1	<p>Our concern is that your Proposal due date of September 4th does not provide sufficient time to develop the initial high level system concepts and product selections required for your new truck. We'd ask you to consider revising your Proposal due date to (at least) Friday, October 4th. This will allow all respondents to develop meaningful Proposal responses with the appropriate consideration needed for this initial round. Moving the Proposal due date out, will enable Vendors to include in our Proposal:</p> <ol style="list-style-type: none"> 1. Initial price for the mobile unit chassis...based on the specs provided to the manufacturer at this time. 2. Fixed price for design services 3. Fixed price for implementation, commissioning, and training services 4. Initial estimate on the truck's equipment pricing, based on the initial technical specifications included in your RFP. (This component will be refined following detailed design, based on your team's directives and approval of final equipment selections). 5. Preliminary project schedule, including the window for transferring and recommissioning equipment from your existing truck to the new mobile unit. 	Schedule of events	

This Addendum will become part of the ITB and should be acknowledged with the ITB.
