

Understanding your pharmacy benefits

Knowing how your benefits work with different types of prescription drugs can help you manage costs. We're here to help.

→ Go generic – same quality, lower cost!

Generic drugs cost an average of 80% less than brand-name drugs. Ask your doctor or pharmacist about less expensive generic or brand-name options.

→ Get your medications at the best price.

To get you the lowest price on your medications, our system searches across multiple discount card prices. All you need to do is show your member ID card to the participating pharmacy and we'll do the rest. No more searching for discount cards and coupons.

→ Receive your maintenance medications at your home.

Set up home delivery with Amazon Pharmacy for your maintenance or long-term medications. Home delivery brings the highest quality, safety and convenience to filling prescriptions.

Amazon Pharmacy does not dispense controlled substances. Amazon Pharmacy is an independent company that provides pharmacy home delivery services for Blue Cross and Blue Shield of Nebraska, an independent licensee of the Blue Cross Blue Shield Association. 60-297-105 (03-17-26)

→ Pharmacy tools and resources

Through your online member account, you can access your pharmacy benefits from the Home screen. Here you can find in-network pharmacies, compare prices and sign up for home delivery.
