

**ADDENDUM ONE  
QUESTIONS and ANSWERS  
6687 OF**

Date: 04/22/22

To: All Bidders

From: Christie Kelly, Procurement Contract Officer  
AS Materiel State Purchasing Bureau (SPB)

RE: Addendum for Invitation to Bid (ITB) Number 6687 OF for Truck towed Attenuators to be opened on May 2, 2022, at 2:00 p.m. Central Time

Following are the questions submitted and answers provided for the above-mentioned ITB. The questions and answers are to be considered as part of the ITB. It is the Bidder's responsibility to check the SPB website for all Addenda or Amendments.

<u>Question Number</u>	<u>ITB Section Reference</u>	<u>ITB Page Number</u>	<u>Question</u>	<u>State Response</u>
1	VI.E.1. b.	23	The specification states that the attenuator will use "Replaceable cartridge(s) design". The TTMA-200 uses an open frame design with replaceable bursting tubes, that do not require the need for cartridges. This system has been tested under 2016 MASH TL-3 and has received an FHWA Letter of Eligibility. Will this be acceptable, to the State of Nebraska, as an approved alternative to the use of cartridges?	Per <b>ITB 6687 OF, Section VI, Subsection A. VENDOR INSTRUCTIONS</b> "Vendor must respond to each of the following statements. Specifications listed are minimum conditions that must be met in order for a Vendor to qualify for the award.  <b>"NO &amp; PROVIDE ALTERNATIVE"</b> responses should be used only with a narrative response in the "NOTES/COMMENTS" section explaining in detail any deviation from the Vendor's ability to meet the condition, and an explanation of how this would be determined to be an acceptable alternative to meeting the condition. Alternatives must be detailed in such a way that allows such deviations to be fully evaluated. The State shall determine at its sole discretion whether or not the Vendor's alternative is an acceptable alternative.

This Addendum will become part of the ITB and should be acknowledged with the ITB.
