Addendum Effective Date: October 13, 2026

Questions and Answers

Following are the questions submitted and answers provided for the above-mentioned solicitation. The questions and answers are to be considered as part of the solicitation. It is the responsibility of bidders to check the State Purchasing Bureau website for all addenda or amendments.

<u>Question Number</u>	<u>RFP Section Reference</u>	<u>RFP Page Number</u>	<u>Question</u>	<u>State Response</u>
1.	Schedule of Events	n/a	Please confirm that the time of the events has remained unchanged and only the dates have moved (i.e., proposals remain due at 2:00 PM Central Time, etc.).	Our bid opening/when the bids are due will be at 2:00 PM still, just on a different day, October 21, 2026.
2.	Cost Proposal	n/a	The total base contract price in cell H17 of the operations tab appears incorrect. Why does it include "c17*6+d17*6" as part of the calculation? It appears by removing this part the total calculates correctly.	
3.	Cost Proposal	n/a	The total base contract price in cell H18 of the operations tab appears incorrect. Why does it include "c18*6+d18*6" as part of the calculation? It appears by removing this part the total calculates correctly.	
4.	Cost Proposal	n/a	Please remove rows 21 and 30 since they are redundant (planned member volume and 350,000 are the same number)	
5.	Cost Proposal	n/a	All of the formulas in rows 20,21,29, and 30 appear incorrect. We believe they should be the sum of 1 member*PMPM*12 + 349,999 members*PMPM*12.	

6.	Cost Proposal	n/a	The new cost proposal includes 5 option years but the RFP indicates that there are 8. If the RFP is correct, please correct the cost proposal.	
7.	Cost Proposal	n/a	The total price for all option years is not calculating. Please include a formula to sum the option year pricing.	
8.	Cost Proposal	n/a	Please confirm that bidders will be paid a fixed implementation price based on the proposed cost included on the implementation tab of the cost proposal.	

This addendum will be incorporated into the solicitation.
