In the table below, the bidder is required to provide a cost per patient per quarter for the region being bid. Rates shall be calculated on a per-patient per quarter basis. Rates provided must be inclusive of all expenses, including but not limited to travel, personnel, outreach, and administrative costs including all equipment and supplies to complete the RFP requirements. Projects are required to ensure efforts are made to serve minorities in each of the identified counties, whether or not clinical services exist within those counties.
