Note: Invoices are to be based on a monthly portion of the fixed annual cost per maximum enrolled contact of the billing month. For example: if the State of Nebraska has 45,000 users on the 1st of the month, 48,000 on the 22nd of the month and 47,000 at the end of the month, the bidder will bill the state for 48,000 enrolled users for that month. If the annual cost is \$1.20 and there are 48,000 enrolled users for that month, the bidder will bill the State of Nebraska for \$0.10 (monthly rate) x 48,000 (enrolled users) = \$4,800.00.

13	Software includes 95 individual IPAWS licenses to be accessed by NEMA, State Patrol and 93 counties.	AlertSense has an existing contract with NEMA for this function. We have no intention of double-billing the State of Nebraska for this service for the next 19 months until that contract is expired. In response to our question on this matter, the OCIO indicated they expect to replace the NEMA contract with a contract through the OCIO at some point in the future. When that happens, AlertSense will be delighted to work with the OCIO on moving that contract from NEMA to the OCIO. The contract with NEMA is
