**Intent**

Nebraska Vocational Rehabilitation (VR) requests proposals to develop a rate setting methodology to determine actual costs of providing self-employment services. This includes a comprehensive review of self-employment activities currently provided, a review of industry standards, collection of provider costs and analysis, rate recommendations for services, and projected fiscal impact to the agency.

Nebraska VR is mandated to comply with Federal Regulations under *34 CFR 361 State Vocational Rehabilitation Services Program* and *2 CFR 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. *34 CFR 361.50(c)(1)* requires state agencies to establish and maintain written policies governing the rates of payment for all purchased VR services. This rate study will provide a methodology for determining rates of payment for self-employment services including:

- 1) Determining the feasibility of a self-employment goal
- 2) Determining whether an existing business is financially viable
- 3) Development of a business plan which outlines the concepts and projections for the business, as well as funding sources
- 4) Identifying assistive technology needs to include assisting with securing necessary plans and quotes and working with qualified providers to complete modifications
- 5) Providing for the implementation of the developed business plan including the development of a capability statement or a business plan revision

The study will also ensure those rates are reasonable, allowable, allocable, necessary, and consistent with *Uniform Guidance*.

Rev. Stat. §84-602.02(3)(a), beginning July 1, 2014, a copy of all state contracts active on or after January 1, 2014 that are the basis for an expenditure of state funds will be publicly available on a web site maintained by the Nebraska Department of Administrative Services. The web site data base will also include any amendments to such contracts and any documents incorporated by reference in such contracts. The web site will also contain a data base that includes copies of all expired contracts which were previously included in the data base of active contracts. If the contractor wishes to have any information withheld from the public, such information must fall within the definition of proprietary information contained within Nebraska's public record statutes. All information in this contract that the contractor believes constitutes proprietary information that it wishes to have withhold from the public must be described in writing together with the basis for that belief and submitted to NDE prior to the time this contract is executed. Contractors may not have the entire contract deemed as proprietary. Contract amounts are not proprietary information. Failure of the contractor to follow these instructions regarding proprietary information may result in the information being viewed by other businesses and the public. Proprietary information is defined as trade secrets, academic and scientific research work which is in progress and unpublished, and other proprietary and commercial information which if released would give advantage to business competitors and serve no public purpose (see Neb. Rev. Stat. §84-712.05(3)). Although an effort may be made to withhold information that is properly submitted as proprietary and meets the State's definition of proprietary information, the State is under no obligation to maintain the confidentiality of proprietary information and accepts no liability for the release of such information.
- XXII. If the contract does **not** establish an employer/employee relationship and the Contractor is a non resident of the State of Nebraska and is maintaining an office or transacting business within Nebraska and is to receive a monetary consideration beyond expenses or multiple monetary considerations, totaling more than \$600, the contractor must obtain a W-4NA form from NDE. The contractor must complete the W-4NA form, and submit the form with their invoice. If the contract specifies multiple payments are to be made to the contractor, a W-4 NA form must be submitted with each invoice and request for payment.
- XXIII. Force Majeure If the performance of either party of any obligation is prevented, restricted or interfered with by causes outside such party's reasonable control, and the party is unable to carry out its obligation(s) and provides the other party prompt written notice thereof, the obligation(s) of such party shall be suspended or cancelled effective immediately to the extent necessary as a result of such event. Events include without limitation acts of God, fire, explosion, health epidemic or pandemic, storms, national emergencies, and riots & war. Settlement for such cancellation shall be as described in clause XVII.
