It is understood that the "Core list" and bidders form shall include pricing for only non-intrusive pavement temperature sensors at the quantities listed in the solicitation. Referencing number 13, can the state confirm any "pavement specific weather sensing" items or components desired within the non-core list? Or shall all non-core components only include any optional or additional pavement or roadway related sensor components and no other non-pavement weather sensing or atmospheric sensing instrumentation?</p> | <p>The state is requesting a % discount on all-weather/atmospheric items in the catalog in addition to the noninvasive pavement temperature sensor. This will allow the state access to innovations on your company's product line for the duration of the contract.</p> |
