UnitedHealthcare

How to Calculate your Premium:	***Example:***
Determine whether you wish to pay your premium quarterly or annually.	*A disabled employee decides to continue their long term disability coverage and pay premiums quarterly.*
Find your monthly rate. If the rate is age-based, the rate is based on your age at the time your coverage begins, which is 31 days from the time your group coverage terminates or is reduced. As your age increases, your rate will increase as well.	*The monthly rate for a 50 year old is $0.34 for each $100 of insurance.*
Determine your monthly earnings.	*The person's monthly earnings are $4,000*
Premium Calculation:	
a. Rate per one hundred dollars of coverage: $_____	*a. $0.34*
b. Monthly earnings divided by 100: $_____	*b. 40 ($4,000 monthly earnings divided by $100)*
c. Multiply a times b. This is your monthly premium: $_____	*c. $13.60 ($0.34 multiplied by 40)*
d. Multiply c times 3. This is your quarterly premium: $_____	*d. $40.80 ($13.60 multiplied by 3)*
