Quick Reference	**Generating MPS (work order transactions) or MRP (raw material transactions) For Branch/Plant**

Remember to use the Visual Assist 🔍 to search for information.

To	Do This
Generating MPS or MRP For Branch/Plant	✎ Planning creates the links that connect supply and demand of stock inventory items. Planning facilitates the purchase, movement, and scheduling of items.

✎ Full Regen clears existing information and recalculates. Net Change reviews changes since last Full Regen and adds/deletes messages accordingly.
