Re: Proposal #1

Dear Dianna:

Spectrum Enterprise¹ (“Spectrum”) offers this Proposal #1 for your consideration, highlighting the benefits of adding network solutions to your existing services. Our proposal demonstrates Spectrum’s ability to continue to provide innovative technology enhancements that will keep State of Nebraska Department of Administrative Services, Office of The CIO on the cutting edge.

As an existing Spectrum customer, State of Nebraska Department of Administrative Services, Office of The CIO will continue to enjoy best-in-class services and be in a better position to seamlessly integrate new services into your telecommunications inventory.

Growing our partnership ensures State of Nebraska Department of Administrative Services, Office of The CIO continues to benefit from a strong telecommunications foundation, and maximizes your ability to create new opportunities and drive innovation in your community.

This Proposal #1 addresses service locations to which Spectrum can provide services directly, without the use of a third-party service provider (such locations, “Type I Service Locations”). Spectrum’s separate Proposal #2 addresses service locations for which a third-party service provider is involved in the provision of Spectrum’s services (such locations, “Type II Service Locations”). Spectrum has structured its proposals in this manner so that Nebraska can accept Proposal #1, Proposal #2, or both.

Thank you for the opportunity to respond to your Request for Proposal (“RFP”). Collin Perry is leading Spectrum’s effort. Please do not hesitate to contact Collin at (314)-330-4229 or collin.perry@charter.com.

Sincerely,

DocuSigned by:

SE666EB99339472...

Nicholas Seelman
Vice President, Deal Capture and Compliance Management

¹ Spectrum Enterprise is a commercial brand of Charter Communications, Inc. The legal entity submitting this proposal is Charter Communications Operating, LLC, a subsidiary of Charter Communications, Inc.

Spectrum Service Proposal	22
Form A Contractor Proposal Point of Contact.....	20
Request For Proposal For Contractual Services Form.....	21

TERMS OF OFFER

This proposal alone shall not be considered an acceptance of an offer by State Of Nebraska Department of Administrative Services, Office of The CIO (“Customer”) or otherwise be sufficient to create a binding contract between State Of Nebraska Department of Administrative Services, Office of The CIO and Spectrum. Such contract shall be deemed entered into once the parties execute the appropriate contract document(s).

Spectrum’s bid is based upon services being delivered under the terms of the State of Nebraska Request for Proposal For Contractual Services, Solicitation Number 6837 Z1 with a Release Date of November 16, 2023, and State of Nebraska Master Agreement Revision #5 For High-Speed Transport Services For Network Nebraska RFPs 2020-2023 (including the documents referenced therein as forming part of the contract) (collectively, the Agreement).

In the event only a portion of Spectrum’s proposal is accepted, Spectrum reserves the right to further negotiate the terms of such partial acceptance prior to final bid award acceptance by Spectrum.

In the event of a bid award to Spectrum by State of Nebraska Department of Administrative Services, Office of The CIO based on this proposal, if the full Agreement is not executed by the applicable Federal Communications Commission (“FCC”) submission deadline due to delays in negotiation, and the parties have not terminated such negotiations, then for purposes of FCC rules and related Universal Service Administrative Company (“USAC”) requirements, an agreement incorporating the terms of the Agreement, and the bid locations, services, bandwidth capacities, and pricing contained in this proposal will be deemed to exist.

The terms of this proposal are confidential and should not be disclosed directly or indirectly to any third party, except as may be required by law.

The qualifications stated herein apply to all parts, provisions, and documents of the RFP and Spectrum’s response, regardless of whether an explicit exception or qualification is taken thereto by Spectrum.

TERMS AND ABBREVIATIONS

Technology evolves at a rapid pace and Spectrum stays on the cutting edge of that evolution. The terms used to describe specific technologies or services are sometimes cumbersome and become abbreviated for colloquial use. We have provided a list of the terms used throughout this proposal and their corresponding abbreviations for your convenience. Capitalized terms used but not defined herein shall have the meanings assigned in the Agreement.

ENTERPRISE AND STRATEGIC MARKETS NETWORK OPERATIONS CENTER	ESM NOC
SERVICE LEVEL AGREEMENT	SLA

EXECUTIVE SUMMARY

Spectrum is pleased to provide this response illustrating our ability to provide State of Nebraska Department of Administrative Services, Office of The CIO with network solutions. We take pride in being an innovative resource for businesses, schools and communities. Our reliable and economical service is a natural fit with your mission.

Bring Advanced and Affordable Technology to Your Schools and Libraries

Advanced network solutions and computing technologies in the classroom have become vital to education. Unfortunately, today's challenging economic environment has put education and technology budgets under tremendous pressure. It is a challenge for schools to get access to technologies that help drive greater student achievements.

The Federal Government created the E-Rate program to help fund communications services for schools and libraries. This program offers 20-90 percent off standard retail rates on qualified communications services to eligible schools, libraries, and their districts. Technology and education have converged, and your communications needs are growing rapidly.

Spectrum's Solution

Since 1998, Spectrum has worked with thousands of E-Rate accounts. Our experience in this area will provide E-Rate specialists who understand:

- ▶ rules and regulations to participate in the program
- ▶ billing and standard discounts

Federally funded E-Rate discounts have made today's technology more affordable.

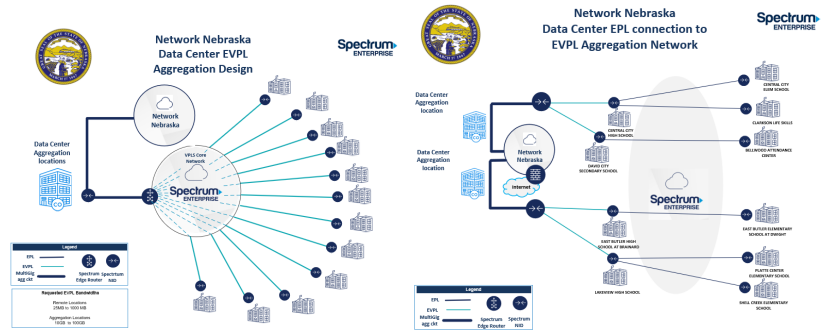

Spectrum will connect to three major aggregation points using EVPL and EPL technologies as illustrated in the diagrams below. This will support the over 300 fiber Ethernet circuits, either directly handed off to Network Nebraska equipment at the aggregation points or sub-aggregated at Educational Service Units.

The objective of Spectrum's solution is to provide cost-effective, scalable, and flexible high-speed Ethernet data transport services that meet the current and future telecommunications requirements of Network Nebraska and its eligible entities.

For Appendix A and C, Spectrum is proposing EVPL as requested by the State of Nebraska. This connectivity will pass through Spectrum's network and terminate at the selected aggregation locations using point-to-multipoint (EVPL) connectivity. Spectrum's solution will ensure scalability to support all circuits transmitting at full duplex at the subscribed bandwidth without oversubscription.

For Appendix D, Spectrum's Enterprise Fiber Internet Access (FIA) will deliver dedicated symmetrical connectivity with high-bandwidth upload and download capabilities. FIA operates on Spectrum's fiber-rich network, providing a continuous link between the local area network (LAN) and the internet. The service is proactively

monitored 24/7/365 to ensure availability, and it offers symmetrical bandwidth speeds of up to 100 Gbps.

Get Powerful Services with the Financial Benefits of E-Rate

Research shows that technology use is a top-five indicator of better discipline, better attendance, and increases in college enrollment. Educational organizations are leveraging E-Rate by partnering with Spectrum to reduce cost and implement technology for greater student achievement.

Unsurpassed Expertise and Customer Support

A network of specially trained, industry experts support Spectrum. We have around-the-clock, U.S. based business support centers and knowledgeable, locally based technicians who are specifically trained to help with your unique needs. Our dedicated work ethic, shared knowledge, and proprietary systems allow us to ensure that the solutions we are proposing will match your specific and discrete needs.

When you collaborate with Spectrum for network solutions, we assign a dedicated account team who will support your services:

- ▶ **Account Executive:** a dedicated, local market expert who is available for your consultation needs.
- ▶ **Sales Engineering:** trained technical experts who customize designs based on your needs.
- ▶ **E-Rate Specialists:** experienced with E-Rate rules and regulations and are billing and standard discounts experts.
- ▶ **Project Management:** customer focused experts who manage your build and communicate with you every step of the way.
- ▶ **Account Manager:** your point of contact; responsible for providing you with accurate billing and consultation on future growth needs.
- ▶ **Enterprise Network Operations Center:** 24/7 facilities that continuously monitor the network.

Customers have direct access to our Government Subsidized Programs (“GSP”) department which specializes in government funded EVPL programs for eligible customers.

To support E-Rate program participation, Spectrum:

- ▶ Provides to the Customer an FCC Form 471 Funding Recommendation Letter after the FCC Form 470 and awarded Agreement review.

- ▶ Reviews FCC Form 471 for possible errors and omissions and distributes to the Customer accompanying Receipt Acknowledgement Letter (“RAL”) Modification recommendation necessary to maximize eligible funding.
- ▶ Monitors Service Provider Invoicing (“SPI”) invoice submissions and SPI discount application (FCC Form 474).
- ▶ Will be available to address program questions or concerns via email.

Continuity Plan

As your incumbent provider, Spectrum has developed this proposal based on our experience and understanding of your requirements. By choosing once again to collaborate with Spectrum, you will be choosing a vendor with the proven infrastructure and experienced team currently in place to support the provision of services under the E-Rate program. Spectrum’s objective is to continue our partnership with you while continuing to focus on responsiveness, transparency, and continuity of services. With that focus we have developed our response to the RFP, and Spectrum is excited to have the opportunity to expand our relationship with State of Nebraska Department of Administrative Services, Office of the CIO.

Fiber Internet Access

Count on the reliability, bandwidth and speed of a dedicated internet connection.

Today's organizations depend on high-performing internet solutions to keep critical applications running and business operating. A dependable internet connection ensures high performance for your network resources, allowing you to better serve employees and customers.

Spectrum Enterprise Fiber Internet Access (FIA) is a dedicated service that offers reliable connectivity nationwide with performance and support you can count on. Delivering scalable internet access, we offer 99.99 percent service availability all the way to the equipment at your location.

Product highlights

- **Superior performance:** Improves business productivity through a high-performing internet service that ensures reliable connectivity.
- **Scalability and reach:** Provides a scalable platform with national reach and dense metro coverage to support current and future bandwidth needs.
- **Business continuity:** Allows for optional solutions to support internet uptime in the event of a disruption.
- **End-to-end support:** Provides a single, nationwide contact point for services and support including in-building connections to your equipment.
- **Value:** Offers cost-effective, straightforward pricing.

Key features

- A dedicated connection that is not shared with others, delivered over a reliable, advanced fiber network.
- Service-level agreement (SLA) guarantees service availability while also assuring low latency, jitter and packet loss all the way into the client suite.
- Symmetrical access that scales up to 100 Gbps.
- 24/7/365 U.S.-based support and local technicians.
- Automatic wireless backup option provides seamless failover and failback functionality with battery backup and unlimited data.
- Multiple physical diversity and redundancy options to help protect your network.

FIA technical specifications

Network

- IP over IEEE 802.3-based, full-duplex, non-circuit switched services.
- Provisioned via our advanced fiber network from the client premises to one of many hub locations throughout the Spectrum Enterprise network footprint.
- Built-in network redundancy provides highly reliable and secure internet access.
- Fiber access circuits are unaffected by electromagnetic interference.

Routing

- Static or border gateway protocol (BGP) traffic routing options.

Internet access demarcation

- Fiber connections to the Spectrum Enterprise network are monitored 24/7/365 via a dedicated network interface device (NID).
- Traffic is securely routed over the Spectrum Enterprise IP network until it is delivered to the internet.
- Demarc extensions included for most buildings in footprint.

Static IP addresses:

- Initial IP block is included.
- Additional IP address space available upon request.
- Support for dual stacking of IPv4 and IPv6.

Optional services

Enhance FIA with a suite of technology services designed to protect, simplify and improve the performance of your network.

- **Wireless Internet Backup:** Get automatic wireless internet failover and failback service that is managed for you.
- **Wireless Internet:** Provide primary or secondary internet access over LTE Advanced technology with this all-inclusive wireless internet service.
- **Managed Network Edge:** Simplify the deployment and management of your network with this modular, all-in-one solution. Delivered over the Cisco Meraki platform, the solution offers security, routing, SD-WAN, WiFi, switching and cameras. Achieve flexibility and scalability with connectivity, equipment and network management from a single partner.
- **Managed SD-WAN:** Achieve greater visibility and control with a complete, virtualized WAN service that allows for application-aware routing while reducing network complexity and cost.
- **Managed Router Service:** Efficiently route traffic and improve bandwidth use without investing in hardware or day-to-day management.
- **Managed Security Services:** Protect your network with a fully managed solution that offers a firewall and unified threat management (UTM), intrusion detection and prevention, anti-malware, anti-virus, event log management and more.
- **DDoS Protection:** Guard against malicious volumetric attacks designed to overload your network with world-class distributed denial of service (DDoS) threat identification and mitigation.
- **Managed WiFi:** Meet customer demands for reliable connections to the internet with ubiquitous coverage across your facilities and 24/7/365 support.

About Spectrum Enterprise

Spectrum Enterprise, a part of Charter Communications, Inc., is a national provider of scalable, fiber technology solutions serving America's largest businesses and communications service providers. The broad Spectrum Enterprise portfolio includes networking and managed services solutions: Internet access, Ethernet access and networks, Voice and TV solutions. Spectrum Enterprise's industry-leading team of experts works closely with clients to achieve greater business success by providing solutions designed to meet their evolving needs. More information about Spectrum Enterprise can be found at enterprise.spectrum.com.

Not all products, pricing and services are available in all areas. Pricing and actual speeds may vary. Restrictions may apply. Subject to change without notice. ©2021 Charter Communications. All rights reserved.

Fiber Internet Access (FIA)

For businesses with high-bandwidth requirements, Spectrum Enterprise Fiber Internet Access (FIA) offers continuous, protected connectivity between your LAN and the internet.

As an alternative to traditional high-speed data connections, FIA provides symmetrical connectivity for businesses that need high-bandwidth upload capability. Your FIA service runs on our redundant and private end-to-end fiber network.

Your FIA service is proactively monitored 24/7 to verify uptime and availability. Our industry-leading service-level agreements ensure optimal network performance and availability for your mission-critical operations.

Network

Our FIA is IP over IEEE 802.3-based full duplex non-circuit switched services. FIA is provisioned on dedicated, fiber optic facilities from the client's premise to the Spectrum Enterprise hub site and is terminated at the Ethernet aggregation switch with options up to 100 Gbps. Spectrum Enterprise FIA service has been architected to have multiple routing paths over multiple, redundant network elements in the core network. The fiber access circuit is not susceptible to electromagnetic interference and is a highly reliable infrastructure.

Internet access demarcation

The client is responsible for the LAN infrastructure and configuration, including the physical connection to the router. Fiber connections to the Spectrum Enterprise network are managed by a dedicated router. All traffic is routed over the Spectrum Enterprise IP network until the traffic is required to travel to the public network.

Routing

Routing options are provided through LAN, static routing or Border Gateway Protocol (BGP). BGP routing can be used for dynamic routing of information between different administrative routing domains without passing explicit topology details.

About Spectrum Enterprise

Spectrum Enterprise, a part of Charter Communications, Inc., is a national provider of scalable, fiber technology solutions serving many of America's largest businesses and communications service providers. The broad Spectrum Enterprise portfolio includes [networking and managed services solutions](#): [Internet access](#), [Ethernet access and networks](#), [Voice](#) and [TV solutions](#). The Spectrum Enterprise team of experts works closely with clients to achieve greater business success by providing solutions designed to meet their evolving needs. For more information, visit enterprise.spectrum.com.

Static IP addresses

IP address space is included; more is available in accordance with ARIN IP allocation policies.

Billing and technical support

Spectrum Enterprise provides assistance in trouble reporting for any billing, technical or FIA service-related issues.

Network monitoring

Spectrum Enterprise monitors all internet routes 24/7 by polling the network devices every 5 minutes. Polling data includes registration failure, port down status and power failure. Real-time alarms are sent directly to the Commercial Network Operations Center. Our tools provide tests that are performed from various locations and keep both external and internal components under constant surveillance.

Site access

The client must provide access to its site to Spectrum Enterprise personnel (or approved contractors) for the purposes of installing or maintaining its services. This includes access to buildings and point of demarcation (switch/router) for service installation and maintenance. For maintenance purposes, the CPE should be located in an area where it can be accessed by Spectrum Enterprise technicians. If the equipment is not accessible, then the client must provide access for troubleshooting and/or maintenance purposes.

Service-level agreement

The Spectrum Enterprise Fiber Internet Access service-level agreement contains parameters that include network availability, latency, packet loss and mean time to restore – key metrics to discover and help prevent downtime.

DDoS Protection Service

Spectrum Enterprise has the ability to rapidly respond to volumetric DDoS attacks on an FIA connection. This client-initiated mitigation is designed to reduce disruptive impacts to customers and employees due to malicious attacks.

Ethernet Services

Transform your network with high-performance Ethernet

Public and private cloud services, unified communications and collaboration solutions, network and application security, big data and analytics, mobility and the Internet of Things (IoT) are all accelerating the transformation of wide area networks (WANs). As the WAN evolves, modern networking solutions, such as Ethernet, deliver the enhanced performance and security that enterprises demand.

Organizations are modernizing their networks with new technologies, deploying cloud-first strategies, embracing multi-cloud connectivity and enabling hybrid networking to bring their IT strategy to life.

With speeds up to 100 Gbps, our Ethernet Services provide secure, reliable connectivity to power cloud-based applications. Spectrum Enterprise is a nationwide network partner that can connect your locations throughout the U.S., empowering you to leverage bandwidth-intensive applications and fortify business continuity plans. Backed by an end-to-end service-level agreement (SLA) all the way into your suite, our Ethernet Services simplify your network infrastructure.

Partner with an experienced provider that can put your organization's network modernization on the fast track. Committed to your success, our expert network engineers work with you to design a tailored solution. We provide you with a dedicated project manager to oversee a seamless installation with 24/7/365 support, and a client services manager will ensure any issue resolution. Furthermore, our portal gives you the network visibility required to ensure a positive experience for your organization.

Product highlights

Superior performance

Accelerate the capabilities of your mission-critical applications with SLA-backed services and integrate your network with public and private clouds.

National reach

Easily add new locations with our dense metro fiber coverage and nationwide reach supported by more than 230,000 fiber-route miles.

Inherently secure

Rely on a private native Ethernet network to connect your locations and use additional VLANs to further isolate traffic.

Simple management

Reduce IT complexity with end-to-end support from a network partner you can trust to design and manage your high-performing network.

Spectrum Enterprise is recognized as a top U.S. Ethernet services provider by leading industry analyst firms.¹

Award-winning Ethernet Services

Scalable, secure connections linking your users, locations and the cloud

Spectrum Enterprise Ethernet Services

Private WAN connectivity protects network locations from external threats, like DDoS attacks, while supporting low latency and high-bandwidth applications.

Take your performance further with additional services

Cloud Connect

Extend your network with fast, secure and dependable private Ethernet connections to public cloud service providers.

Fiber Internet Access

Achieve dedicated internet connectivity with symmetrical upload and download speeds and bandwidth up to 100 Gbps.

Managed WiFi

Meet customer demands for reliable connections to the internet with ubiquitous coverage across your facilities and 24/7/365 support.

Managed Router Service

Efficiently route Ethernet, internet and other network traffic with a variety of protocols and improve bandwidth utilization without investing in hardware or day-to-day management.

1. "Year-End 2021 U.S. Carrier Ethernet Services LEADERBOARD," December 31, 2021.

ETHERNET PRIVATE LINE OVERVIEW

For businesses with two locations, Ethernet Private Line (EPL) is a cost-effective, high-capacity solution. EPL reliably connects Customer Premises Equipment (CPE) with a lower-cost User-to-Network Interface (UNI), making it a smart replacement for traditional TDM private line service.

EPL can instantly and privately transmit mission-critical data at speeds from 10 Mbps to 10 Gbps. And Ethernet Private Line dedicated point-to-point connectivity supports metro and national business applications including online backup, storage area networking, and data center connectivity.

[EPL product highlights](#)

- ▶ **Privacy:** All data travels within the secure domain of a Layer 2, dedicated, high-capacity, point-to-point connection, at native Ethernet speeds.
- ▶ **Availability:** Easily link business locations in geographically dispersed areas.
- ▶ **Cost Savings:** You can connect your business's Customer Premises Equipment (CPE) with a lower-cost Ethernet interface.
- ▶ **Standards-Based:** Depend on Ethernet Private Line (EPL) with our MEF CE 2.0 Certifications.

ETHERNET VIRTUAL PRIVATE LINE OVERVIEW

For businesses with a headquarters office and branch locations, Ethernet Virtual Private Line (EVPL) provides essential high-speed point-to-multipoint connectivity. EVPL helps multi-location companies streamline network management with configuration options to support your offices.

EVPL provides an Ethernet Virtual Connection (EVC) between three or more locations, similar to Ethernet Private Line service. But it also permits multiplexing multiple services (EVCs) on a single User-to-Network Interface (UNI) at your hub or aggregation site.

EVPL benefits

- ▶ **Privacy:** All data travels within the secure domain of a Layer 2, dedicated, high capacity, point-to-point connection at native Ethernet speeds.
- ▶ **Single Interconnection:** A hub aggregates all data traffic on a single network between one central location, or data center, and smaller locations.
- ▶ **Standards-Based:** Depend on EVPL with our MEF CE 2.0 Certifications.
- ▶ **Traffic Separation:** Maintain discrete pathways when you consolidate previously separate domains for specific applications or departments onto a single network.
- ▶ **Cost Savings:** A single handoff reduces network equipment and management costs.

Ethernet Services

Spectrum Enterprise Ethernet Services provide best-in-class MEF CE 2.0 certified, high-speed Ethernet Services for business connectivity across the Metro or nationwide.

Our Ethernet includes MEF Carrier Ethernet 2.0 defined E-Line and E-LAN services, providing point-to-point Ethernet Private Line (EPL), point-to-multipoint Ethernet Virtual Private Line (EVPL) and multipoint-to-multipoint Ethernet Private LAN (EP-LAN) service configurations. Each is a carrier-grade Layer-2 transport service where frames/packets are transported and delivered over Spectrum Enterprise's advanced optical fiber network, making it possible to meet bandwidth demands with cost effective, scalable alternatives to legacy connectivity solutions such as TDM, SONET, ATM and Frame Relay.

Overview

Spectrum Enterprise Ethernet Services are an end-to-end network solution that allows businesses to attach their LAN to a User-Network Interface (UNI) using a standard copper or fiber Ethernet interface to access Spectrum Enterprise Ethernet Services.

Our Ethernet Services are available in multiple standard bandwidth tiers up to 100 Gbps and suitable for all businesses including financial, healthcare, education, government, IT, retail, real estate, legal, media and many other verticals.

Spectrum Enterprise Ethernet Services deliver Layer 2 (VLAN) connectivity which can support higher layer applications (i.e., IP Layer 3 and above) and other services such as:

- Site-to-site access/transport (Layer 2, Layer 3).
- Internet access.
- Server farm consolidation and virtualization.
- Business continuity/disaster recovery.
- Cloud-based business applications.
- Distributed Storage Area Networks (SAN).
- Voice over IP (VoIP).
- Video and digital imaging distribution (streaming/interactive).

Service specifications

Spectrum Enterprise Ethernet Services are MEF CE 2.0 certified for all eight service types, CoS (Class of Service) and all Performance Tiers (PT). The following section outlines the standards associated with the services that Spectrum Enterprise will market and support as part of their suite of Ethernet Services.

Each of the following service attributes is common to all Spectrum Enterprise Ethernet Services. Each parameter meets or exceeds those outlined by MEF CE 2.0.

- More specific details for each of the services can be found in the Service Types section of this document.

UNI (User-to-Network Interface)

All Spectrum Enterprise Ethernet Services utilize a MEF CE 2.0 certified Ethernet Network Interface Device (NID) as the demarcation point between Spectrum Enterprise and the client. The Spectrum Enterprise NID provides bidirectional, full duplex transmission of Ethernet frames using a standard IEEE 802.3 Ethernet (UNI) that also provides the ability to manage and monitor the performance of Ethernet Services.

Spectrum Enterprise supports multiple types of UNIs by which to interconnect clients. Figure 1 outlines the Spectrum Enterprise-supported physical UNIs along with the recommended bandwidths:

Figure 1: Spectrum Enterprise-supported physical UNIs

UNI physical interface	UNI speed	Cable types	Supported standard service bandwidths
100BASE-T (FastE)	100 Mbps	Category 5e (Cat5e) Category 6 (Cat6) or optical fiber	512 Kbps up to 100 Mbps
1000BASE-T (GigE)	1 Gbps	Category 5e (Cat5e) Category 6 (Cat6) or optical fiber	Up to 1 Gbps
1000BASE-SX 100BASE-LX 1000BASE-SR (1 Gig)	1 Gbps	Optical-Fiber MMF, SMF	Up to 1 Gbps
10GBASE-SR 10GBASE-LR (10 Gig)	10 Gbps	Optical fiber MMF, SMF	Up to 10 Gbps
40GBASE-SR4 40GBASE-LR4 (40 Gig)	20 Gbps, 30 Gbps or 40 Gbps	Optical fiber MMF, SMF	Up to 40 Gbps
100GBASE-SR10 100GBASE-SR4 100GBASE-LR4 (100 Gig)	20 Gbps, 30 Gbps, 40 Gbps, 50 Gbps, 60 Gbps, 70 Gbps, 80 Gbps, 90 Gbps or 100 Gbps	Optical fiber MMF, SMF	Up to 100 Gbps

UNI mode (speed and duplex)

Spectrum Enterprise Ethernet Services allow clients to choose their method of interface speed settings. By default, all Spectrum Enterprise UNIs are set for Auto-Negotiation, which allows for automatic determination of speed between the client Ethernet interface and the UNI.

The chart below outlines the available UNI-Speed and Duplex options:

Figure 2: All Spectrum Enterprise UNI interfaces are set to Full Duplex. This allows the client to transmit data in both directions simultaneously.

UNI physical interface	UNI setting options	Duplex setting
100BASE-T (FastE)	Auto-negotiation or hard coded (100 Mbps)	Full Duplex
1000BASE-T (GigE)	Auto-negotiation or hard coded (1 Gbps)	Full Duplex
1000BASE-SX 100BASE-LX 1000BASE-SR (1 Gig)	Auto-negotiation or hard coded (1 Gbps)	Full Duplex
10GBASE-SR 10GBASE-LR (10 Gig)	Auto-negotiation or hard coded (10 Gbps)	Full Duplex
40GBASE-SR4 40GBASE-LR4 (40 Gig)	Auto-negotiation or hard coded (40 Gbps)	Full Duplex
100GBASE-SR10 100GBASE-SR4 100GBASE-LR4 (100 Gig)	Auto-negotiation or hard coded (100 Gbps)	Full Duplex

Maximum number of UNIs

Spectrum Enterprise Ethernet Services support a specified number of UNIs (client locations) for each of its service types.

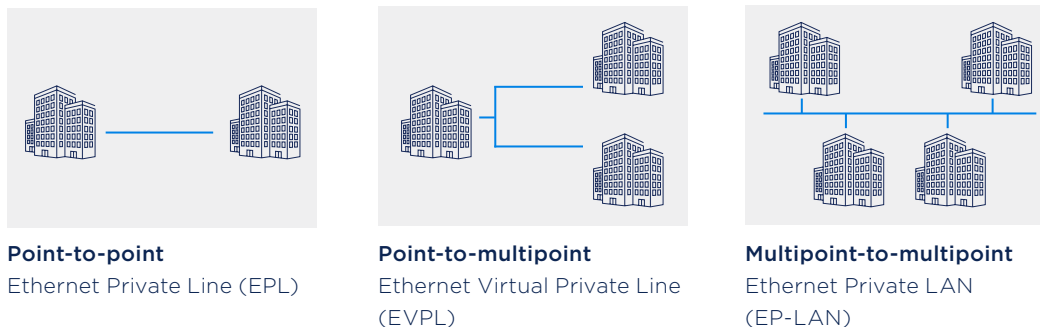

Figure 3: Spectrum Enterprise supported UNI quantities

Service type (EVC type)	Maximum # of UNIs
EPL (point-to-point)	2
EVPL (point-to-multipoint)	120 (depends on multiplexed UNI speed)
EP-LAN (multipoint-to-multipoint)	120

Ethernet Virtual Connection (EVC)

Ethernet Virtual Connection (EVC) is a MEF defined Layer 2 bridging architecture that associates two or more UNIs. Spectrum Enterprise Ethernet Services will provision three EVC types:

Figure 4: MEF CE 2.0 - Certified topologies for any business

EVCs per UNI

Each of the Spectrum Enterprise Ethernet Services will support the maximum number of EVCs outlined here:

Figure 5: Spectrum Enterprise EVC maximums

Service type (EVC type)	Maximum number of EVCs
EPL (point-to-point)	1
*EVPL (point-to-multipoint)	32 (service multiplexed)
EP-LAN (multipoint-to-multipoint)	1

* Ethernet Virtual Private Line (EVPL) is a Hub and Spoke architecture. The number of EVCs that can be 'Service Multiplexed' on a UNI port is determined by the UNI speed and aggregate service bandwidth.

MAC addresses

Spectrum Enterprise Ethernet Services will support 500 MAC addresses for EP-LAN.

Service Maximum Transmission Unit (MTU)

The Service MTU Frame Size is the maximum service frame size (in bytes) allowed to transmit beyond the UNI. Spectrum Enterprise Ethernet Services offer two options for MTU Frame Size:

- Standard MTU - up to 1544 bytes.*
- Jumbo MTU - up to 9000 bytes.*

The MTU applies to untagged and tagged (802.1Q VLAN) Ethernet frames. *Note: except for PON networks.

Client Edge VLANs (CE-VLAN ID)

Spectrum Enterprise Ethernet Services support untagged and tagged (802.1q VLAN) client data traffic. All Spectrum Enterprise Ethernet Services support a maximum of 4095-802.1Q VLANs per service instance.

Client VLAN preservation

All Client VLAN IDs and Priority Code Points (PCP - IEEE 802.1p) markings for CoS are transmitted through the UNIs, across the network and received at the destination unaltered by the Spectrum Enterprise Ethernet Service.

- Please note: Spectrum Enterprise reserves the right to reserve one VLAN for network management purposes, in which case that VLAN would not be available for the client's use.

Class of Service (CoS)

Class of Service (CoS) allows for the differentiation of service performance levels for different types of network data traffic. CoS is used to prioritize data traffic within the network, including the designated Ethernet Services.

As part of the MEF CE 2.0 certifications, Spectrum Enterprise Ethernet Services are certified to support multiple CoS.

Our current service offerings provide a single CoS, providing the highest service classification to our clients—free of network congestion and always available. We relay this to clients through our SLAs and defined Performance Tiers, which are defined by the geographic service area.

Clients may define internal CoS, which will be preserved through the Ethernet transport, or clients may elect to utilize Spectrum Enterprise's Managed Router Services, which have the ability to manage client's internal CoS.

Service Performance Tiers (PT)

Spectrum Enterprise Ethernet Services provide a best-in-class service offering with defined Performance Tiers (PT) to coincide with the client's geographic service area.

TECHNICAL SPECIFICATIONS ETHERNET SERVICES

Each of the defined PTs coincide with the Spectrum Enterprise service-level agreements (SLAs) Each PT Tier has a defined objective for Frame Delay (FD), Frame Loss (FL) and Frame Delay Variation (FDV).

Figure 6 provides the service PTs based on service geography:

Figure 6: SLA targets

Geography	Service availability	Frame/ packet loss	Mean time to restore ("MTTR")	Latency/frame delay (round-trip)	Jitter/frame delay variation
Metro	End-to-End \leq 99.99%	\leq 0.01%	Priority 1 outages within 4 hours	\leq 10ms	\leq 2 ms
Regional				\leq 25 ms	\leq 4ms
National*				\leq 60ms	\leq 8ms

*Includes all circuits provided by third party service providers, regardless of distance.

Ethernet frame delivery

Data frames are differentiated into three categories: Unicast Service Frames, Multicast Service Frames and Broadcast Services Frames, which are based on the destination MAC Address. Frames are categorized at the ingress UNI and must adhere to the following Spectrum Enterprise disposition rules for frame delivery:

- Delivery unconditionally - All frames are delivered to the ingress UNI(s).
- Delivery conditionally - Frames meeting the defined conditions are delivered to the egress UNI(s).

Figure 7: Spectrum Enterprise Ethernet Services adhere to the following rules for handling each type of frame:

Service frame type	Frame disposition for EPL	Frame disposition for EVPL	Frame disposition for EP-LAN
Unicast	Deliver unconditionally	Deliver unconditionally	Deliver unconditionally
Unknown Unicast	Deliver unconditionally	Deliver unconditionally	Deliver conditionally
Multicast	Deliver unconditionally	Deliver unconditionally	Deliver conditionally
Broadcast	Deliver unconditionally	Deliver unconditionally	Deliver conditionally

Bandwidth Profiles (BWP)

Bandwidth Profiles (BWP) enforce limits on bandwidth utilization according to the defined service-level agreements (SLAs) agreed upon by the client and Spectrum Enterprise. The BWP enforces the defined Committed Information Rate (CIR) agreed upon in the SLA and also specifies how excess data should be handled.

Spectrum Enterprise Ethernet Services use an ingress traffic policing policy to restrict traffic flows to the subscribed CIR. If the transmitted bandwidth exceeds the defined CIR and Committed Burst Size (CBS), the traffic will be subject to be discarded.

Layer 2 Control Protocol (L2CP) processing

Spectrum Enterprise Ethernet Services will discard, tunnel/transmit or peer/process certain L2CP service frames at each UNI location. Spectrum Enterprise adheres to the MEF policy for the disposition of L2CP service frames, which is listed below. The default disposition is to discard all client L2CP frames not tunneled/transmitted.

Figure 8: L2CP Frame disposition

L2 control protocol	Destination MAC address	Ethertype/subtype	EPL L2CP frame disposition/action	EVPL L2CP frame disposition/action	EPLAN L2CP frame disposition/action

About Spectrum Enterprise

Spectrum Enterprise, a part of Charter Communications, Inc., is a national provider of scalable, fiber technology solutions serving many of America’s largest businesses and communications service providers. The broad Spectrum Enterprise portfolio includes [networking and managed services solutions: Internet access, Ethernet access and networks, Voice and TV solutions](#). The Spectrum Enterprise team of experts works closely with clients to achieve greater business success by providing solutions designed to meet their evolving needs. For more information, visit enterprise.spectrum.com.

Not all products, pricing and services are available in all areas. Pricing and actual speeds may vary. Restrictions may apply. Subject to change without notice. ©2021 Charter Communications. All rights reserved.

SPECTRUM SERVICE PROPOSAL

Spectrum's proposal, including pricing, is subject to the following contingencies:

- ▶ Final engineering, design and site visits; and
- ▶ Acceptance of and entering into the Agreement, which shall govern the contractual relationship between the parties and the provision of the services under such contract.

The Appendixes A, C & D shall be deemed part of and incorporated into Spectrum's bid response, and is subject to Spectrum's terms, conditions, and qualifications stated herein.

Pricing is provided only for the sites shown in the Appendixes A, C & D. Pricing for additional sites shall be determined upon Spectrum's receipt of site information for the new service location, evaluation of the requested services, performance of surveys, and other information that may be required.

Pricing shown in Appendixes A, C & D are exclusive of taxes, fees and surcharges. The MRCs and OTCs are subject to taxes, fees and surcharges as described in Master Service Agreement, Section II. M, titled "Prices."

E-Rate Funding Contingency

Customer may submit service orders and the Agreement to the Schools and Libraries Division of the Universal Service Administrative Company, (i.e., the entity appointed by the Federal Communications Commission to administer the Universal Service Program with respect to Schools and Libraries (E-Rate) funding) as part of any application seeking a federal subsidy or funding.

Customer is responsible for notifying Spectrum of its election of either the Service Provider Invoice (SPI) or Billed Entity Applicant Reimbursement (BEAR) discount method by May 15th prior to the applicable funding year. Customer must complete and return an E-Rate Discount Election Form to Spectrum prior to such date, or Customer will be deemed to have chosen the BEAR discount method for the funding year.

Upon Spectrum's receipt of appropriate notice that Customer is an approved E-Rate program participant for a Service, Spectrum will invoice Customer for the Service in accordance with E-Rate guidelines and/or rules. If Spectrum invoices Customer for a Service pursuant to any E-Rate program rates, discounts or credits in advance of receiving such notice and Customer's request for E-Rate program funding is denied, limited or reduced, Spectrum will invoice Customer and Customer will pay the difference between such invoiced amount(s) and the actual amount of the charges for the Service as described in the service order. Notwithstanding anything herein to the contrary, Customer's obligations under the service order shall remain in full force and effect in the event Customer withdraws or is removed from the E-Rate program, receives E-Rate program funding that is less than Customer's requested funding amount, or is denied E-Rate program funding for any Service described in the service order. For the avoidance of doubt, Customer is solely responsible for all charges for

services, as described in the service order, that were installed prior to the E-Rate program funding year start date.

E-Rate Upgrade Path

For E-Rate eligible service locations, Customer shall have the option to add Services or, if applicable, increase speed and bandwidth during the order term of the service order, provided Spectrum is able to accommodate Customer's request. Customer will notify Spectrum of its desired additional Services or increased speed and bandwidth and shall be responsible for the corresponding increase in MRCs for such additional Services or increased speed and bandwidth, as well as construction and installation costs (if applicable). Added services may be coterminous with the initial order term of the original service order if the parties agree upon appropriate MRCs and any OTCs to account for the decreased initial order term for such additional Services. For E-Rate eligible service locations, Customer shall have the option to upgrade Services for a service location to those higher speeds/bandwidths reflected in Spectrum's proposal. In accordance with E-Rate rules, the contract that Customer files with USAC shall contain the upgrade options available to Customer during the Order Term as set forth by Spectrum in this proposal.

State of Nebraska
REQUEST FOR PROPOSAL FOR CONTRACTUAL SERVICES

SOLICITATION NUMBER	RELEASE DATE
6837 Z1	November 16, 2023
PROPOSAL OPENING DATE AND TIME	PROCUREMENT CONTACT
January 3, 2024	Dianna Gilliland/Kelly Thomas

PLEASE READ CAREFULLY!
SCOPE OF SERVICE

The State of Nebraska (State), Department of Administrative Services (DAS), Materiel Division, State Purchasing Bureau (SPB), is issuing this Request for Proposal (RFP) Number 6837 Z1 for the purpose of selecting a qualified Bidder(s) to provide high speed transport services to participants of Network Nebraska. A more detailed description can be found in Section II. The resulting contract(s) may not be exclusive contract(s) as the State reserves the right to contract for the same or similar services from other sources now or in the future.

The term of the contract will commence upon execution of the contract by the State through June 30, 2028. The Contract includes the option to renew for four (4) additional one (1) year periods upon mutual agreement of the Parties. The State reserves the right to extend the period of this contract beyond the termination date when mutually agreeable to the Parties.

ALL INFORMATION PERTINENT TO THIS REQUEST FOR PROPOSAL CAN BE FOUND ON THE INTERNET AT:
<http://das.nebraska.gov/materiel/purchasing.html>.

IMPORTANT NOTICE: Pursuant to Neb. Rev. Stat. § 84-602.04, State contracts in effect as of January 1, 2014, and contracts entered into thereafter, must be posted to a public website. The resulting contract, the solicitation, and the successful contractor's proposal or response will be posted to a public website managed by DAS, which can be found at <http://statecontracts.nebraska.gov>.

In addition, and in furtherance of the State's public records Statute (Neb. Rev. Stat. § 84-712 et seq.), all proposals or responses received regarding this solicitation will be posted to the State Purchasing Bureau public website.

The Master Agreement Revision #5 Terms and Conditions for High-Speed Transport Services for Network Nebraska RFPs 2020-2023, apply to this RFP.

Acknowledged.

GLOSSARY OF TERMS

For this section refer to the Master Agreement Revision #5 Glossary of Terms.

SPECIAL TERMS

UNI: A connection between a carrier and Network Nebraska, used to deliver one circuit/VLAN/service.

NNI: A connection between a carrier and Network Nebraska, used to deliver multiple circuits or services, with each on their own VLAN.

EPL: A point to point circuit topology, may or may not use a VLAN.

EVPL: A hub and spoke circuit topology, each circuit delivered with a VLAN tag to one NNI.

ELAN: A full mesh circuit topology, one VLAN or service label is used for all circuits in the carrier's network.

Acknowledged.

PROCUREMENT PROCEDURE

A. GENERAL INFORMATION

The Request for Proposal (RFP) is designed to solicit proposals from qualified bidders who will be responsible for providing high speed transport services for participants of Network Nebraska at a competitive and reasonable cost. Procurement procedures, terms and conditions, contractor duties and payment terms may be found in the Revised Master Agreement Revision #5.

Proposals shall conform to all instructions, conditions, and requirements included in the RFP. Prospective bidders are expected to carefully examine all documents, schedules, and requirements in the RFP, and respond to each requirement in the format prescribed. Proposals may be found non-responsive if they do not conform to the RFP or the bidder hasn't agreed to all the terms and conditions specified in the Revised Master Agreement Revision #5.

The Master Agreement Revision #5 Terms and Conditions for High-Speed Transport Services for Network Nebraska RFPs 2020-2023 apply to this RFP.

B. PROCURING OFFICE AND COMMUNICATION WITH STATE STAFF AND EVALUATORS

Procurement responsibilities related to this solicitation reside with State Purchasing Bureau. The point of contact (POC) for the procurement is as follows:

RFP Number:

Name: Dianna Gilliland/Kelly Thomas, Procurement Contracts Officers

Agency: State Purchasing Bureau

Address: 1526 K Street, Suite 130

Lincoln, NE 68508

Telephone: 402-471-4193/402-471-0974

State Purchasing - 402-471-6500

E-Mail: dianna.gilliland@nebraska.gov / kelly.thomas@nebraska.gov

State Purchasing as.materieipurchasing@nebraska.gov

From the RFP release date until the Intent to Award is issued, communication is limited to the POC listed above. The recipient of the Intent to Award may communicate with individuals the State has designated as responsible for negotiating the contract on behalf of the State. No member of the State Government, employee of the State, or member of the Evaluation Committee is empowered to make binding statements regarding this Request for Proposal. The POC will issue any answers, clarifications or amendments regarding this solicitation in writing. Only the SPB or awarding agency can award a contract. No communication or attempt to communicate with or influence any evaluator involved in this RFP is allowed.

The following exceptions to these restrictions are permitted:

Contact made pursuant to pre-existing contracts or obligations,

Contact required by the schedule of events, or an event scheduled later by the Request for Proposal POC, and

Contact required for negotiation and execution of the final contract.

The State reserves the right to reject a contractor's proposal, withdraw an Intent to Award, or terminate a contract if the State determines there has been a violation of these procurement procedures.

Acknowledged.

C. SCHEDULE OF EVENTS

The State expects to adhere to the procurement schedule shown below, but all dates are approximate and subject to change.

ACTIVITY		DATE/TIME
1.	Release Request for Proposal	November 16, 2023
2.	Last day to submit written questions – Questions must be submitted via ShareFile. ShareFile link: https://nebraska.sharefile.com/r-r40a20bd617af4fd3b355f7c5eaccc2a4	December 1, 2023
3.	State responds to written questions through RFP “Addendum” and/or “Amendment” to be posted to: https://das.nebraska.gov/materiel/purchase_bureau/bidopps.html	December 6, 2023

ACTIVITY	DATE/TIME
<p>4. Electronic Proposal Opening</p> <p>Upload electronic submission via ShareFile, per emailed instructions received after signing Master Agreement Revision #5 Acceptance Page</p> <p>ShareFile link: https://nebraska.sharefile.com/r-269b599fd69e493f98971312f1549642</p> <p>IT IS THE BIDDER'S RESPONSIBILITY TO UPLOAD ELECTRONIC FILES WITH ENOUGH AMOUNT OF TIME IN CASE OF USER ISSUE OR SOFTWARE ISSUE.</p> <p>Join Zoom Meeting https://us02web.zoom.us/j/81219441292?pwd=aWNwdVFqRHlpa2svWjhaNWpjTUNqQT09</p> <p>Meeting ID: 812 1944 1292 Passcode: 549270</p> <p>One tap mobile +13462487799,,81219441292#,,,,*549270# US (Houston) +16694449171,,81219441292#,,,,*549270# US</p> <p>Dial by your location</p> <ul style="list-style-type: none"> • +1 346 248 7799 US (Houston) • +1 669 444 9171 US • +1 669 900 6833 US (San Jose) • +1 719 359 4580 US • +1 253 205 0468 US • +1 253 215 8782 US (Tacoma) • +1 301 715 8592 US (Washington DC) • +1 305 224 1968 US • +1 309 205 3325 US • +1 312 626 6799 US (Chicago) • +1 360 209 5623 US • +1 386 347 5053 US • +1 507 473 4847 US • +1 564 217 2000 US • +1 646 931 3860 US • +1 689 278 1000 US • +1 929 205 6099 US (New York) <p>Meeting ID: 812 1944 1292 Passcode: 549270</p> <p>Find your local number: https://us02web.zoom.us/j/81219441292?pwd=aWNwdVFqRHlpa2svWjhaNWpjTUNqQT09</p>	<p>January 3, 2024</p> <p>2:00 PM Central Time</p>

<p>6. Evaluation period</p>	<p>January 8, 2024 through January 23, 2024</p>

ACTIVITY		DATE/TIME
7.	Post "Notification of Intent to Award" to: https://das.nebraska.gov/materiel/purchase_bureau/bidopps.html	January 26, 2024
8.	Contract finalization period	January 26, 2024 through February 23, 2024
9.	Contract award	February 26, 2026
10.	Contractor(s) start date	March 1, 2024

Acknowledged.

D. WRITTEN QUESTIONS AND ANSWERS

Questions regarding the meaning or interpretation of any Request for Proposal provision must be submitted in writing to State Purchasing Bureau and clearly marked "RFP Number 6837 Z1, High Speed Transport Services for Participants of Network Nebraska Questions". The POC is not obligated to respond to questions that are received late per the Schedule of Events.

Vendors should present, as questions, any assumptions upon which the bidder's proposal is or might be developed. Any proposal containing assumptions may be deemed non-responsive. Non-responsive proposal may be rejected. The contract will not incorporate any known or unknown assumptions of a bidder.

Questions should be uploaded using the following ShareFile link located at RFP Section I.C. Schedule of Events, #2

It is recommended that Bidder's submit questions using the following format.

RFP Section Reference	RFP Page Number	Question

Written answers will be posted at https://das.nebraska.gov/materiel/purchase_bureau/bidopps.html per the Schedule of Events.

Acknowledged.

E. SUBMISSION OF PROPOSALS

Bidders should submit electronic proposal which should include the completed Form A, "Contractor Proposal Point of Contact". Proposal file names should use the file name template recommended in the Master Agreement Revision #5. It is the bidder's responsibility to ensure to complete and submit the Master Agreement Revision #5 Acceptance Page with enough time for the State to provide instructions on how to electronically submit the related RFP proposal before or by the date and time indicated in the RFP Schedule of Events. Electronic proposals must be received by the State Purchasing Bureau by the date and time of the proposal opening per the RFP Schedule of Events. No late proposals will be accepted.

The Request for Proposal form may be manually signed in an indelible manner or by using DocuSign and uploaded to the ShareFile folder by the proposal opening date and time along with the bidder's Request for Proposal and any other requirements as stated in the Request for Proposal document.

It is the responsibility of the bidder to check the website for all information relevant to this Request for Proposal to include addenda and/or amendments issued prior to the opening date. Website address is as follows: https://das.nebraska.gov/materiel/purchase_bureau/bidopps.html

Emphasis should be concentrated on conformance to the solicitation instructions, responsiveness to requirements, completeness, and clarity of content. If the bidder's proposal is presented in such a fashion that makes evaluation difficult or overly time consuming the State reserves the right to reject the proposal as non-conforming.

By signing the "Request for Proposal for Contractual Services" form, the bidder guarantees compliance with the provisions stated in this RFP.

The State shall not incur any liability for any costs incurred by bidders in replying to this solicitation, in the demonstrations and/or oral presentations, or in any other activity related to bidding on this RFP.

The Cost Proposal should be presented in a separate Excel formatted file.

PROJECT DESCRIPTION AND SCOPE OF WORK

A. INTRODUCTION

The Bidder should carefully read, review, and respond with the information requested, section-by-section, in response to this RFP.

The objective of this RFP is to update and expand the statewide network that is currently in place to serve the eligible entities of Network Nebraska as defined by Neb. Rev. Stat. 86-5,100 and 79-1201.01(3). Network Nebraska is defined in Neb. Rev. Stat. 86-5,100 (LB1208, 2006). "Network Nebraska shall consist of contractual agreements with providers to meet the demand of state agencies, local governments, and educational entities. Such network shall provide access to a reliable and affordable infrastructure capable of carrying a spectrum of services and applications, including distance education across the state. Participation in Network Nebraska shall not be required for any educational entity. The Chief Information Officer shall aggregate demand for those state agencies and educational entities choosing to participate and shall reduce costs for participants whenever feasible."

Network Nebraska has grown to include 292 separate entities, and serves 99.6% of public-school districts, 100% of Educational Service Units, 100% of public colleges and universities, 54% of private colleges, 20% of private K-12 schools, and several public libraries and municipalities. Network Nebraska is jointly managed by the State of Nebraska Office of the CIO, in partnership with the University of Nebraska.

Network Nebraska is comprised of a seven-segment statewide backbone, six major aggregation points, and over 300 fiber Ethernet circuits, either directly handed off to Network Nebraska equipment at the aggregation points, or sub-aggregated at Educational Service Units. The Office of the CIO, on behalf of Network Nebraska, purchases three sources of commodity internet and two sources of commercial peering. The Network Nebraska participants may purchase their fiber Ethernet circuits either through the state contracts resulting from this and other State RFPs, or by using a local or regional procurement.

The State of Nebraska bids these services on behalf of numerous E-Rate eligible education entities and some non-E-Rate eligible entities across the State. Each E-Rate eligible entity must be allowed a reasonable duration to hold a public meeting of its administrative board to approve its purchase from the resulting state contract(s) and to file its E-Rate Form 471 prior to the national 2024 E-Rate deadline and each succeeding year to be established by the USAC. Once Intent to Award has been announced by the State, each contractor must work expeditiously toward a signed contract to allow enough time for the local approval process. Failure to reach a signed contract with the State prior to Friday, March 1, 2024, may risk negation of purchases for the July 1, 2024 through June 30, 2024 performance year.

Bid cost data will be accepted through four (4) different appendices:

Appendix A: Ethernet leased lit fiber circuits for E-Rate eligible entities and non-E-Rate eligible entities connected to Network Nebraska aggregation points

Appendix B: Ethernet fiber circuits for E-Rate eligible entities connected to an identified point B

Appendix C: Ethernet fiber circuits for non-E-Rate eligible entities connected to the University of Nebraska System aggregation points

Appendix D: Commercial internet for non-E-Rate eligible entities

Acknowledged.

B. E-RATE

The originating FCC Form 470 for this RFP can be found at <https://portal.usac.org/suite> and searching "Records > FCC Forms 470 > Funding Year 4> Nebraska > BEN 225870.

Each Bidder must have a Service Provider's Form 498 I.D. # (formerly SPIN) from the Universal Service Administrative Company (USAC) and be eligible to participate in the Universal Service Fund discount program for telecommunications services provided to the E-Rate eligible entities for the life of the contract and all applicable renewals. Bidder agrees to provide any discounts, including any accrued credits, for which the entity is eligible under the Universal Service Fund for school telecommunications services. Bidder will, at its expense, prepare, file, and continually keep current all carrier documents and reports required for the eligible entities to receive the benefit of such discounts and credits. The Bidder's Service Provider's Form 498 I.D. # (formerly SPIN) issued to bidder by the Universal Service Administrative Company should be included in the responding bid.

As required by the Federal Communications Commission (FCC), providers of eligible services must comply with the Lowest Corresponding Price (LCP) rule:

47 CFR § 54.500(f)

Lowest Corresponding Price (LCP) is the lowest price that a service provider charges to non-residential customers who are similarly situated to a particular school, library, or library consortium for similar services. (“Similarly situated” means the “geographic service area” in which a service provider is seeking to serve customers with any of its E-Rate services.)

47 CFR § 54.511(b)

Providers of eligible services shall not charge schools, school districts, libraries, library consortia, or consortia including any of these entities a price above the lowest corresponding price for supported services, unless the Federal Communications Commission, with respect to interstate services or the state commission with respect to intrastate services, finds that the lowest corresponding price is not compensatory.

The Billed Entity Applicant Reimbursement (BEAR) FCC Form 472 is filed by the applicant and approved by the service provider after the applicant has paid for services in full. The Service Provider Invoice (SPI) FCC Form 474 is filed by the service provider after the applicant has been billed for the non-discount portion of the cost of eligible services. Note: An applicant may choose its method of invoicing; the service provider cannot force applicants to use a particular method.

As required by USAC policy, the contractor must retain documents from the bidding process through ten (10) years past the last date of service. Documents may be retained in electronic format or paper. The document list includes, but is not limited to, copies of bids, signed contracts, proof of service delivery, invoices, documentation of any service down time, and any other document retention required by the FCC. The Bidder shall provide the following information in response to this RFP and must provide prior to contract award.

Service Provider’s Form 498 I.D. # (formerly SPIN): 143050436

X Bidder has read and agrees to comply.

C. NETWORK TOPOLOGY

Appendix A sites involve Ethernet connectivity from Network Nebraska participant locations to one or more of the listed core aggregation locations (below). An award will be made for each participant location to a single core aggregation location based on lowest cost. If bid pricing is identical to two or more aggregation locations, and is awarded, the specific aggregation location will be decided by the Network Nebraska engineers and communicated to the contractor(s) during the project implementation phase.

- Omaha–Peter Kiewit Institute, 1110 S. 67th Street
- Omaha-1623 Farnam LLC, 1623 Farnam Street
- Lincoln-Nebraska Hall, 901 N. 17th Street
- Norfolk - Northeast Community College, 801 E Benjamin Avenue
- Grand Island-College Park, 3180 W. Hwy 34
- Kearney-UNMC Health Sciences Education Complex, 2402 University Drive (this co-location site is not accepting additional provider equipment; only replacements for existing equipment will be allowed)
- Scottsbluff-Panhandle Research Center, 4502 Avenue I

An award will be made for each circuit in Appendix A, B, C, and D based on lowest overall cost over the 48-month initial contract term.

IMPORTANT NOTES:

1. Most services listed above will be offered to Schools and Libraries and therefore must meet E-rate guidelines for eligible services, products, service providers and contracts. All State agencies, the University of Nebraska, political subdivisions and other “eligible participants” will be allowed to purchase off the resulting contract(s).
2. There is no guarantee that any or all the institutions listed will purchase any or all of the services requested in this RFP.

3. Circuit topology must be stated on all bids on Appendix A unless specified in the appendices.
4. Network Nebraska's preferred circuit topology is an EVPL terminating to an existing, or new, NNI.
5. Circuits delivered via an ELAN will only be considered for existing UNIs.
6. If an existing ELAN circuit is to be upgraded to a speed less than 1Gbps, include non-recurring costs to groom it to an EVPL delivered to a new/existing NNI.

If an existing ELAN circuit is to be upgraded to a speed of 1Gbps or greater, the circuit must be groomed to an EVPL delivered to a new/existing NNI. Network Nebraska's seven (7) core aggregation points have specific handoff locations:

- a. Peter Kiewit Institute
University of Nebraska – Omaha
1110 South 67th Street, Room 166
Omaha, NE 68182-0694
(This location has a building supplied UPS and generator.)
- b. 1623 Farnam, LLC.
1623 Farnam Street, Suite 500
Omaha, NE 68102
(This location has a building supplied UPS and generator.)
- c. University of Nebraska Data Center
Nebraska Hall Room 230
901 North 17th Street
Lincoln, NE 68588-0521
(This location has a building supplied UPS and generator.)
- d. Northeast Community College
Union 73
801 East Benjamin Avenue, Room 283
Norfolk, NE 68701-6831
- e. College Park
3180 W Hwy 34. Room 208.5
Grand Island, NE 68801-7279
- f. UNMC Health Sciences Education Complex
2402 University Drive, Room 113
Kearney, NE 68845
(this co-location site is not accepting additional provider equipment at this time; only replacements for existing equipment will be allowed)

(This location has a building supplied UPS and generator. Due to limited space, if an order requires additional equipment, the carrier may need to groom existing circuits to the new equipment.)
- g. Panhandle Research and Extension Center
4502 Avenue I, Electrical/IT Closet
Scottsbluff, NE 69361-4939
(This location has a building supplied UPS and generator. Due to limited space, if an order requires additional equipment, the carrier may need to groom existing circuits to the new equipment.)

 X Bidder has read and agrees to comply.

D. PROJECT OVERVIEW

The objective of this RFP is to identify Contractor(s) who will design, develop, and implement high-speed data connectivity that will meet the current and future telecommunications needs of eligible participants over the term of the contract. Each Bidder will provide cost-effective, scalable and flexible high-speed data transport services that can connect eligible entities listed in Appendix A to Network Nebraska. The Bidder may bid on one, some or all of the eligible entities listed in Appendices A, B C, and D.

Each site/service will be reviewed individually. When bidding Appendix A and B locations, the Bidder must bid all costs to provide connectivity from the entity listed to at least one of the Network Nebraska aggregation points listed at the top of the Cost Proposal.

For Appendix A, and C the Bidder will include transport from the identified location with connectivity through the carriers' cloud and ending at one of the identified aggregation locations. Connectivity back to the aggregation location must have the capacity to support all eligible entities bid transmitting at full capacity at any given time; oversubscription is not permitted. A ten (10) Gigabit Ethernet interface physical hand-off is required as a minimum for the connection at the identified aggregation locations. The cost for connectivity back to the Network Nebraska core aggregation rack MUST be figured into the MRC (monthly recurring charge) for the individual sites being bid. The State of Nebraska will not accept separate costs for the aggregation ports that connect all of the eligible entities to Network Nebraska. All co-location data center cross-connect, and fiber path costs needed to provide the physical interface hand-over to Network Nebraska equipment will be the responsibility of the Bidder. A co-location space will be provided at each of the aggregation locations for the Contractor with the exception of the 1623 Farnam handoff site. Colocation fees may apply at individual locations and are the responsibility of the bidder.

For Appendix C ONLY, the listed entities will require a separate NNI from those listed in Appendix A and B. Each circuit listed in Appendix C is required to be built as an EVPL this new NNI.

For Appendix D ONLY, the listed entities are also seeking optional direct internet connectivity in addition to or instead of the ethernet circuits listed on Appendix C.

Eligible entities may include colleges, universities, state government, political subdivisions and K-12 institutions. The network design must accommodate the full implementation of Network Nebraska connections including a statewide, multi-purpose backbone.

All proposals must meet the technical requirements as stated in the RFP. The State requires the Bidder to bid a multi-purpose transport connection to interconnect the listed institutions along with the corresponding services that considers present, as well as future, state-of-the-art technologies.

 X Bidder has read and agrees to comply.

E. PROJECT ENVIRONMENT

The current project environment consists of a multi-provider, layer-2 high-speed Ethernet network of over 300 fiber circuits. Multiple provider clouds connect to the various eligible entities. Providers hand off eligible entities to Network Nebraska at one of the identified core aggregation points and the Network Nebraska MPLS backbone interconnects the core aggregation points and provides transport to at least two Internet egress points.

At each service site location, the demarcation point to the customer premise equipment will provide at least 1 (one) 20-amp outlet and sufficient rack or wall space to mount the contractor's termination equipment. Prospective bidders may request an appointment with the site contact listed in Appendices A, B, C, and D to inspect the customer premise location in order to make a more informed bid.

 X Bidder has read and agrees to comply.

F. PROJECT REQUIREMENTS

For the E-Rate eligible entities that request services from the state contracts must be converted by July 1, 2024, or if ordered in Year 2 or 3, by July 1 for each succeeding year. The circuits must be installed and tested no later than the first Friday in August 2024 and each succeeding year, however neither the State nor the participating eligible entities can incur charges on these circuits until after July 1 of the implementation year due to E-Rate. The cutover to the customer must be complete by the first Friday in August 2024 and each succeeding year or incur liquidated damages (see Section II.O. Contract Performance). Existing services must remain active until the final cutover (see Section II, G. Transition Requirement). The contractor(s) will provide a cost-effective, scalable, and flexible transport service that will be able to meet the demands of the network participants. Bidders shall identify services that are a normal part of their offering without additional fees.

The State of Nebraska reserves the right to reject proposals that attempt to substitute the contractor's commercial contracts and/or SLA documents for the State's Master Agreement, or legal and/or technical terms of this RFP.

The contractors may submit with their technical proposal any E-Rate, tax exemption, USF affidavit, user agreement, service level agreement, or similar documents that the contractor wants incorporated into the Contract. The State will not consider incorporation of any document not submitted with the contractor's proposal as the document will not have been included in the evaluation process. These documents shall be subject to review and/or negotiation and will be incorporated as addendums if agreed to by the Parties.

If a conflict or ambiguity arises after the Addendum to Contract Award has been negotiated and agreed to, the Addendum to Contract Award shall be interpreted as follows:

1. If only one Party has a particular clause then that clause shall control,
2. If both Parties have a similar clause, but the clauses do not conflict, the clauses shall be read together,
3. If both Parties have a similar clause, but the clauses conflict, the State's clause shall control.

X Bidder has read and agrees to comply.

G. TRANSITION REQUIREMENT

Upon award of replacement contract(s) to a new contractor in 2027, the awarded Contractor under this RFP shall, upon request, or until a Notice of Termination is submitted, continue providing any part or all of the services in accordance with the terms and conditions, requirements and specifications of the contract for a period not to exceed ninety (90) calendar days after the expiration or termination of the contract for a price not to exceed those prices set forth in the contract. The service will become month-to-month, if requested by the customer.

X Bidder has read and agrees to comply.

H. SCOPE OF WORK

The Contractor shall design, develop and implement a high-speed, IP-based, layer-2, Ethernet, wide area network to interconnect eligible entities as requested. The network interface to the customer's Customer Premise Equipment (CPE) must physically be Ethernet with the capability to provide multiple virtual Ethernet interfaces via 802.1Q Virtual Local Area Network (VLAN) tagging.

The network connections must be bid according to the bandwidth ranges and to the acceptable aggregation sites as stipulated in Appendices A, B, C, and D. Any circuit conversions will be performed between April 1 and July 1, 2024 and must be as transparent as possible. All of the network connections must be operational by the first Friday in August 2024 and each succeeding year.

For Appendix A, and C, each connection that is bid must be connected from the customer site demarcation to the aggregation site demarcation. The core aggregation handoff MUST have the capacity to support all eligible entities' connectivity to the core site transmitting at full purchased capacity over a single 10 Gigabit Ethernet interface. Multiple interfaces are allowed only as a redundant path for the primary connectivity. The new connectivity capacity can be aggregated at an existing "core" site interface as long as the overall capacity of the core interface is not exceeded due to the introduction of the additional remote site capacity. The State will not allow a separate cost for this "aggregation connection", that cost must be included as part of the individual site or sites being bid.

Appendices A and C may include core aggregation point choices that are "grayed out". The State will only accept bids for the bandwidths cited between the locations and the core aggregation sites that are not "grayed out". The Bidder can choose to give a price to bring the eligible entity back to any one or more of the eligible core destination locations except locations that are "grayed out" within the Appendix.

For locations where multiple speeds have been requested, the State will add the costs of all bandwidths bid to arrive at a total overall site cost that will be the basis for a lowest cost award.

All bids for a single service location to multiple aggregation points will be compared against each other. Each service location will only have one award and the State will award the lowest cost bid from that service location to one of the identified locations that meets the technical requirements as stated in the RFP. If a bidder bids identical pricing for a particular site to two or more core aggregation locations, and is awarded the site, the Network Nebraska engineers will select one of the core locations for the circuit.

The support of end-to-end customer VLANs (C-VLANs) is REQUIRED. Support can be provided either by using the IEEE 802.1ad provider bridging standard (also referred to as QinQ tunneling), or by directly bridging the customer VLANs from end-to-end, without C-VLAN modification and without provider interaction. For example, as a customer VLAN tagged packet travels from a customer to the service provider, a customer-specific 802.1Q tag is added by the provider to each packet. This additional tag is used to segregate traffic into service-provider-defined service VLANs (S-VLANs). The original customer 802.1Q tag of the packet remains and is transmitted transparently, passing through the service provider's network. The Service Provider VLAN (S-VLAN) tag is added on egress for incoming packets, optionally including untagged packets. As the packet leaves the S-VLAN in the downstream direction, the service provider 802.1Q tag is removed, leaving the original customer tag on the packet.

Eligible entities that participate and order the contracted circuits will purchase their own network equipment. The Contractor will need to work closely with these eligible entities (e.g. school districts, educational service units, libraries; etc.) to ensure that the appropriate network equipment is coordinated and ready for installation at the time the network conversion takes place.

To the extent possible, a contact person and contact information has been provided for each fiber site location. Prospective bidders may arrange mutually convenient appointments for site inspections or technical walk-throughs in order to prepare a more informed bid.

X Bidder has read and agrees to comply.

I. **TECHNOLOGY REFRESH**

The State and the Contractor will work in partnership to ensure the services provided under this contract will be continuously refreshed as technologies evolve and user needs grow. The OCIO staff, in conjunction with, or on behalf of, all other participants, will assume the primary role in seeking and proposing network enhancements that comply with FCC and E-Rate rules and policies. This technology refreshment clause will be a required condition of the contract.

The State and the Contractor may conduct an annual review of the contract to review service offerings and pricing. These reviews may result in upgrading the services provided by the Contractor to include new pricing elements or pricing modifications associated with improved economies of scale and/or technological innovations. Changes in the industry related to regulation and/or pricing mechanisms may also result in modification of rates identified in the services offered by the Contractor. These reviews will commence at the request of the State.

X Bidder has read and agrees to comply.

J. **TECHNICAL REQUIREMENTS**

The bidder must provide a network design in which:

Layer 2 (802.1q/802.1p) VLAN and QoS tags must be allowed through the provided network connection and must remain unchanged by the provider.

Ethernet frames containing a 1500-byte payload (for a total minimum supported Ethernet frame size of 1542 bytes), must be allowed and flow as a single complete frame without any fragmentation by the provider's equipment. Reference: http://en.wikipedia.org/wiki/Ethernet_frame .

Layer 2 performance must be adequate to support jitter and latency sensitive applications (i.e., video over IP).

The network interface to the customer's CPE must be an Ethernet-based handover connection. The connection must support either 802.1q tagged frames or must support 802.1ad provider bridging.; The provider must either tunnel the customer VLAN tags through the provider network or must leave the customer VLAN tags unchanged from end-to-end.

Allow participating institutions to manage their own IP address space and routing.

Performance metrics on contracted circuits must be provided to Network Nebraska staff within 24 hours of request.

Network Nebraska must be notified within 24 hours of performing QoS changes, network monitoring changes or any other network changes that may have a positive or negative effect on performance as outlined in the RFP.

The provided connection must be tested to prove performance before it will be considered complete and usable. Testing according to ITU-T Y.1564sam or RFC-2544 for performance, frame-loss and latency is preferred but detailed performance, frame-loss, latency and QOS test disclosure is also acceptable. Testing must validate the minimum frame size specified is supported.

Every connection's receive AND transmit capacity must meet or exceed the bandwidth amount that is bid. Testing must validate that capacity meets the amount purchased before the connection will be considered complete and usable. If proof of end-to-end circuit capacity and testing is not provided, circuit acceptance will be delayed until networking personnel can verify that the circuit meets requirements.

To the extent possible, existing aggregate interfaces should be prioritized and used before laterally scaling equipment.

Network Nebraska engineers can request a circuit reversion to fix issues without the need to renegotiate/renew the contract.

X Bidder has read and agrees to comply.

K. SPECIAL CONSIDERATIONS FOR APPENDIX D

The locations listed in Appendix D are requesting direct internet access either separate from or in addition to what may be listed in Appendix C. The following terms supersede the terms provided in II.H. "SCOPE OF WORK" and II.J. "TECHNICAL REQUIREMENTS" for Appendix D only.

SCOPE OF WORK FOR APPENDIX D ONLY

The Contractor shall design, develop and implement a high-speed, IP-based, layer-3, network to interconnect eligible entities as requested. The network interface to the customer's Customer Premise Equipment (CPE) must physically be Ethernet with an electrical, RJ45 connection.

The network connections must be bid according to the bandwidth. All of the network connections must be operational by the first Friday in August 2024 and each succeeding year.

For locations where multiple speeds have been requested, the State will add the costs of all bandwidths bid to arrive at a total overall site cost that will be the basis for a lowest cost award.

Eligible entities that participate and order the contracted circuits will purchase their own network equipment. The Contractor will need to work closely with these eligible entities (e.g. school districts, educational service units, libraries; etc.) to ensure that the appropriate network equipment is coordinated and ready for installation at the time the network conversion takes place.

To the extent possible, a contact person and contact information has been provided for each fiber site location. Prospective bidders may arrange mutually convenient appointments for site inspections or technical walk-throughs in order to prepare a more informed bid.

TECHNICAL REQUIREMENTS FOR APPENDIX D ONLY

- a. Ethernet frames containing a 1500-byte payload (for a total minimum supported Ethernet frame size of 1542 bytes), must be allowed and flow as a single complete frame without any fragmentation by the provider's equipment. Reference: http://en.wikipedia.org/wiki/Ethernet_frame.
- b. Layer 2 performance must be adequate to support jitter and latency sensitive applications (i.e., video over IP).
- c. The network interface to the customer's CPE must be an Ethernet-based handover connection on an electrical, RJ45 interface.
- d. Provide the customer with a publicly routed IP address.

- e. Performance metrics on contracted circuits must be provided to University of Nebraska engineers within 24 hours of request.
- f. University of Nebraska engineers must be notified within 24 hours of performing QoS changes, network monitoring changes or any other network changes that may have a positive or negative effect on performance as outlined in the RFP.
- g. The provided connection must be tested to prove performance before it will be considered complete and usable.
- h. Every connections receive AND transmit capacity must meet or exceed the bandwidth amount that is bid. Testing must validate that capacity meets the amount purchased before the connection will be considered complete and usable. If proof of end-to-end circuit capacity and testing is not provided, circuit acceptance will be delayed until networking personnel can verify that the circuit meets requirements.
- i. University of Nebraska engineers can request a circuit reprovision to fix issues without the need to renegotiate/renew the contract.

X Bidder has read and agrees to comply.

L. PROJECT PLANNING AND MANAGEMENT

The State of Nebraska acknowledges that project management and implementation procedures will require alignment and adjustment of work processes for the Contractor's organizations, the eligible entities, and the State. The alignment will be part of the contract finalization; however, the Bidder will respond to this RFP assuming the following responsibilities.

STATE OF NEBRASKA AND NETWORK NEBRASKA ENTITY MANAGEMENT STAFF

The State of Nebraska and educational entity management staff will:

- a. Provide overall project direction and management.
- b. Review and approve all project plans and deliverables.
- c. Ensure that technical assistance and support are provided during the Contractor's implementation phases and ongoing upgrade design of this project.
- d. Establish project management guidelines by meeting with the Contractor's project management team as needed.
- e. Review and approve all project specific documentation standards and requirements for the various types of reports, technical/procedural documentation, and management materials that will be produced during the project.
- f. Coordinate other resources as needed to support the implementation process.
- g. Provide on-site assistance, as needed during the implementation phases of the project.
- h. Assist the Contractor in identifying eligible participants in the network as well as establishing guidelines with the Contractor for ordering, moving, adding or changing services.
- i. Provide adequate and reasonable space for contractor equipment, including at least one single source, unprotected electrical outlet.

CONTRACTOR

The Contractor will:

- j. Coordinate and administer the requirements of the network service(s) that are proposed.
- k. Maintain a data center, or co-location, within Nebraska or a state along the contiguous border
- l. Maintain toll free lines for voice and facsimile from the State to operational facilities for order entry and after hours help desk. Installation and maintenance may be subcontracted to one or more third parties to adequately cover the locations of the core transport backbone sites and to provide for rapid response in the event of a service disruption. The Contractor will provide information regarding intent to maintain its facilities after project implementation has been completed.
- m. Maintain toll free voice lines for after-hours helpdesk support for the duration of the contract. This point of contact will serve as the single point of contact for all services and equipment provided by the contract, including services and equipment subcontracted to another vendor.
- n. Provide upon request, technical information, graphs, charts, maps, photographs, block diagrams, operating manuals, and other information that will clearly show that the services offered are in full compliance with the minimum requirements of this RFP. In the event that the documentation furnished is at variance with the requirements of this RFP, the Contractor will explain in detail, with

full engineering support data, the reasons why the proposed services meet the RFP requirements and should not be considered an exception.

- o.** Provide within thirty (30) days of work order submission (a) detailed network diagram(s) and drawing(s) that clearly illustrate the network configuration and the functional relationships, as they are associated with the proposed services. These network diagrams will be reviewed and approved by the Network Nebraska engineering teams prior to any physical installation. Network diagrams must be made available to, or transmitted to, the State electronically in a format agreed upon by the Contractor and the State (i.e. Visio or downloadable PDF) to allow for import into various computer programs.
- p.** Performance tests must be provided upon request to the Network Nebraska engineering team. Performance tests will be resubmitted to engineering team until results have been accepted.
- q.** Provide upon request, basic technical specifications for each item of equipment included in the proposal. The information to be provided will be in the form of published specification sheets or other illustrative literature.
- r.** Provide escalation lists and complete contact information.
- s.** Communicate with the onsite technology contact prior to any required construction to confirm and document the exact demarcation location and minimum point of entry for each site address.
- t.** Monitor and respond to disruptions in service to installed vendor equipment at the customer location.

If the Contractor is working with other “last mile” telecommunication providers to create an end-to-end solution, the Contractor should provide the State with technical contacts for the “last mile” provider.

If the Bidder intends to sub-contract any part of its performance hereunder, the Bidder must provide:

- 2.** Name, address, and telephone number of the subcontractor(s);
- 3.** Specific tasks for each subcontractor(s);
- 4.** Percentage of performance hours intended for each subcontract; and
- 5.** Total percentage of subcontractor(s) performance hours.

 X Bidder has read and agrees to comply.

M. SERVICE LEVEL GUARANTEES

This network must support production applications that require a high degree of reliability and must operate with little or no service disruptions for twenty-four (24) hours a day, seven (7) days a week. Contractor(s) must provide solutions with the necessary redundancy, backup systems, and/or other disaster avoidance and recovery capabilities to support these needs. Contractor(s) must have the necessary staff for the installation and maintenance of their network responsibilities and necessary staff to assist the State in its installation and maintenance of critical network services. Upon request, the contractor will provide an explanation of any redundancy that is available as part of the site/service that will assure the required availability of the services. The following maintenance specifications are required service level guarantees. The Contractor will conform to these service level agreements, which are to include details concerning restoration procedures and goals, escalation procedures, and non-conformance penalties.

The State of Nebraska reserves the right to reject proposals that attempt to substitute the contractor’s commercial contracts and/or documents for this RFP or its technical requirements.

Installation Deadline: Failure to meet the deadline dates for the deliverables as agreed upon by the parties may result in an assessment of liquidated damages equal to the difference between newly contracted monthly costs and the cost of the circuit or service being replaced, if incurred, until the deliverables are approved.

Up Time Requirement: The contract expectation is for a service that, at a minimum, will meet or exceed required specifications 99.99% of the month, not to exceed a maximum of 4.32 minutes of unscheduled downtime/service non-compliance per calendar month. Any service not meeting contract specifications which includes violation of QoS parameters will incur a contract performance penalty per the following formula:

For every hour and fraction of an hour of service violation exceeding the identified 99.99% uptime requirement, the customer will be refunded one day of service credit. Repeated violations of service performance agreements during any single calendar day will be considered a continuous event from the beginning of the original violation until the last violation. Violations on consecutive days will be considered continuous from the initial violation until the service has

been restored. The service will be considered restored when no violation has occurred for 24 continuous hours (the 24-hour validation period is not considered part of the damages). Damages duration will round up to the next whole hour. Damages per calendar month shall not exceed the total cost of the one-month MRC.

Example: Intermittent connectivity from 9:15am-2:20pm on the same day; Duration of the actual service violation would be 5 hours and 5 minutes, or 5 hours 1 minute over the maximum allowable downtime of 4.32 minutes. Violation assessment is rounded up to the next whole hour, so the duration would be considered as 6 total hours of downtime if no previous downtime had been experienced for the service in the current month, or up to X hours depending on the amount of cumulative violations experienced in the month that exceeds the 99.99% uptime requirement. This would translate to 6 days of per diem charges credited to the account. For continual or accumulated outages totaling 30 hours, 30 days of charges (one-month MRC) would be credited to the account.

Latency Requirement: The contract requirement is for an Ethernet service to have a maximum round-trip latency of 15 milliseconds.

 X Bidder has read and agrees to comply.

N. MAINTENANCE SPECIFICATIONS

When planned network maintenance activities are conducted by the Contractor which entails the risk of interrupting or diminishing service to Network Nebraska or its participants, the Network Nebraska Operations Center, noc@nebraska.edu or 1-888-638-6327 must be notified at least three (3) business days in advance of the maintenance planned. Additionally, the contractor must agree to work with the Network Nebraska Participants to find an alternate date and time of maintenance, if the proposed time would be particularly detrimental to Network Nebraska Participant needs. Mutually agreed upon maintenance activities are not considered a service violation and will not incur a service penalty.

The contractor should have in inventory the necessary spare equipment capable of restoring service in the event of contractor equipment failure. Maintenance contracts specifying next-day replacement or longer will not be considered an acceptable substitute for carrying inventory of appropriate replacement equipment.

The Contractor must operate its own Network Operations Center(s) and provide a centralized trouble reporting and maintenance system that is staffed 24 hours a day, seven (7) days a week. The Contractor shall provide sufficient staff for peak and critical hours. The Contractor shall provide Network Nebraska with a local and toll-free number for trouble reporting.

The Contractor must respond to trouble reports within one (1) hour of notification. The Contractor must also provide an escalation procedure and contact list to be used for unresolved issues, including names, titles and phone numbers of contact persons in the escalation chain. Major service-affecting problems that are not resolved within two (2) hours of time after the notification of trouble shall constitute a prolonged outage and must be escalated.

Access to performance service metrics is required, with a preference toward live metrics.

 X Bidder has read and agrees to comply.

O. IMPLEMENTATION PLAN

The Bidder may submit with its proposal response, but must provide by March 1, 2024, an implementation plan for the deployment of the services, that reflect the services to be included in the associated contract. The plan must clearly represent the constraints of time, scope and cost. At a minimum the implementation plan must include the work breakdown structure (WBS), schedule, milestones, deliverables, risk assessment, mitigation strategies, resource planning and communication plans.

The Contractor will adhere to the implementation plan for deployment of services submitted as a requirement of this RFP. The Contractor will agree to participate in pre-scheduled project management conference calls as arranged by the Office of the CIO Project Management Office.

 X Bidder has read and agrees to comply.

P. CONTRACT PERFORMANCE

If the Contractor fails to perform an obligation under the contract, the State may declare the contractor in breach and provide a right to cure. Payment will not be made for goods not delivered or services not performed, without penalty until such deficiency is cured or otherwise adjudicated.

 X Bidder has read and agrees to comply.

Q. DEPLOYMENT STATUS REPORTS

The Contractor's designated project manager will provide weekly reports of the status of any deployment schedules to the State's designated project manager. Deployment status reports will provide weekly information related to the adherence to the deployment schedule identified in Section II.E. Project Requirements, including identification of issues affecting the deployment schedule, and recommended resolution(s) to any identified barriers to network deployment.

 X Bidder has read and agrees to comply.

R. CERTIFICATION

The State requires that the Bidder be certificated or permitted by, or registered with, the Public Service Commission (PSC) to provide the services outlined in this Section of this RFP (Neb.Rev.Stat.§ 81-1120.19).

 X Bidder has read and agrees to comply.

S. COST PROPOSAL REQUIREMENTS

Proposals will address the impact of normal growth, as well as planned and unplanned network expansion or service enhancement. All prices shall be proposed as an individual location/school cost on a recurring or non-recurring basis. All bidder costs must be reflected in either the monthly recurring costs, non-recurring costs, or taxes and fees column as listed in Appendices A, B, C, and D. No additional charges will be accepted. The State shall not be required to purchase any specific service or minimum quantities of network services. The bandwidth increments provided are for the sole purpose of assisting the Bidders in preparation of their proposals and for the State to consider the feasibility of the proposed network solutions. The State shall not be responsible for any cost that is not identified in the Bidder's cost proposal. The State will not consider bids that offer conditional discounts or price structuring based upon the number of network locations that are awarded to a provider or the numbers of entities that order services.

Please display costs in the format provided in Appendices A, B, C, and D. The bid prices listed must include the cost of doing business as indicated below. Provide a cost number in the appropriate cell.

NETWORK EQUIPMENT AND HARDWARE COSTS

Network equipment and hardware (non-CPE) will be part of and included in the itemized circuit costs. Circuit costs will be bundled costs and must include all necessary components needed to utilize the circuit at the bandwidth bid.

INSTALLATION COSTS

If non-recurring installation/set-up charges are applicable, these rates shall be delineated in the cost portion of the proposal. This cost for the circuit installation shall include all one-time costs associated with termination to the demarcation point from the network side and/or fees associated with interconnection to local exchange carriers.

- a. **All fees that would be incurred for a fully functioning end-to-end connection, whether recurring or non-recurring, must be included in the cost. All cross-connect, and facilities-related charges that would be incurred to physically connect the circuit to Network Nebraska equipment on both ends must be included in the cost.**
- b. IF A BIDDER ONLY NEEDS TO INCUR ONE NON-RECURRING COST PER LOCATION IN ORDER TO ESTABLISH THE DESCRIBED SERVICES, (e.g. \$2,500 one-time NRC for all bandwidths 100Mbps to 1,000Mbps), THEN THE BIDDER SHOULD INSERT THE NRC COST ITEM ON ONLY ONE LINE (e.g. 100Mbps) AND INSERT A COMMENT INTO THAT CELL.
- c. IF A BIDDER WISHES TO CHARGE A NON-RECURRING COST EACH TIME A NEW BANDWIDTH IS ORDERED OVER THE LIFE OF THE CONTRACT, THEN AN NRC COST SHOULD BE INSERTED NEXT TO **EACH** BANDWIDTH INCREMENT.

- d. Pricing must be provided for **all bandwidth increments** for each site location, or risk being disqualified as a non-responsive or incomplete bid.

SOFTWARE, WARRANTY, AND MAINTENANCE COSTS

The Bidder will include warranty and maintenance of the provided circuits in the service rates.

QUANTITY

The State reserves the option to purchase any quantity of service in any increment proposed, and to be able to review and adjust the quantity up or down over the life of the contract term. There will be no minimum or maximum quantities imposed as a result of any contract. All State agencies, the University of Nebraska, political subdivisions and other “eligible participants” will be allowed to purchase off of the resulting contract(s).

COST PROPOSAL INSTRUCTIONS AND TABULATION FOR ALL APPENDICES.

If denoted, Column ‘F’, Circuit Topology and Column ‘G’, Circuit Handoff, is information requested by the University of Nebraska engineering team on each circuit that is bid. (See Page 3, SPECIAL TERMS)

All Appendices proposal cost for each site location will be tabulated with an intent to award made based on the SUM of the lines of the monthly recurring costs and monthly taxes/fees (if any), multiplied by the applicable length of service in months, forty-eight (48), not to include extensions, plus the addition of one-time non-recurring costs, if included. $TOTAL\ 48-MONTH\ COST = \sum [(MRC + Taxes/Fees) \times 48] + NRCs$

**If multiple NRC costs are inserted to establish service at different bandwidths, the Cost Proposal Tabulation will include the highest NRC value as a one-time build cost.

SAMPLE—Bidder ‘A’ will be compared to other bidders on School X based on overall cost of \$139,473.60 for 48 months.

Entity	Bandwidth	Bidder ‘A’ NRC	Bidder ‘A’ MRC	Bidder ‘A’ Monthly Taxes/Fees	Bidder ‘A’ 48-month Cost
School X	100Mbps	\$1,000**	\$500	\$34.75	\$25,668.00
School X	200Mbps	\$0	\$600	\$41.70	\$30,801.60
School X	300Mbps	\$0	\$700	\$48.65	\$35,935.20
School X	400Mbps	\$5,000**	\$800	\$55.60	\$46,068.80
Total					\$139,473.60
BIDDER COMMENT: \$1,000 NRC will be applied if the customer purchases 100Mbps, 200Mbps, or 300Mbps. \$5,000 NRC will only be applied when the customer purchases 400Mbps.					

 X Bidder has read and agrees to comply.

Form A
Contractor Proposal Point of Contact
Request for Proposal Number 6837 Z1

Form A should be completed and submitted with each response to this solicitation. This is intended to provide the State with information on the contractor's name and address, and the specific person(s) who are responsible for preparation of the contractor's response.

Preparation of Response Contact Information	
Contractor Name:	Charter Communications Operating, LLC
Contractor Address:	13545 Barrett Parkway Suite 200 Ballwin MO 63021
Contact Person & Title:	Collin Perry - SAM - Strategic AM Gov/Ed
E-mail Address:	collin.perry@charter.com
Telephone Number (Office):	(314)-330-4229
Telephone Number (Cellular):	
Fax Number:	

Each contractor should also designate a specific contact person who will be responsible for responding to the State if any clarifications of the contractor's response should become necessary. This will also be the person who the State contacts to set up a presentation/demonstration, if required. It is the responsibility of the contractor to contact the State when this information changes.

Communication with the State Contact Information	
Contractor Name:	Charter Communications Operating, LLC
Contractor Address:	13545 Barrett Parkway Suite 200 Ballwin MO 63021
Contact Person & Title:	Collin Perry - SAM - Strategic AM Gov/Ed
E-mail Address:	collin.perry@charter.com
Telephone Number (Office):	(314)-330-4229
Telephone Number (Cellular):	
Fax Number:	

BIDDER MUST COMPLETE THE FOLLOWING

REQUEST FOR PROPOSAL FOR CONTRACTUAL SERVICES FORM

By signing this Request for Proposal for Contractual Services form, the bidder guarantees compliance with the procedures stated in this RFP and agrees to the terms and conditions unless otherwise indicated in writing and certifies that contractor maintains a drug free workplace.

The Master Agreement Revision #5 Terms and Conditions for High-Speed Transport Services for Network Nebraska RFPs 2020-2023 apply to this RFP.

Per Nebraska’s Transparency in Government Procurement Act, Neb. Rev Stat § 73-603 DAS is required to collect statistical information regarding the number of contracts awarded to Nebraska Contractors. This information is for statistical purposes only and will not be considered for contract award purposes.

_____ NEBRASKA CONTRACTOR AFFIDAVIT: Bidder hereby attests that bidder is a Nebraska Contractor. “Nebraska Contractor” shall mean any bidder who has maintained a bona fide place of business and at least one employee within this state for at least the six (6) months immediately preceding the posting date of this RFP.

_____ I hereby certify that I am a Resident disabled veteran or business located in a designated enterprise zone in accordance with Neb. Rev. Stat. § 73-107 and wish to have preference, if applicable, considered in the award of this contract.

_____ I hereby certify that I am a blind person licensed by the Commission for the Blind & Visually Impaired in accordance with Neb. Rev. Stat. §71-8611 and wish to have preference considered in the award of this contract.

FORM MUST BE SIGNED USING AN INDELIBLE METHOD OR BY DOCUSIGN
