INVITATION TO BID
Number 5792-OF

The State of Nebraska (State), Department of Administrative Services (DAS), Materiel Division, State Purchasing Bureau (SPB), is issuing this Invitation to Bid (ITB) for a Liquid Asphaltic Materials contract, ITB Number 5792 OF for the purpose of selecting a qualified Bidder to provide Liquid Asphaltic Materials. Specifications can be found in Section VI. The resulting contract may not be an exclusive contract as the State reserves the right to contract for the same or similar goods from other sources now or in the future.

The contract is seasonal and does not contain any renewal options. The term of the contract will be commencing upon effective the date of award through November 30, 2018. The State reserves the right to extend the period of this contract beyond the termination date when mutually agreeable to the Parties.

INFORMATION PERTINENT TO THIS INVITATION TO BID CAN BE FOUND ON THE INTERNET
AT: <http://das.nebraska.gov/materiel/purchasing.html>.

IMPORTANT NOTICE: Pursuant to Neb. Rev. Stat. § 84-602.02, State contracts in effect as of January 1, 2014, and contracts entered into thereafter, must be posted to a public website. The resulting contract, the ITB, and the successful Bidder's bid or response will be posted to a public website managed by DAS, which can be found at:

<https://statecontracts.nebraska.gov/>

In addition and in furtherance of the State's public records statute (Neb. Rev. Stat. § 84-712 et seq.) all bids or responses received regarding this ITB will be posted to the SPB website.

These postings will include the entire bid or response. Bidders must request that proprietary information be excluded from the posting. The Bidder must identify the proprietary information, mark the proprietary information according to state law, and submit the proprietary information in a separate container or envelope marked conspicuously using an indelible method with the words "PROPRIETARY INFORMATION". The Bidder must submit a **detailed written document showing** that the release of the proprietary information would give a business advantage to named business competitor(s) and explain how the named business competitor(s) will gain an actual business advantage by disclosure of information. The mere assertion that information is proprietary or that a speculative business advantage might be gained is not sufficient. (See Attorney General Opinion No. 92068, April 27, 1992) **THE BIDDER MAY NOT ASSERT THAT THE ENTIRE BID OR RESPONSE IS PROPRIETARY. COST WILL NOT BE CONSIDERED PROPRIETARY AND IS A PUBLIC RECORD IN THE STATE OF NEBRASKA.** The State will then determine, in its discretion, if the interests served by nondisclosure outweighs any public purpose served by disclosure. (See Neb. Rev. Stat. § 84-712.05(3)) The Bidder will be notified of the agency's decision. Absent a State determination that information is proprietary, the State will consider all information a public record subject to release regardless of any assertion that the information is proprietary.

If the agency determines it is required to release proprietary information, the Bidder will be informed. It will be the Bidder's responsibility to defend the Bidder's asserted interest in non-disclosure.

To facilitate such public postings, with the exception of proprietary information, the State of Nebraska reserves a royalty-free, nonexclusive, and irrevocable right to copy, reproduce, publish, post to a website, or otherwise use any contract, bid, or response to this ITB for any purpose, and to authorize others to use the documents. Any individual or entity awarded a contract, or who submits a bid or response to this ITB, specifically waives any copyright or other protection the contract, bid, or response to the ITB may have; and, acknowledges that they have the ability and authority to enter into such waiver. This reservation and waiver is a prerequisite for submitting a bid or response to this ITB, and award of a contract. Failure to agree to the reservation and waiver will result in the bid or response to the ITB being found non-responsive and rejected.

Any entity awarded a contract or submitting a bid or response to the ITB agrees not to sue, file a claim, or make a demand of any kind, and will indemnify and hold harmless the State and its employees, volunteers, agents, and its elected and appointed officials from and against any and all claims, liens, demands, damages, liability, actions, causes of action, losses, judgments, costs, and expenses of every nature, including investigation costs and expenses, settlement costs, and attorney fees and expenses, sustained or asserted against the State, arising out of, resulting from, or attributable to the posting of the contract or the bids and responses to the ITB, awards, and other documents.

Bidders should present, as questions, any assumptions upon which the Bidder's bid is or might be developed. Bids will be evaluated without consideration of any known or unknown assumptions of a Bidder. The contract will not incorporate any known or unknown assumptions of a Bidder.

It is preferred that questions be sent via e-mail to as.materiel purchasing@nebraska.gov, but may be delivered by hand or by U.S. Mail. It is recommended that Bidders submit questions using the following format.

ITB Section Reference	ITB Page Number	Question

Preference will be given to items which are manufactured or produced from recycled material or which can be readily reused or recycled after their normal use. Preference will also be given to purchases of corn-based biodegradable plastics and road deicers if available and suitable. No preference shall be given if such preference would result in the purchase of products, materials, or supplies that are of inadequate quality or of substantially higher cost.

G. SECRETARY OF STATE/TAX COMMISSIONER REGISTRATION REQUIREMENTS (Statutory)

All Bidders must be authorized to transact business in the State and comply with all Nebraska Secretary of State Registration requirements. The Bidder who is the recipient of an Intent to Award will be required to certify that it has complied and produce a true and correct copy of its current (within ninety (90) calendar days of the intent to award) Certificate or Letter of Good Standing, or in the case of a sole proprietorship, provide written documentation of sole proprietorship and the United States Citizenship Attestation Form, available on the DAS website at <http://das.nebraska.gov/materiel/purchasing.html>. This must be accomplished prior to execution of the contract.

H. ETHICS IN PUBLIC CONTRACTING

The State reserves the right to reject bids, withdraw an intent to award or award, or terminate a contract if a Bidder commits or has committed ethical violations, which include, but are not limited to:

1. Offering or giving, directly or indirectly, a bribe, fee, commission, compensation, gift, gratuity, or anything of value to any person or entity in an attempt to influence the bidding process;
2. Utilize the services of lobbyists, attorneys, political activists, or consultants to influence or subvert the bidding process;
3. Being considered for, presently being, or becoming debarred, suspended, ineligible, or excluded from contracting with any state or federal entity;
4. Submitting a bid on behalf of another party or entity;
5. Collude with any person or entity to influence the bidding process, submit sham bids, preclude bidding, fix pricing or costs, create an unfair advantage, subvert the bid, or prejudice the State,

The Bidder shall include this clause in any subcontract entered into for the exclusive purpose of performing this contract.

Bidder shall have an affirmative duty to report any violations of this clause by the Bidder throughout the bidding process, and throughout the term of this contract for the successful Bidder and their subcontractors.

I. SPECIFICATIONS

Any manufacturer's names, trade names, brand names, information and/or catalog numbers listed in a specification are for reference and not intended to limit competition, but will be used as the standard by which equivalent material offered will be judged. The Materiel Administrator will be the sole judge of equivalency. The Bidder may offer any brands which meets or exceeds the specification. When a specific product is required, the ITB will so state. Any item bid is to be the latest current model under standard production at the time of order. No used or refurbished equipment will be accepted, unless otherwise stated.

J. BID PREPARATION COSTS

The State shall not incur any liability for any costs incurred by Bidders in replying to this ITB, including any activity related to bidding on this ITB.

K. DISCOUNTS

Prices quoted shall be inclusive of ALL trade discounts. Cash discount terms of less than thirty (30) days will not be considered as part of the bid. Cash discount periods will be computed from the date of receipt of a properly executed claim voucher or the date of completion of delivery of all items in a satisfactory condition, whichever is later.

L. PRICES

All prices, costs, and terms and conditions submitted in the proposal shall remain fixed and valid commencing on the opening date of the proposal until the contract terminates or expires.

The State reserves the right to deny any requested price increase. No price increases are to be billed to any State Agencies prior to written amendment of the contract by the parties.

M. DEVIATIONS FROM THE INVITATION TO BID

The requirements contained in the ITB (Sections II through VI) become a part of the terms and conditions of the contract resulting from this ITB. Any deviations from the ITB in Section II through VI must be clearly defined by the Bidder in its bid and, if accepted by the State, will become part of the contract. Any specifically defined deviations must not be in conflict with the basic nature of the ITB, mandatory requirements, or applicable state or federal laws or statutes. "Deviation", for the purposes of this ITB, means any proposed changes or alterations to either the contractual language or deliverables within the scope of this ITB. The State discourages deviations and reserves the right to reject proposed deviations.

N. ALTERNATE/EQUIVALENT BIDS

Bidder may offer bids which are at variance from the express specifications of the ITB. The State reserves the right to consider and accept such bids if, in the judgment of the Materiel Administrator, the bid will result in goods and/or services equivalent to or better than those which would be supplied in the original bid specifications. Bidders must indicate on the ITB the manufacturer's name, number and shall submit with their bid, sketches, descriptive literature and/or complete specifications. Reference to literature submitted with a previous bid will not satisfy this provision. Bids which do not comply with these requirements are subject to rejection. In the absence of any stated deviation or exception, the bid will be accepted as in strict compliance with all terms, conditions and specification, and the Bidder shall be held liable therefore.

O. LUMP SUM OR 'ALL OR NONE' BIDS

The State reserves the right to purchase item-by-item, by groups or as a total when the State may benefit by so doing. Bidders may submit a bid on an "all or none" or "lump sum" basis, but should also submit a bid on an item-by-item basis. The term "all or none" means a conditional bid which requires the purchase of all items on which bids are offered and Bidder declines to accept award on individual items; a "lump sum" bid is one in which the Bidder offers a lower price than the sum of the individual bids if all items are purchased, but agrees to deliver individual items at the prices quoted.

P. BID REQUIREMENTS

The bids will first be examined to determine if all requirements listed below have been addressed and whether further evaluation is warranted. Bids not meeting the requirements may be rejected as non-responsive. The requirements are:

1. Original Commodity ITB form signed using an indelible method (electronic signatures are not acceptable);
2. Clarity and responsiveness of the bid;
3. Completed Sections II and VI ;
4. Completed ITB Form or State's Bid Sheet.

Q. FAILURE TO COMPLY WITH INVITATION TO BID

Violation of the terms and conditions contained in this ITB or any resultant contract, at any time before or after the award, shall be grounds for action by the State which may include, but is not limited to, the following:

1. Rejection of a Bidder's bid;
2. Withdrawal of the Intent to Award;
3. Withdrawal of the Award;
4. Termination of the resulting contract;
5. Legal action; or,
6. Suspension of the Bidder from further bidding with the State for the period of time relative to the seriousness of the violation, such period to be within the sole discretion of the State.

R. SUBMISSION OF BIDS

ALL BIDS MUST BE SUBMITTED IN A SEALED ENVELOPE OR CONTAINER!

Only one (1) original bid shall be submitted. Each bid should be in a separate envelope or container. Bid responses should include the completed Form A, "Bidder Contact Sheet". Bids must reference the ITB number and be sent to the specified address. Please note that the address label should appear as specified in Section II, Part A on the face of each container or Bidder's bid response packet. If a recipient phone number is required for delivery purposes, 402-471-6500 should be used. The ITB number must be included in all correspondence.

Emphasis should be concentrated on conformance to the ITB instructions, responsiveness to requirements, completeness, and clarity of content. If the Bidder's bid is presented in such a fashion that makes evaluation difficult or overly time consuming the State reserves the right to reject the bid as non-conforming.

Sealed bids must be received in the State Purchasing Bureau by the date and time of the bid opening per the Schedule of Events. No late bids will be accepted.

It is the responsibility of the bidder to check the website for all information relevant to this solicitation to include addenda and/or amendments issued prior to the opening date. Website address is as follows: <http://das.nebraska.gov/materiel/purchasing.html>

By signing the "ITB" form, the Bidder guarantees compliance with the provisions stated in this ITB.

S. EMAIL SUBMISSIONS

The SPB will not accept bids by email except for one-time purchases under \$50,000.00. .

T. BID CORRECTIONS

A bidder may correct a mistake in a bid prior to the time of opening by giving written notice to the State of intent to withdraw the bid for modification or to withdraw the bid completely. Changes in a bid after opening are acceptable only if the change is made to correct a minor error that does not affect price, quantity, quality, delivery, or contractual conditions. In case of a mathematical error in extension of price, unit price shall govern.

U. LATE BIDS

Bids received after the time and date of the bid opening will be considered late bids. Late bids will be returned unopened, if requested by the Bidder and at Bidder's expense. The State is not responsible for bids that are late or lost regardless of cause or fault.

V. BID OPENING

Anyone may attend the opening. It is considered a public opening. The Buyer will read the names of the respondents. Depending upon the complexity of the bid, the buyer may read the bids aloud or allow bids be available for viewing by the public during the bid opening. Once the bid opening has concluded, the bids will not be available for viewing until the Intent to Award has been posted. An initial bid tabulation will be posted to the website as soon as feasible. Information identified as proprietary by the submitting vendor, in accordance with the RFP/ITB and state statute, will not be posted. If the state determines submitted information should not be withheld, in accordance with the Public Records Act, or if ordered to release any withheld information, said information may then be released. The submitting bidder will be notified of the release and it shall be the obligation of the submitting bidder to take further action, if it believes the information should not be released.

W. BID TABULATIONS

Bid tabulations are available on the website at: <http://www.das.state.ne.us/materiel/purchasing/bidtabs.htm>.

X. BEST AND FINAL OFFER

The State reserves the right to request Best and Final Offers. However, a Bidder should provide its best offer in its original bid. Bidders should not expect that the State will request a best and final offer.

Y. REFERENCE AND CREDIT CHECKS

The State reserves the right to conduct and consider reference and credit checks. Reference or credit checks may be grounds to reject a bid, or withdraw an intent to award or award of a contract. The State reserves the right to use third parties to conduct reference and credit checks.

Z. REJECTION OF BIDS

The State reserves the right to reject any or all bids, wholly or in part, in the best interest of the State.

AA. RESIDENT BIDDER

Pursuant to Neb. Rev. Stat. §§ 73-101.01 through 73-101.02, a Resident Bidder shall be allowed a preference against a Non-resident Bidder from a state which gives or requires a preference to Bidders from that state. The preference shall be equal to the preference given or required by the state of the Nonresident Bidders. Where the lowest responsible bid from a resident Bidder is equal in all respects to one from a nonresident Bidder from a state which has no preference law, the resident Bidder shall be awarded the contract. The provision of this preference shall not apply to any contract for any project upon which federal funds would be withheld because of the provisions of this preference.

BB. AWARD

All purchases, leases, or contracts which are based on competitive bids will be awarded according to the provisions in the ITB. The State reserves the right to reject any or all bids, in whole or in part, or to award to multiple Bidders in whole or in part, and at its discretion, may withdraw or amend the ITB at any time. The State reserves the right to waive any deviations or errors that are not material, do not invalidate the legitimacy of the bid, and do not improve the Bidder's competitive position. All awards will be made in a manner deemed in the best interest of the State. The ITB does not commit the State to award a contract. If, in the opinion of the State, revisions or amendments will require substantive changes in bids, the bid opening date may be extended.

By submitting a bid in response to this ITB, the Bidder grants to the State the right to contact or arrange a visit in person with any or all of the Bidder's clients.

Once the Intent to Award decision has been made, an Intent to Award will be posted to the Internet at:
<http://das.nebraska.gov/materiel/purchasing.html>

The protest procedure is available on the Internet at:

[http://das.nebraska.gov/materiel/purchase_bureau/docs/vendors/protest/ProtestGrievanceProcedureForVendors%20\(2\).pdf](http://das.nebraska.gov/materiel/purchase_bureau/docs/vendors/protest/ProtestGrievanceProcedureForVendors%20(2).pdf)

Any protests must be filed by a vendor within ten (10) business days after the Intent to Award is posted to the Internet.

The State reserves the right to award contracts in a manner, and utilizing methods, selected in the State's best interest and discretion. The State may waive informalities or irregularities in bids if the waiver is in the best interest of the State and such waiver does not prejudice other Bidders in the State's discretion. After evaluation of the bids, the State may take, in the State's discretion, one or more of the following actions:

- Accept or reject a portion of or all of a bid;
- Accept or reject all bids;
- Withdraw the ITB;
- Elect to rebid the ITB;
- Award single lines or multiple lines to one or more Bidders; or,
- Award one or more complete contracts.

The State reserves the right to make awards that are in the best interest of the State. The State may consider, but is not limited to, one (1) or more of the following award criteria:

- Price;
- Location;
- Quality;
- Delivery time; and,
- State contract management requirements and/or costs.

Upon request an electronic copy of the bid with 'Track Changes' must be submitted in an editable Word format. By signing the ITB Bidder is agreeing to be legally bound by all the accepted terms and conditions, and any proposed alternative terms and conditions submitted with the bid. The State reserves the right to negotiate rejected or proposed alternative language. If the State and Bidder fail to agree on the final Terms and Conditions, the State reserves the right to reject the bid. The State is soliciting bids in response to the ITB. The State reserves the right to reject bids that attempt to substitute the Bidder's commercial contracts and/or documents for this ITB.

The Bidder should submit with their bid any license, user agreement, service level agreement, or similar documents that the Bidder wants incorporated in the Contract. Upon notice of Intent to Award, the Bidder must submit a copy of these documents in an editable Word format. The State will not consider incorporation of any document not submitted with the Bidder's bid. These documents shall be subject to negotiation and will be incorporated as addendums if agreed to by the Parties.

If a conflict or ambiguity arises after the addendums have been negotiated and agreed to, the addendums shall be interpreted as follows:

1. If only one (1) Party's document has a particular clause then that clause shall control;
2. If both Party's documents have a similar clause, but the clauses do not conflict, the clauses shall be read together;
3. If both Party's documents have a similar clause, but the clauses conflict, the State's clause shall control.

Any ambiguity or conflict in the contract discovered after its execution, not otherwise addressed herein, shall be resolved in accordance with the rules of contract interpretation as established in the State.

B. GOVERNING LAW

Notwithstanding any other provision of this contract, or any amendment or addendum(s) entered into contemporaneously or at a later time, the parties understand and agree that, (1) the State of Nebraska is a sovereign state and its authority to contract is therefore subject to limitation by the State's Constitution, statutes, common law, and regulation; (2) this contract will be interpreted and enforced under the laws of the State of Nebraska; (3) any action to enforce the provisions of this

D. CHANGE ORDERS OR SUBSTITUTIONS

Accept (Initial)	Reject (Initial)	Reject & Provide Alternative within ITB Response (Initial)	NOTES/COMMENTS:
RC			

The State and the Contractor, upon the written agreement, may make changes to the contract within the general scope of the ITB. Changes may involve specifications, the quantity of work, or such other items as the State may find necessary or desirable. Corrections of any deliverable, service, or work required pursuant to the contract shall not be deemed a change. The Contractor may not claim forfeiture of the contract by reasons of such changes.

The State or Contractor may prepare a written description of the work required due to the change and the Contractor shall prepare an itemized cost sheet for the change. Changes in work and the amount of compensation to be paid to the Contractor shall be determined in accordance with applicable unit prices if any, a pro-rated value, or through negotiations. The State shall not incur a price increase for changes that should have been included in the Contractor's bid, were foreseeable, or result from difficulties with or failure of the Contractor's bid or performance.

No change shall be implemented by the Contractor until approved by the State, and the Contract is amended to reflect the change and associated costs, if any. If there is a dispute regarding the cost, but both parties agree that immediate implementation is necessary, the change may be implemented, and cost negotiations may continue with both Parties retaining all remedies under the contract and law.

E. BREACH

Accept (Initial)	Reject (Initial)	Reject & Provide Alternative within ITB Response (Initial)	NOTES/COMMENTS:
RC			

Either Party may terminate the contract, in whole or in part, if the other Party breaches its duty to perform its obligations under the contract in a timely and proper manner. Termination requires written notice of default and a thirty (30) calendar day (or longer at the non-breaching Party's discretion considering the gravity and nature of the default) cure period. Said notice shall be delivered by Certified Mail, Return Receipt Requested, or in person with proof of delivery. Allowing time to cure a failure or breach of contract does not waive the right to immediately terminate the contract for the same or different contract breach which may occur at a different time.

In case of breach by the Contractor, the State may, without unreasonable delay, make a good faith effort to make a reasonable purchase or contract to purchased goods in substitution of those due from the contractor. The State may recover from the Contractor as damages the difference between the costs of covering the breach. Notwithstanding

any clause to the contrary, the State may also recover the contract price together with any incidental or consequential damages defined in UCC Section 2-715, but less expenses saved in consequence of Contractor's breach.

The State's failure to make payment shall not be a breach, and the Contractor shall retain all available statutory remedies. (See Indemnity - Self-Insurance and Payment)

F. NON-WAIVER OF BREACH

Accept (Initial)	Reject (Initial)	Reject & Provide Alternative within ITB Response (Initial)	NOTES/COMMENTS:
RC

RC			

If any term or condition of the contract is declared by a court of competent jurisdiction to be illegal or in conflict with any law, the validity of the remaining terms and conditions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if the contract did not contain the provision held to be invalid or illegal.

V. SCOPE OF WORK

The Bidder must provide the following information in response to this ITB.

A. SCOPE

It is the intent of this bid invitation to establish a contract to supply Liquid Asphaltic Materials per the attached specifications from date of award through November 30, 2018. The State reserves the right to extend the period of this contract beyond the end date when mutually agreeable to the vendor and the State of Nebraska.

All items bid shall be of the latest manufacture in production as of the date of the Invitation To Bid and be of proven performance and under standard design complete as regularly advertised and marketed. All necessary materials for satisfactory performance of the supplies shall be incorporated into the Liquid Asphaltic Materials whether or not they may be specifically mentioned below.

The materials shall conform to the 2017 Nebraska Department of Transportation Standard Specifications for Highway Construction and Special Provisions as amended in these bid documents and accessed at the following link:

<http://dot.nebraska.gov/media/10343/2017-specbook.pdf>

Complete specifications, manufacturer's descriptive literature and/or advertising data sheets with cuts or photographs may be required prior to an award and should be included with the bid on the IDENTICAL items proposed. Literature should be complete and the latest published. Any information necessary to show compliance with these specifications not given on the manufacturer's descriptive literature and/or advertising data sheets should be supplied in writing on or attached to the bid document. If manufacturer's specifications sheets, descriptive literature, advertising data sheets or information necessary to show compliance with these specifications is not supplied in writing on or attached to the bid document, the Bidder will be required to submit requested information within three (3) business days of a written request. Failure to submit requested descriptive literature or advertising data sheets may be grounds to reject the bid.

B. AMENDMENT

This Contract may be amended in writing, within scope, upon the agreement of both parties.

C. REVISIONS

In the event any product is discontinued or replaced upon mutual consent during the contract period, the State reserves the right to amend this contract to include the alternate product at the same price.

D. LATE OR NON-DELIVERY

Crews and equipment are mobilized to the worksite in advance of the project start time in order to be ready when the road oil arrives. Delays in the arrival of material are costly in terms of lost production. Liquidated damages will be applied and deducted from the invoice at the rate of \$400.00/hour, calculated to the nearest half hour. Deliveries less than 15 minutes late will not be assessed liquidated damages. Failure to deliver product within two (2) hours of scheduled start time will be considered non-delivery and will be assessed \$1200.00 liquidated damages. Repeated failure to deliver product according to schedule will be grounds for immediate cancellation of the contract.

All documents must be filled out completely and plainly show arrival and departure times.

Charges for demurrage must be included on the invoice for the Liquid Asphalt Material. Arrival and departure times shown must be for appropriate time zones.

When the Contractor ships material prior to the completion of their testing, and subsequently learns that the material is out of specification while the material is still in transit, the DEPARTMENT MUST BE NOTIFIED IMMEDIATELY BY CONTACTING THE MATERIAL AND RESEARCH DIVISION @ (402) 479-4774 or (402) 479-3839 and the Field Representative's office expecting the delivery.

Any out of specification material which has been incorporated into the work, sections (b), (c) and (d) of the Basis of Payment will apply. The cost of shipping a load of out of specification material, which is returned to the Contractor, will be the responsibility of the Contractor.

Purchase orders will be issued by Nebraska Department of Transportation, Operations Division, Procurement Unit, PO Box 94759, Lincoln, Nebraska, 68509-4759.

E. BASIS OF PAYMENT

Liquid Asphalt Materials which comply with specifications and are furnished in accordance with the instructions herein shall be paid for at the contract unit price per ton.

Samples shall pass specifications when tested after being stored at room temperature (~75°F) for periods of up to 14 days after sampling. When test results of on-site asphalt materials are outside of the specified property ranges, the material shall be paid for at the contract unit price multiplied by the Pay Factors in Table 504.01A.

Table 504.01A

Asphalt Materials – Pay Factors

Test of Residue Percentage pre-diluted CSS/SS-1H and all straight emulsions

1.00 for a deviation of minus less than or equal to 1.0%
0.85 for deviation of minus greater than 1.0% to less than or equal to 3.0%

1.00 for test result of 65 – 130 dmm
0.75 for test result of 55 – 64 or 131 – 140 dmm
0.40 or Reject for test result of <55 dmm or >140 dmm

Tests for ALL other Properties Specified* (Unless otherwise noted)

1.00 for a deviation of +/- less than or equal to 10%
0.75 for a deviation of +/- greater than 10% to less than or equal to 25%
0.40 or Reject for deviation of +/- greater than 25%

* When the specification requirement is stated as a percentage, the test result deviation from the specification will be divided by the specification value. The resulting deviation percentage is then applied to the listed criteria.

(Note 1: Material not meeting a Pass/Fail requirement falls under the Pay Factor of 0.40 or Reject)

(Note 2: When more than one specified property exceeds specification tolerances, the single largest Pay Factor Reduction will be the one applied.)

When, on the basis of departmental testing and/or unacceptable workability in the field, it is determined that the asphalt material does not comply with the material or performance specifications of this contract, such material will be accepted or rejected in accordance with paragraphs 1, 2, 3, 4 and 5 below:

1. If the out of specification material is found to have a resultant pay factor of less than 1.0, it shall be rejected if not already used.
2. If the material is found to be out of specification, and the material has been used and it is determined by the receiving personnel that the resultant material can be used in some manner beneficial to the State, the pay factor for the material shall be determined on NDOT Quality Assurance Testing.
3. If 1) the material has been used and is found to be out of specification or, 2) material that meets specifications but results in an unacceptable material after mixing or spraying, and it is determined by

the receiving personnel that the resultant material cannot be used in a manner beneficial to the state, the supplied material will be rejected, the Contractor will not be paid for the supplied material. The Contractor will be responsible to the Department of Transportation for the cost of any state owned material that is determined unusable. This cost will be established by purchase order invoice amounts. The Contractor will be notified in writing within 21 working days of all such costs.

4. In addition to the material specifications, any mixing grade emulsion used in blade mixed windrow cold patching material must be formulated from a base asphalt that will result in a material suitable for patching. A "full load" test strip will be mixed and if following mixing it results in an unacceptable patching material the emulsion used will be rejected and paragraph (D) will apply. (See the paragraph on COLD MIX WINDROWS – MIX DESIGN below.)
5. On-site field samples received within 14 days of sampling, that demonstrate residue, water, and/or polymer separation prior to testing, not caused by freezing during transport, that cannot be made homogenous by the applicable AASHTO conditioning test procedure, cannot be tested. The material represented by the sample will be subject to a pay factor of 0.75 or rejection, dependent upon the degree of success of the field application.

The analysis of Liquid Asphalt Material by the Material and Research Division, Nebraska Department of Transportation, including NDOT referee testing policies, shall govern the rate of payment.

When an on-site sample from a transport demonstrates test results that incur a reduced pay factor, the process of resolving the degree of sample failure will include the following actions, as applicable:

1. The Bituminous Lab will confirm sampling, handling, and custody of the sample.
2. If the Contractor wishes to dispute any test results, the Contractor can request referee testing. It is the sole responsibility of the Contractor to request referee testing. The request must be made to the Bituminous Lab within 96 hours of awareness of the test results. If a request is received within the time allotted, the Bituminous Lab will select an independent laboratory which will perform testing on the remainder of the sample. The identity of the independent laboratory will be revealed after referee testing is completed. Due to scheduling, logistics, workloads, etc., the request for referee testing is also affirmation and agreement that the testing may occur beyond the 14 day testing timeframe of the asphaltic emulsion specifications.
3. If the independent lab's tests indicate failing results and pay deductions equal to or greater than the NDOT's, the Contractor will reimburse the NDOT for the cost of testing. If the independent lab's tests indicate that the material meets specification, or is at a pay deduction less than the NDOT's, the NDOT will assume the cost of testing. When the independent lab's tests indicate a pay deduction, the lesser of the NDOT's and the independent lab's deductions will be applied.

The referee test methods of the asphaltic material shall follow AASHTO procedures. Where AASHTO procedures are not applicable, ASTM and other listed applicable test procedures shall be used.

F. ON-SITE PERSONNEL

The supplier shall furnish on-site personnel within any given 24 hour workday, at no additional cost to the State, to assist in the resolution of material problems, should they develop.

VI. SPECIAL PROVISIONS FOR LIQUID ASPHALT MATERIALS

State of Nebraska Department of Transportation

A. QUALITY CONTROL (QC) PROGRAM CERTIFICATION BY NDOT

All Quality Control Programs must be approved/certified by NDOT prior to contract award.

Suppliers who do not have a current 2018 approval/certification from NDOT may submit a response to the Invitation to Bid, but must complete certification prior to contract award.

If a Supplier's Quality Control Program has not been approved/certified by NDOT for 2018, the Supplier may submit their Quality Control Program documentation with the ITB response.

If the Supplier does not submit the Quality Control Program Documentation with the bid response, they will provide all documentation within ten (10) business days of a written request. Time is of the essence for Supplier provision of documentation. John Gude, (402) 479-4774 or john.gude@nebraska.gov will be the contact for Supplier certification, after the Invitation to Bid has opened.

Suppliers making shipments of Liquid Asphalt Material to be used in Nebraska Highway Maintenance shall furnish their Quality Control (QC) Program to NDOT, Materials and Research Division, for annual approval, as a requirement for Supplier Certification. This QC program will include the types and frequency of sampling and testing for all products supplied. The QC program must state that all products supplied were tested in accordance with the QC program, and conform to the State of Nebraska specifications. All terminals and locations covered by the QC program shall be listed. The QC program will include the names of supplier representatives authorized to sign the Certificates of Compliance, as well as the name and telephone number of the person responsible for quality control at the facility. The QC program shall provide an outline of the procedure to be followed for checking transport vehicles before loading to prevent contamination of shipments. The outline shall include a statement that the transport vehicle inspection report, signed by the responsible inspector, shall be maintained in the Supplier's records and will be made available to the Department on request. The QC program will list alternative sampling methods from transports when sample valves as per AASHTO T40 (ASTM D 140), paragraph 10.1 R66, paragraphs 8 or 10 are either not present, or are found to be non-functional.

Supplier shall state specific plans for notification to the Department when non-compliant material is discovered during or after shipment. The supplier shall not knowingly ship material that does not meet contract specifications. State all other program requirements the Supplier deems necessary for their QC program, including but not limited to, what is required in this document. A recommendation is to follow AASHTO R26, Section 9, where applicable.

B. SUPPLIER CERTIFICATION

Division 1000 is amended to include the following:

Only Certified Suppliers will be allowed to supply materials outlined in this contract. For questions or information on Supplier Certifications contact John Gude at (402) 479-4774.

A Certified Supplier must agree to on-site inspection of their laboratory by the Department at any time. Inspection of calibration of equipment, review of records, and technicians' demonstration of procedures may be required and reviewed during inspection.

The NDOT, for purposes of the Suppliers QC Program may test any samples submitted as follows, FOR INFORMATION ONLY:

Send a 1 quart/liter QC sample of any new batch of emulsion or cutback of which any portion is delivered for NDOT contractual purposes to the NDOT Bituminous Lab to arrive within 3 business days of first delivery. Another QC sample will be sent any time an existing batch supplied for contract purposes is altered, changed or modified in any way. A C.O.A. showing test results, specifications, and batch number represented, will accompany each sample.

In cases of In-Line mixing intended for a single transport shipment of emulsion or cutback, a batch will be defined either as an initial formulation of the Contract product, or as well any subsequent formulation change(s) from the initial formulation, and not necessarily each individual transport.

The NDOT, for purposes of Quality Assurance, acceptance and pay factor determination, will be based on samples tested on transport delivered materials. Material shall be identified by Batches submitted and tested as stated below:

For each maintenance project, the Department will obtain a random field sample on each project location. Field samples will represent the transport they are taken from. The department may change the amount of field samples

taken at any time on any project... Field samples are subject to the "Basis of Payment" section of this contract. At the department's discretion, failing field samples may also cause loss of Supplier Certification.

Random field samples shall be obtained by Department personnel trained and certified to do so. Failing test results from field samples taken by uncertified personnel will not be used in determining pay factors, or in determining Supplier Certification status.

Samples that have frozen during transport to the NDOT Bituminous Laboratory will have the testing requirements waived.

If a supplier's submitted batch Quality Control sample fails any parameter of Department testing, additional representative field samples may be taken. The supplier's Quality Control sample itself, does not subject the batch represented to reduced pay factors.

If Supplier de-certification occurs, a notification will be provided in writing. If the Supplier desires re-certification, documentation must be submitted to the Department explaining why decertification occurred, and what actions the Supplier has taken to correct the problems identified. Decisions regarding the future qualification for re-certification of a Supplier shall be at the Department's discretion.

C. CERTIFICATE OF COMPLIANCE TO ACCOMPANY SHIPMENTS

Suppliers making shipments of Liquid Asphalt Material to be used for purposes of this contract shall furnish a Certificate of Compliance to the Nebraska Department of Transportation for each truck load shipped.

The Certificate of Compliance shall contain the following information:

1. A statement by the supplier that the material shipped complies with the requirements of the contract specifications for the type and grade specified.
2. Gallon data for truck shipments based on the net weight. The gallons "@60°F" and/or Wt. /Gal. "@60°F" will be displayed. Gallon data will be used for reference only.
3. Gross, tare and net weight.
4. An authorized supplier employee shall sign the Certificate of Compliance.
5. One copy of the Certificate of Compliance shall be sent with the shipment to the designated representative of the Nebraska Department of Transportation, as shown on the shipping order. A Bill of Lading may serve as a Certificate of Compliance provided it contains all the information requested above.

D. COLD MIX WINDROWS -- MIX DESIGN

When requested by the District Operations and Maintenance Manager or Maintenance Superintendent, the vendor will perform the following experimental mix design to determine the percent asphalt emulsion by dry weight of aggregate to be added to the windrow. Sample(s) of aggregate being proposed for use in the windrow will be supplied by the NDOT well in advance of delivery of the required mixing grade emulsion.

Dry all of the aggregate samples and determine the emulsion that the customer would like to use.

Determine gradations of the aggregate and filler samples.

Determine the aggregate blend to use which shall be a dense graded sample with no greater than 15% passing the #200 sieve.

Prepare eight (8) samples of the aggregate blend determined in the previous step.

Add water to the aggregate blend samples to approximately 2% water content.

Determine the emulsion contents to use. Typically use 5% to 7% based on the weight of dry aggregate before the water was added, or use a previously used percentage and 1% above and below this percentage.

Mix up two (2) samples for the emulsion contents determined in the previous step.

Compact the samples with the Marshall Hammer using fifty (50) blows per side. Extract the samples from the molds immediately.

Dry the samples in an oven at approximately 130 degrees "F" – 140 degrees "F" for approximately 48 hours.

Test the Marshall stability on the samples.

Based on the Marshall stability values and the visual appearance of the samples, determine the target emulsion content.

Every effort to communicate mix design requirements between the supplier and NDOT will be used to help insure that the proper materials and combined aggregate gradations are designed into all Cold Mix Windrow materials. Mix design test results will be provided by the supplier to the District Operations and Maintenance Manager.

E. SPRAY APPLIED EMULSIONS FOR FOG SEALS

Type CSS/SS-1H spray applied emulsions for use as fog seals will be formulated and/or diluted in such a manner as to expect the time to break to be 1 hour or less, at 60 degrees "F" and 40% humidity, following the spray application. The expected (reasonable) time to break will vary with changes in temperature and humidity.

Type CFS-1/FS-1 (fast set) spray applied emulsion shall be formulated for an accelerated breaking time as compared to the breaking time definition above.

CRS-2P 80/20 will be used on some selected fog seal projects, a conference call coordinated by the supplier with the district maintenance personnel and personnel from Materials and Research must be performed seven (7) days prior to application to discuss formulation and project application specifics.

Material upon arrival shall not exhibit signs of excessive foaming to the degree that transfer and/or application of the product is hampered.

When the supplier's material routinely fails to meet these requirements, it may be cause to suspend the use of the supplier's material until such time that the supplier can demonstrate compliance.

No Supplier terminal QC samples of post-diluted emulsions are required. Refer to "Supplier Certification" section of contract for sample requirements of pre-diluted emulsions.

For fog seals produced by In-Line single transport mixing, refer to the "Supplier Certification" section of the Contract dedicated to Terminal In-Line mixing.

From: Faith Camargo, Buyer
AS Materiel State Purchasing Bureau

RE: Addendum for Request for Proposal Number 5792 OF
to be opened March 20, 2018 at 2:00 P.M. Central Time

Questions and Answers

Following are the questions submitted and answers provided for the above mentioned Request for Proposal. The questions and answers are to be considered as part of the Request for Proposal. It is the Bidder's responsibility to check the State Purchasing Bureau website for all addenda or amendments.

Question Number	RFP Section Reference	RFP Page Number	Question	State Response
1.			Question: Demurrage is not listed as a bid item this year. Will this be added to the Bid Document?	The Invitation to Bid (ITB) is hereby amended to include line #48. The revised ITB is now posted to the State Purchasing website link provided below. http://das.nebraska.gov/materiel/purchasing/5792/5792.tml
2.			Question: Can there be a bid item for "Freight for Return Loads" due to weather or NDOT Equipment breakdowns? This could be on a per mile basis depending on how far a truck has driven before the load is cancelled by the Agency at no fault to the Supplier. Suppliers have to pay trucking firms per mile hauled even if their load is cancelled after it has shipped from our facilities.	No, this will not be added.
3.			Question: Demurrage is not	Please see response to Question 1.

			listed as a bid item this year. Will this be added to the Bid Document?	
4.			Can you please provide actual usage by product / district from 2017?	Usage is provided in Attachment One below. Per VII. I. 1. Annual usage figures provided are estimates and are not to be construed as either a minimum or maximum purchase quantity. The orders shall be for the actual quantities of each item ordered by or for any agency during the life of the contract. Vendor shall not impose minimum order requirements.
5.			Please provide the actual tonnage purchased by Product, by District, by Supplier for the 2017 ITB 5522 OF. This allows Suppliers to understand the actual tons purchased vs bid for each District.	Please see response to Question 4.
6.	M	36	How many loads, by District, were ordered with less than 5800 gallons per page 36 Section M in 2017?	This information is not available, it was not tracked in 2017.
7.	R	39	No additional charges will be allowed for packing, packages, or partial delivery costs". This statement is not fair to the suppliers when asked to haul short loads very long distances without additional compensation. What language can be added to this Contract to allow compensation for the transportation of loads less than 5800 gallons?	This statement will remain as-is. NDOT will endeavor to order deliveries in full load quantities only.

This addendum will become part of the proposal and should be acknowledged with the Request for Proposal.
