RE: Addendum for Invitation to Bid (ITB) Number 6907 OF for Three (3) Nautel FM Transmitters to be opened on July 23, 2024 at 2:00 p.m. Central Time

#	Question	Answer
1	Can you please provide Frequency & TPO and AC Line Voltage for each location to be configured at the time of shipment, this will help determine the surge suppressor to be shipped with the transmitter.	Columbus: 88.7MHz, aprox 5kW TPO, 120/240 single phase Broken Bow: 89.3MHz, aprox 6.5kW TPO, 120/240 single phase McCook: 90.7MHz, aprox 5.9kW TPO, 120/240 single phase
2	If you change from single phase to three phase that requires another type of surge suppressor, do you want both a single and three phase included in the pricing?	Please include single phase surge suppressor in pricing.
3	Are these transmitter being placed on ERI Antennas? If they are I would highly recommend the addition of a shorting stub to the order	ERI antennas are not being used for this project.

This Addendum will become part of the ITB and should be acknowledged with the ITB.
