1.			(Name Removed) no longer prices per pound because of the inaccuracies. I was wondering if we can request other information to price this out? Our pricing table is calculated by the stops or locations we are servicing, frequency we have to service onsite or offsite (every week, every 2 weeks, every 4 weeks and every 8 weeks) and the amount of containers we are servicing which you keep at your facilities. (a console, 64g tote, 95g tote.) We also do one time purges. Maybe a clean out of a storeroom boxes or other material and that would be calculated by the amount of bags, boxes or totes needed to be shred either onsite or offsite.	<p>The RFP is not for traditional recycling/shredding services.</p> <p>Totes, stops, multiple locations aren't a part of the requested service. There is essentially one stop, every three months (quarterly).</p> <p>The Cost Proposal remains as written.</p> <p>Please ensure complete understanding of Section V.</p>

This addendum will become part of the Request for Proposal and should be acknowledged with the Request for Proposal response.
