INVITATION TO BID Number 6261 OF

The State of Nebraska (State), Department of Administrative Services (DAS), Materiel Division, State Purchasing Bureau (SPB), is issuing this solicitation for a commodity contract, ITB Number 6261 OF for the purpose of selecting a qualified Contractor to provide **Road Salt (ASTM D632 Type I, Grade 1 Sodium Chloride)**. A more detailed description can be found in Section VI, paragraph C. The resulting contract may not be an exclusive contract as the State reserves the right to contract for the same or similar goods from other sources now or in the future.

The term of the contract will be one (1) year commencing upon execution of the contract by the State and the Contractor. The Contract includes the option to renew for four (4) additional one (1) year periods upon mutual agreement of the Parties. The State reserves the right to extend the period of this contract beyond the termination date when mutually agreeable to the Parties.

INFORMATION PERTINENT TO THIS SOLICITATION CAN BE FOUND ON THE INTERNET AT:

<http://das.nebraska.gov/materiel/purchasing.html>

IMPORTANT NOTICE: Pursuant to Neb. Rev. Stat. § 84-602.02, State contracts in effect as of January 1, 2014, and contracts entered into thereafter, must be posted to a public website. The resulting contract, the solicitation, and the successful Contractor's proposal or response will be posted to a public website managed by DAS, which can be found at:

<https://statecontracts.nebraska.gov>

In addition and in furtherance of the State's public records statute (Neb. Rev. Stat. § 84-712 et seq.) all proposals or responses received regarding this solicitation will be posted to the SPB website.

These postings will include the entire proposal or response. Contractor must request that proprietary information be excluded from the posting. The Contractor must identify the proprietary information, mark the proprietary information according to state law, and submit the proprietary information in a separate container or envelope marked conspicuously using an indelible method with the words "PROPRIETARY INFORMATION". The Contractor must submit a **detailed written document showing** that the release of the proprietary information would give a business advantage to named business competitor(s) and explain how the named business competitor(s) will gain an actual business advantage by disclosure of information. The mere assertion that information is proprietary or that a speculative business advantage might be gained is not sufficient. (See Attorney General Opinion No. 92068, April 27, 1992) **THE CONTRACTOR MAY NOT ASSERT THAT THE ENTIRE PROPOSAL OR RESPONSE IS PROPRIETARY. COST WILL NOT BE CONSIDERED PROPRIETARY AND IS A PUBLIC RECORD IN THE STATE OF NEBRASKA.** The State will determine, in its sole discretion, if the disclosure of the information designated by the Bidder as proprietary would 1) give advantage to business competitors and 2) serve no public purpose. The Bidder will be notified of the State's decision. Absent a determination by the State that the information may be withheld pursuant to Neb. Rev. Stat. § 84-712.05, the State will consider all information a public record subject to disclosure.

If the agency determines it is required to release proprietary information, the Contractor will be informed. It will be the Contractor's responsibility to defend the Contractor's asserted interest in non-disclosure.

To facilitate such public postings, with the exception of proprietary information, the State of Nebraska reserves a royalty-free, nonexclusive, and irrevocable right to copy, reproduce, publish, post to a website, or otherwise use any contract, proposal, or response to this solicitation for any purpose, and to authorize others to use the documents. Any individual or entity awarded a contract, or who submits a proposal or response to this solicitation, specifically waives any copyright or other protection the contract, proposal, or response to the solicitation may have; and, acknowledges that they have the ability and authority to enter into such waiver. This reservation and waiver is a prerequisite for submitting a proposal or response to this solicitation, and award of a contract. Failure to agree to the reservation and waiver will result in the proposal or response to the solicitation being found non-responsive and rejected.

Any entity awarded a contract or submitting a bid or response to the solicitation agrees not to sue, file a claim, or make a demand of any kind, and will indemnify and hold harmless the State and its employees, volunteers, agents, and its elected and appointed officials from and against any and all claims, liens, demands, damages, liability, actions, causes of action, losses, judgments, costs, and expenses of every nature, including investigation costs and expenses, settlement costs, and attorney fees and expenses, sustained or asserted against the State, arising out of, resulting from, or attributable to the posting of the contract or the proposals and responses to the solicitation, awards, and other documents.

F. SECRETARY OF STATE/TAX COMMISSIONER REGISTRATION REQUIREMENTS (Statutory)

All Contractors must be authorized to transact business in the State and comply with all Nebraska Secretary of State Registration requirements. The Contractor who is the recipient of an Intent to Award will be required to certify that it has complied and produce a true and correct copy of its current (within ninety (90) calendar days of the intent to award) Certificate or Letter of Good Standing, or in the case of a sole proprietorship, provide written documentation of sole proprietorship and the United States Citizenship Attestation Form, available on the DAS website at: <http://das.nebraska.gov/materiel/purchasing.html>. This must be accomplished prior to execution of the contract.

G. ETHICS IN PUBLIC CONTRACTING

The State reserves the right to reject bids, withdraw an intent to award or award, or terminate a contract if a Contractor commits or has committed ethical violations, which include, but are not limited to:

1. Offering or giving, directly or indirectly, a bribe, fee, commission, compensation, gift, gratuity, or anything of value to any person or entity in an attempt to influence the bidding process;
2. Utilize the services of lobbyists, attorneys, political activists, or consultants to influence or subvert the bidding process;
3. Being considered for, presently being, or becoming debarred, suspended, ineligible, or excluded from contracting with any state or federal entity;
4. Submitting a proposal on behalf of another party or entity;
5. Collude with any person or entity to influence the bidding process, submit sham proposals, preclude bidding, fix pricing or costs, create an unfair advantage, subvert the proposal, or prejudice the State.

The Contractor shall include this clause in any subcontract entered into for the exclusive purpose of performing this contract.

Contractor shall have an affirmative duty to report any violations of this clause by the Contractor throughout the bidding process, and throughout the term of this contract for the successful Contractor and their subcontractors.

H. DEVIATIONS FROM THE INVITATION TO BID

The requirements contained in the solicitation (Sections II through VI) become a part of the terms and conditions of the contract resulting from this solicitation. Any deviations from the solicitation in Sections II through VI must be clearly defined by the Contractor in its bid and, if accepted by the State, will become part of the contract. Any specifically defined deviations must not be in conflict with the basic nature of the solicitation, solicitation requirements, or applicable state or federal laws or statutes. "Deviation", for the purposes of this solicitation, means any proposed

changes or alterations to either the contractual language or deliverables within the scope of this solicitation. The State discourages deviations and reserves the right to reject proposed deviations.

I. SUBMISSION OF BIDS

*****ALL BIDS MUST BE SUBMITTED IN A SEALED ENVELOPE OR CONTAINER!*****

Contractors should submit one bid marked on the first page: "ORIGINAL". If multiple bids are submitted, the State will retain one copy marked "ORIGINAL" and destroy the other copies. The Contractor is solely responsible for any variance between the copies submitted. Bid responses should include the completed Form A, "Contractor Bid Point of Contact". Bids must reference the ITB number and be sent to the specified address. Please note that the address label should appear as specified in Section I B. on the face of each container or contractor's bid response packet. If a recipient phone number is required for delivery purposes, 402-471-6500 should be used. The ITB number should be included in all correspondence. The State will not furnish packaging and sealing materials. It is the contractor's responsibility to ensure the ITB is received in a sealed envelope or container and submitted by the date and time indicated in the Schedule of Events. Sealed bids must be received in the State Purchasing Bureau by the date and time of the proposal opening per the Schedule of Events. No late bids will be accepted.

The Invitation to Bid form must be manually signed in an indelible manner and returned by the bid opening date and time along with the contractor's Invitation to Bid along with any other requirements as stated in the Invitation to Bid document in order for the contractor's Invitation to Bid response to be evaluated.

It is the responsibility of the contractor to check the website for all information relevant to this Invitation to Bid to include addenda and/or amendments issued prior to the opening date. Website address is as follows: <http://das.nebraska.gov/materiel/purchasing.html>

Emphasis should be concentrated on conformance to the ITB instructions, responsiveness to requirements, completeness, and clarity of content. If the contractor's bid is presented in such a fashion that makes evaluation difficult or overly time consuming the State reserves the right to reject the proposal as non-conforming.

By signing the Invitation to Bid, the contractor guarantees compliance with the provisions stated in this ITB.

The State shall not incur any liability for any costs incurred by contractors in replying to this ITB, in the demonstrations and/or oral presentations, or in any other activity related to bidding on this ITB.

J. BID PREPARATION COSTS

The State shall not incur any liability for any costs incurred by Contractors in replying to this solicitation, including any activity related to bidding on this solicitation.

K. FAILURE TO COMPLY WITH INVITATION TO BID

Violation of the terms and conditions contained in this solicitation or any resultant contract, at any time before or after the award, shall be grounds for action by the State which may include, but is not limited to, the following:

1. Rejection of a Contractor's bid;
2. Withdrawal of the Intent to Award;
3. Withdrawal of the Award;
4. Negative Vendor Performance Report(s)
5. Termination of the resulting contract;
6. Legal action; or,
7. Suspension of the Contractor from further bidding with the State for the period of time relative to the seriousness of the violation, such period to be within the sole discretion of the State.

L. BID CORRECTIONS

A contractor may correct a mistake in a bid prior to the time of opening by giving written notice to the State of intent to withdraw the bid for modification or to withdraw the bid completely. Changing a bid after opening may be permitted if the change is made to correct a minor error that does not affect price, quantity, quality, delivery, or contractual conditions. In case of a mathematical error in extension of price, unit price shall govern.

M. LATE BIDS

Bids received after the time and date of the bid opening will be considered late bids. Late bids will be returned unopened, if requested by the Contractor and at Contractor's expense. The State is not responsible for bids that are late or lost regardless of cause or fault.

N. BID OPENING

Anyone may attend the opening. It is considered a public opening. The Buyer will read the names of the respondents. Depending upon the complexity of the bid for goods, the buyer may read the bids aloud or allow bids be available for viewing by the public during the bid opening. Once the bid opening has concluded, the bids will not be available for viewing until the Intent to Award has been posted. An initial bid tabulation will be posted to the website as soon as feasible. Information identified as proprietary by the submitting contractor, in accordance with the solicitation and state statute, will not be posted. If the state determines submitted information should not be withheld, in accordance with the Public Records Act, or if ordered to release any withheld information, said information may then be released. The submitting contractor will be notified of the release and it shall be the obligation of the submitting contractor to take further action, if it believes the information should not be released.

O. INVITATION TO BID/BID REQUIREMENTS

The bids will first be examined to determine if all requirements listed below have been addressed and whether further evaluation is warranted. Bids not meeting the requirements may be rejected as non-responsive. The requirements are:

1. Original Commodity ITB form signed using an indelible method (electronic signatures are acceptable);
2. Clarity and responsiveness of the bid;
3. Completed Sections II through VI;
4. Completed ITB Form or State's Cost Sheet.

P. EVALUATION OF BIDS

All bids that are responsive to the solicitation will be evaluated based on the following:

1. Bid Sheet – Attachment A

Neb. Rev. Stat. §81-161 allows the quality of performance of previous contracts to be considered when evaluating responses to competitively bid solicitations in determining the lowest responsible bidder. Information obtained from any Vendor Performance Report (See Terms & Conditions, Section H) may be used in evaluating responses to solicitations for goods and services to determine the best value for the State.

Neb. Rev. Stat. §73-107 allows for a preference for a resident disabled veteran or business located in a designated enterprise zone. When a state contract is to be awarded to the lowest responsible contractor, a resident disabled veteran or a business located in a designated enterprise zone under the Enterprise Zone Act shall be allowed a preference over any other resident or nonresident contractor, if all other factors are equal.

Resident disabled veterans means any person (a) who resides in the State of Nebraska, who served in the United States Armed Forces, including any reserve component or the National Guard, who was discharged or otherwise separated with a characterization of honorable or general (under honorable conditions), and who possesses a disability rating letter issued by the United States Department of Veterans Affairs establishing a service-connected disability or a disability determination from the United States Department of Defense and (b)(i) who owns and controls a business or, in the case of a publicly owned business, more than fifty percent of the stock is owned by one or more persons described in subdivision (a) of this subsection and (ii) the management and daily business operations of the business are controlled by one or more persons described in subdivision(a) of this subsection. Any contract entered into without compliance with this section shall be null and void.

Therefore, if a resident disabled veteran or business located in a designated enterprise zone submits a proposal in accordance with Neb. Rev. Stat. §73-107 and has so indicated on the ITB cover page under "Contractor must complete the following" requesting priority/preference to be considered in the award of this contract, the following will need to be submitted by the contractor within ten (10) business days of request:

1. Documentation from the United States Armed Forces confirming service;
2. Documentation of discharge or otherwise separated characterization of honorable or general (under honorable conditions);
3. Disability rating letter issued by the United States Department of Veterans Affairs establishing a service-connected disability or a disability determination from the United States Department of Defense; and
4. Documentation which shows ownership and control of a business or, in the case of a publicly owned business, more than fifty percent of the stock is owned by one or more persons described in subdivision (a) of this subsection; and the management and daily business operations of the business are controlled by one or more persons described in subdivision (a) of this subsection.

Failure to submit the requested documentation within ten (10) business days of notice will disqualify the contractor from consideration of the preference.

Q. BEST AND FINAL OFFER

If best and final offers (BAFO) are requested by the State and submitted by the contractor, they will be evaluated (using the stated BAFO criteria) and ranked by the Evaluation Committee. The State reserves the right to conduct more than one BAFO. The award will then be granted to the lowest responsible contractor. However, a contractor should provide its best offer in its original proposal. Contractors should not expect that the State will request a BAFO.

R. REFERENCE AND CREDIT CHECKS

The State reserves the right to conduct and consider reference and credit checks. The State reserves the right to use third parties to conduct reference and credit checks. By submitting a proposal in response to this solicitation, the contractor grants to the State the right to contact or arrange a visit in person with any or all of the contractor's clients. Reference and credit checks may be grounds to reject a bid, withdraw an intent to award, or rescind the award of a contract.

S. AWARD

The State reserves the right to evaluate bids and award contracts in a manner utilizing criteria selected at the State's discretion and in the State's best interest. After evaluation of the bids, or at any point in the solicitation process, the State of Nebraska may take one or more of the following actions:

1. Amend the solicitation;
2. Extend the time of or establish a new bid opening time;
3. Waive deviations or errors in the State's solicitation process and in contractor bids that are not material, do not compromise the solicitation process or a contractor's bid, and do not improve a contractor's competitive position;
4. Accept or reject a portion of or all of a bid;
5. Accept or reject all bids;
6. Withdraw the solicitation;
7. Elect to rebid the solicitation;
8. Award single lines or multiple lines to one or more contractors; or,
9. Award one or more all-inclusive contracts.

The solicitation does not commit the State to award a contract. Once intent to award decision has been determined, it will be posted to the Internet at: <http://das.nebraska.gov/materiel/purchasing.html>

Any protests must be filed by a contractor within ten (10) business days after the intent to award decision is posted to the Internet. Grievance and protest procedure is available on the Internet at: <http://das.nebraska.gov/materiel/purchasing.html>

The State reserves the right to make awards that are in the best interest of the State. The State will consider, but is not limited to, pricing in award criteria. Pricing will be evaluated based upon the District total extended price.

T. SPECIFICATIONS

Any manufacturer's names, trade names, brand names, information and/or catalog numbers listed in a specification are for reference and not intended to limit competition, but will be used as the standard by which equivalent material offered will be judged. The Materiel Administrator will be the sole judge of equivalency. The Contractor may offer any brands which meets or exceeds the specification. When a specific product is required, the solicitation will so state. Any item bid is to be the latest current model under standard production at the time of order. No used or refurbished equipment will be accepted, unless otherwise stated.

U. SAMPLES

When requested, samples should be furnished at the Contractor's expense prior to the opening of the bid, unless another time is specified. Each sample should be labeled clearly, and identify the Contractor's name, the ITB number, item number, and the brand and model number, if applicable. Samples submitted must be the commodities or equipment which would be delivered if awarded the bid. The State reserves the right to request samples even though this may not have been set forth in the solicitation. Samples may be destroyed in testing. If a sample is not destroyed in testing and a Contractor wishes to have the sample returned, it will be returned at the Contractor's expense upon request. The sample will not be returned until thirty (30) calendar days after any bid protest or, the execution of a contract. The Contractor shall have ten (10) calendar days to arrange for the return of the sample to the Contractor following any of the above dates. If no request from the Contractor is received within the above dates, the State reserves the right to use, donate, or surplus the samples in accordance with the State's policies.

V. ALTERNATE/EQUIVALENT BIDS

Contractor may offer bids which are at variance from the express specifications of the solicitation. The State reserves the right to consider and accept such proposals if, in the judgment of the Materiel Administrator, the proposal will result in goods and/or services equivalent to or better than those which would be supplied in the original proposal specifications. Contractor must indicate on the solicitation the manufacturer's name, number and shall submit with their proposal, sketches, descriptive literature and/or complete specifications. Reference to literature submitted with a previous proposal will not satisfy this provision. Proposals which do not comply with these requirements are subject to rejection. In the absence of any stated deviation or exception, the proposal will be accepted as in strict compliance with all terms, conditions and specification, and the Contractor shall be held liable therefore.

W. LUMP SUM OR "ALL OR NONE" PROPOSALS

The State reserves the right to purchase item-by-item, by groups or as a total when the State may benefit by so doing. Contractors may submit a proposal on an "all or none" or "lump sum" basis, but should also submit a proposal on an item-by-item basis. The term "all or none" means a conditional proposal which requires the purchase of all items on which proposals are offered and Contractor declines to accept award on individual items; a "lump sum" proposal is one in which the Contractor offers a lower price than the sum of the individual proposals if all items are purchased, but agrees to deliver individual items at the prices quoted.

X. BID REQUIREMENTS

The bids will first be examined to determine if all requirements listed below have been addressed and whether further evaluation is warranted. Bids not meeting the requirements may be rejected as non-responsive. The requirements are:

1. Original Commodity ITB form signed using an indelible method (electronic signatures are not acceptable);
2. Clarity and responsiveness of the bid;
3. Completed Sections II, III, IV, VI, and Attachments A and B in their entirety;
4. Completed Highway Deicing Salt Bid Sheet (Attachment A); and,
5. Completed Product Sample Checklist (including sample submission (Attachment B).

Y. EMAIL SUBMISSIONS

SPB will not accept proposals by email, electronic, voice, or telephone proposals **except** for one-time purchases under \$50,000.00.

Z. BID TABULATIONS

Bid tabulations are available on the website at: <http://www.das.state.ne.us/materiel/purchasing/bidtabs.htm>.

AA. REJECTION OF BIDS

The State reserves the right to reject any or all , wholly or in part, in the best interest of the State.

BB. RESIDENT BIDDER

Pursuant to Neb. Rev. Stat. §§ 73-101.01 through 73-101.02, a Resident Bidder shall be allowed a preference against a Non-resident Bidder from a state which gives or requires a preference to Bidders from that state. The preference shall be equal to the preference given or required by the state of the Nonresident Bidders. Where the lowest responsible bid from a resident Bidder is equal in all respects to one from a nonresident Bidder from a state which has no preference law, the resident Bidder shall be awarded the contract. The provision of this preference shall not apply to any contract for any project upon which federal funds would be withheld because of the provisions of this preference.

II. TERMS AND CONDITIONS

Contractors should complete Section II through VI as part of their proposal. Contractor is expected to read the Terms and Conditions and must initial either accept, reject, or reject and provide alternative language for each clause. The Contractor should also provide an explanation of why the Contractor rejected the clause or rejected the clause and provided alternate language using "Track Changes". Upon request an electronic copy of the bid with "Track Changes" must be submitted in an editable Word format. By signing the solicitation, Contractor is agreeing to be legally bound by all the accepted terms and conditions, and any proposed alternative terms and conditions submitted with the bid. The State reserves the right to negotiate rejected or proposed alternative language. If the State and Contractor fail to agree on the final Terms and Conditions, the State reserves the right to reject the bid. The State is soliciting bids in response to the solicitation. The State reserves the right to reject bids that attempt to substitute the Contractor's commercial contracts and/or documents for this solicitation.

The Contractor should submit with their bid any license, user agreement, service level agreement, or similar documents that the Contractor wants incorporated in the Contract. Upon notice of Intent to Award, the Contractor must submit a copy of these documents in an editable Word format. The State will not consider incorporation of any document not submitted with the Contractor's bid. These documents shall be subject to negotiation and will be incorporated as addendums if agreed to by the Parties.

If a conflict or ambiguity arises after the addendums have been negotiated and agreed to, the addendums shall be interpreted as follows:

1. If only one (1) Party's document has a particular clause then that clause shall control;
2. If both Party's documents have a similar clause, but the clauses do not conflict, the clauses shall be read together;
3. If both Party's documents have a similar clause, but the clauses conflict, the State's clause shall control.

Changes in work and the amount of compensation to be paid to the Contractor shall be determined in accordance with applicable unit prices if any, a pro-rated value, or through negotiations. SM			

If Contractor breaches the contract or anticipates breaching the contract, the Contractor shall immediately give written notice to the State. The notice shall explain the breach or potential breach, a proposed cure, and may include a request for a waiver of the breach if so desired. The State may, in its discretion, temporarily or permanently waive the breach. By granting a waiver, the State does not forfeit any rights or remedies to which the State is entitled by law or equity, or pursuant to the provisions of the contract. Failure to give immediate notice, however, may be grounds for denial of any request for a waiver of a breach.

J. BREACH

Accept (Initial)	Reject (Initial)	Reject & Provide Alternative within Solicitation Response (Initial)	NOTES/COMMENTS:
SM			

Either Party may terminate the contract, in whole or in part, if the other Party breaches its duty to perform its obligations under the contract in a timely and proper manner. Termination requires written notice of default and a thirty (30) calendar day (or longer at the non-breaching Party's discretion considering the gravity and nature of the default) cure period. Said notice shall be delivered by Certified Mail, Return Receipt Requested, or in person with

proof of delivery. Allowing time to cure a failure or breach of contract does not waive the right to immediately terminate the contract for the same or different contract breach which may occur at a different time.

In case of breach by the Contractor, the State may, without unreasonable delay, make a good faith effort to make a reasonable purchase or contract to purchased goods in substitution of those due from the contractor. SM			

If any term or condition of the contract is declared by a court of competent jurisdiction to be illegal or in conflict with any law, the validity of the remaining terms and conditions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if the contract did not contain the provision held to be invalid or illegal.

This Purchase Order may be amended in writing, within scope, upon the agreement of both parties.

D. REVISIONS

E. PRICING

Prices quoted shall be unit price (per ton) and shall be firm for one (1) year from date of an award (the only allowance is based upon diesel fuel prices as described in this section) and are to be net; including transportation and delivery charges fully prepaid by the Bidder F.O.B. Destination as specified to any location within a Nebraska Department of Transportation (NDOT) area, as specified in Attachment A. No additional charges will be allowed for packing, handling, fuel surcharge, or partial delivery costs.

Any request for an increase must be submitted in writing to the SPB a minimum of thirty (30) days prior to proposed effective date of increase, and must show cause and be accompanied by supporting documentation (such as notification letter from manufacturer). Further documentation may be required by the State, to authenticate the increase (such as manufacturer invoices). Failure to supply any requested supporting documentation may be grounds to cancel the contract. In no instance may a price increase be billed to the State until the contract is amended. The State further reserves the right to reject any proposed price increase(s), cancel the contract and re-bid if determined to be in the best interest of the State. The State will be given full proportionate benefit of any decrease for the term of the contract. Contract supplier or suppliers may honor pricing and extend the contract to political sub-divisions, cities, and counties. Terms and conditions of the contract must be met by political sub-divisions, cities, and counties.

Contractor also represents and warrants that all prices set forth in the contract and all prices in addition, which the Contractor may charge under the terms of the contract, do not and will not violate any existing federal, state, or municipal law or regulations concerning price discrimination and/or price fixing. Contractor agrees to hold the State harmless from any such violation. Prices quoted shall not be subject to increase throughout the contract period unless specifically allowed by these specifications.

For each of the conditions listed below, the vendor will provide a single per ton price for delivery to each location within the entire District. Districts, storage capacities, and historical usage data are provided in Attachment A.

Prices shall be provided for both Peak and Off-Peak:

1. Off-Peak (OP), Months of April through October (see Orders and Delivery Section for details).
2. Peak (P), Months of November through March (see Orders and Delivery Section for details).

Fuel Cost Adjustment (FCA) for delivery – Diesel Due to price fuel price volatility, adjustments in pricing both upward and downward, will be required to offset changes in the cost of fuel. The following process will be utilized in order to account for and accommodate fuel price volatility:

The vendor shall set their bid price for the delivered commodity based on fuel prices for the month prior to the bid opening. During the term of the contract, for all orders placed, accommodations for changes in the retail price of fuel will be made for delivery of full loads by semi-truck from the origin (mine or transloading facility) to the destination as follows: The Contractor must specify the origin of the product for each destination. If more than one origin is to be used for a destination, the one closest to the destination will be used for calculating the FCA. In the event that the origin changes during the contract period, the Contractor must furnish documentation to the state confirming such change. The state will be the sole judge as to the validity of the documentation. The origin will not be changed more than once per year. For the purpose of calculating the FCA in this contract, the following formulas and values will be used: The distance (d_i), from the origin to each destination (D_i) will be established by the state. The approximate average fuel economy (E) will be 5 miles/gallon for all vendors and destinations. The calculated amount of fuel (F_i) used for delivery to each destination will be the distance divided by the fuel economy, rounded to the nearest gallon.

$$F_i = d_i/E.$$

Monthly average diesel fuel prices will be based on data from the Nebraska Energy office website on the page titled "Average Monthly Retail On-Highway Diesel Fuel Prices in Nebraska". <http://www.neo.ne.gov/statshhtml/96.htm> The initial price index (P_0) will be the monthly average for the month prior to the date of the contract. After contract starts, the monthly price (P_m) will be monitored and monthly adjustments will begin in the month following the contract start date. The amount of the FCA for each destination will be the fuel used (as calculated above) multiplied by the difference (ΔP) between the monthly retail price (P_m) and the initial price index (P_0).

$$\Delta P = P_m - (P_0)$$

$$FCA_i = \Delta P * F_i$$

The State shall calculate the FCA for each destination and include the amount on the invoice for deliveries made. The State will supply an Excel spreadsheet to the vendor with the destinations and all necessary data so that the vendor need only enter the monthly fuel price. All of the calculations will be done automatically to determine the FCA. All invoices dated in a given calendar month shall use the monthly price (P_m) for the preceding month.

- D_i = Destination (final point of delivery)
- d_i = Approximate distance from the Origin to each Destination, miles
- E = Approximate Average Fuel Economy, miles/gallon
- F_i = Fuel used for delivery to a particular Destination, gallons
- P_0 = Initial Price Index, \$/gallon
- P_m = Monthly Retail Price, \$/gallon
- $\Delta P = P_m - (P_0)$ = Difference between Monthly Retail Price and Initial Index Price, \$/gallon
- $FCA_i = \Delta P * F_i$ = Fuel Cost Adjustment for a particular Destination, \$

Example 1:

Origin	D_2	d_2	E	F_2	P_0	P_m
Kanopolis, KS	Chadron, NE	505 miles	5 miles/gal	$d_2/E = 505/5 = 101$ gal	\$4.00/gal	\$4.42/gal

ΔP
\$4.42
- \$4.00
= \$0.42

FCA_2
$\Delta P * F_2 = \$0.42 * 101 = \underline{\$42.42}$

Example 2:

Origin	D_3	d_3	E	F_3	P_0	P_m
Kanopolis, KS	Columbus, NE	230 miles	5 miles/gal	$d_3/E = 230/5 = 46$ gal	\$4.00/gal	\$3.78/gal

ΔP
\$3.78
- \$4.00
= -\$0.22

FCA_3
$\Delta P * F_3 = -\$0.22 * 46 = \underline{(\$10.12)}$

PRODUCT DATA SHEET

Product:

Bulk Deicing Salt

Production Location:

Various locations in North America

Product Description:

Bulk Deicing Salt is mined rock salt from a natural salt deposit located feet below the surface. The product is translucent grey to white crystalline. It is extracted by drilling and blasting with explosives in a manner similar to that used in other mineral mining. The mined salt is crushed and hoisted to the surface where it is screened to size. On the surface, it is stockpiled in a large storage building or loaded covered hopper rail cars or barges.

Compliance:

Bulk Deicing Salt is not approved for human or animal consumption. It is intended for use only as a chemical deicer on roadways, parking lots or sidewalks. This salt complies with ASTM specification D632-01 Type 1, Grade 1.

Applications:

Bulk Deicing Salt is intended to melt ice and snow on roadways, parking lots, or sidewalks.

Packaging and Shipping:

Bulk Deicing Salt is available only in bulk.

Method of Analysis:

American Society for Testing and Materials (ASTM) Procedure D632-01.

ADDENDUM THREE REVISION TO THE ITB

Date: March 25, 2020

To: All Bidders

From: Brenda Sensibaugh, Buyer
AS Materiel State Purchasing Bureau

RE: Addendum for Invitation to Bid 6261 OF to be opened April 8, 2020 at 2:00 p.m. Central Time

The following ITB 6261 OF will be amended as follows:

1. Section I.S (AWARD), subparagraph 8, is hereby amended to the following:

The State reserves the right to evaluate bids and award contracts in a manner utilizing criteria selected at the State's discretion and in the State's best interest. After evaluation of the bids, or at any point in the solicitation process, the State of Nebraska may take one or more of the following actions:

1. Amend the solicitation;
 2. Extend the time of or establish a new bid opening time;
 3. Waive deviations or errors in the State's solicitation process and in contractor bids that are not material, do not compromise the solicitation process or a contractor's bid, and do not improve a contractor's competitive position;
 4. Accept or reject a portion of or all of a bid;
 5. Accept or reject all bids;
 6. Withdraw the solicitation;
 7. Elect to rebid the solicitation;
 8. Award a single District or multiple Districts to one or more contractors; or,
 9. Award one or more all-inclusive contracts.
2. Section V.E (PRICING) is hereby amended to include the underscored text, as follows:

Monthly average diesel fuel prices will be based on data from the Nebraska Energy office website on the page titled "Average Monthly Retail On-Highway Diesel Fuel Prices in Nebraska" (<http://www.neo.ne.gov/statshtml/96.htm>). The initial price index (P_0) will be the monthly average for the month prior to the date of the contract, or the month prior to the most recent amended price increase thereafter. After contract starts, the monthly price (P_m) will be monitored and monthly adjustments will begin in the month following the contract start date. The amount of the FCA for each destination will be the fuel used (as calculated above) multiplied by the difference (ΔP) between the monthly retail price (P_m) and the initial price index (P_0).

This addendum will become part of the bid and should be acknowledged with the ITB.

Questions and Answers

Following are the questions submitted and answers provided for the above mentioned Request for Proposal. The questions and answers are to be considered as part of the Request for Proposal. It is the Bidder's responsibility to check the State Purchasing Bureau website for all addenda or amendments.

<u>Question Number</u>	<u>ITB Section Reference</u>	<u>ITB Page Number</u>	<u>Question</u>	<u>State Response</u>
1.	K	31	In section K of the bid it state that you certify that you are an authorized dealer for Rock Salt. My question is what all does that entail? We didn't know if there is a permit through the state or what all we needed to do. Please let me know if you can help or point me in the right direction.	No permit is required by the State in order to become an authorized dealer. Qualified vendors must be able to supply and deliver product that meets the State's specifications ("Sodium Chloride, ASTM D632 Type I, Grade 1"). Section VI.K of the Invitation to Bid ("AUTHORIZED DEALER") asks bidders to self-certify that they understand and meet this requirement. There exist multiple manufacturers of "Sodium Chloride, ASTM D632 Type I, Grade 1." Bidders are required to complete and turn in with their bid Attachment B (Road Salt Product Checklist), which declares the specific product(s) being bid.
2.			How does the new bid effect the remaining guaranteed tons from the current contract expiring August 6, 2020?	No matter which action the State elects to take regarding the current solicitation (6261 OF), the 80% guarantee for the annual period that ends on August 6, 2020, shall be honored by the State, as provided by current contracts for this commodity.
3.			Will you guaranty the prefill tons in addition to the tons you have	In accordance with the current solicitation (6261 OF), the State

			remaining on contract	guarantees the purchase of at least 80% of the estimated annual requirement for each District. Annual requirement is a combination of all (peak and off-peak) requirements. The State makes no further guarantee regarding purchases for either current contracts for this commodity or any contracts which might result from the current solicitation (6261 OF).
4.			Will you have a conference line available for the March 24 th pre-proposal conference?	<p>Yes. The Optional Pre-Proposal Conference will be attended via Conference Call.</p> <p>Dial-in number (US): (425) 436-6334</p> <p>Access code: 755739#</p> <p>Online meeting ID: brendasensibaugh</p> <p>Join the online meeting: https://join.freeconferencecall.com/brendasensibaugh</p> <p>For additional assistance connecting to the meeting text "Help" to the Dial-In number above. Message and data rates may apply.</p>
5.			Do to the current travel restrictions will you consider sending out the bid tab shortly after the opening?	If the State accepts some or all bids, the bid tab will be published as expeditiously as is feasible.
6.			How soon do you plan to make an award or reject the bid	If the State elects to award one or more contracts from this solicitation (6261 OF), such contract(s) would be executed as expeditiously as is feasible.
7.			Will order due dates be adjusted for holidays?	No. All orders must be delivered within the prescribed number of calendar days after receipt of order (ARO), or as mutually agreed upon between the parties.

8.			<p>Please verify the award will not be given based on a weighted average of the two prices. This section is missing from the previous contracts.</p>	<p>The State reserves the right to make awards that are in the best interest of the State. The State will consider, but is not limited to, pricing in award criteria. Pricing will be evaluated based upon the District total extended price. All bids that are responsive to the solicitation will be evaluated based on the following:</p> <p>a. Bid Sheet – Attachment A. This document, which is included within this Invitation to Bid, automatically calculates the “Extended Price” for a District, once PEAK and OFF-PEAK pricing is provided for each yard within that District. The vendor must provide a per-ton price (for both PEAK and OFF-PEAK seasons) for delivery to each location within an entire District in order to submit a valid bid for that District.</p> <p>b. Neb. Rev. Stat. §81-161 allows the quality of performance of previous contracts to be considered when evaluating responses to competitively bid solicitations in determining the lowest responsible bidder.</p> <p>c. Neb. Rev. Stat. §73-107 allows for a preference for a resident disabled veteran or business located in a designated enterprise zone.</p>
9.			<p>Please confirm the most recent pricing for the areas Blackstrap won</p>	<p>a. Amendment 1 of 14822 OC (effective 11/2/2018) contains the most recent negotiated prices for Districts 6, 7, and 8 (formerly “Region 3”), as follows:</p> <p>i. PEAK - \$64.69/ton</p> <p>ii. OFF-PEAK - \$54.97/ton</p> <p>b. Amendment 3 of 14822 OC (effective 9/19/2019) contains the most recent negotiated prices for Districts 3 and 4 (formerly “Region 2”), as follows:</p>

				<p>iii. PEAK – \$60.07</p> <p>iv. OFF-PEAK – \$56.38</p>
10.			Do they (Blackstrap) still have a current contract with the State of Nebraska?	No.
11.			If a price on an awarded contract is increased to a vendor, due to a requested increase in subsequent years, would the increase also be given to all other vendors with contracts to avoid discrimination? If not, why not?	No. Any request for a price increase must be submitted in writing to the State Purchasing Bureau, and must show cause and be accompanied by supporting documentation in order to justify the increase. Road salt (ASTM D632 Type I, Grade 1 Sodium Chloride) may be sourced from a number of manufacturers, and is required to be delivered to all locales across the entire state of Nebraska – there are a number of factors (which change with the geography) that have effect on pricing. Therefore, requests for price increases must be submitted by individual Contractors, and any such request will be considered by the State on an individual, case-by-case basis.
12.			Please confirm, if all products, manufacturers and supplier origins that we list on Attachment B are on the Clear Roads Qualified Product List, then no other attachments or samples are required to be submitted with our bid?	Correct. Vendors must list on “Attachment B” each product and/or supplier origin they intend to utilize in fulfilling the contract. Vendors who bid products that are not currently on the <i>Clear Roads Qualified Products List</i> (https://clearroads.org/qualified-product-list/) must also submit additional documentation and product samples (per “Attachment B”). Products that appear on the <i>Clear Roads Qualified Products List</i> do not require any additional documentation and are not subject to any sample submission requirement for the purpose of this solicitation.
13.			As major important solicitation terms and/or NEDOT needs have changed from the current Road Salt contract to the present solicitation, and/or possibly for future Road Salt events, such as: the preference of material source, material characteristics/specifications, and/or specific usages of material, as well as the intended	The State has no preferred material source. While all three salt mines in Kansas market and produce Road Salt (ASTM D632 Type I, Grade 1 Sodium Chloride), the State will equally consider product from any manufacturer that meets the same specifications, as are detailed in Section VI.C of this Invitation to Bid (6261 OF). These product

			Date ranges of "Off-Peak" ordering and delivery Terms, in addition to increased storage capacities, what specific parts or evaluations of past quality of performance reports will be valid when assessing possible awards to a vendor?	specifications are consistent with what appears in current and previous contracts. In addition to product specifications, the State requires delivery in accordance with Section V.F of this Invitation to Bid. All aspects of past performance, as they relate to product quality and delivery, are valid.
14.			How is past performance comparable to expected future performance if the previously stated solicitation terms are inherently different from the current contract in place to the current solicitation, and possible future contracts, that may have created a situation that led to reduced quality of performance in the past?	After conducting a thorough review of the State's winter maintenance program this past season, the State determined that the contract needed to be revised in order to better reflect their requirements. None of the changes that the State is implementing with this Invitation to Bid were compelled by past vendor performance, and none of the contractual duties (current or previous) have been removed or lessened.
15.			In District 3, what is the overall average percentage of tonnage of the current Road Salt Contract used specifically for Brine Generating Purposes within a margin of 10%?	This solicitation is for Road Salt (ASTM D632 Type I, Grade 1 Sodium Chloride). Product specifications and delivery requirements are identical for all orders to all locations, regardless of how the State chooses to use its product. The tonnage requirements, for all locations, are detailed in "Attachment A".
16.			What percentage is forecasted for District 3's annual required tons for the current solicitation for Road Salt Supply to be used for Brine Generation Purposes in Year 1 within a 10% margin, if this solicitation is awarded as a contract?"	This solicitation is for Road Salt (ASTM D632 Type I, Grade 1 Sodium Chloride). Product specifications and delivery requirements are identical for all orders to all locations, regardless of how the State chooses to use its product. The tonnage requirements, for all locations, are detailed in "Attachment A".
17.			When does the NEDOT anticipate this solicitation going into effect as a contract (if awarded), and when will orders potentially be placed for "Off-Peak" season orders?	If the State elects to award one or more contracts from this solicitation (6261 OF), such contract(s) would be executed as expeditiously as is feasible. Orders for off-peak salt would be placed immediately subsequent to contract award.

18.			<p>If a particular yard location has the capacity to store two times or more of the annual usage requirement of tonnage as stated in the solicitation for that location, what are 3 reasons for these locations to order peak Season Deliveries at a potentially higher contract price versus taking advantage of Off Peak deliveries and associated prices, given the capacity to store the entirety of what is required for yearly usage?</p>	<p>Peak season is November 1 through March 31 - this is the annual period during which we expect to consume the most salt. When the State requires salt to be delivered to any location during the peak season, it would not be acceptable to wait until the off-peak season for that salt to be delivered.</p>
19.			<p>Is it within NEDOT's discretion, intent, or best interest to award one District to multiple vendors?</p>	<p>After evaluation of the bids, the State may award a single district or multiple districts to one or more contractors. Under no circumstances will any single district be awarded to multiple contractors; nor will any contractor be awarded only peak season, or only off-peak season – for any district. Any awards which may result from this solicitation (6261 OF) will be to individual contractors for the service of an entire district (both peak and off-peak seasons), or for the service of multiple districts (both peak and off-peak seasons).</p>
20.			<p>Is it within the NEDOT's best interest to award a Lump Sum for All Districts to one Vendor with one source based solely on low bid price, given the potential for catastrophic mine failure or extended breakdowns?</p>	<p>See response to Line 19.</p>
21.			<p>Will towns within a District, be subject to being awarded individually?</p>	<p>No. The Districts will not be divided; each may only be awarded in their entirety – all locations, for both peak and off-peak seasons.</p>
22.			<p>Peak Season Delivery – Delivery requirement will be ten (10) days ARO. Is this working days or calendar days?</p>	<p>All orders must be delivered within the prescribed number of calendar days after receipt of order (ARO), or as mutually agreed upon between the parties.</p>
23.			<p>Will the calculation on the Bid Sheet as 'District Total be the final amount to determine low bid? a) What would cause the unit price to govern?"</p>	<p>Pricing will be evaluated based upon the District total extended price. The Bid Sheet – Attachment A, which is included within this solicitation, automatically calculates the "Extended Price" for a District, once peak and off-peak pricing is provided for each yard within that District. The</p>

				vendor must provide a per-ton price (for both peak and off-peak seasons) for delivery to each location within an entire District in order to submit a valid bid for that District.
24.			Could a 'List of All Bidders' be supplied on the Addendum you will issue answering submitted questions?	No. The State is publishing these questions and responses several days ahead of bid opening.
25.			When will the "Failure to Deliver" statement be implemented? Will this be enforced if a vendor is a day or two late and/or over holidays?	The "FAILURE TO DELIVER" statement (Section V.F.3b of the ITB) is not a new provision. Similar language also appears in current and previous contracts, under the "ORDERS AND DELIVERY" Section. The State does not intend to implement this provision any more aggressively than it has in the past. While the State would be within its right to enforce this provision immediately, once a vendor is in breach, the State intends to enforce this provision only when doing so would be necessary in order to acceptably address a supply shortage.
26.			Confirm the state plans to order the majority of salt in April. Would the state consider a max quantity that can be ordered after July 1st? A 30 day ARO due date can be hard to meet if large quantities are ordered late in the season as they have been in the past.	The State intends to order the majority of its off-peak salt in April. The State will consolidate off-peak fill requirements for all Districts, and place those altogether, at the same time (with our various vendors), on or about April 1 of each year. This will be done in order to avoid placing large orders later in the off-peak period (i.e.; "after July 1st"). The State believes that this new practice will alleviate any need to set a maximum limit on off-peak order quantities.
27.			Clarify if the state plans to award pre-season tons to one vendor and peak season to another or if the whole district will go to one vendor (pre-season & peak).	See response to line 19.
28.			Will the State accept electronic bids?	No, not at this time. Please continue to monitor the website for all updates and information regarding electronic bidding.

This addendum will become part of the Bid and should be acknowledged with the Invitation to Bid.
