	Comments			<p>Section II. N. Rejected Section VI. C. 1. Intoxilyzer 800 - The Intoxilyzer 800 is the latest Preliminary Breath Testing Device in the market. The Intxilyzer 800 offers many advanced and unique features not available in older models - such as the SAFE SANITARY SIDE EXHAUST (SSSE). The SSSE feature provides enhanced officer safety against the potential harmful exhaled breath of the subject. A list of unique Intoxilyzer 800 features is included as an attachment to this bid response.</p>			
	Comments			<p>The Intoxilyzer 800 meets or exceeds all three of the above listed technical specifications. The Intoxilyzer 800 can be used by either the left or right hand while safely positioned in front of the subject. As mentioned previously, the SSSE directs the exhaled breath safely away from the operator performing the test. The Intoxilyzer 800 incorporates a large bright multicolor graphic display for easy visibility in all light conditions. Section VI. E. The Intoxilyzer 800 meets or exceeds all seven of the above listed technical specifications.</p>
