Delivery Days ARO				90-120 days	45 days

Comments	Section VI. D. 1. Equipment: 90-120 days from receipt of PO. System is built to order upon receipt of a purchase order. Delivery 90-120 days from receipt of PO. Reagent orders ship 1-3 business days from receipt of order. Section VI.H.3. All shipments received should be inspected and stored according to package directions. Damaged goods should be reported to Immunalysis Corp. within 72 hours of delivery. Immunalysis Corp. will investigate and take corrective action if necessary. Warranty for products will commence upon Customer receipt and continue until the expiration date of the product and returns must be authorized.	ELISA test kits are available in 2 packages: 96-well and 480-well. ELISA kits above all can be used to test blood as well as urine. Section VI.C.5. See Table 1, Technical Response Section, page 6. Section VI.C.6. DSX is a fully automated liquid handling system. Section VI.C.9. See Table 1, Technical Overview, page 3-4. Section VI.C. 12. See Table 3. Section VI.C. 13 - See Table 1, Technical Overview page 4. Section VI. E. 2. See Table 1, Technical Overview, Instrument Delivery & Installation Site Requirements, page 3. Section VI. H. 3. Neogen will replace/credit ELISA kits (products) that do not meet
Comments		performance/quality specifications. Details regarding DSX (instrument) warranty are described in Table 1, Technical Overview.
