INVITATION TO BID

Number 6646 OF

The State of Nebraska (State), Department of Administrative Services (DAS), Materiel Division, State Purchasing Bureau (SPB), is issuing this ITB for a commodity contract, ITB Number 6646 OF for the purpose of selecting a qualified Vendor to provide Liquid Asphaltic Materials. A more detailed description can be found in Section VI. The resulting contract may not be an exclusive contract as the State reserves the right to contract for the same or similar goods from other sources now or in the future.

The contract is seasonal and does not contain any renewal options. The term of the contract will be commencing upon effective date of award through November 30, 2022. State reserves the right to extend the period of this contract beyond the termination date when mutually agreeable to the Parties.

INFORMATION PERTINENT TO THIS SOLICITATION CAN BE FOUND ON THE INTERNET AT:

<http://das.nebraska.gov/materiel/purchasing.html>

IMPORTANT NOTICE: Pursuant to Neb. Rev. Stat. § 84-602.02, State contracts in effect as of January 1, 2014, and contracts entered into thereafter, must be posted to a public website. The resulting contract, the solicitation, and the successful Vendor's bid or response will be posted to a public website managed by DAS, which can be found at:

<https://statecontracts.nebraska.gov>

In addition, and in furtherance of the State's public records statute (Neb. Rev. Stat. § 84-712 et seq.) all proposals or responses received regarding this solicitation will be posted to the SPB website.

These postings will include the entire bid or response. Bidder must request that proprietary information be excluded from the posting. The Bidder must identify the proprietary information, mark the proprietary information according to state law, and submit the proprietary information in a separate container or envelope marked conspicuously using an indelible method with the words "PROPRIETARY INFORMATION". The Bidder must submit a **detailed written document showing** that the release of the proprietary information would give a business advantage to named business competitor(s) and explain how the named business competitor(s) will gain an actual business advantage by disclosure of information. The mere assertion that information is proprietary or that a speculative business advantage might be gained is not sufficient. (See Attorney General Opinion No. 92068, April 27, 1992) **THE BIDDER MAY NOT ASSERT THAT THE ENTIRE BID OR RESPONSE IS PROPRIETARY. COST WILL NOT BE CONSIDERED PROPRIETARY AND IS A PUBLIC RECORD IN THE STATE OF NEBRASKA.** The State will then determine, in its discretion, if the interests served by nondisclosure outweighs any public purpose served by disclosure. (See Neb. Rev. Stat. § 84-712.05(3)) The Bidder will be notified of the agency's decision. Absent a State determination that information is proprietary, the State will consider all information a public record subject to release regardless of any assertion that the information is proprietary.

If the agency determines it is required to release proprietary information, the Bidder will be informed. It will be the Bidder's responsibility to defend the Bidder's asserted interest in non-disclosure.

To facilitate such public postings, with the exception of proprietary information, the State of Nebraska reserves a royalty-free, nonexclusive, and irrevocable right to copy, reproduce, publish, post to a website, or otherwise use any contract, bid, or response to this solicitation for any purpose, and to authorize others to use the documents. Any individual or entity awarded a contract, or who submits a bid or response to this solicitation, specifically waives any copyright or other protection the contract, bid, or response to the solicitation may have; and acknowledges that they have the ability and authority to enter such waiver. This reservation and waiver is a prerequisite for submitting a bid or response to this solicitation, and award of a contract. Failure to agree to the reservation and waiver will result in the bid or response to the solicitation being found non-responsive and rejected.

Any entity awarded a contract or submitting a bid or response to the solicitation agrees not to sue, file a claim, or make a demand of any kind, and will indemnify and hold harmless the State and its employees, volunteers, agents, and its elected and appointed officials from and against any and all claims, liens, demands, damages, liability, actions, causes of action, losses, judgments, costs, and expenses of every nature, including investigation costs and expenses, settlement costs, and attorney fees and expenses, sustained or asserted against the State, arising out of, resulting from, or attributable to the posting of the contract or the bid and responses to the solicitation, awards, and other documents.

E. RECYCLING (§ 81-15,159(d)(2))

Preference will be given to items which are manufactured or produced from recycled material or which can be readily reused or recycled after their normal use. Preference will also be given to purchases of corn-based biodegradable plastics and road deicers if available and suitable. No preference shall be given if such preference would result in the purchase of products, materials, or supplies that are of inadequate quality or of substantially higher cost.

The State also encourages the use of products utilizing soy or beets; however, the State cannot give a preference for using these products.

F. SECRETARY OF STATE/TAX COMMISSIONER REGISTRATION REQUIREMENTS (Statutory)

All Vendors must be authorized to transact business in the State and comply with all Nebraska Secretary of State Registration requirements. The Vendor who is the recipient of an Intent to Award will be required to certify that it has complied and produce a true and correct copy of its current (within ninety (90) calendar days of the intent to award) Certificate or Letter of Good Standing, or in the case of a sole proprietorship, provide written documentation of sole proprietorship and the United States Citizenship Attestation Form, available on the DAS website at: <http://das.nebraska.gov/materiel/purchasing.html>. This must be accomplished prior to execution of the contract.

G. ETHICS IN PUBLIC CONTRACTING

The State reserves the right to reject bids, withdraw an intent to award or award, or terminate a contract if a Vendor commits or has committed ethical violations, which include, but are not limited to:

1. Offering or giving, directly or indirectly, a bribe, fee, commission, compensation, gift, gratuity, or anything of value to any person or entity in an attempt to influence the bidding process;
2. Utilize the services of lobbyists, attorneys, political activists, or consultants to influence or subvert the bidding process;
3. Being considered for, presently being, or becoming debarred, suspended, ineligible, or excluded from contracting with any state or federal entity;
4. Submitting a bid on behalf of another party or entity;
5. Collude with any person or entity to influence the bidding process, submit sham bids, preclude bidding, fix pricing or costs, create an unfair advantage, subvert the bid, or prejudice the State.

The Vendor shall include this clause in any subcontract entered for the exclusive purpose of performing this contract.

Vendor shall have an affirmative duty to report any violations of this clause by the Vendor throughout the bidding process, and throughout the term of this contract for the successful Vendor and their subcontractors.

H. DEVIATIONS FROM THE INVITATION TO BID

The requirements contained in the ITB (Sections II through VI) become a part of the terms and conditions of the contract resulting from this ITB. Any deviations from the ITB in Sections II through VI must be clearly defined by the Vendor in its bid and, if accepted by the State, will become part of the contract. Any specifically defined deviations must not conflict with the basic nature of the ITB, ITB requirements, or applicable state or federal laws or statutes. "Deviation", for the purposes of this ITB, means any proposed changes or alterations to either the contractual language or deliverables within the scope of this ITB. The State discourages deviations and reserves the right to reject proposed deviations.

I. SUBMISSION OF BIDS

*****ALL BIDS MUST BE SUBMITTED-ELECTRONICALLY!*****

The State is only accepting electronically submitted responses for this ITB.

It is the bidder's responsibility to ensure the ITB is received by the date and time indicated in the Schedule of Events. All electronic bids must be received in the State Purchasing Bureau by the date and time of the bid opening per the Schedule of Events. No late bids will be accepted.

The Invitation to Bid form must be manually signed in an indelible manner or by DocuSign and returned by the bid opening date and time along with the bidder's Invitation to Bid along with any other requirements as stated in the Invitation to Bid document in order for the Bidder's Invitation to Bid response to be evaluated.

It is the responsibility of the bidder to check the website for all information relevant to this Invitation to Bid to include addenda and/or amendments issued prior to the opening date. Website address is as follows:
<http://das.nebraska.gov/materiel/purchasing.html>

Emphasis should be concentrated on conformance to the ITB instructions, responsiveness to requirements, completeness, and clarity of content. If the bidder's bid is presented in such a fashion that makes evaluation difficult or overly time consuming the State reserves the right to reject the bid as non-conforming.

By signing the Invitation to Bid, the Bidder guarantees compliance with the provisions stated in this ITB.

The State shall not incur any liability for any costs incurred by contractors in replying to this ITB, in the demonstrations and/or oral presentations, or in any other activity related to bidding on this ITB.

K. FAILURE TO COMPLY WITH INVITATION TO BID

Violation of the terms and conditions contained in this ITB or any resultant contract, at any time before or after the award, shall be grounds for action by the State which may include, but is not limited to, the following:

1. Rejection of a Bidder's Bid;
2. Withdrawal of the Intent to Award;
3. Withdrawal of the Award;
4. Negative Vendor Performance Report(s)

L. BID CORRECTIONS

A Bidder may correct a mistake in a bid prior to the time of opening by giving written notice to the State of intent to withdraw the bid for modification or to withdraw the bid completely. Changing a bid after opening may be permitted if the change is made to correct a minor error that does not affect price, quantity, quality, delivery, or contractual conditions. In case of a mathematical error in extension of price, unit price shall govern.

M. LATE BIDS

Bids received after the time and date of the bid opening will be considered late bids. Late bids will be returned unopened, if requested by the Bidder and at Bidder's expense. The State is not responsible for bids that are late or lost regardless of cause or fault.

N. BID OPENING

Anyone may attend the opening. It is considered a public opening. The Buyer will read the names of the respondents. Depending upon the complexity of the bid for goods, the buyer may read the bids aloud or allow bids to be available for viewing by the public during the bid opening. Once the bid opening has concluded, the bids will not be available for viewing until the Intent to Award has been posted. An initial bid tabulation will be posted to the website as soon as feasible. Information identified as proprietary by the submitting bidder, in accordance with the ITB and state statute, will not be posted. If the state determines submitted information should not be withheld, in accordance with the Public Records Act, or if ordered to release any withheld information, said information may then be released. The submitting Bidder will be notified of the release and it shall be the obligation of the submitting bidder to take further action if it believes the information should not be released.

O. INVITATION TO BID REQUIREMENTS

The bids will first be examined to determine if all requirements listed below have been addressed and whether further evaluation is warranted. Bids not meeting the requirements may be rejected as non-responsive. The requirements are:

1. Original Commodity ITB form signed using an indelible method (electronic signatures are acceptable);
2. Clarity and responsiveness of the bid;
3. Completed Sections II through VI;
4. Completed ITB Form or State's Cost Sheet.

Any contact, attempted contact, or attempt to influence an evaluator that is involved with this ITB may result in the rejection of this bid and further administrative actions.

P. EVALUATION OF BIDS

All bids that are responsive to the ITB will be evaluated based on the following:

Cost Bid

Neb. Rev. Stat. §81-161 allows the quality of performance of previous contracts to be considered when evaluating responses to competitively bid solicitations in determining the lowest responsible bidder. Information obtained from any Vendor Performance Report (See Terms & Conditions, Section H) may be used in evaluating responses to solicitations for goods and services to determine the best value for the State.

Neb. Rev. Stat. §73-107 allows for a preference for a resident disabled veteran or business located in a designated enterprise zone. When a state contract is to be awarded to the lowest responsible vendor, a resident disabled veteran or a business located in a designated enterprise zone under the Enterprise Zone Act shall be allowed a preference over any other resident or nonresident vendor, if all other factors are equal.

Resident disabled veterans means any person (a) who resides in the State of Nebraska, who served in the United States Armed Forces, including any reserve component or the National Guard, who was discharged or otherwise separated with a characterization of honorable or general (under honorable conditions), and who possesses a disability rating letter issued by the United States Department of Veterans Affairs establishing a service-connected disability or a disability determination from the United States Department of Defense and (b)(i) who owns and controls a business or, in the case of a publicly owned business, more than fifty percent of the stock is owned by one or more persons described in subdivision (a) of this subsection and (ii) the management and daily business operations of the business are controlled by one or more persons described in subdivision(a) of this subsection. Any contract entered without compliance with this section shall be null and void.

Therefore, if a resident disabled veteran or business located in a designated enterprise zone submits a bid in accordance with Neb. Rev. Stat. §73-107 and has so indicated on the ITB cover page under "Bidder must complete the following" requesting priority/preference to be considered in the award of this contract, the following will need to be submitted by the bidder within ten (10) business days of request:

1. Documentation from the United States Armed Forces confirming service;
2. Documentation of discharge or otherwise separated characterization of honorable or general (under honorable conditions);
3. Disability rating letter issued by the United States Department of Veterans Affairs establishing a service-connected disability or a disability determination from the United States Department of Defense; and

4. Documentation which shows ownership and control of a business or, in the case of a publicly owned business, more than fifty percent of the stock is owned by one or more persons described in subdivision (a) of this subsection; and the management and daily business operations of the business are controlled by one or more persons described in subdivision (a) of this subsection.

Failure to submit the requested documentation within ten (10) business days of notice will disqualify the bidder from consideration of the preference.

Q. BEST AND FINAL OFFER

If best and final offers (BAFO) are requested by the State and submitted by the Bidder, they will be evaluated (using the stated BAFO criteria) and ranked by the Evaluation Committee. The State reserves the right to conduct more than one BAFO. The award will then be granted to the lowest responsible bidder. However, a bidder should provide its best offer in its original bid. Bidders should not expect that the State will request a BAFO.

R. REFERENCE AND CREDIT CHECKS

The State reserves the right to conduct and consider reference and credit checks. The State reserves the right to use third parties to conduct reference and credit checks. By submitting a bid in response to this ITB, the bidder grants to the State the right to contact or arrange a visit in person with any or all the bidder's clients. Reference and credit checks may be grounds to reject a bid, withdraw an intent to award, or rescind the award of a contract.

S. AWARD

The State reserves the right to evaluate bids and award contracts in a manner utilizing criteria selected at the State's discretion and in the State's best interest. After evaluation of the bids, or at any point in the ITB process, the State of Nebraska may take one or more of the following actions:

1. Amend the ITB;
2. Extend the time of or establish a new bid opening time;
3. Waive deviations or errors in the State's ITB process and in bidder bids that are not material, do not compromise the ITB process or a bidder's bid, and do not improve a bidder's competitive position;
4. Accept or reject a portion of or all of a bid;
5. Accept or reject all bids;
6. Withdraw the ITB;
7. Elect to rebid the ITB;
8. Award single lines or multiple lines to one or more bidders; or,
9. Award one or more all-inclusive contracts.

The State of Nebraska may consider, but is not limited to considering, one or more of the following award criteria:

1. Price;
2. Location;
3. Quality;
4. Delivery time;
5. Bidder qualifications and capabilities;
6. State contract management requirements and/or costs; and,

The ITB does not commit the State to award a contract. Once intent to award decision has been determined, it will be posted to the Internet at:

<http://das.nebraska.gov/materiel/purchasing.html>

Any protests must be filed by a Bidder within ten (10) business days after the intent to award decision is posted to the Internet. Grievance and protest procedure is available on the Internet at:

<http://das.nebraska.gov/materiel/purchasing.html>

T. SPECIFICATIONS

Any manufacturer's names, trade names, brand names, information and/or catalog numbers listed in a specification are for reference and not intended to limit competition but will be used as the standard by which equivalent material offered will be judged. The Materiel Administrator will be the sole judge of equivalency. The Bidder may offer any brands which meets or exceeds the specification. When a specific product is required, the ITB will so state. Any item bid is to be the latest current model under standard production at the time of order. No used or refurbished equipment will be accepted, unless otherwise stated.

U. SAMPLES

When requested, samples should be furnished at the Bidder's expense prior to the opening of the bid, unless another time is specified. Each sample should be labeled clearly and identify the Bidder's name, the ITB number, item number, and the brand and model number, if applicable. Samples submitted must be the commodities or equipment which would be delivered if awarded the bid. The State reserves the right to request samples even though this may not have been set forth in the ITB. Samples may be destroyed in testing. If a sample is not destroyed in testing and a Bidder wishes to have the sample returned, it will be returned at the Bidder's expense upon request. The sample will not be returned until thirty (30) calendar days after any bid protest or, the execution of a contract. The Bidder shall have ten (10) calendar days to arrange for the return of the sample to the Bidder following any of the above dates. If no request from the Bidder is received within the above dates, the State reserves the right to use, donate, or surplus the samples in accordance with the State's policies.

V. ALTERNATE/EQUIVALENT BIDS

Bidder may offer bids which are at variance from the express specifications of the ITB. The State reserves the right to consider and accept such bids if, in the judgment of the Materiel Administrator, the bid will result in goods and/or services equivalent to or better than those which would be supplied in the original bid specifications. Bidder must indicate on the ITB the manufacturer's name, number and shall submit with their bid, sketches, descriptive literature and/or complete specifications. Reference to literature submitted with a previous bid will not satisfy this provision. Bids which do not comply with these requirements are subject to rejection. In the absence of any stated deviation or exception, the bid will be accepted as in strict compliance with all terms, conditions and specification, and the Bidder shall be held liable, therefore.

W. LUMP SUM OR "ALL OR NONE" BIDS

The State reserves the right to purchase item-by-item, by groups or as a total when the State may benefit by so doing. Bidders may submit a bid on an "all or none" or "lump sum" basis but should also submit a bid on an item-by-item basis. The term "all or none" means a conditional bid which requires the purchase of all items on which bids are offered and Bidder declines to accept award on individual items; a "lump sum" bid is one in which the Bidder offers a lower price than the sum of the individual bids if all items are purchased but agrees to deliver individual items at the prices quoted.

X. EMAIL SUBMISSIONS

SPB will not accept bids by email, voice, or telephone bids except for one-time purchases under \$50,000.00.

Y. BID TABULATIONS

Bid tabulations are available on the website at: <http://das.nebraska.gov/materiel/purchasing.html>

Z. REJECTION OF BIDS

The State reserves the right to reject any or all bids, wholly or in part, in the best interest of the State.

AA. RESIDENT BIDDER

Pursuant to Neb. Rev. Stat. §§ 73-101.01 through 73-101.02, a Resident Bidder shall be allowed a preference against a Non-resident Bidder from a state which gives or requires a preference to Bidders from that state. The preference shall be equal to the preference given or required by the state of the Nonresident Bidders. Where the lowest responsible bid from a resident Bidder is equal in all respects to one from a nonresident Bidder from a state which has no preference law, the resident Bidder shall be awarded the contract. The provision of this preference shall not apply to any contract for any project upon which federal funds would be withheld because of the provisions of this preference.

II. TERMS AND CONDITIONS

Bidders should complete Section II through VI as part of their bid. Bidder is expected to read the Terms and Conditions and must initial either accept, reject, or reject and provide alternative language for each clause. The Bidder should also provide an explanation of why the Bidder rejected the clause or rejected the clause and provided alternate language using "Track Changes". Upon request an electronic copy of the bid with "Track Changes" must be submitted in an editable Word format. By signing the ITB, Bidder is agreeing to be legally bound by all the accepted terms and conditions, and any proposed alternative terms and conditions submitted with the bid. The State reserves the right to negotiate rejected or proposed alternative language. If the State and Bidder fail to agree on the final Terms and Conditions, the State reserves the right to reject the bid. The State is soliciting bids in response to the ITB. The State reserves the right to reject bids that attempt to substitute the Bidder's commercial contracts and/or documents for this ITB.

The Bidder should submit with their bid any license, user agreement, service level agreement, or similar documents that the Bidder wants incorporated in the Contract. Upon notice of Intent to Award, the Bidder must submit a copy of these documents in an editable Word format. The State will not consider incorporation of any document not submitted with the Bidder's bids. These documents shall be subject to negotiation and will be incorporated as addendums if agreed to by the Parties.

If a conflict or ambiguity arises after the addendums have been negotiated and agreed to, the addendums shall be interpreted as follows:

1. If only one (1) Party's document has a particular clause then that clause shall control;
2. If both Party's documents have a similar clause, but the clauses do not conflict, the clauses shall be read together;
3. If both Party's documents have a similar clause, but the clauses conflict, the State's clause shall control.

Corrections of any deliverable, service, or work required pursuant to the contract shall not be deemed a change. The Bidder may not claim forfeiture of the contract by reasons of such changes.

The Bidder shall prepare a written description of the work required due to the change and an itemized cost sheet for the change. Changes in work and the amount of compensation to be paid to the Bidder shall be determined in accordance with applicable unit prices if any, a pro-rated value, or through negotiations. The State shall not incur a price increase for changes that should have been included in the Bidder's bid, were foreseeable, or result from difficulties with or failure of the Bidder's bid or performance.

No change shall be implemented by the Bidder until approved by the State, and the Contract is amended to reflect the change and associated costs, if any. If there is a dispute regarding the cost, but both parties agree that immediate

implementation is necessary, the change may be implemented, and cost negotiations may continue with both Parties retaining all remedies under the contract and law.

In the event any product is discontinued or replaced upon mutual consent during the contract period or prior to delivery, the State reserves the right to amend the contract or purchase order to include the alternate product at the same price.

Either Party may terminate the contract, in whole or in part, if the other Party breaches its duty to perform its obligations under the contract in a timely and proper manner. Termination requires written notice of default and a thirty (30) calendar day (or longer at the non-breaching Party's discretion considering the gravity and nature of the default) cure period. Said notice shall be delivered by Certified Mail, Return Receipt Requested, or in person with proof of delivery. Allowing time to cure a failure or breach of contract does not waive the right to immediately terminate the contract for the same or different contract breach which may occur at a different time.

In case of breach by the Vendor, the State may, without unreasonable delay, make a good faith effort to make a reasonable purchase or contract to purchased goods in substitution of those due from the vendor. The State may recover from the Vendor as damages the difference between the costs of covering the breach. Notwithstanding any clause to the contrary, the State may also recover the contract price together with any incidental or consequential

damages defined in UCC Section 2-715, but less expenses saved in consequence of Vendor's breach. OR In case of default of the Vendor, the State may contract the service from other sources and hold the Vendor responsible for any excess cost occasioned thereby.

The State's failure to make payment shall not be a breach, and the Vendor shall retain all available statutory remedies. (See Indemnity - Self-Insurance and Payment)

The Vendor will be required to make delivery to roadway destinations or supply tanks Monday – Friday. The time of delivery will be specified when the order is placed. If the Vendor notifies the Department of Transportation of their inability to deliver the order as specified, or if the Vendor fails to deliver the order as specified, the State may procure the material from other sources and hold the vendor responsible for any excess cost.

In the event that the NDOT Materials and Research Division test results indicate a material consistently fails to meet specifications and referee testing confirms our test results or the Vendor fails to satisfactorily meet the delivery schedules for material, the state may cancel all or any part of the contract and obtain the required material elsewhere.

The Vendor may expect at least an eighteen (18) hour notice prior to the specified hour the material is to be delivered, with the understanding that the State of Nebraska may cancel the order, with reasonable notice. The Vendor agrees that the applicable receiving personnel will be notified of any breakdown or other happenings, which will delay delivery.

Truck transport tanks and transfer lines shall be clean and free of residual build-ups, foreign materials, and other forms of contaminants that affect product performance, testing, or application in the field.

Truck transport tanks shall have a sample valve attached that is in accordance with AASHTO Designation R66 Section 8 (ASTM D 140 section 10, para. 10.1), or other NDOT-approved means for sampling as outlined in the Supplier's Quality Control program.

Expected unloading time is defined as 3 hours. In cases where there are unloading delays beyond 3 hours and demurrage is to be charged, the Vendor shall furnish the Nebraska Department of Transportation with signed documents showing purchase order number, arrival and departure times, date, and charges for same. The receiving personnel shall sign documents.

E. CANCELLATION OF DELIVERY BY NDOT

Occasionally it may be necessary for NDOT to cancel an order that has been dispatched due to circumstances beyond the Vendor's control. In the event that a load is cancelled under these circumstances, the vendor shall be entitled to recover transportation costs. These transportation costs will be billed per highway mile from the point the transport truck is notified of the cancellation back to the shipping point that the load originated from. No other costs may be recovered other than transportation cost based on the charge per highway mile.

F. LATE OR NON-DELIVERY

Crews and equipment are mobilized to the worksite in advance of the project start time in order to be ready when the Liquid Asphaltic Material arrives. Delays in the arrival of material are costly in terms of lost production. Liquidated damages will be applied and deducted from the invoice at the rate of \$400.00/hour, calculated to the nearest half hour. Deliveries less than 15 minutes late will not be assessed liquidated damages. Failure to deliver product within two (2) hours of scheduled start time will be considered non-delivery and will be assessed \$1200.00 liquidated damages. Repeated failure to deliver product according to schedule will be grounds for immediate cancellation of the contract.

All documents must be filled out completely and plainly show arrival and departure times.

Charges for demurrage must be included on the invoice for the Liquid Asphalt Material. Arrival and departure times shown must be for appropriate time zones.

When the Vendor ships material prior to the completion of their testing, and subsequently learns that the material is out of specification while the material is still in transit, the DEPARTMENT MUST BE NOTIFIED IMMEDIATELY BY CONTACTING THE MATERIAL AND RESEARCH DIVISION @ (402) 479-3742 or (402) 479-3839 and the Field Representative's office expecting the delivery.

Any out of specification material which has been incorporated into the work, sections (b), (c) and (d) of the Basis of Payment will apply. The cost of shipping a load of out of specification material, which is returned to the Vendor, will be the responsibility of the Vendor.

Purchase orders will be issued by Nebraska Department of Transportation, Operations Division, Procurement Unit, PO Box 94759, Lincoln, Nebraska, 68509-4759.

Occasionally it may be necessary for NDOT to cancel an order that has been dispatched due to circumstances beyond the vendor's control. In the event that a load is cancelled under these circumstances, the vendor shall be entitled to recover transportation costs. These transportation costs will be billed per highway mile from the point the transport truck is notified of the cancellation back to the shipping point that the load originated from. No other costs may be recovered other than transportation cost based on the charge per highway mile.

G. BASIS OF PAYMENT

Liquid Asphaltic Materials which comply with specifications and are furnished in accordance with the instructions herein shall be paid for at the unit price/per ton.

Samples shall pass specifications when tested after being stored at room temperature (~75°F) for periods of up to 14 days after sampling. When test results of on-site asphalt materials are outside of the specified property ranges, the material shall be paid for at the contract unit price multiplied by the Pay Factors in Table 504.01A.

* When the specification requirement is stated as a percentage, the test result deviation from the specification will be divided by the specification value. The resulting deviation percentage is then applied to the listed criteria.	
(Note 1: Material not meeting a Pass/Fail requirement falls under the Pay Factor of 0.40 or Reject)	
(Note 2: When more than one specified property exceeds specification tolerances, the single largest Pay Factor Reduction will be the one applied.)	

When, on the basis of departmental testing and/or unacceptable workability in the field, it is determined that the liquid asphaltic material does not comply with the material or performance specifications of this contract, such material will be accepted or rejected in accordance with paragraphs 1, 2, 3, 4 and 5 below.

1. If the out of specification material is found to have a resultant pay factor of less than 1.0, it shall be rejected if not already used.

2. If the material is found to be out of specification, and the material has been used and it is determined by the receiving personnel that the resultant material can be used in some manner beneficial to the State, the pay factor for the material shall be determined on NDOT Quality Assurance Testing.
3. If 1) the material has been used and is found to be out of specification or 2) material that meets specifications but results in an unacceptable material after mixing and spraying, and it is determined by the receiving personnel that the resultant material cannot be used in a manner beneficial to the State, the supplied material will be rejected, the Vendor will not be paid for the supplier material. The Vendor will be responsible to the Department of Transportation for the cost of any State-owned material that is determined unusable. This cost will be established by purchase order invoice amounts. The Vendor will be notified in writing within 21 working days of all such costs.
4. In addition to the material specifications, any mixing grade emulsion used in blade mixed windrow cold patching material must be formulated from a base asphalt that will result in a material suitable for patching. A "full load" test strip will be mixed and if following mixing it results in an unacceptable patching material the emulsion used will be rejected and paragraph (D) will apply. (See the paragraph on COLD MIX WINDROWS—MIX DESIGN below).
5. On-site filed samples received within 14 days of sampling, that demonstrate residue, water, and/or polymer separation prior to testing, not caused by freezing during transport, that cannot be made homogenous by the applicable AASHTO conditioning test procedure, cannot be tested. The material represented by the sample will be subject to a pay factor of 0.75 or rejection, dependent upon the degree of success of the field application.

The analysis of Liquid Asphalt Material by the Material and Research Division, Nebraska Department of Transportation, including NDOT referee testing policies, shall govern the rate of payment.

When an on-site sample from a transport demonstrates test results that incur a reduced pay factor, the process of resolving the degree of sample failure will include the following actions as applicable:

6. The Bituminous Lab will confirm sampling, handling, and custody of the sample.
7. If the Vendor wishes to dispute any test results, the Vendor can request referee testing. It is the sole responsibility of the Vendor to request referee testing. The request must be made to the Bituminous Lab with 96 hours of awareness of the test results. If a request is received within the time allotted, the Bituminous Lab will select an independent laboratory which will perform testing on the remainder of the sample. The identity of the independent laboratory will be revealed after referee testing is completed. Due to scheduling, logistics, workloads, etc., the request for referee testing is also affirmation and agreement that the testing may occur beyond the 14-day testing timeframe of the asphaltic emulsion specifications.
8. If the independent lab's tests indicate failing results and pay deductions equal to or greater than the NDOT's, the Vendor will reimburse the NDOT for the cost of the testing. If the independent lab's tests indicate that the material meets specification or is at a pay deduction less than the NDOT's, the NDOT will assume the cost of testing. When independent lab's tests indicate a pay deduction, the lesser of the NDOT's and independent lab's deductions will be applied.

The referee test methods of the asphaltic material shall follow AASHTO procedures. Where AASHTO procedures are not applicable, ASTM and other listed applicable test procedures shall be used.

ON-SITE PERSONNEL

The supplier shall furnish on-site personnel within any given 24-hour workday, at no additional cost to the State, to assist in the resolution of material problems, should they develop.

**SPECIAL PROVISIONS
FOR LIQUID ASPHALT MATERIALS**

**STATE OF NEBRASKA
DEPARTMENT OF TRANSPORTATION**

A. QUALITY CONTROL (QC) PROGRAM CERTIFICATION BY NDOT

All Quality Control Programs must be approved/certified by NDOT prior to contract award.

Suppliers who do not have a current annual approval/certification from NDOT may submit a response to the Invitation to Bid but must complete certification prior to contract award.

If a Supplier's Quality Control Program has not been approved/certified by NDOT for the current year, the Supplier may submit their Quality Control Program documentation with the ITB response.

If the Supplier does not submit the Quality Control Program Documentation with the bid response, they will provide all documentation within ten business days of a written request. Time is of the essence for Supplier provision of documentation. Asad Sahak, (402) 479-3742 or Asadullah.sahak@nebraska.gov will be the contact for Supplier certification, after the Invitation to Bid has opened.

Suppliers making shipments of Liquid Asphalt Material to be used in Nebraska Highway Maintenance shall furnish their Quality Control (QC) Program to NDOT, Materials and Research Division, for annual approval, as a requirement for Supplier Certification. This QC program will include the types and frequency of sampling and testing for all products supplied. The QC program must state that all products supplied were tested in accordance with the QC program and conform to the State of Nebraska specifications. All terminals and locations covered by the QC program shall be listed. The QC program will include the names of supplier representatives authorized to sign the Certificates of Compliance, as well as the name and telephone number of the person responsible for quality control at the facility. The QC program shall provide an outline of the procedure to be followed for checking transport vehicles before loading to prevent contamination of shipments. The outline shall include a statement that the transport vehicle inspection report, signed by the responsible inspector, shall be maintained in the Supplier's records, and will be made available to the Department on request. The QC program will list alternative sampling methods from transports when sample valves as per AASHTO R66 paragraphs 8 or 10 (ASTM D 140 paragraph 10.1) are either not present, or are found to be non-functional.

Supplier shall state specific plans for notification to the Department when non-compliant material is discovered during or after shipment. The supplier shall not knowingly ship material that does not meet contract specifications.

State all other program requirements the Supplier deems necessary for their QC program, including but not limited to, what is required in this document. A recommendation is to follow AASHTO R26, Section 9, where applicable.

B. SUPPLIER CERTIFICATION

Division 1000 is amended to include the following:

Only Certified Suppliers will be allowed to supply materials outlined in this contract. For questions or information on Supplier Certifications contact Asad Sahak, (402) 479- 3742 or Asadullah.sahak@nebraska.gov.

NDOT Maintenance Staff will ship samples for testing based on current NDOT Sampling Guideline.

In cases of In-Line mixing intended for a single transport shipment of emulsion or cutback, a batch will be defined either as an initial formulation of the Contract product, or as well any subsequent formulation change(s) from the initial formulation, and not necessarily each individual transport.

The NDOT, for purposes of Quality Assurance, acceptance and pay factor determination, will be based on samples tested on transport delivered materials. Material shall be identified by Batches submitted and tested as stated below:

For each maintenance project, the Department will obtain a random field sample on each project location. Field samples will represent the transport they are taken from. The department may change the amount of field samples taken at any time on any project. Field samples are subject to the "Basis of Payment" section of this contract. At the department's discretion, failing field samples may also cause loss of Supplier Certification.

Random field samples shall be obtained by Department personnel trained and certified to do so. Failing test results

from field samples taken by uncertified personnel will not be used in determining pay factors, or in determining Supplier Certification status.

Frozen samples, or samples collected without following the proper NDOT sampling guidelines will not be tested for acceptance.

If Supplier de-certification occurs, a notification will be provided in writing. If the Supplier desires re-certification, documentation must be submitted to the Department explaining why decertification occurred, and what actions the Supplier has taken to correct the problems identified. Decisions regarding the future qualification for re-certification of a Supplier shall be at the Department's discretion.

C. CERTIFICATE OF COMPLIANCE TO ACCOMPANY SHIPMENTS

Suppliers making shipments of Liquid Asphalt Material to be used for purposes of this contract shall furnish a Certificate of Compliance to the Nebraska Department of Transportation for each truck load shipped.

The Certificate of Compliance shall contain the following information:

1. A statement by the supplier that the material shipped complies with the requirements of the contract specifications for the type and grade specified.
2. Gallon data for truck shipments based on the net weight. The gallons "@60°F" and/or Wt./Gal. "@60°F" will be displayed. Gallon Data will be used for reference only.
3. Gross, tare and net weight.
4. An authorized supplier employee shall sign the Certificate of Compliance
5. One copy of the Certificate of Compliance shall be sent with the shipment to the designated Representative of the Nebraska Department of Transportation, as shown on the shipping order. A Bill of Lading may serve as a Certificate of Compliance provided it contains all the information requested above.

D. COLD MIX WINDROWS – MIX DESIGN

When requested by the District Operations and Maintenance Manager or Maintenance Superintendent, the vendor will perform the following experimental mix design to determine the percent asphalt emulsion by dry weight of aggregate to be added to the windrow. Sample(s) of aggregate being proposed for use in the windrow will be supplied by the NDOT well in advance of delivery of the required mixing grade emulsion.

Dry all the aggregate samples and determine the emulsion that the customer would like to use.

Determine gradations of the aggregate and filler samples.

Determine the aggregate blend to use which shall be a dense graded sample with no greater than 15% passing the #200 sieve.

Prepare eight (8) samples of the aggregate blend determined in the previous step.

Add water to the aggregate blend samples to approximately 2% water content.

Determine the emulsion contents to use. Typically use 5% to 7% based on the weight of dry aggregate before the water was added or use a previously used percentage and 1% above and below this percentage.

Mix up two (2) samples for the emulsion contents determined in the previous step.

Compact the samples with the Marshall Hammer using fifty (50) blows per side. Extract the samples from the molds immediately.

Dry the samples in an oven at approximately 130 degrees "F" – 140 degrees "F" for approximately 48 hours.

Test the Marshall stability on the samples.

Based on the Marshall stability values and the visual appearance of the samples, determine the target emulsion content.

Every effort to communicate mix design requirements between the supplier and NDOT will be used to help insure that the proper materials and combined aggregate gradations are designed into all Cold Mix Windrow materials. Mix design test results will be provided by the supplier to the District Operations and Maintenance Manager.

E. SPRAY APPLIED EMULSIONS FOR FOG SEALS

Type CSS/SS-1H spray applied emulsions for use as fog seals will be formulated and/or diluted in such a manner as to expect the time to break to be 1 hour or less, at 60 degrees "F" and 40% humidity, following the spray application. The expected (reasonable) time to break will vary with changes in temperature and humidity.

Type CFS-1/FS-1 (fast set) spray applied emulsion shall be formulated for an accelerated breaking time as compared to the breaking time definition above.

CRS-2P 80/20 will be used on some selected fog seal projects, a conference call coordinated by the supplier with the district maintenance personnel and personnel from Materials and Research must be performed seven (7) days prior to application to discuss formulation and project application specifics.

Material upon arrival shall not exhibit signs of excessive foaming to the degree that transfer and/or application of the product is hampered.

When the supplier's material routinely fails to meet these requirements, it may be cause to suspend the use of the supplier's material until such time that the supplier can demonstrate compliance.

For fog seals produced by In-Line single transport mixing, refer to the "Supplier Certification" section of the Contract dedicated to Terminal In-Line mixing.

1			What were the actual tonnages used in 2021 by Product and by District	Refer to Attachment C (Addendum)
2			Attachment A only provided a Summary of Quantities for each District. Could you provide product volumes by locations (nearest town) for each District so we could more accurately predict the average freight/delivery costs	Refer to Attachment C (Addendum)
3			Are District 3 and District 4 tonnages for CRS2P accurate? Historically District only takes around 3000 tons per year; 34,670 tons seems unrealistic. An accurate tonnage volume helps us manage our risk for this bid	- District 3 – Revised to 5392 Tons from 34,670 Tons. - District 4 - Confirmed estimated usage as accurate.

This Addendum will become part of the ITB and should be acknowledged with the ITB.

<u>Question Number</u>	<u>ITB Section Reference</u>	<u>ITB Page Number</u>	<u>Question</u>	<u>State Response</u>
1			Question #1 referred to the tonnage shipped by District and by Product in 2021. The Attachment C shows volumes that are not even close to accurate in District 1, 3, and 8 which we supplied. It showed 893.83 tons in District 1 when they actually took 4,424.39 tons of CRS2P. District 3 shows 698.30 tons taken when 2,185.95 tons shipped of CRS2P. In District 8 it shows 439.76 tons taken when 3,051.44 tons actually shipped. What were the actual tons taken in each District by Product for 2021?	See Revised Attachment C
2			Question #2 was referring to the expected locations for tons by District by Product (nearest town) for this bid in 2022. This allows the Vendors to calculate the weighted freight costs for each line item. This reduces the risk to each Vendor by allowing them to know	Please see Section VI, H, 1 Annual usage figures provided are estimates and are not to be construed as either a min. or max. purchase quantity. The orders shall be for the actual quantities of each item

			accurate Freight Costs to include in the bid. These 2022 locations by District and by Product were not given in Attachment C as indicated.	ordered by or for any agency during the life of contract. For estimated usage, please see revised Attachment A.
