conflict, they should resolve them locally and merge them into master branch. Developer then pushes changes from local master branch to repository.
4. QA engineer approves that feature satisfies all requirement and can be introduced to release candidate.
5. After developer and stack-lead checks that branch contains all required changes, stack-lead merges pull request into release branch. At this point developer should resolve all merge conflicts in the feature branch.
6. After pre-production testing was made decision to remove the feature form release.
7. Stack-lead creates a new release branch (A) and merges all other release branch to combine a new release candidate.
8. Developer continues work on feature, repeating steps 2 and 3. The feature will be delivered in the next release.

A. Stack-lead creates release branch from tip of production branch

B. After every finished release Stack-lead merges production branch back to master branch

Network Security Overview (continued)

Change Management Policy

Rightway's Change Management Policy was enacted to control and monitor all changes, to both application and infrastructure, within the production data center. Workflows for both standard and emergency changes are thoroughly documented and require multi-step approval. The project management and ticketing system, Jira, is used to track and monitor the status and ownership of all system changes.

The scope of this document deals with non-routine changes related to Rightway's network infrastructures (cabling, switches, etc.), servers, data, software, telecom configurations, and software configurations.

All technicians requesting a change within the scope of this document are responsible to follow the configuration change management process. That includes researching the request, understanding the risks, classifying the change in accordance with the table available in the Rightway Change Management Policy, communicating the change to appropriate parties, and obtaining the necessary approvals. Members of the change approval board (CAB) are responsible for reviewing change requests and either approving, making modifications to, or denying the request.

Standard Change Request

Step	Description
Generate CR	A submitter completes a change request (CR) ticket via the Jira change management board.
Approval, Scheduling, & Assignment	A staff member with CR approval authority (any member of the CAB) reviews the CR and evaluates the impact of the change on the security, availability, and confidentiality of business requirements. After review, the CR is either approved or denied. If approved, a date at which implementation can commence is scheduled and the CR is assigned to a team member who is authorized for technical implementation.
Implementation	Technical personnel implement the required change on the scheduled date.
Testing	A team member who was not directly involved with the implementation of the CR tests the required functionality and verifies that the implementation was successful.
Change Review	After CR completion, the submitter communicates with the CAB and relevant users and peers that the change was implemented and successful. If the change fails, the submitter communicates with peers and the CAB what steps were taken to restore the environment to a working state and to verify that the system is operating normally.

Emergency Change Request

An emergency change is one that involves services which are already impaired and requires utmost urgency to resolve. Rightway's approach to emergency changes is to fix first and document change afterwards.

Network Security Overview (continued)

Emergency Change Request (continued)

Step	Description
Implementation	A staff member with technical implementation responsibilities evaluates the need for emergency implementation. If they feel that the CR has a significant impact on the usage of the application(s) or system security, the change will be immediately implemented after notifying the appropriate client point of contact.
Testing	A team member who was not directly involved with the implementation of the CR tests the required functionality and verifies that the implementation was successful.
Change Review	The technician documents the completion of the emergency change in the Jira change management board. After change completion, a member of the CAB who was not involved in the implementation must evaluate the need for the emergency change and verify that the proper process was followed, including the required communication with the client.

Additional Controls Related to Availability

The Company has a variety of monitoring tools, including within AWS. CloudWatch/CloudTrail and AWS alarm trigger alerts and notifications when certain thresholds are breached. Error reporting tools monitor for performance and availability thresholds and provide the same notification. Additionally, incremental backups are conducted daily.

Outage Notifications

Rightway has the ability to make hot deploys, making planned outages exceedingly rare. When outages are unavoidable, it is done between 2-4 a.m. when Rightway is closed and no one in the United States is using the system. If unplanned outages were to happen during Rightway's business hours, an email blast would be sent out to all active users.

Data Backup

Automated database backup routines are in place. These backups are stored and maintained by Aptible in redundant multiple geo-locations.

The automated instance backups occur on the following schedule:

- Daily for 30 days
- Monthly for 6 years

Disaster Recovery

Planning for the business continuity of Rightway in the aftermath of a disaster is an essential part of an organization ERM program. Preparation for, response to, and recovery from a disaster affecting the administrative functions of the Company require the cooperative efforts of many functional areas and supporting organizations. The Disaster Recovery Policy (found within the Cybersecurity Policy) and Business Continuity Plan outline the procedures followed by Rightway should a disaster take place.

Additional Controls Related to Availability (continued)

Disaster Recovery (continued)

Because the Rightway infrastructure is 100% cloud-hosted, a disaster event occurring at the Rightway headquarters would not impact production systems.

If there was a major disaster that destroyed or severely compromised the infrastructure within the AWS US-East-1 (N. Virginia) region, Rightway data would remain secure; Rightway is backed up in servers across regions to ensure the security of the Company's data should a data center in one region be compromised.

Additional Controls Related to Confidentiality

Data Disposal

When a client has decided to terminate their relationship with Rightway, the IT group is alerted and begins the process documented within the Client Termination Policy. Generally, all client access to Rightway systems and applications is removed within 24 hours. This access includes, but is not limited to:

- Web Viewers & Dashboards
- Mobile Applications
- SFTP Server

All client data is archived and stored for the length of time indicated in the MSA.

All contractual and legal matters relating to client termination are overseen by Rightway's CEO and VP of Finance.

HITRUST CSF Criteria Not Applicable to the In-Scope System

The HITRUST CSF criteria presented below are not applicable to the PBM Solutions within the scope of this examination. As a result, an associated control is not required to be in place at the service organization for the omitted applicable trust services criterion. The following table presents the trust services criterion and HITRUST CSF control objectives that are not applicable to the PBM Solutions at the Company.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Reason for Omitted Criteria
03 Portable Media Security	09.u Physical Media in Transit	CC6.7	There is no physical media (tapes or server hard drives) in scope for this assessment.
05 Wireless Security	09.m Network Controls	N/A	Rightway does not employ wireless access points.
11 Access Control	01.h Clear Desk and Clear Screen Policy	CC2.2 CC6.1 CC6.4	Physical security, including covered information on desks, printers, copiers, fax machines, and computer monitors, is not in scope for this assessment.

HITRUST CSF Criteria Not Applicable to the In-Scope System (continued)

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Reason for Omitted Criteria
19 Data Protection & Privacy	13.k Use and Disclosure	C1.1 C1.2	Rightway does not disclose covered and/or confidential information to a service provider or allow a service provider to receive, maintain, or transmit covered and/or confidential information on its behalf.

Complementary Subservice Organization Controls

Subservice Organization Controls

Rightway Healthcare utilizes AWS, Aptible and Artic Wolf to perform the functions described below to improve operating and administrative effectiveness. Third-party personnel are not granted access to Rightway or User Entity data or the Rightway systems themselves. The examination by the Independent Service Auditor did not extend to the policies and procedures at these subservice organizations.

Table 1 - Subservice organizations used by Rightway

Entity	Facility Location	Services Hosted
Aptible	Fully distributed	Aptible Deploy (encryption, backups, logging)
AWS	N. Virginia	Amazon Relational Database Service (Amazon RDS), Redshift, EC2, S3, CloudTrail, CloudWatch, GuardDuty, Secrets Manager, Key Management Service.
Arctic Wolf	Fully distribute	Security Operations Center (SOC) as a Service.

Aptible provides data center hosting services, mitigation services, data encryption, automatic daily data backups, and audit logging. This service runs on the AWS global infrastructure platform. Data center facilities undergo periodic SOC 1 and SOC 2 Type 2 report examinations. Certification status and the results of examinations are reviewed periodically as part of Rightway's monitoring controls. Formal documentation of third-party vendor assessments is preserved for compliance purposes. The facilities used during the reporting period and the data center hosting services relied upon by Rightway are listed in Table 1 and Table 2, respectively.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
05 Wireless Security	09.m Network Controls	N/A	AWS	Quarterly scans are performed to identify unauthorized wireless access points, and appropriate action is taken if any unauthorized access points are discovered.
				Where a specific business need for wireless access has been identified, the organization configures wireless access on client machines to allow access only to authorized wireless networks. For devices that do not have an essential wireless business purpose, the organization disables wireless access in the hardware configuration (basic input/output system or extensible firmware interface).
06 Configuration Management	10.c Control of Internal Processing	CC6.8 CC7.1 CC8.1	Aptible	The organization employs integrity verification tools to detect unauthorized, security-relevant configuration changes to software and information.
06 Configuration Management	10.h Control of Operational Software	CC6.8 CC8.1	Aptible	The organization maintains information systems according to a current baseline configuration and configures system security parameters to prevent misuse. Vendor supplied software used in operational systems is maintained at a level supported by the supplier and uses the latest version of web browsers on operational systems to take advantage of the latest security functions in the application.
				The operating system has in place supporting technical controls such as antivirus, file integrity monitoring, host-based (personal) firewalls or port filtering tools, and logging as part of its baseline.
06 Configuration Management	10.h Control of Operational Software	CC6.4 CC8.1 C1.1	Aptible	If systems or system components in production are no longer supported by the developer, vendor, or manufacturer, the organization is able to provide evidence of a formal migration plan approved by management to replace the system or system components.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
06 Configuration Management	10.k Change Control Procedures	CC4.1 CC7.1 CC7.5 CC8.1	Aptible	The organization develops, documents, and maintains, under configuration control, a current baseline configuration of the information system, and reviews and updates the baseline as required.
				The organization establishes and documents mandatory configuration settings for information technology products employed within the information system using the latest security configuration baselines; identifies, documents, and approves exceptions from the mandatory established configuration settings for individual components based on explicit operational requirements; and monitors and controls changes to the configuration settings in accordance with organizational policies and procedures.
				The organization employs automated mechanisms to centrally manage, apply, and verify configuration settings; respond to unauthorized changes to network and system security-related configuration settings; and enforce access restrictions and auditing of the enforcement actions.
08 Network Protection	01.m Segregation in Networks	CC6.1 CC6.6	Aptible	The organization's security gateways (e.g., firewalls) enforce security policies; are configured to filter traffic between domains; block unauthorized access; are used to maintain segregation between internal wired, internal wireless, and external network segments (e.g., the Internet), including DMZs; and, enforce access control policies for each of the domains.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
08 Network Protection	01.m Segregation in Networks	CC6.1 CC6.6	Aptible	The organization's network is logically and physically segmented with a defined security perimeter and a graduated set of controls, including subnetworks for publicly accessible system components that are logically separated from the internal network, based on organizational requirements; traffic is controlled based on functionality required and classification of the data/systems based on a risk assessment and their respective security requirements.
08 Network Protection	01.n Network Connection Control	N/A	Aptible	The ability of users to connect to the internal network is restricted using a deny-by-default and allow-by-exception policy at managed interfaces according to the access control policy and the requirements of its business applications.
				Network traffic is controlled in accordance with the organization's access control policy through firewall and other network-related restrictions for each network access point or external telecommunication service's managed interface.
				Remote devices establishing a non-remote connection are not allowed to communicate with external (remote) resources.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
08 Network Protection	01.o Network Routing Control	CC6.6	Aptible	Requirements for network routing control are based on the access control policy, including positive source and destination checking mechanisms, such as firewall validation of source/destination addresses, and the hiding of internal directory services and IP addresses. The organization designed and implemented network perimeters so that all outgoing network traffic to the Internet passes through at least one application layer filtering proxy server. The proxy supports decrypting network traffic, logging individual TCP sessions, blocking specific URLs, domain names, and IP addresses to implement a blacklist, and applying whitelists of allowed sites that can be accessed through the proxy while blocking all other sites. The organization forces outbound traffic to the Internet through an authenticated proxy server on the enterprise perimeter.
08 Network Protection	01.w Sensitive System Isolation	CC6.1	AWS	Shared system resources (e.g., registers, main memory, secondary storage) are released back to the system, protected from disclosure to other systems/applications/users, and users cannot intentionally or unintentionally access information remnants.
08 Network Protection	09.m Network Controls	CC6.1 CC6.6 CC6.7 A1.1 A1.2	AWS	The organization authorizes connections from the information system to other information systems outside of the organization through the use of interconnection security agreements or other formal agreement; documents each connection, the interface characteristics, security requirements, and the nature of the information communicated; employs a deny-all, permit-by-exception policy for allowing connections from the information system to other information systems outside of the organization; and, applies a default-deny rule that drops all traffic via host-based firewalls or port filtering tools on its endpoints (workstations, servers, etc.), except those services and ports that are explicitly allowed.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
08 Network Protection	09.m Network Controls	N/A	Aptible	The organization uniquely identifies and authenticates network devices that require authentication mechanisms before establishing a connection that, at a minimum, use shared information (i.e., MAC or IP address) and access control lists to control remote network access.
				The organization ensures information systems protect the confidentiality and integrity of transmitted information, including during preparation for transmission and during reception.
08 Network Protection	09.m Network Controls	N/A	Aptible	Technical tools such as an IDS/IPS are implemented and operating on the network perimeter and other key points to identify vulnerabilities, monitor traffic, detect attack attempts and successful compromises, and mitigate threats; and these tools are updated on a regular basis.
09 Transmission Protection	09.s Information Exchange Policies and Procedures	N/A	Aptible	Cryptography is used to protect the confidentiality and integrity of remote access sessions to the internal network and to external systems.
				Strong cryptography protocols are used to safeguard covered and/or confidential information during transmission over less trusted/open public networks.
09 Transmission Protection	10.d Message Integrity	N/A	Aptible	The information system provides mechanisms to protect the authenticity of communication sessions.
09 Transmission Protection	10.f Policy on the Use of Cryptographic Controls	CC6.7	Aptible	Encryption is used to protect covered and/or confidential information on mobile/removable media and across communication lines based on pre-determined criteria.
09 Transmission Protection	10.g Key Management	CC6.1	Aptible	Encryption keys and the equipment to generate, store, and archive keys are protected against modification, loss, destruction, and disclosure.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
09 Transmission Protection	10.g Key Management	CC6.1	Aptible	A formal key management system is defined and implemented consistent with federal and industry-recognized guidelines to securely manage secret/private keys and public keys issued by trusted Certification Authorities.
10 Password Management	01.d User Password Management	CC6.6	Aptible	The organization changes passwords for default system accounts, whenever there is any indication of password compromise, at first logon following the issuance of a temporary password and requires immediate selection of a new password upon account recovery.
11 Access Control	01.b User Registration	CC6.1 CC6.2 CC6.4	Aptible	Default and unnecessary system accounts are removed, disabled, or otherwise secured (e.g., the passwords are changed and privileges are reduced to the lowest levels of access).
11 Access Control	01.j User Authentication for External Connections	CC6.1 CC6.6 CC6.7 CC9.2	Aptible	The organization protects wireless access to systems containing sensitive information by authenticating both users and devices.
				Remote administration sessions are authorized, encrypted, and employ increased security measures.
11 Access Control	01.j User Authentication for External Connections	CC6.1 CC6.6	Arctic Wolf	The information system monitors and controls remote access methods.
11 Access Control	01.l Remote Diagnostic and Configuration Port Protection	CC6.1 CC6.8	Aptible	Ports, services, and similar applications installed on a computer or network systems, which are not specifically required for business functionality, are disabled or removed.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
12 Audit Logging & Monitoring	06.j Protection of Information Systems Audit Tools	N/A	Arctic Wolf	Access to information system audit tools is documented and enforced per a formal procedure, restricted to authorized individuals only, and approved by designated system owners; and the use of these tools is only authorized after receiving permission from system owners as part of a documented assessment process.
12 Audit Logging & Monitoring	09.aa Audit Logging	CC2.1	Aptible	Auditing is always available while the system is active and tracks key events, success/failed data access, system security configuration changes, privileged or utility use, any alarms raised, activation and de-activation of protection systems (e.g., A/V and IDS), activation and deactivation of identification and authentication mechanisms, and creation and deletion of system-level objects.
12 Audit Logging & Monitoring	09.ab Monitoring System Use	CC2.1 CC3.1 CC6.7 CC6.8 CC7.2	Artic Wolf	The organization specifies how often audit logs are reviewed, how the reviews are documented, and the specific roles and responsibilities of the personnel conducting the reviews, including the professional certifications or other qualifications required.
				The organization periodically tests its monitoring and detection processes, remediates deficiencies, and improves its processes.
				Automated systems deployed throughout the organization's environment are used to monitor key events and anomalous activity, and analyze system logs, the results of which are reviewed regularly.
				Monitoring includes privileged operations, authorized access or unauthorized access attempts, including attempts to access deactivated accounts, and system alerts or failures.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
12 Audit Logging & Monitoring	09.ab Monitoring System Use	CC2.1 CC3.1 CC6.7 CC6.8 CC7.2	Arctic Wolf	Auditing and monitoring systems employed by the organization support audit reduction and report generation.
				Automated systems are used to review monitoring activities of security systems (e.g., IPS/IDS) and system records on a daily basis, and identify and document anomalies.
				The organization analyzes and correlates audit records across different repositories using a security information and event management (SIEM) tool or log analytics tools for log aggregation and consolidation from multiple systems/machines/devices and correlates this information with input from non-technical sources to gain and enhance organization-wide situational awareness. Using the SIEM tool, the organization devise profiles of common events from given systems/machines/devices so that it can tune detection to focus on unusual activity, avoid false positives, more rapidly identify anomalies, and prevent overwhelming analysts with insignificant alerts.
12 Audit Logging & Monitoring	09.ac Protection of Log Information	N/A	Arctic Wolf	Authorized access and unauthorized access attempts to the organization's audit systems and audit trails are logged and protected from modification.
				File-integrity monitoring or change-detection software is implemented on audit logs, and the organization responds to any alert generated.
12 Audit Logging & Monitoring	09.af Clock Synchronization	N/A	Aptible	The organization's system clocks are synchronized to an agreed, authoritative real-time standard (e.g., daylight savings time) and synchronized daily as well as at system boot.
12 Audit Logging & Monitoring	09.c Segregation of Duties	N/A	Arctic Wolf	Separation of duties is used to limit the risk of unauthorized or unintentional modification of information and systems.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
12 Audit Logging & Monitoring	09.c Segregation of Duties	N/A	Arctic Wolf	The organization identifies duties that require separation and defines information system access authorizations to support separation of duties; and incompatible duties are segregated across multiple users to minimize the opportunity for misuse or fraud.
16 Business Continuity & Disaster Recovery	09.l Back-up	CC6.4	AWS	The backups are stored in a physically secure remote location, at a sufficient distance to make them reasonably immune from damage to data at the primary site, and reasonable physical and environmental controls are in place to ensure their protection at the remote location.
			Aptible	Covered and/or confidential information is backed-up in an encrypted format to ensure confidentiality.
18 Physical & Environmental Security	08.a Physical Security Perimeter	CC6.4	AWS	Computers that store or process covered and/or confidential information are located in rooms with doors and windows that are locked when unattended and are not located in areas that are unattended and have unrestricted access by the public. External protection is considered for windows, particularly at ground level (public, sensitive, and restricted areas).
				Security perimeters, such as any boundaries where security controls are in place to protect assets from unauthorized access, are clearly defined, and the siting and strength of each of the perimeters depend on the security requirements of the assets within the perimeter (public, sensitive and restricted areas).
18 Physical & Environmental Security	08.b Physical Entry Controls	CC6.4	AWS	Visitor and third-party support access is recorded and supervised unless previously approved.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
18 Physical & Environmental Security	08.b Physical Entry Controls	CC6.4	AWS	Repairs or modifications to the physical components of a facility which are related to security (e.g., hardware, walls, doors and locks) are documented and retained in accordance with the organization's retention policy.
				For facilities where the information system resides, the organization enforces physical access authorizations at defined entry/exit points, maintains physical access audit logs, and provides security safeguards that the organization determines necessary for areas officially designated as publicly accessible.
				A restricted area, security room, or locked room is used to control access to areas containing covered and/or confidential information and is controlled accordingly.
18 Physical & Environmental Security	08.b Physical Entry Controls	CC6.4	AWS	Visible identification that clearly identifies the individual is required to be worn by employees, visitors, contractors and third-parties.
				The organization ensures onsite personnel and visitor identification (e.g., badges) are revoked, updated when access requirements change, or terminated when expired or when access is no longer authorized, and all physical access mechanisms, such as keys, access cards and combinations, are returned, disabled or changed.
18 Physical & Environmental Security	08.d Protecting Against External and Environmental Threats	A1.2	AWS	Fire extinguishers and detectors are installed according to applicable laws and regulations.
18 Physical & Environmental Security	08.g Equipment Siting and Protection	CC6.4	AWS	Lightning protection is applied to all buildings, and lightning protection filters (e.g., surge protectors) are fitted to all incoming power and communications lines.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
18 Physical & Environmental Security	08.g Equipment Siting and Protection	CC6.4	AWS	Information assets handling covered and/or confidential information are positioned and the viewing angle restricted to reduce the risk of information being viewed by unauthorized persons during their use, and storage devices are secured to avoid unauthorized access.
18 Physical & Environmental Security	08.h Supporting Utilities	A1.2	AWS	An uninterruptable power supply (UPS) is used for equipment supporting critical business operations to support orderly shutdown or continuous running (transition to long-term alternate power); UPS equipment and generators are regularly checked to ensure they have adequate capacity and are tested in accordance with the manufacturer's recommendations; and power contingency plans cover the action to be taken should the UPS fail.
18 Physical & Environmental Security	08.j Equipment Maintenance	CC6.4 CC6.6 CC6.7 CC6.8 A1.2	AWS	The organization formally addresses the purpose, scope, roles, responsibilities, management commitment, coordination among organizational entities and compliance requirements for its equipment maintenance program (e.g., through policy, standards, guidelines, and procedures).
				Maintenance and service are controlled and conducted by authorized personnel in accordance with supplier-recommended intervals, insurance policies and the organization's maintenance program, taking into account whether this maintenance is performed by personnel on site or external to the organization.

Table 2- Service Categories

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Subservice Organization	Complementary Subservice Organization Controls
18 Physical & Environmental Security	08.j Equipment Maintenance	CC6.4 CC6.6 CC6.7 CC6.8 A1.2	AWS	The organization maintains a list of authorized maintenance organizations or personnel, ensures that non-escorted personnel performing maintenance on the information system have required access authorizations, and designates organizational personnel with required access authorizations and technical competence to supervise the maintenance activities of personnel who do not possess the required access authorizations.
				The organization monitors and controls non-local maintenance and diagnostic activities; and prohibits non-local system maintenance unless explicitly authorized, in writing, by the CIO or his/her designated representative.
				Covered and/or confidential information is cleared from equipment prior to maintenance unless explicitly authorized.
				Tools for maintenance are approved, controlled, monitored and periodically checked.
				Media containing diagnostic and test programs are checked for malicious code prior to use.
19 Data Protection & Privacy	06.d Data Protection and Privacy of Covered Information	CC6.1	Aptible	The confidentiality and integrity of covered and/or confidential information at rest is protected using an encryption method appropriate to the medium where it is stored; where the organization chooses not to encrypt covered and/or confidential information, a documented rationale for not doing so is maintained or alternative compensating controls are used if the method is approved and reviewed annually by the CISO.
19 Data Protection & Privacy	06.f Regulation of Cryptographic Controls	N/A	Aptible	The organization employs cryptographic modules that are certified and that adhere to the minimum applicable standards when used to protect the confidentiality of information.

Complementary User Entity Controls

Rightway Healthcare's controls related to the PBM Solutions cover only a portion of overall internal control for each user entity of Rightway Healthcare. It is not feasible for the trust services criteria related to the PBM Solutions to be achieved solely by Rightway Healthcare. Therefore, each user entity's internal controls should be evaluated in conjunction with Rightway Healthcare 's controls and the related tests and results described in Section IV of this report, taking into account the related complementary user entity controls, where applicable. In order for user entities to rely on the controls reported on herein, each user entity must evaluate its own internal controls to determine whether the identified complementary user entity controls have been implemented and are operating effectively.

This section highlights those internal control responsibilities that the Company believes should be present at each user entity and has considered in developing the Company's controls described in this report. Furthermore, the following list of controls is intended to address only those controls surrounding the interface and communication between the user entity and the Company. Accordingly, this list does not purport to be, and is not, a complete listing of the controls that a user entity should maintain. User entities are responsible for:

- Ensuring that the service agreement or quote with the Company properly describes the services to be provided.
- Communicating service level issues as they arise, including requesting reports of uptime for production servers if this becomes an issue.
- Communicating changes to the Company's services as required.
- Providing written notification of changes to individuals authorized to instruct the Company's activities on behalf of the client.
- Reporting operational failures, incidents, system problems/concerns, and complaints to appropriate Company personnel as client support requests on a timely basis (including resolution thereof).
- Requesting changes to the PBM Solutions and communicating issues with these changes after they have been implemented.
- Managing access provided to client personnel to its versions of the PBM Solutions.
- Reviewing release notes for changes to the PBM Solutions and evaluating the impact of changes to client control environments.

Section IV - Trust Services Categories, Criteria, HITRUST CSF Criteria, Related Controls, Tests, and Test Results

Tests of Operating Effectiveness

Armanino's tests of the operating effectiveness of controls included tests that were considered necessary to evaluate whether the controls were sufficient to provide reasonable, but not absolute, assurance that the trust services criteria and HITRUST CSF criteria were satisfied throughout the report period. In selecting our test procedures, we considered various factors including, but not limited to, the following:

- the nature of the control being tested and its frequency.
- the types and completeness of available evidence.
- the trust services criteria and HITRUST CSF criteria to be satisfied.
- the degree to which the control relies on the effectiveness of other controls.
- whether the control is manual or automated.
- the expected efficiency and effectiveness of the test.

Our tests of controls included observations, inspections, reperformance, and inquiries of appropriate management, supervisory, and staff personnel seeking relevant information regarding the controls. Additionally, the following table clarifies certain terms used in this section to describe the nature of the tests performed.

Test	Description
Inquiry	Inquiry of appropriate personnel and corroboration with management
Observation	Observation of the application, performance, or existence of the control
Inspection	Inspection of documents and reports indicating performance of the control
Reperformance	Reperformance of the control

Tests of Design and Implementation

Since inquiry of each control and inspection of the related policies was performed throughout our testing, these test procedures are not specified for each individual control, and it is understood they apply as needed to controls in the subsequent pages.

TRUST SERVICES CATEGORIES, CRITERIA, HITRUST CSF CRITERIA, RELATED CONTROLS, TESTS, AND TEST RESULTS

The following tests of design, implementation, and operating effectiveness were completed to determine if controls necessary to meet the applicable trust services categories and associated criteria have been achieved throughout the examination period. Applicable Trust Services Categories and HITRUST CSF Criteria for which controls were evaluated are:

- ***Security*** - The system is protected against unauthorized access (both physical and logical).
- ***Availability*** - The system is available for operation and use as committed or agreed.
- ***Confidentiality*** - Information designated as confidential is protected by the system as committed or agreed.
- ***HITRUST CSF version 9.6 control specifications (HITRUST CSF Criteria).***

No other Trust Services Categories are included in the scope of this report.

Section IV - Trust Services Categories, Criteria, HITRUST CSF Criteria, Related Controls, Tests, and Test Results

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
01 Information Security Management Program	00.a Information Security Management Program	CC1.1 CC1.3 CC1.4 CC1.5 CC3.1 CC3.2 CC3.3 CC3.4 CC5.1 CC5.2 CC5.3 CC9.1 CC9.2	The organization has a formal information protection program based on an accepted industry framework that is reviewed and updated as needed.	Inspected the security program policy to determine whether an information protection program was established and implemented based on an accepted industry framework and whether management reviewed and updated the program as needed.	No exceptions noted.
01 Information Security Management Program	00.a Information Security Management Program	CC1.1 CC1.3 CC1.4 CC1.5 CC3.1 CC3.2 CC3.3 CC3.4 CC5.1 CC5.2 CC5.3 CC9.1 CC9.2	The information protection program is formally documented and actively monitored, reviewed, and updated to ensure program objectives continue to be met.	Inspected the security program policy to determine whether the information protection program was formally documented and actively monitored, reviewed, and updated.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
01 Information Security Management Program	02.b Screening	CC1.4	Verification checks take into account all relevant privacy, protection of covered data and/or employment-based legislation, and, where permitted and appropriate, include satisfactory character references; a check of the applicant's curriculum vitae; confirmation of claimed academic and professional qualifications; verification of eligibility to work in the U.S.; and an independent identity check (e.g., passport or similar document) prior to granting access to covered information.	Inspected the verification check reports for a selection of new hires to determine whether verification checks took into account all relevant privacy, protection of covered data and/or employment-based legislation and whether verification checks were performed prior to granting access to covered information.	No exceptions noted.
01 Information Security Management Program	02.b Screening	CC1.4	The organization conducts screening before authorizing access to information resources.	Inspected the screening reports and access authorizations for a selection of new hires to determine whether screening was conducted before authorizing access to information resources.	No exceptions noted.
01 Information Security Management Program	02.d Management Responsibilities	CC1.2 CC1.4 CC2.2 CC3.2	The organization has an information security workforce improvement program.	Inspected the security awareness and privacy training policy to determine whether an information security workforce improvement program had been implemented. Inspected the training results for a selection of existing employees to determine whether information security-related training was completed.	No exceptions noted.

Section IV - Trust Services Categories, Criteria, HITRUST CSF Criteria, Related Controls, Tests, and Test Results

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
01 Information Security Management Program	02.d Management Responsibilities	CC1.2 CC1.4 CC2.2 CC3.2	Management ensures users are briefed on their security role(s)/responsibilities, conform with the terms and conditions of employment prior to obtaining access to the organization's information systems; provided with guidelines regarding the security expectations of their roles; motivated to comply with security policies; and continue to have the appropriate skills and qualifications for their role(s).	Inspected the job descriptions for a selection of new hires to determine whether users were briefed on their security role(s)/responsibilities. Inspected the employee handbook acknowledgments for a selection of new hires to determine whether users were provided with guidelines regarding the security expectations of their roles and were motivated to comply with security policies. Inspected the training results for a selection of new hires to determine whether management ensured users conformed to the terms and conditions of employment prior to obtaining access to the Company's information systems.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
01 Information Security Management Program	02.f Disciplinary Process	CC1.1 CC1.5 CC5.3 CC7.4	The organization employs a formal sanctions process for personnel failing to comply with established information security policies and procedures, and notifies defined personnel (e.g., supervisors) within a defined time frame (e.g., 24 hours) when a formal sanction process is initiated, identifying the individual sanctioned and the reason for the sanction. Further, the organization includes specific procedures for license, registration, and certification denial or revocation and other disciplinary action.	Inspected the employee handbook to determine whether a formal sanctions process for personnel failing to comply with established information security policies and procedures was established and included specific procedures for license, registration, and certification denial or revocation and other disciplinary action	No exceptions noted.
				Inspected the listing of instances of noncompliance to determine that there were no instances of personnel failing to comply with established information security policies and procedures during the examination period.	Non-occurrence noted: Armanino was unable to opine on the operating effectiveness of this control as there were no instances of personnel failing to comply with established information security policies and procedures during the examination period.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
01 Information Security Management Program	04.a Information Security Policy Document	CC1.3 CC2.2 CC2.3 CC3.1 CC5.1	Information security objectives, approach, scope, importance, goals, and principles for the organization's security program are formally identified, communicated throughout the organization to users in a form that is relevant, accessible, and understandable to the intended reader; and supported by a controls framework that considers legislative, regulatory, contractual requirements, and other policy-related requirements.	Inspected the cybersecurity policy to determine whether information security objectives, approach, scope, importance, goals, and principles for the security program were identified and supported by a controls framework that considered legislative, regulatory, contractual requirements, and other policy-related requirements. Inspected the Company intranet to determine whether the information security program was communicated throughout the organization in a form that was relevant, accessible, and understandable to the intended reader.	No exceptions noted.
01 Information Security Management Program	04.b Review of the Information Security Policy	CC1.4 CC5.2 CC5.3	The security policies are regularly reviewed and updated to ensure they reflect leading practices (e.g., for systems and services development and acquisition), and are communicated throughout the organization.	Inspected the security policies to determine whether the policies were regularly reviewed and updated. Inspected the Company intranet to determine whether the security policies were communicated throughout the Company.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
01 Information Security Management Program	05.a Management Commitment to Information Security	CC1.4 CC1.5 CC2.2 CC3.1 CC3.2 CC5.3	A senior-level information security official is appointed and is responsible for ensuring security processes are in place, communicated to all stakeholders, and consider and address organizational requirements.	Inspected the organizational chart to determine whether a senior-level information security official had been appointed. Inspected the security program policy to determine whether a senior-level information security official was responsible for ensuring security processes were in place, communicated to all stakeholders, and considered and addressed organizational requirements.	No exceptions noted.
01 Information Security Management Program	05.a Management Commitment to Information Security	CC1.4 CC1.5 CC2.2 CC3.1 CC3.2 CC5.3	If the senior-level information security official is employed by the organization, one of its affiliates, or a third-party service, the organization retains responsibility for its cybersecurity program, designates a senior member of the organization responsible for direction and oversight, and requires the third-party service to maintain an appropriate cybersecurity program of its own.	Inspected the organizational chart to determine whether the Company designated a senior member responsible for direction and oversight of its cybersecurity program. Inspected the job description for the senior-level information security official to determine whether the Company retained responsibility for its cybersecurity program.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
01 Information Security Management Program	05.a Management Commitment to Information Security	CC1.4 CC1.5 CC2.2 CC3.1 CC3.2 CC5.3	The CISO of the organization reports in writing on the organization's cybersecurity program and material cybersecurity risks, at least annually, to the organization's board of directors, equivalent governing body, or suitable committee.	Inspected meeting minutes to determine whether the CISO reported on the cybersecurity program and material cybersecurity risks to the board of directors, equivalent governing body, or suitable committee at least annually.	No exceptions noted.
01 Information Security Management Program	05.b Information Security Coordination	CC1.1 CC2.2 CC3.1 CC3.4	Security plans that meet applicable federal or leading practice requirements are developed for information systems, periodically reviewed, and communicated to relevant stakeholders.	Inspected the cybersecurity policy to determine whether security plans that met applicable federal or leading practice requirements were developed for information systems and periodically reviewed. Inspected the Company intranet to determine whether security plans were communicated to relevant stakeholders.	No exceptions noted.
01 Information Security Management Program	05.b Information Security Coordination	CC1.1 CC2.2 CC3.1 CC3.4	Security plans are reviewed at least every three years (prior to the plans expiration), when changes are made to the information system or information protection requirements, or when incidents occur that impact the plans' validity.	Inspected the security program policy and cybersecurity policy to determine whether security plans were reviewed at least every three years (prior to the plans expiration), when changes were made to the information system or information protection requirements, or when incidents occurred that impacted the plans' validity.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
01 Information Security Management Program	05.h Independent Review of Information Security	CC3.4 CC4.2	If an independent review identifies that the organization's approach and implementation to managing information security is inadequate or not compliant with the direction for information security stated in the information security policy document, management takes corrective actions.	Inspected the independent security program review results to determine whether the review identified inadequate or noncompliant areas of the information security program. Inspected the remediation tickets to determine whether management took corrective actions to address areas of inadequacy or noncompliance identified by the independent security program review.	No exceptions noted.
01 Information Security Management Program	05.h Independent Review of Information Security	CC3.4 CC4.2	An independent review of the information security management program and information security controls is conducted at least annually or whenever there is a material change to the business practices that may implicate the security or integrity of records containing personal information.	Inspected the independent review results of the information security management program and information security controls to determine whether the review was conducted at least annually or whenever there was a material change to the business practices.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
01 Information Security Management Program	06.a Identification of Applicable Legislation	CC1.3	All relevant statutory, regulatory, and contractual requirements, including the specific controls and individual responsibilities to meet these requirements, are explicitly defined and formally documented (e.g., in policies and procedures, as appropriate) for each information system type, and communicated to the user community through documented security training and awareness programs.	Inspected the security awareness and privacy training policy to determine whether all relevant statutory, regulatory, and contractual requirements were explicitly defined and formally documented for each information system type. Inspected the security training and awareness program content to determine whether all relevant statutory, regulatory, and contractual requirements, including the specific controls and individual responsibilities to meet these requirements, were communicated to the user community.	No exceptions noted.
01 Information Security Management Program	07.b Ownership of Assets	CC6.1	All information and assets associated with information processing systems have an information owner or owners established within a designated line of business or other part of the organization based on a business process, a defined set of activities, an application, or a defined set of data.	Inspected the asset inventory to determine whether information owner/owners had been established for information and assets associated with information processing systems.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
02 Endpoint Protection	09.j Controls Against Malicious Code	CC6.8	Anti-virus and anti-spyware are installed, operating and updated on all end-user devices to conduct periodic scans of the systems to identify and remove unauthorized software. Server environments for which the server software developer specifically recommends not installing host-based anti-virus and anti-spyware software are addressed via a network-based malware detection (NBMD) solution.	Inspected system configurations to determine whether anti-virus and anti-spyware were installed, operating and updated on all end-user devices to conduct periodic scans of the systems.	No exceptions noted.
02 Endpoint Protection	09.j Controls Against Malicious Code	CC6.8	Audit logs of the scans are maintained.	Inspected audit logs from the anti-virus and anti-spyware software to determine whether audit logs of the scans were maintained.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
02 Endpoint Protection	09.j Controls Against Malicious Code	CC6.8	The organization configures malicious code and spam protection mechanisms to (i) perform periodic scans of the information system according to organization guidelines; (ii) perform real-time scans of files from external sources at endpoints and network entry/exit points as the files are downloaded, opened, or executed in accordance with organizational security policy; and, (iii) block malicious code, quarantine malicious code, or send an alert to the administrator in response to malicious code detection.	Inspected system configurations to determine whether malicious code and spam protection mechanisms were configured to (i) perform periodic scans of the information system; (ii) perform real-time scans of files from external sources; (iii) block or quarantined malicious code or send alerts to the administrator in response to malicious code detection.	No exceptions noted.
02 Endpoint Protection	09.j Controls Against Malicious Code	CC6.8	Centrally-managed, up-to-date anti-spam and anti-malware protection is implemented at information system entry/exit points for the network and on all devices.	Inspected system configurations to determine whether anti-spam and anti-malware protection was centrally managed, up-to-date, and implemented at information system entry/exit points for the network and on all devices.	No exceptions noted.
02 Endpoint Protection	09.j Controls Against Malicious Code	CC6.8	User functionality (including user interface services [e.g., web services]) is separated from information system management (e.g., database management systems) functionality.	Inspected access rights for the in-scope systems to determine whether user functionality was separated from information system management functionality.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
02 Endpoint Protection	09.j Controls Against Malicious Code	CC6.8	The organization has implemented the Sender Policy Framework (SPF) by deploying SPF records in DNS and enabling receiver-side verification in mail servers to lower the chance of spoofed email messages.	Inspected system configurations to determine whether the SPF records were deployed in DNS and whether receiver-side verification was enabled in mail servers.	No exceptions noted.
02 Endpoint Protection	09.j Controls Against Malicious Code	CC6.8	The organization has established requirements governing the installation of software by users; enforces software installation restrictions through automated methods; and monitors compliance on a continual basis.	Inspected the cybersecurity policy to determine whether the Company had established requirements governing the installation of software. Inspected system configurations to determine whether the Company enforced software installation restrictions through automated methods and whether the Company monitored compliance on a continual basis.	No exceptions noted.
02 Endpoint Protection	09.k Controls Against Mobile Code	CC6.8	The organization takes specific actions to protect against mobile code performing unauthorized actions.	Inspected system configurations to determine whether the Company prevents the downloading and execution of mobile code through technical means.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
03 Portable Media Security	09.o Management of Removable Media	CC6.1	The organization, based on the data classification level, registers media (including laptops) prior to use, places reasonable restrictions on how such media are used, and provides an appropriate level of physical and logical protection (including encryption) for media containing covered and/or confidential information until properly destroyed or sanitized.	Inspected system configurations to determine whether the Company registered media based on the classification level prior to use, placed reasonable restrictions on how such media were used, and provided an appropriate level of physical and logical protection (including encryption) for media containing covered and/or confidential information while in use. Inspected the secure wipe and the secure destruction certificates for a selection of decommissioned media to determine whether the media was properly destroyed or sanitized.	No exceptions noted.
03 Portable Media Security	09.o Management of Removable Media	CC6.1	Digital and non-digital media requiring restricted use, and the specific safeguards used to restrict their use are identified.	Inspected the cybersecurity policy to determine whether digital and non-digital media requiring restricted use and the specific safeguards used to restrict their use were identified.	No exceptions noted.
03 Portable Media Security	09.o Management of Removable Media	CC6.1	The organization restricts the use of writable removable media and personally-owned removable media in organizational systems.	Inspected system configurations to determine whether the use of writable removable media and personally-owned removable media in organizational systems was restricted.	No exceptions noted.
03 Portable Media Security	09.q Information Handling Procedures	N/A	Media is labeled, encrypted, and handled according to its classification.	Inspected the asset inventory and system configurations to determine whether media was labeled, encrypted, and handled according to its classification.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
04 Mobile Device Security	01.x Mobile Computing and Communications	CC6.6 CC6.7 CC6.8 CC9.1	Mobile computing devices are protected at all times by access controls, usage restrictions, connection requirements, encryption, virus protections, host-based firewalls, or equivalent functionality, secure configurations, and physical protections.	Inspected system configurations to determine whether mobile computing devices were protected at all times by access controls, usage restrictions, connection requirements, encryption, virus protections, host-based firewalls, or equivalent functionality, secure configurations, and physical protections.	No exceptions noted.
04 Mobile Device Security	01.x Mobile Computing and Communications	CC6.6 CC6.7 CC6.8 CC9.1	The organization ensures that mobile devices connecting to corporate networks, or storing and accessing company information, allow for remote wipe.	Inspected system configurations to determine whether mobile devices allowed for remote wipe.	No exceptions noted.
04 Mobile Device Security	01.y Teleworking	CC6.4 CC6.5 CC6.6	Suitable protections of the teleworking site are in place to protect against the theft of equipment and information, the unauthorized disclosure of information, and unauthorized remote access to the organization's internal systems or misuse of facilities.	Inspected the cybersecurity policy to determine whether suitable protections were in place to protect against the theft of equipment and information. Inspected system configurations to determine whether suitable protections were in place to protect against the theft of equipment and information, the unauthorized disclosure of information, and unauthorized remote access to the Company's internal systems or misuse of facilities.	No exceptions noted.
04 Mobile Device Security	01.y Teleworking	CC6.4 CC6.5 CC6.6	Remote access is limited only to information resources required by users to complete job duties.	Inspected the quarterly access review of users with remote access to determine whether their remote access was reviewed and appropriately approved by management based on job duties.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
05 Wireless Security	09.m Network Controls	N/A	This domain and all control objectives and requirements are the responsibility of the data center facilities provider, AWS. For further details, see "Complementary Subservice Organization Controls" in Section III of the report.		
06 Configuration Management	06.g Compliance with Security Policies and Standards	CC2.1	Annual compliance reviews are conducted by security or audit individuals using manual or automated tools; if non-compliance is found, appropriate action is taken.	Inspected the compliance review report to determine whether an annual compliance review was conducted by security or audit individuals and whether appropriate action was taken for any non-compliance found.	No exceptions noted.
06 Configuration Management	06.g Compliance with Security Policies and Standards	CC2.1	The organization has developed a continuous monitoring strategy and implemented a continuous monitoring program.	Inspected the cybersecurity policy to determine whether a continuous monitoring strategy had been developed. Inspected the monitoring reports for a selection of months to determine whether a continuous monitoring program had been implemented.	No exceptions noted.
06 Configuration Management	09.b Change Management	N/A	Changes to equipment, software, and procedures are strictly and consistently managed.	Inspected the change tickets for a selection of changes to determine whether changes were strictly and consistently managed.	No exceptions noted.
06 Configuration Management	09.d Separation of Development, Test, and Operational Environments	N/A	The organization minimizes any testing on production systems; and, when testing is performed, a test plan is developed that documents all changes to the system and the procedures for undoing any changes made to the system.	Inspected the change tickets for a selection of changes to determine whether testing on production systems was minimized and whether test plans were developed that documented all changes to the system and fallback procedures.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
06 Configuration Management	10.h Control of Operational Software	CC6.8 CC8.1	Only authorized administrators are allowed to implement approved upgrades to software, applications, and program libraries, based on business requirements and the security implications of the release.	Inspected user listings and permissions to determine whether only authorized administrators were allowed to implement approved upgrades to software, applications, and program libraries.	No exceptions noted.
06 Configuration Management	10.h Control of Operational Software	CC6.8 CC8.1	The organization identifies unauthorized (blacklisted) software on the information system, including servers, workstations and laptops, employs an allow-all, deny-by-exception policy to prohibit the execution of known unauthorized (blacklisted) software on the information system, and reviews and updates the list of unauthorized (blacklisted) software periodically but no less than annually.	Inspected the listing of blacklisted software to determine whether unauthorized software on the information system had been identified and whether the list was reviewed and updated at least annually. Inspected system configurations to determine whether an allow-all, deny-by-exception policy to prohibit the execution of known unauthorized software on the information system was employed.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
06 Configuration Management	10.k Change Control Procedures	CC2.1 CC2.2 CC2.3 CC6.8 CC8.1 C1.2	Where development is outsourced, change control procedures to address security are included in the contract(s) and specifically require the developer to track security flaws and flaw resolution within the system, component, or service and report findings to organization-defined personnel or roles.	Inspected the signed third-party contracts to determine whether change control procedures to address security were included in the contracts and specifically required the developer to track security flaws and flaw resolution and report findings to appropriate personnel.	No exceptions noted.
06 Configuration Management	10.h Control of Operational Software	CC6.8 CC8.1	Changes are formally controlled, documented, and enforced in order to minimize the corruption of information systems.	Inspected the change tickets for a selection of changes to determine whether changes were formally controlled, documented, and enforced.	No exceptions noted.
07 Vulnerability Management	07.a Inventory of Assets	CC6.1 CC7.1	An inventory of assets and services is maintained.	Inspected the asset inventory to determine whether an inventory of assets and services was maintained.	No exceptions noted.
07 Vulnerability Management	07.a Inventory of Assets	CC6.1 CC7.1	The inventory of all authorized assets includes the owner of the information asset, custodianship, categorizes the information asset according to criticality and information classification, and identifies protection and sustainment requirements commensurate with the asset's categorization.	Inspected the asset inventory to determine whether the owner of the information asset and custodianship were included, information asset was categorized according to criticality and information classification, and protection and sustainment requirements identified commensurate with the asset's categorization	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
07 Vulnerability Management	07.a Inventory of Assets	CC6.1 CC7.1	Organizational inventories of IT assets are updated during installations, removals, and system changes, with full physical inventories performed for capital assets (at least annually) and for non-capital assets.	Inspected the asset inventory to determine whether organizational inventories of IT assets were updated during installations, removals, and system changes and whether full physical inventories were performed for capital assets at least annually and for non-capital assets.	No exceptions noted.
07 Vulnerability Management	10.b Input Data Validation	N/A	System and information integrity requirements are developed, documented, disseminated, reviewed, and updated annually.	Inspected the cybersecurity policy and the Company's intranet to determine whether system and information integrity requirements were developed, documented, disseminated, reviewed, and updated annually.	No exceptions noted.
07 Vulnerability Management	10.m Control of Technical Vulnerabilities	CC4.2 CC7.1 CC7.4	Technical vulnerabilities are identified, evaluated for risk, and corrected in a timely manner.	Inspected the remediation tickets for a selection of critical vulnerabilities to determine whether technical vulnerabilities were identified, evaluated for risk, and corrected in a timely manner.	No exceptions noted.
07 Vulnerability Management	10.m Control of Technical Vulnerabilities	CC4.2 CC7.1 CC7.4	A technical vulnerability management program is in place to monitor, assess, rank, and remediate vulnerabilities identified in systems.	Inspected the vulnerability management policy to determine whether a technical vulnerability management program was in place to monitor, assess, rank, and remediate vulnerabilities identified in systems. Selected a sample of vulnerabilities to determine whether the organization assigns a risk ranking based on the use of CVSS scores, classification of the vendor supplied patch, and/or the classification and criticality of the affected system.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
07 Vulnerability Management	10.m Control of Technical Vulnerabilities	CC4.2 CC7.1 CC7.4	The organization scans for vulnerabilities in the information system and hosted applications to determine the state of flaw remediation monthly (automatically), and again (manually or automatically) when new vulnerabilities potentially affecting the systems and networked environments are identified and reported.	Selected a sample of vulnerability scans to determine whether that a scan is performed on a monthly basis for information systems and hosted applications. Examined evidence to determine whether subsequent automated scans are performed monthly to verify that vulnerabilities have been remediated. Selected a sample of instances in which new vulnerabilities potentially affecting the systems, networked environments, and hosted applications were identified and reported and inspect evidence to determine whether scans for vulnerabilities were performed as a result.	No exceptions noted.
07 Vulnerability Management	10.m Control of Technical Vulnerabilities	CC4.2 CC7.1 CC7.4	The organization centrally manages the flaw remediation process and installs software updates automatically where possible.	Examined evidence to determine whether a configuration control system (e.g., WSUS, Kaseya) has been implemented to centrally manage and automate flaw remediation. Inspected system configurations to determine whether the Company centrally managed the flaw remediation process and installed software updates automatically where possible.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
07 Vulnerability Management	10.m Control of Technical Vulnerabilities	CC4.2 CC7.1 CC7.4	The organization conducts both internal and external penetration testing as needed, but no less than once within every 365 days, in accordance with the organization's information security procedures, and results are reported to management.	Inspected the penetration test report to determine whether the Company conducted both internal and external penetration testing at least annually and whether the results were reported to management.	No exceptions noted.
08 Network Protection	01.i Policy on the Use of Network Services	CC6.1	The organization identifies and limits and/or prohibits the external information systems that may be used by employees and other workforce members.	Inspected the network diagram and system configurations to determine whether the Company identified and limited and/or prohibited the external information systems that could be used by employees and other workforce members. Examined evidence to determine whether the organization limits or prohibits use of external information systems by employees and other members of the workforce in accordance with organizational policy.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
09 Transmission Protection	09.m Network Controls	N/A	The organization maintains and enforces network-based URL filters that limit a system's ability to connect to websites not approved by the organization. The organization specifically blocks access to known file transfer and email exfiltration websites. The organization subscribes to URL categorization services to ensure that they are up-to-date with the most recent website category definitions available. Uncategorized sites are blocked by default. This filtering is enforced for each of the organization's systems, whether they are physically at an organization's facilities or not.	Inspected system configurations to determine whether a URL filtering solution was maintained and configured to block access to known file transfer and email exfiltration websites and place websites in categories to restrict users from accessing restricted websites and receive up-to-date categorization definitions.	No exceptions noted.
09 Transmission Protection	09.s Information Exchange Policies and Procedures	N/A	The organization limits the use of organization-controlled portable storage media by authorized individuals on external information systems.	Inspected system configurations to determine whether the use of organization-controlled portable storage media by authorized individuals on external information systems was limited.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
09 Transmission Protection	09.v Electronic Messaging	N/A	Stronger controls are implemented to protect certain electronic messages, and electronic messages are protected throughout the duration of its end-to-end transport path, using cryptographic mechanisms unless protected by alternative measures.	Inspected the email encryption configurations to determine whether cryptographic mechanisms were used to protect certain electronic messages throughout the duration of its end-to-end transport path.	No exceptions noted.
10 Password Management	01.d User Password Management	CC6.6	Password policies, applicable to mobile devices, are documented and enforced through technical controls on all company devices or devices approved for BYOD usage, and prohibit the changing of password/PIN lengths and authentication requirements.	Inspected system configurations to determine whether password policies were enforced through technical controls on all company devices or devices approved for BYOD usage and whether the changing of password/PIN lengths and authentication requirements was prohibited.	No exceptions noted.
10 Password Management	01.d User Password Management	CC6.6	The organization requires quality passwords with a minimum length of eight characters and that meet three of four complexity requirements (e.g., upper- and lower-case characters, numbers, special characters) or otherwise has an equivalent strength (entropy).	Inspected system configurations to determine whether quality passwords with a minimum length of eight characters and that met three of four complexity requirements or otherwise had an equivalent strength were required.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
10 Password Management	01.d User Password Management	CC6.6	The organization prevents password reuse for at least six generations, and if the operating environment allows, requires at least four characters to be changed.	Inspected system configurations to determine whether password reuse for at least six generations was prevented.	No exceptions noted.
10 Password Management	01.d User Password Management	CC6.6	The password management system requires individual user IDs and passwords; forces a password change at initial log-on; does not display passwords when entered; requires vendor-supplied default passwords to be changed before "go live"; allows users to select and change their own passwords; and includes a confirmation procedure to allow for input errors.	Inspected system configurations to determine whether the password management system required individual user IDs and passwords, forced a password change at initial log-on, required vendor-supplied default passwords to be changed before "go live", allowed users to select and change their own passwords, and included a confirmation procedure to allow for input errors. Observed a user sign-on to the in-scope systems to determine whether passwords complied with the restrictions required by policy.	No exceptions noted.
10 Password Management	01.r Password Management System	N/A	The password management system enforces all password policy requirements to include the protection of passwords at rest or in transit, storage of password files separate from application data, and enforcement of quality passwords, password changes, and the prevention of password re-use.	Inspected system configurations to determine whether the password management system enforced all password policy requirements to include the protection of passwords at rest or in transit, storage of password files separate from application data, and enforcement of quality passwords, password changes, and the prevention of password re-use.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
11 Access Control	01.a Access Control Policy	CC5.2 CC6.1 CC6.2 CC6.3 CC6.4 CC6.8	Logical and physical access control rules and rights for each user or group of users are considered together and clearly defined in standard user access profiles (e.g., roles) for each application based on need-to-know, need-to-share, least privilege and other relevant requirements.	Inspected the access request tickets for a selection of new hires to determine whether logical access control rules and rights for each user were considered together and clearly defined in standard user access profiles based on need-to-know, need-to-share, least privilege and other relevant requirements.	No exceptions noted.
11 Access Control	01.a Access Control Policy	N/A	The access authorization process addresses all requests for access, modification of permissions/rights/access, removal of access, and emergency access. Further, the organization develops and disseminates/communicates a formal access control program (e.g., through policies and procedures) and reviews and updates the program annually.	Inspected the access control and password policy to determine whether the access authorization process addressed all requests for access, modification of permissions/rights/access, removal of access, and emergency access. Inspected the access control and password policy and the Company's intranet to determine whether a formal access control program had been developed, disseminated/communicated, reviewed, and updated annually.	No exceptions noted.
11 Access Control	01.a Access Control Policy	N/A	Access authorization (e.g., access requests, approvals and provisioning) is segregated among multiple individuals or groups.	Inspected the access request tickets for a selection of new hires to determine whether access authorization was segregated among multiple individuals or groups.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
11 Access Control	01.b User Registration	CC6.1 CC6.2 CC6.4	The organization maintains a current listing of all workforce members (individuals, contractors, vendors, business partners, etc.) with access to sensitive information (e.g., PII).	Inspected the listing of workforce members with access to sensitive information to determine whether the listing was maintained.	No exceptions noted.
11 Access Control	01.b User Registration	CC6.1 CC6.2 CC6.4	User identities are verified prior to establishing accounts.	Inspected the access request tickets for a selection of new hires to determine whether user identities were verified prior to establishing accounts.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
11 Access Control	01.b User Registration	CC6.1 CC6.2 CC6.4	User registration and deregistration, at a minimum: communicates relevant policies to users and require acknowledgement (e.g., signed or captured electronically); checks authorization and minimum level of access necessary prior to granting access; ensures access is appropriate to the business needs (consistent with sensitivity/risk and does not violate segregation of duties requirements); addresses termination and transfer; ensures default accounts are removed and/or renamed; removes or blocks critical access rights of users who have changed roles or jobs; and automatically removes or disables inactive accounts.	Inspected the employee handbook acknowledgments and access request tickets for a selection of new hires to determine whether relevant policies were communicated and acknowledged by users, authorization and minimum level of access necessary were verified prior to granting access, and appropriate access was ensured. Inspected user listings to determine whether default accounts were removed and/or renamed. Inspected the access revocation tickets for a selection of terminated employees to determine whether access rights were removed or blocked. Inspected system configurations to determine whether inactive accounts were automatically removed or disabled.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
11 Access Control	01.b User Registration	CC6.1 CC6.2 CC6.4	Account types are identified (individual, shared/group, system, application, guest/anonymous, emergency and temporary), conditions for group and role membership are established, and, if used, shared/group account credentials are modified when users are removed from the group.	Inspected the access control and password policy to determine whether account types were identified and whether conditions for group and role membership were established.	No exceptions noted.
11 Access Control	01.c Privilege Management	CC6.2 CC6.3 CC6.8	Privileges are formally authorized and controlled, allocated to users on a need-to-use and event-by-event basis for their functional role (e.g., user or administrator), and documented for each system product/element.	Inspected the access request tickets for a selection of privileged access requests to determine whether privileges were formally authorized and controlled, allocated to users on a need-to-use and event-by-event basis for their functional role, and documented for each system product/element.	No exceptions noted.
11 Access Control	01.c Privilege Management	CC6.2 CC6.3 CC6.8	The organization promotes the development and use of programs that avoid the need to run with elevated privileges and system routines to avoid the need to grant privileges to users.	Inspected system configurations to determine whether the Company promoted the development and use of programs that avoid the need to run with elevated privileges and system routines to avoid the need to grant privileges to users.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
11 Access Control	01.c Privilege Management	CC6.2 CC6.3 CC6.8	Elevated privileges are assigned to a different user ID from those used for normal business use, all users access privileged services in a single role, and such privileged access is minimized.	Inspected user listings and permissions to determine whether elevated privileges were performed using a separate user ID and with the appropriate role, other than one used for normal business, and that users assigned with administrator privileges is limited to appropriate individuals.	No exceptions noted.
11 Access Control	01.c Privilege Management	CC6.2 CC6.3 CC6.8	The organization audits the execution of privileged functions on information systems and ensures information systems prevent non-privileged users from executing privileged functions.	Examined evidence to determine whether the organization has implemented audit logging for the execution of privileged functions in accordance with the organization's policies. Inspected system configurations to determine whether non-privileged users were prevented from executing privileged functions.	No exceptions noted.
11 Access Control	01.c Privilege Management	CC6.2 CC6.3 CC6.8	The organization uses automated tools to inventory all administrative accounts, including domain and local accounts, to ensure that only authorized individuals have elevated privileges and validates that each person with administrative privileges on desktops, laptops, and servers is authorized by a senior executive.	Inspected system configurations to determine whether automated tools were used to inventory all administrative accounts. Inspected the privileged user access review tickets to determine whether each person with administrative privileges was authorized by a senior executive.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
11 Access Control	01.e Review of User Access Rights	CC6.2 CC6.3 CC6.4	The organization reviews critical system accounts and privileged access rights every 60 days; all other accounts, including user access and changes to access authorizations, are reviewed every 90 days.	Inspected the privileged user access review tickets for a selection of months to determine whether critical system accounts and privileged access rights were reviewed every 60 days. Inspected the standard user access review tickets for a selection of quarters to determine whether all other accounts were reviewed every 90 days.	No exceptions noted.
11 Access Control	01.p Secure Log-on Procedures	N/A	The organization has implemented secure log-on procedures, which include: a warning notice; limits the number of unsuccessful attempts to six and enforces a delay of 30 minutes, without specific authorization from an administrator; records the number of unsuccessful and successful attempts; and does not display the password when being entered.	Inspected system configurations to determine whether secure log-on procedures had been implemented and included a warning notice, limited the number of unsuccessful attempts to six and enforced a delay of 30 minutes, recorded the number of unsuccessful and successful attempts, and did not display the password when entered.	No exceptions noted.
11 Access Control	01.q User Identification and Authentication	CC6.1	The organization ensures that redundant user IDs are not issued to other users and that all users are uniquely identified and authenticated for both local and remote access to information systems.	Inspected user listings to determine whether redundant user IDs were not issued to other users and that all users were uniquely identified and authenticated for both local and remote access to information systems.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
11 Access Control	01.q User Identification and Authentication	CC6.1	Shared/group and generic user IDs are only used in exceptional circumstances where there is a clear business benefit, when user functions do not need to be traced, additional accountability controls are implemented, and after approval by management.	Inspected user listings to determine that there were no shared/group or generic user IDs created during the examination period.	Non-occurrence noted: Armanino was unable to opine on the operating effectiveness of this control as there were no shared/group or generic user IDs created during the examination period.
11 Access Control	01.q User Identification and Authentication	CC6.1	The organization employs multifactor authentication for network access to privileged and non-privileged accounts, such that one of the factors is provided by a device separate from the system gaining access, and for local access to privileged accounts (including those used for non-local maintenance and diagnostic sessions).	Inspected system configurations to determine whether MFA was employed for network access to privileged and non-privileged accounts and for local access to privileged accounts.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
11 Access Control	01.q User Identification and Authentication	CC6.1	The information system uses multifactor authentication to provide local access for non-privileged accounts and replay-resistant authentication mechanisms are used to provide network access for privileged and non-privileged accounts.	Inspected system configurations to determine whether MFA was used to provide local access for non-privileged accounts and whether replay-resistant authentication mechanisms were used to provide network access for privileged and non-privileged accounts.	No exceptions noted.
11 Access Control	01.t Session Time-out	N/A	A time-out mechanism (e.g., a screen saver) pauses the session screen after 15 minutes of inactivity, closes network sessions after 30 minutes of inactivity, and requires the user to reestablish authenticated access once the session has been paused or closed; or, if the system cannot be modified, a limited form of time-out that clears the screen but does not close down the application or network sessions is used.	Inspected system configurations to determine whether a time-out mechanism paused the session screen after 15 minutes of inactivity, closed network sessions after 30 minutes of inactivity, and required users to reestablish authenticated access.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
11 Access Control	02.i Removal of Access Rights	CC6.3 CC6.4	Upon termination or changes in employment for employees, contractors, third-party users, or other workforce arrangement, physical and logical access rights and associated materials (e.g., passwords, keycards, keys, documentation that identify them as current members of the organization) are removed or modified to restrict access within 24 hours and old accounts are closed after 90 days of opening new accounts.	Inspected the access revocation tickets for a selection of terminated employees to determine whether access rights and associated materials were removed or modified to restrict access within 24 hours. Inspected system configurations to determine whether old accounts were closed after 90 days of opening new accounts.	No exceptions noted.
11 Access Control	06.e Prevention of Misuse of Information Assets	CC1.1	Acceptable use agreements are signed by all employees before being allowed access to information assets.	Inspected the employee handbook acknowledgments for a selection of new hires to determine whether acceptable use agreements were signed by all employees before being allowed access to information assets.	No exceptions noted.
11 Access Control	06.e Prevention of Misuse of Information Assets	CC1.1	Computer login banners are displayed outlining the terms and conditions of access and are accepted before access is granted.	Observed the computer login banners to determine whether the banners were displayed outlining the terms and conditions of access and were accepted before access was granted.	No exceptions noted.
12 Audit Logging & Monitoring	09.aa Audit Logging	CC2.1	A secure audit record is created for all activities on the system (create, read, update, delete) involving covered and/or confidential information.	Inspected system configurations to determine whether a secure audit record was created for all activities on the system (create, read, update, and deleted) involving covered and/or confidential information.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
12 Audit Logging & Monitoring	09.aa Audit Logging	CC2.1	Audit records include the unique user ID, unique data subject ID, function performed, and date/time the event was performed.	Inspected system configurations to determine whether audit records included unique user ID, unique data subject ID, function performed, and date/time the event was performed.	No exceptions noted.
12 Audit Logging & Monitoring	09.aa Audit Logging	CC2.1	Retention for audit logs is specified by the organization and the logs retained accordingly.	Inspected the data retention and destruction policy to determine whether retention for audit logs was specified. Inspected system configurations to determine whether audit logs were retained accordingly.	No exceptions noted.
12 Audit Logging & Monitoring	09.aa Audit Logging	CC2.1	The organization provides a rationale for why the auditable events are deemed adequate to support after the fact investigations of security incidents and which events require auditing on a continuous basis in response to specific situations; and the listing of auditable events and supporting rational are reviewed and updated periodically within 365 days.	Inspected the logging standard to determine whether the Company provided a rationale for why the auditable events were deemed adequate to support after the fact investigations of security incidents and which events required auditing on a continuous basis in response to specific situations and whether the listing of auditable events and supporting rationale were reviewed and updated at least annually.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
12 Audit Logging & Monitoring	09.aa Audit Logging	CC2.1	Information systems generate audit records containing details to facilitate the reconstruction of events if unauthorized activity or malfunction is suspected in the audit records for audit events identified by type, location, or subject.	Inspected system configurations to determine whether audit records were generated containing details to facilitate the reconstruction of events if unauthorized activity or malfunction was suspected in the audit records for audit events identified by type, location, or subject.	No exceptions noted.
13 Education, Training and Awareness	02.e Information Security Awareness, Education, and Training	CC1.1 CC1.4 CC2.2 CC2.3	Employees and contractors receive documented initial (as part of their onboarding within 60 days of hire), annual, and ongoing training on their roles related to security and privacy.	Inspected the training results for a selection of new hires to determine whether employees received security and privacy training within 60 days of hire. Inspected the training results for a selection of existing employees to determine whether employees received security and privacy training at least annually.	No exceptions noted.
13 Education, Training and Awareness	02.e Information Security Awareness, Education, and Training	CC1.1 CC1.4 CC2.2 CC2.3	The organization provides incident response and contingency training to information system users consistent with assigned roles and responsibilities within 90 days of assuming an incident response role or responsibility; when required by information system changes; and within every 365 days thereafter.	Inspected the training results for a selection of new hires with incident response responsibilities to determine whether employees received incident response and contingency training within 90 days of assuming an incident response role or responsibility. Inspected the training results for a selection of existing employees with incident response responsibilities to determine whether employees received incident response and contingency training at least annually.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
13 Education, Training and Awareness	02.e Information Security Awareness, Education, and Training	CC1.1 CC1.4 CC2.2 CC2.3	The organization's security awareness and training program identifies how workforce members are provided security awareness and training, and the workforce members who will receive security awareness and training; describes the types of security awareness and training that is reasonable and appropriate for its workforce members; how workforce members are provided security and awareness training when there is a change in the organization's information systems; and, how frequently security awareness and training is provided to all workforce members.	Inspected the security awareness and privacy training policy to determine whether the program identified how workforce members are provided security awareness and training and the workforce members who receive security awareness and training, described the types of security awareness and training that are reasonable and appropriate for its workforce members, how workforce members are provided security and awareness training when there is a change in the organization's information systems, and how frequently security awareness and training is provided to all workforce members	No exceptions noted.
13 Education, Training and Awareness	02.e Information Security Awareness, Education, and Training	CC1.1 CC1.4 CC2.2 CC2.3	Dedicated security and privacy awareness training is developed as part of the organization's onboarding program, is documented and tracked, and includes the recognition and reporting of potential indicators of an insider threat.	Inspected the security and privacy awareness training program content to determine whether a dedicated security and privacy awareness training was developed as part of the organization's onboarding program, documented and tracked, and included the recognition and reporting of potential indicators of an insider threat.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
13 Education, Training and Awareness	02.e Information Security Awareness, Education, and Training	CC1.1 CC1.4 CC2.2 CC2.3	The organization provides specialized security and privacy education and training appropriate to the employee's roles/responsibilities, including organizational business unit security POCs and system/software developers.	Inspected the specialized security and privacy education and training program content and training results for a selection of organizational business unit security POCs and system/software developers to determine whether the training was appropriate to the employee's roles/responsibilities.	No exceptions noted.
13 Education, Training and Awareness	02.e Information Security Awareness, Education, and Training	CC1.1 CC1.4 CC2.2 CC2.3	Personnel with significant security responsibilities receive specialized education and training on their roles and responsibilities: (i) prior to being granted access to the organization’s systems and resources; (ii) when required by system changes; (iii) when entering into a new position that requires additional training; and, (iv) no less than annually thereafter.	Inspected the training results for a selection of new hires with significant security responsibilities to determine whether employees received specialized education and training on their roles and responsibilities prior to being granted access. Inspected the training results for a selection of existing employees with significant security responsibilities to determine whether employees received specialized education and training on their roles and responsibilities at least annually.	No exceptions noted.
13 Education, Training and Awareness	07.c Acceptable Use of Assets	N/A	The organization defines rules to describe user responsibilities and acceptable behavior for information system usage, including at a minimum, rules for email, Internet, mobile devices, social media and facility usage.	Inspected the acceptable use policy to determine whether rules to describe user responsibilities and acceptable behavior for information system usage were defined, including rules for email, Internet, mobile devices, social media and facility usage.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
13 Education, Training and Awareness	07.c Acceptable Use of Assets	N/A	Employees, contractors and third-party system users are aware of the limits existing for their use of the organization's information and assets associated with information processing facilities and resources; and they are responsible for their use of any information resource and of any use carried out under their responsibility.	Inspected the acceptable use policy to determine whether users were aware of the limits existing for their use of information and assets associated with information processing facilities and resources and whether users were responsible for their use of any information resource and of any use carried out under their responsibility.	No exceptions noted.
13 Education, Training and Awareness	09.j Controls Against Malicious Code	CC6.8	The organization prohibits users from installing unauthorized software, including data and software from external networks, and ensures users are made aware and trained on these requirements.	Inspected system configurations to determine whether users were prohibited from installing unauthorized software, including data and software from external networks. Inspected the security training program content to determine whether users were made aware and trained on the requirements for software installation.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
14 Third Party Assurance	05.i Identification of Risks Related to External Parties	CC2.3 CC3.2	Access to the organization's information and systems by external parties is not permitted until due diligence has been conducted, the appropriate controls have been implemented, and a contract/agreement reflecting the security requirements is signed acknowledging they understand and accept their obligations.	Inspected the security review results and agreements for a selection of third parties with access to information systems to determine whether access by external parties was not permitted until due diligence was conducted, the appropriate controls were implemented, and a contract/agreement reflecting the security requirements was signed acknowledging they understand and accept their obligations.	No exceptions noted.
14 Third Party Assurance	05.i Identification of Risks Related to External Parties	CC2.3 CC3.2	The organization obtains satisfactory assurances that reasonable information security exists across its information supply chain by performing an annual review, which includes all partners/third-party providers upon which their information supply chain depends.	Inspected the security review results for a selection of third parties with access to information systems to determine whether satisfactory assurances that reasonable information security exists across the information supply chain were obtained by performing an annual review of all partners/third-party providers.	No exceptions noted.
14 Third Party Assurance	05.j Addressing Security When Dealing with Customers	CC3.3	All security requirements resulting from work with external parties or internal controls are reflected by the agreement with the external party.	Inspected the agreements for a selection of third parties with access to information systems to determine whether all security requirements resulting from work with external parties or internal controls were reflected by the agreement with the external party.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
14 Third Party Assurance	05.k Addressing Security in Third Party Agreements	CC1.4 CC2.3 CC3.1 CC3.4 CC9.2	The organization ensures a screening process is carried out for contractors and third-party users, and, where contractors are provided through an organization, the contract with the organization clearly specifies the organization's responsibilities for screening and the notification procedures they need to follow if screening has not been completed, or if the results give cause for doubt or concern; and, all responsibilities and notification procedures for screening.	Inspected the agreements with third-party contractors to determine whether the contracts clearly specified all responsibilities and notification procedures for screening.	No exceptions noted.
14 Third Party Assurance	05.k Addressing Security in Third Party Agreements	CC1.4 CC2.3 CC3.1 CC3.4 CC9.2	The organization ensures that service level agreements define expectations of performance, describe measurable outcomes, and identify remedies and response requirements for any identified instance of non-compliance.	Inspected the agreements for a selection of third parties with access to information systems to determine whether service level agreements defined expectations of performance, described measurable outcomes, and identified remedies and response requirements for any identified instance of noncompliance.	No exceptions noted.
14 Third Party Assurance	09.g Managing Changes to Third Party Services	N/A	Third-parties coordinate, manage, and communicate changes to the services they provide to the organization.	Inspected the listing of changes to third-party services to determine whether third-parties coordinated, managed, and communicated changes to the services they provide to the organization.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
15 Incident Management	06.e Prevention of Misuse of Information Assets	CC1.1 CC1.5	Management approves the use of information assets and takes appropriate action when unauthorized activity occurs.	Inspected the access request tickets for a selection of new hires to determine whether management approved the use of information assets.	No exceptions noted.
				Inspected the listing of incidents to determine that no unauthorized activities occurred during the examination period.	Non-occurrence noted: Armanino was unable to opine on the operating effectiveness of this control as no unauthorized activities occurred during the examination period.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
15 Incident Management	11.a Reporting Information Security Events	CC2.2 CC2.3 CC7.3 CC7.4	A formal security incident response program has been established to respond, report (without fear of repercussion), escalate and treat breaches and reported security events or incidents. Organization-wide standards are specified for the time required for system administrators and other personnel to report anomalous events to the incident handling team, the mechanisms for such reporting, and the kind of information that should be included in the incident notification. This reporting includes notifying internal and external stakeholders, the appropriate community Computer Emergency Response Team, and law enforcement agencies in accordance with all legal or regulatory requirements for involving such organizations in computer incidents.	Inspected the incident management procedure to determine whether a formal security incident response program had been established to respond, report, escalate and treat breaches and reported security events or incidents and whether Company-wide standards were specified for the time required for system administrators and other personnel to report anomalous events to the incident handling team, the mechanisms for such reporting, and the kind of information that should be included in the incident notification. Inspected the incident tickets for a selection of security incidents to determine whether appropriate reporting, escalation, and treatment were treated in accordance with the incident management procedure.	No exceptions noted.
15 Incident Management	11.c Responsibilities and Procedures	CC3.1 CC7.3 CC7.4 CC7.5	The security incident response program accounts for and prepares the organization for a variety of incidents.	Inspected the incident management procedure to determine whether the security incident response program accounted for and prepared the organization for a variety of incidents.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
15 Incident Management	11.c Responsibilities and Procedures	CC3.1 CC7.3 CC7.4 CC7.5	Testing exercises are planned, coordinated, executed, and documented periodically, at least annually, using reviews, analyses, and simulations to determine incident response effectiveness. Testing includes personnel associated with the incident handling team to ensure that they understand current threats and risks, as well as their responsibilities in supporting the incident handling team.	Inspected the incident response test results to determine whether testing exercises were planned, coordinated, executed, and documented at least annually and whether testing included personnel with incident handling responsibilities.	No exceptions noted.
15 Incident Management	11.c Responsibilities and Procedures	CC3.1 CC7.3 CC7.4 CC7.5	The organization employs automated mechanisms to assist in the tracking of security incidents.	Inspected system configurations to determine whether automated mechanisms were employed to assist in the tracking of security incidents.	No exceptions noted.
15 Incident Management	11.d Learning from Information Security Incidents	CC7.4 CC7.5	The organization has implemented an incident handling capability for security incidents that addresses: policy (setting corporate direction) and procedures defining roles and responsibilities; incident handling procedures (business and technical); communication; reporting and retention; and, references to a vulnerability management program.	Inspected the incident management procedure to determine whether an incident response capability for security incidents had been implemented that addressed policy and procedures defining roles and responsibilities, incident handling procedures, communication, reporting and retention, and references to a vulnerability management program.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
15 Incident Management	11.d Learning from Information Security Incidents	CC7.4 CC7.5	The organization incorporates lessons learned from ongoing incident handling activities and industry developments into incident response procedures, training and testing exercises, and implements the resulting changes accordingly.	Inspected the incident tickets for a selection of security incidents to determine whether lessons learned from ongoing incident handling activities and industry developments were incorporated into incident response procedures and training and testing exercises and whether the resulting changes were implemented accordingly.	No exceptions noted.
16 Business Continuity & Disaster Recovery	09.l Back-up	N/A	Backup copies of information and software are made, and tests of the media and restoration procedures are regularly tested at appropriate intervals.	Inspected system configurations to determine whether backup copies of information and software were made. Inspected the backup restoration test results to determine whether tests of the media and restoration procedures were regularly tested at appropriate intervals.	No exceptions noted.
16 Business Continuity & Disaster Recovery	09.l Back-up	N/A	A formal definition of the level of backup required for each system is defined and documented including how each system will be restored, the scope of data to be imaged, frequency of imaging, and duration of retention based on relevant contractual, legal, regulatory and business requirements.	Inspected the backup procedure to determine whether a formal definition of the level of backup required for each system was defined and documented including how each system would be restored, the scope of data to be imaged, frequency of imaging, and duration of retention based on relevant contractual, legal, regulatory and business requirements.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
16 Business Continuity & Disaster Recovery	12.a Including Information Security in the Business Continuity Management Process	CC7.3 CC7.4 CC7.5	The organization brings together specific key information security elements of business continuity management, which include: (i) identifying all the assets involved in critical business processes; (ii) considering the purchase of suitable insurance, which may form part of the overall business continuity process, as well as being part of operational risk management; (iii) ensuring the safety of personnel and the protection of information assets and organizational property; and, (iv) formulating and documenting business continuity plans addressing information security requirements in line with the agreed business continuity strategy.	Inspected the business continuity plan to determine whether the plan identified all assets involved in critical business processes, considered the purchase of suitable insurance, ensured the safety of personnel and the protection of information assets and organizational property, and formulated and documented business continuity plans addressing information security requirements.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
16 Business Continuity & Disaster Recovery	12.b Business Continuity and Risk Assessment	CC3.3	The organization identifies its critical business processes and integrates the information security management requirements of business continuity with other continuity requirements relating to such aspects as operations, staffing, materials, transport and facilities.	Inspected the business continuity plan to determine whether the plan identified critical business processes and integrated the information security management requirements of business continuity with other continuity requirements relating to such aspects as operations, staffing, materials, transport and facilities.	No exceptions noted.
16 Business Continuity & Disaster Recovery	12.b Business Continuity and Risk Assessment	CC3.3	Business impact analyses are used to evaluate the consequences of disasters, security failures, loss of service, and service availability.	Inspected the business impact analysis results to determine whether analyses were used to evaluate the consequences of disasters, security failures, loss of service, and service availability.	No exceptions noted.
16 Business Continuity & Disaster Recovery	12.c Developing and Implementing Continuity Plans Including Information Security	N/A	The organization can recover and restore business operations and establish an availability of information in the time frame required by the business objectives and without a deterioration of the security measures.	Inspected the business continuity plan to determine whether the plan included recovery and restoration of business operations and established an availability of information in the time frame required by the business objectives and without a deterioration of the security measures.	No exceptions noted.
16 Business Continuity & Disaster Recovery	12.c Developing and Implementing Continuity Plans Including Information Security	N/A	The contingency program addresses required capacity, identifies critical missions and business functions, defines recovery objectives and priorities, and identifies roles and responsibilities.	Inspected the business continuity plan to determine whether the plan addressed required capacity, identified critical missions and business functions, defined recovery objectives and priorities, and identified roles and responsibilities.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
16 Business Continuity & Disaster Recovery	12.e Testing, Maintaining and Re-Assessing Business Continuity Plans	N/A	A variety of techniques are used in order to provide assurance that the business continuity plan(s) will operate in real life.	Inspected the business continuity plan test results to determine whether a variety of techniques were used in order to provide assurance that the business continuity plan(s) would operate in real life.	No exceptions noted.
16 Business Continuity & Disaster Recovery	12.e Testing, Maintaining and Re-Assessing Business Continuity Plans	N/A	The organization: (i) assigns responsibility for regular reviews of each business continuity plan; (ii) updates the plans when changes in business arrangements are identified; and, (iii) reviews test results and initiates corrective actions to ensure the continued effectiveness of the plan.	Inspected the business continuity plan to determine whether responsibility was assigned for regular reviews of each business continuity plan and whether the plan was updated when changes in business arrangements were identified. Inspected the business continuity plan test results to determine whether the management reviewed test results and initiated corrective actions to ensure the continued effectiveness of the plan.	No exceptions noted.
17 Risk Management	03.a Risk Management Program Development	CC3.3 CC9.2	The organization maintains and updates a formal, comprehensive program to manage the risk associated with the use of information assets.	Inspected the risk assessment results to determine whether a formal, comprehensive program to manage the risk associated with the use of information assets was maintained and updated.	No exceptions noted.
17 Risk Management	03.b Performing Risk Assessments	CC3.2 CC3.3 CC3.4 CC4.1	The organization performs risk assessments in a consistent way and at planned intervals, or when there are major changes to the organization's environment, and reviews the risk assessment results annually.	Inspected the risk assessment results to determine whether risk assessments were performed in a consistent way and at planned intervals, or when there were major changes to the organization's environment, and whether the risk assessment results were reviewed annually.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
17 Risk Management	03.c Risk Mitigation	CC3.1 CC4.2 CC5.1	The organization uses a formal methodology with defined criteria for determining risk treatments and ensuring that corrective action plans for the security program and the associated organizational information systems are prioritized and maintained; and the remedial information security actions necessary to mitigate risk to organizational operations and assets, individuals, and other organizations are documented.	Inspected the risk assessment results to determine whether a formal methodology with defined criteria for determining risk treatments and ensuring that corrective action plans were prioritized and maintained was used and whether remedial information security actions necessary to mitigate risk were documented.	No exceptions noted.
17 Risk Management	03.c Risk Mitigation	CC3.1 CC4.2 CC5.1	A risk treatment plan that identifies risks and nonconformities, corrective actions, resources, responsibilities and priorities for managing information security risks is regularly reviewed and updated.	Inspected the risk treatment plan to determine whether a plan that identified risks and nonconformities, corrective actions, resources, responsibilities and priorities for managing information security risks was reviewed and updated annually.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
17 Risk Management	03.d Risk Evaluation	CC3.4 CC4.1 CC8.1	Risk assessments are conducted whenever there is a significant change in the environment, or a change that could have a significant impact, and the results of the assessments are included in the change management process, so they may guide the decisions within the change management process (e.g., approvals for changes).	Inspected the risk assessment results to determine whether risk assessments were conducted whenever there was a significant change in the environment or a change that could have a significant impact and whether the results of the assessments were included in the change management process.	No exceptions noted.
17 Risk Management	05.g Contact with Special Interest Groups	N/A	The organization employs automated mechanisms to make security alert and advisory information available throughout the organization as needed.	Inspected the security alert and advisory information notifications to determine whether automated mechanisms were employed to make security alert and advisory information available throughout the organization.	No exceptions noted.
17 Risk Management	10.a Security Requirements Analysis and Specification	CC3.1 CC5.2 CC8.1	The organization applies information system security engineering principles in the specification, design, development, implementation, and modification of security requirements and controls in developed and acquired information systems.	Inspected the SDLC policy to determine whether information system security engineering principles were applied in the specification, design, development, implementation, and modification of security requirements and controls in developed and acquired information systems.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
17 Risk Management	10.a Security Requirements Analysis and Specification	CC3.1 CC5.2 CC8.1	The organization reviews and updates (as necessary) the information security architecture whenever changes are made to the enterprise architecture, and ensures that planned information security architecture changes are reflected in the security plan and organizational procurements and acquisitions.	Inspected the information security architecture diagram to determine whether the information security architecture was reviewed and updated whenever changes were made to the enterprise architecture and whether planned information security architecture changes were reflected in the security plan and organizational procurements and acquisitions.	No exceptions noted.
18 Physical & Environmental Security	08.l Secure Disposal or Re-Use of Equipment	N/A	Electronic and physical media containing covered and/or confidential information is securely sanitized prior to reuse, or if it cannot be sanitized, is destroyed prior to disposal.	Inspected the secure wipe and the secure destruction certificates for a selection of decommissioned media to determine whether the media was properly destroyed or sanitized.	No exceptions noted.
18 Physical & Environmental Security	09.p Disposal of Media	CC6.5	Disposal methods are commensurate with the sensitivity of the information contained on the media.	Inspected the secure wipe and the secure destruction certificates for a selection of decommissioned media to determine whether the disposal methods were commensurate with the sensitivity of the information contained on the media.	No exceptions noted.
19 Data Protection & Privacy	06.c Protection of Organizational Records	N/A	Guidelines are issued and observed by the organization on the ownership, classification, retention, storage, handling and disposal of all records and information.	Inspected the data retention and destruction policy to determine whether guidelines were issued and observed on the ownership, classification, retention, storage, handling and disposal of all records and information.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
19 Data Protection & Privacy	06.c Protection of Organizational Records	N/A	The organization has established and implemented a formal records document retention program.	Inspected the data retention and destruction policy to determine whether a formal records document retention program had been established and implemented.	No exceptions noted.
19 Data Protection & Privacy	06.c Protection of Organizational Records	N/A	Specific controls for record storage, access, retention, and destruction have been implemented.	Inspected system configurations and the secure wipe and the secure destruction certificates for a selection of decommissioned media to determine whether specific controls for record storage, access, retention, and destruction had been implemented.	No exceptions noted.
19 Data Protection & Privacy	06.d Data Protection and Privacy of Covered Information	CC1.3 CC1.5 CC3.1 CC3.2 CC3.3 CC3.4 CC6.1 CC6.7	Workstations that can access covered and/or confidential information are configured with specifications that address: i) proper functions to be performed, ii) the manner in which those functions are to be performed, and iii) physical attributes of the surroundings.	Inspected system configurations to determine whether workstations that can access covered and/or confidential information were configured with specifications that addressed proper functions to be performed, the manner in which those functions are to be performed, and the physical attributes of the surroundings.	No exceptions noted.
19 Data Protection & Privacy	09.z Publicly Available Information	N/A	The organization (i) designates individuals authorized to post information onto a publicly accessible information system, and (ii) trains these individuals to ensure that publicly accessible information does not contain nonpublic information.	Inspected the listing of individuals authorized to post information onto a publicly accessible information system to determine whether they have been designated. Inspected the training results for a selection of individuals authorized to post public information to determine whether these individuals were trained to ensure that publicly accessible information did not contain nonpublic information.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
19 Data Protection & Privacy	09.z Publicly Available Information	N/A	The organization reviews the proposed content of information prior to posting onto the publicly accessible information system and on a recurring bi-weekly basis to ensure non-public information is not included, and removes nonpublic information if discovered.	Inspected review tickets to determine whether the proposed content of information was reviewed prior to posting onto the publicly accessible information system and whether reviews were performed on a recurring bi-weekly basis to ensure non-public information was not included and nonpublic information was removed if discovered.	No exceptions noted.
19 Data Protection & Privacy	10.c Control of Internal Processing	CC6.8 CC7.1 CC8.1	Information system flaws are identified, documented, reported, and corrected.	Inspected the penetration test report and remediation tickets to determine whether information system flaws were identified, documented, reported, and corrected.	No exceptions noted.
19 Data Protection & Privacy	10.i Protection of System Test Data	N/A	Personnel developing and testing system code do not have access to production libraries.	Inspected user listings and permissions to determine whether personnel developing and testing system code did not have access to production libraries.	No exceptions noted.

HITRUST CSF Domain	HITRUST CSF Control Objective	Related TSC	Requirement	Test Procedure	Result
19 Data Protection & Privacy	13.f Principle Access	N/A	The organization formally verifies with appropriate documentation, the identity and authority of external persons (e.g., public officials) requesting covered and/or confidential information.	Inquired of management to determine that no external parties requested covered and/or confidential information during the examination period.	Non-occurrence noted: Armanino was unable to opine on the operating effectiveness of this control as no external parties requested covered and/or confidential information during the examination period.

Docusign Envelope ID: 38AF782E-8C51-4C10-80C3-A278C3E2D1EC

Security Program Policy

Policy Owner:

Jason Melo, Head of Security

Policy Approver:

Ion Feldman, CTO

Purpose:

The purpose of this policy is to establish the requirements for Rightway's Security Program. The Security Program manages, mitigates, and/or reduces risks by protecting and striving to ensure overall confidentiality, integrity, and availability (CIA) of the organization's systems and applications and meet privacy obligations.

Scope:

This policy covers all Rightway security practices across all departments and business units, which have been assigned to the Security department and require Senior Management commitment.

Policy Statement:

A. Security Program

1. Rightway shall implement a formal written Security Program that addresses the overall security of the organization and aligns with all related technology policies.
2. The Security Program shall be defined in terms of the specific characteristics of Rightway and shall be established and managed via continuous monitoring, maintenance and improvement.
3. The Security Program shall be risk-based, aligned with the Technology and Business strategy and goals and approved by the Chief Technology Officer and Chief Executive Officer.
4. The Security Program shall consider industry leading security frameworks including components of HITRUST, HIPAA, SOC2, other security controls and applicable privacy regulations to continually improve.
5. The Security Program shall be reviewed and updated on an annual basis, or whenever there are significant changes in the environment.

Docusign Envelope ID: 38AF782E-8C51-4C10-80C3-A278C3E2D1EC

6. The head of the Security Program (CISO) shall report in writing at least annually to the Rightway Executives and Board on the state of the program.

B. Roles and Responsibilities:

The following roles and respective responsibilities are defined as follows:

1. Senior Management

- Senior Management shall actively support security within the organization through demonstrated commitment, explicit assignment and acknowledgment of security responsibilities.
- Senior Management shall provide clear direction and visible support for security initiatives.
- Senior Management shall formally appoint a single point of contact, Security Officer or equivalent role, to a qualified individual who is responsible for overseeing and implementing Rightway's security program, to provide governance, review and update the Rightway security plan (strategy, policies, etc.), enforce and ensure compliance with the security plan by workforce members.
- Senior Management shall provide general oversight and assessment of the effectiveness of the implementation of the Security Program. In addition, Senior Management shall coordinate and involve the Senior Governing Body (board of directors) in the exercise of oversight of the security risk management aspects of the program. This includes mandating the Security Officer report in writing at least annually on the risks and status of the program and receiving and reviewing security reports regularly and as needed.

2. Chief Technology Officer (CTO)

- The Rightway CTO is the designated HIPAA Security Officer. This includes responsibility for compliance with the HIPAA Security Rule and ensuring administrative, technical, and physical safeguards are implemented to ensure the confidentiality, integrity, and availability of ePHI.
- The CTO has responsibility for risk acceptance on behalf of the business, in cases where security controls are inadequate or selected vendors carry a high risk which cannot be entirely mitigated.
- Delegate the day-to-day management, security program strategic design, resource planning and incident management to the Security Officer.

3. Security Officer

- The Security Officer shall coordinate, develop, implement and maintain an organization-wide security program.
    -
- All security responsibilities shall be formally written and defined by the Security Officer in this *Security Program Policy's* *Appendix A* and documented in job descriptions.

Docusign Envelope ID: 38AF782E-8C51-4C10-80C3-A278C3E2D1EC

- The allocation of security responsibilities shall be done in accordance with this *Security Program Policy*.
- Rightway shall formally assign the following specific security responsibilities to an individual or team:
    - establishment, documentation and distribution of security policies and procedures.
    - monitoring and analyzing security alerts and information and distributing security alerts, information and analysis to appropriate personnel.
    - establishment, documentation and distribution of security incident response and escalation procedures to ensure timely and effective handling of all situations.
    - administering user accounts, including additions, deletions and modifications.
    - monitoring and controlling all access to data.
    - identification of all systems that need protection and apply controls to meet the security policy.
    - protection of individual assets and carrying out specific security processes.
- Individuals with allocated security responsibilities may delegate security tasks to others. Nevertheless, they shall remain accountable and shall be expected to determine that any delegated tasks have been correctly performed.

4. Human Resources
    - Human Resources will inform the Information Technology Department in a timely manner regarding employee status changes that would affect any employee's rights to access the Company's Systems. Such employee status changes shall include, but shall not be limited to, commencement dates, terminations, job changes and transfers.

C. Security Resources

1. Senior management shall provide the resources needed for security. The organization's Senior Governing Body (board of directors) shall confirm that sufficient resources have been allocated to implement and maintain an effective security program.
2. The Security Officer shall employ a business case to record the resources required and shall ensure that security resources are available for expenditure as planned.
3. Senior Management shall ensure that all capital planning and investment requests include the resources needed to implement the Security Program, adequately address risk and shall document all exceptions to this requirement.
4. Senior Management shall determine, document and allocate the resources required to protect the information system, or information system service, as part of its capital planning and investment control process.

Docusign Envelope ID: 38AF782E-8C51-4C10-80C3-A278C3E2D1EC

5. Senior Management shall establish a discrete line item for security in organizational programming and budgeting information.

D. Security Coordination

1. The Security Officer shall ensure that the implementation of security controls is coordinated across the entire organization.
2. Security activities shall be coordinated by representatives from different parts of the organization with relevant roles and job functions.
3. Security coordination shall involve active cooperation and collaboration across the entire organization.
4. Security roles and responsibilities shall be coordinated and aligned with internal roles and with external partners.
5. Rightway shall ensure that security activities across the entire organization are executed in compliance with this *Security Program Policy* and that deviations are identified and reviewed.
6. Rightway shall identify how to handle non-compliance (including sanctions or disciplinary actions).
7. Rightway shall assess the adequacy and coordinate the implementation of security controls.

E. Security Awareness

1. Rightway shall assign authority and accountability to resources for communicating threat information.
2. Rightway shall ensure that threat information has been communicated to identified internal and external stakeholders.
3. Rightway shall initiate plans and programs to maintain security awareness.
4. Rightway shall effectively promote security education, training and awareness throughout the organization.

F. Authorization Process for Information Assets and Facilities

1. An authorization process for acquiring new Information Assets and facilities (e.g., data centers or offices where covered information is processed), including their maintenance, shall be defined and implemented.
2. New information processing assets (internal to the organization or via a service provided by a third party) shall have appropriate authorization of their purpose and use and authorization shall also be obtained from the manager responsible for maintaining the local information system security environment to ensure that all relevant security policies and requirements are met.
3. New information assets shall have appropriate security measures commensurate with the type of information they will store, process or transmit.

Docusign Envelope ID: 38AF782E-8C51-4C10-80C3-A278C3E2D1EC

4. New information assets shall comply with all applicable laws, regulations, standards and certain applicable sections of security frameworks listed above .
5. New hardware and software shall be checked to ensure that they are compatible with other system components.
6. Necessary controls for the use of personal or privately-owned information processing equipment (e.g., laptops, home-computers or hand-held devices) for processing business information, which may introduce new vulnerabilities, shall be identified and implemented.

G. Independent Review of Security

1. Rightway's approach to managing security and its implementation (i.e., control objectives, controls, policies, processes and procedures for security) shall be reviewed annually by an independent organization, or when significant changes to the Security Program occur.
2. The Security Officer shall initiate an independent review of Rightway's Security Program to ensure the continuing suitability, adequacy and effectiveness of the organization's approach to managing security.
3. The review shall include an assessment of Rightway's adherence to its security plan and the tests and methods used shall be sufficient to validate the effectiveness of the Security Program.
4. The review shall include notification requirements to confirm whom to inform within the organization regarding the timing and nature of the assessment.
5. The review shall address the need for changes considering evolving circumstances, including the policy and control objectives and other opportunities for improvement, including those based on regular vulnerability assessments (e.g., network scans and penetration testing),
6. The review shall carefully control security tests to limit the risks to confidentiality, integrity and system availability.
7. The review shall be carried out by individuals independent of the area under review (e.g., the internal audit function, an independent manager or a third-party organization specializing in such reviews).
8. The review shall be carried out by individuals who have the appropriate skills and experience.
9. The results of the independent review shall be recorded and shall be reported to the Security Officer who initiated the review and shall be maintained for a minimum of three years in accordance with the *Data Retention and Destruction Policy*.
10. If the independent review identifies that Rightway's approach and implementation to managing security is inadequate, or is not compliant with the direction for security stated in the Security Program, the Security Officer shall take corrective actions.

Enforcement and Exception:

Violation of this policy must be reported to security@rightwayhealthcare.com and may result in discipline, up to and including termination of employment (or for contractors, the termination of engagement of services), subject to the terms of any applicable collective bargaining agreement or other contract. Any exceptions to this Vulnerability Management Policy will be handled according to the Policy Exception Procedure.

Document Review Frequency:

This document will be reviewed annually and according to need.

Date of Last Review: 01/31/2025

Appendix A: Security Responsibilities

Security Officer is responsible for the:

- development, implementation, and monitoring of the *Security Program Policy* at an enterprise-wide level.
- general day-to-day responsibility for oversight of Rightway's compliance and implementation of the *Security Program Policy*.
- monitoring and evaluation of the *Security Program Policy* effectiveness throughout the year.
- modifying the *Security Program Policy*, when appropriate, to respond to relevant technology changes, sensitivity of information, and new threats (both internal and external) to systems security.
- meeting with senior management at least twice per year, or more often as required by circumstances, to review the enforcement and adequacy of the *Security Program Policy*, and to approve proposed changes and revisions to the *Security Program Policy*.
- establishment overarching organizational tone, policies, and procedures on security matters.
- ensuring adequate internal controls are in place to monitor compliance with *Security Program Policy*.

Security Department

The Security department, led by the [Security Officer] is responsible for:

- Reviewing and approving requests from Data Stewards for exceptions to the *Data Classification and Labeling Policy*, and for maintaining a written record of all approved exceptions.
- Defining procedures consistent with the *Data Classification and Labeling Policy* to ensure that data is protected in accordance with its classification.
- Performing semi-annual reviews with Data Stewards to ensure access control privileges include only authorized personnel and that such personnel only have access to information they need to perform their job responsibilities.

The Security department will provide annual training to all users who have access to Restricted Information. In particular, application developers will receive training in secure coding techniques based on industry best practices and guidance.

On an annual basis, the Security department will send out an email communication to all applicable stakeholder reminding them of their obligations with respect to the *Security Program Policy* and the *Acceptable Use Policy*. Following receipt of this communication, employees will be required to electronically acknowledge that they have read, understood, and will comply with the *Acceptable Use Policy*.

The Security department is responsible for ensuring that changes made to the *Security Program Policy* are being communicated to all Rightway users. Additional training and

Docusign Envelope ID: 38AF782E-8C51-4C10-80C3-A278C3E2D1EC

security communications will be provided by the Security department from time to time, to drive security awareness, and to provide ongoing education on security requirements.

The Security department will distribute the *Acceptable Use Policy* to all new employees and will require each new employee, as part of the Human Resource department's onboarding process, to acknowledge electronically that they have read, understood, and will comply with the *Acceptable Use Policy*. The Security department will retain records of *Acceptable Use Policy* acknowledgements.

Department Heads / Data Stewards

Rightway's Department Heads are designated as the ultimate Data Stewards of all types of information /data used for regular business activities. Department Heads may designate their direct reports (i.e., employees one level down) as a Data Stewards for all, or certain, work assignments produced or generated by their respective departments. Department Heads and their designees will seek advice from the [Security Officer / Head of Security] with respect to their actions and obligations under the *Data Classification and Labeling Policy* to the extent necessary.

Department Heads, working with the Security department, shall take all steps necessary to: (a) protect all Confidential and Restricted Data that resides in the departments for which they are responsible, and (b) review and approve jointly with the [Security Officer / Head of Security] all requests for exceptions to the terms of the *Data Classification and Labeling Policy*.

Department Heads and Data Stewards are accountable and responsible for its security in accordance with *Data Classification and Labeling Policy*. Department Heads and Data Stewards are authorized to make the following decisions and perform the following activities on behalf of Rightway in carrying out the *Data Classification and Labeling Policy*:

- Select the appropriate data classification category relevant to the data according to the *Data Classification and Labeling Policy*.
- Approve and periodically review access privileges for specific job profiles (including consultants and contractors with access to Confidential and Restricted Information) and perform, with the Security department, semi-annual reviews to insure access control privileges include only authorized personnel and that such personnel only have access to the information they need to perform their job responsibilities.

Security Awareness and Privacy Training Policy

Policy Owner:

Jason Melo, Head of Security

Policy Approver:

Ion Feldman, CTO

Purpose:

The purpose of this policy is to ensure Rightway develops and implements appropriate and relevant security awareness and privacy training programs and provides in-depth training for workforce members.

Scope:

All Rightway workforce members, which includes employees and applicable contractors.

Policy Statement:

A. Security Awareness and Privacy Training

1. Rightway shall determine the following:
    a. who will receive security awareness, privacy, and other role-based specialized training
    b. what types of training are reasonable and appropriate based upon the organization's risk
    c. where and when training is provided
    d. how frequently training and awareness topics are provided to address risk
    e. how training is provided when there is a change in information systems, a change in the organization's risk profile, or when entering into a new position that requires additional training
2. All workforce members, and applicable contractors, shall receive role-specific appropriate security awareness and privacy training as well as regular updates on Rightway policies and procedures relevant to their job function.
3. Rightway shall keep a record of all security awareness and privacy training activities including what training has been provided, to whom, and when.

Docusign Envelope ID: 38AF782E-8C51-4C10-80C3-A278C3E2D1EC

B. Specialized training

1. Rightway shall determine specialized, role-based training as needed to address business risks which includes:
    a. incident response
    b. business continuity
    c. privacy regulations and procedures
    d. cybersecurity
    e. developer security
2. Incident response training shall be administered as follows:
    a. Rightway will identify all workforce members and applicable contractors with role based responsibilities for incident response and design and implement suitable training.
    b. Within 90 days of assuming an incident response role or responsibility and annually thereafter. Also, when required due significant system or business process changes.
3. Business Continuity training shall be administered as follows:
    a. Rightway will identify all workforce members and applicable contractors with role based responsibilities for business continuity, including disaster recovery, and design and implement suitable training.
    b. Within 90 days of assuming a business continuity role or responsibility and annually thereafter. Also, when required due significant system or business process changes.
    c. BCP Leadership will receive an updated BCP and be given annual training and as needed thereafter.
4. Privacy training shall be administered as follows:
    a. Rightway will identify all workforce members and contractors that have access to any restricted or sensitive data.
    b. Privacy specific training will cover appropriate privacy-related regulations and procedures, at a minimum to include California regulations CCPA/CPRA.
    c. All workforce members and applicable contractors upon hire, as needed thereafter.
5. Cybersecurity training shall be administered as follows:
    a. Rightway will identify personnel with significant security responsibilities and provide a training plan that is suitable and sufficient to maintain their skill set.

Docusign Envelope ID: 38AF782E-8C51-4C10-80C3-A278C3E2D1EC

b. Training plans will be developed by the Manager and executed as needed on an annual basis, within the budgeted amount allocated to each individual.

6. Developer security training shall be administered as follows:

a. Rightway will identify employees and contractors with the developer or engineering role and provide a training plan that is suitable. At a minimum, the training must include handling of sensitive data, secure coding and OWASP Top 10.
b. Training plans will be developed by the Manager and executed as needed on an annual basis, within the budgeted amount allocated to each individual.

C. New hire training

1. Security awareness training shall commence with a formal new hire process that introduces Rightway's security and privacy policies and expectations.

2. The training includes the following:

a. All employee training: HIPAA: Business Associates, 2024 KnowBe4 Security Awareness Training
b. , Privacy regulations, Review and sign RW Acceptable Use policy and Rightway Handbook.
c. Role-specific training: Specialized Training is to be scheduled and delivered to all new hires and contractors per their role.

3. Rightway shall provide new hire training prior to granting access to information or services and no later than sixty (60) days after the date of hire or a contractual arrangement with a third party.

D. Ongoing security awareness and privacy training

1. Shall include the following:

a. regular social engineering topics, phishing exercises, delivered as needed
b. topic-specific security awareness training as needed
c. topic-specific privacy training as needed
d. training in the correct use of new systems and applications
e. security and privacy requirements (e.g., objective, scope, roles and responsibilities, coordination, compliance, communicating threat information, legal responsibilities and business controls).

Enforcement and Exception:

Violation of this policy must be reported to security@rightwayhealthcare.com and may result in discipline, up to and including termination of employment (or for contractors,

Docusign Envelope ID: 38AF782E-8C51-4C10-80C3-A278C3E2D1EC

the termination of engagement of services), subject to the terms of any applicable collective bargaining agreement or other contract. Any exceptions to this Policy will be handled according to the *Policy Exception Procedure.*

2025 Rightway Comprehensive Value Formulary.

Help reduce out-of-pocket costs with this list.

About this guide

Please consider talking to your doctor about prescribing one of the formulary medications that are indicated as covered under your plan; which may help reduce your out-of-pocket costs. This list may help guide you and your doctor in selecting an appropriate medication for you. The preferred medication list, also known as a formulary, is updated on a regular basis. You can view the most up- to-date list at rightwayhealthcare.com.

Contents

Introduction....3

Coverage considerations....4

Formulary listing....5

Index....87

Introduction

The Rightway Formulary serves as a guide for the selection of medications that are clinically and therapeutically appropriate. The drugs listed have been reviewed by a National Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion.

Generics
Generics drugs are shown in lower-case *italics* type.

Brands
Brand prescription drugs are shown in **CAPITAL** letters with boldface type.

The Rightway Formulary is organized into broad categories (e.g. Anti-Infective drugs). Within most categories, drugs are sub-grouped by drug class (e.g. Penicillins) or by use for a specific medical condition (e.g. Diabetes). Drugs represented in this document may have varying cost to the plan member based on their specific plan benefit structure.

Generic medications are typically available at the lower cost, brand-name medications will generally cost more than generics. To save the most money on prescription drugs, take this drug list with you each time you visit your physician. Consider asking your physician to prescribe generic and formulary drugs listed, if appropriate.

Please note, your coverage has limitations and exclusions, which means that some drugs on this list may not be covered or be covered at a different level, depending on your plan's design. To find out more, please refer to your plan's Evidence of Coverage or your Summary Plan Description.

Coverage considerations

Maintenance medications
Drugs you may take on an ongoing basis for conditions such as high blood pressure, diabetes or high cholesterol are considered maintenance medications. Some plans may exclude coverage for certain agents or drug categories, like those used for erectile dysfunction or weight loss.

Over-The-Counter Exclusions
Your benefit plan may not provide coverage for prescription medications that have an over-the-counter version.

Compounded Medications
Your benefit plan may require Clinical Review for prior authorization for compounded medications or they may be excluded.

Repackaged Medications
Repackaged versions of medications already available on the market are not covered.

CURRENT AS OF 04/2025
