Colorfill add \$10 per piece per color.

Additional imprints add \$10 for each — not included in the standard price.

Personalizations add \$10 per piece.

3D subsurface set up charge \$150.

Quality & Service

MTM leads the industry in quality award products, manufacturing and distributing products worldwide. As a manufacturer and supplier, we have the ability to create unique, one-of-a-kind awards not seen in any other catalog. Contact a Customer Care Associate (CCA) for information on how to create your own custom recognition program.

Plate Options

Our plates are available in gold, silver, bronze or black finishes.

HOW TO SUPPLY ARTWORK

MTM prefers a vector EPS file for our manufacturing processes. Generally, this is an attachment of the artwork in the original application that it was created in. This can be obtained via the artist who created it, your HR Department, IT Department or Design Department. If none of these are available to you, we suggest contacting a Customer Care Associate for more information.

Send artwork via e-mail, DVD or thumb drive. PC is the preferred format. All artwork is subject to production approval. Non-electronic art should be camera ready.

The art department will determine if artwork is camera ready.

Artwork may be altered for production processes. Include all font information as well as any PMS colors used. Fonts should be converted to outlines or points (*art charges may apply*).

Electronic Art Logos and Graphics

We require vector artwork for production in the form of Encapsulated PostScript (EPS) files, created in Adobe Illustrator. Halftones / photographs — We require images of 300 dpi or greater in JPEG, TIFE, GIF or PSD format.

Text — an Excel file is the preferred format. Please use 3 columns for names (First, Middle, Last). Word is also an acceptable format.

Camera-Ready Art

MTM requires black and white artwork with very clean and crisp edges. (No fades, blends, percentages or halftones.) Supplied art should be at the highest possible quality for reproduction. Logos and graphics will have to be re-drawn in a vector format (this process will incur an art charge). Text sent in this format may have to be reset (this process will incur a typesetting charge). Contact Customer Care or the Art Department for additional information on acceptable file formats.

Copyright & Trademarks

Copy and trademarks represented in this catalog are for purposes of demonstrating product only and do not constitute endorsement or advertisement of any company or other organization, nor an endorsement of the MTM product line by a company or other organization.

By submitting artwork, designs or other copyrighted or trademarked material concepts for reproduction in any form, you are representing that the concept provided is either your original concept or that you have permission from the original creator to reproduce it and that it is free from potential copyright, patent or trademark claims. By submitting a concept you are agreeing to indemnify MTM from any and all claims that may arise from such reproduction.

Cancellations

Orders cancelled during production will be charged for the work completed at the time of cancellation.

Warranty

All products sold by MTM are guaranteed to be of good quality materials and workmanship. If our quality inspectors overlooked a factory defect, write or call your CCA within 10 days after delivery and we will issue a Return Authorization (RA) number for return. All shortages in shipment must be reported within 10 days of delivery to receive credit replacement.

Shipping

Merchandise will be shipped via ground where weight limits permit. Unless otherwise specified, shipping will be FOB factory. MTM is not responsible for delays or damage in transit. Priority shipping is available; customer is responsible for all shipping charges.

GENERAL INFORMATION

SHIP METHODS

Ground

Ground is the default ship method for MTM Recognition. Ground service time is dependent on your distance from our factory. Usual transit time is 1-5 business days for the contiguous US, with Alaska and Hawaii taking up to 7 business days.

If ground shipping does not fit your needs, we offer a variety of expedited services at additional costs:

3 Day Service

This option is available within the continental US only and will deliver to a specified location by the end of the 3rd business day.

2 Day Service

This option is offered to all 50 states. It is scheduled to arrive at the end of the 2nd business day.

Next Day Service

This option is offered to all 50 states for certain cities. It is scheduled to arrive at the end of the next business day.

US Mail

In the event you have a PO BOX, APO, FPO, or DPO address your order will be sent using the US Postal Service.

Drop Shipments / Split Shipments

When a detailed list of items and ship-to information are provided on a disk, in a hard copy format or by e-mail in an approved Excel format, drop shipment charge is \$7 per location, plus shipping and handling.

Damage Claims

Contact your CCA for information regarding damage claims within 10 days of receiving your order.

Returns

A Return Authorization (RA) number must be issued for all returns. Merchandise without an RA will not be accepted. Custom orders may not be returned unless a factory defect exists. A 20% restocking fee applies to all returns.

HELPFUL DEFINITIONS

Imprinting

An image is exposed through film onto a screen and coated with light sensitive material. Ultraviolet sensitive inks are pushed through the screen mesh and the image is transferred to the surface. The material is then processed through an ultraviolet light that cures the ink and maintains a permanent, vibrant color. PMS color match \$45.00

Laser Engraving

A high tech etching process used to customize the award with art or personalization. Generally, it is used on wood or acrylic. A laser is focused onto the surface of material and the intense heat generated vaporizes the material leaving an etching.

Raster Art (JPEG, TIF, GIF, PSD)

The representation of images as a collection of pixels (dots). Images created in this format are more difficult to scale and size without losing detail and are not recommended for production processes. Acceptable raster art is created at 300 dpi (dots per inch) and should be submitted as JPEG, TIF, GIF or PSD files.

Vector Art (EPS, AI)

The use of points, lines, curves and polygons to represent images. Items created in this format can easily be scaled and reproduced without losing details. Acceptable vector art is created in Adobe Illustrator (AI). Files created in either of these programs that have been converted to an Encapsulated PostScript (EPS) are also acceptable.

Sand Etching

An image is converted to an emulsion-based mask that is adhered to the surface to be etched. Small particles of abrasive material are combined with high-pressure air and focused on the surface. The mask allows only the exposed areas to be etched. Depth of etching can vary depending on artwork and color can be applied (*additional charges may apply*).

Logos used in this catalog are for demonstration purposes only and are not to be considered an endorsement of these products.

Price and product availability subject to change without notice.
