

## 90-Day Maintenance Medications at Retail Pharmacies

Did you know your pharmacy benefit allows you to obtain a 90-day supply of your maintenance medications at participating retail network pharmacies? This option offers convenience and may save you money. (Mail service continues to be available for 90-day supplies.)

### How do I get started?

If you have previously filled your maintenance medication at a retail pharmacy, simply consult with your doctor about writing you a prescription for a 90-day supply with refills if appropriate. Fill your prescription at a participating retail pharmacy.

### How do I find a participating retail pharmacy?

The UnitedHealthcare 90-day retail pharmacy network includes over 60,000 national and local community pharmacies. To find a pharmacy, refer to the list of 90-day retail pharmacy chains on the back of this flyer or call the member services phone number listed on the back of your health plan ID card.

### What medicines are available for a 90-day supply?

Most maintenance medications are available at a 90-day supply. These medications are often prescribed to treat chronic long-term conditions such as high blood pressure, diabetes, high cholesterol or asthma. If you are not sure if your medication is available for a 90-day supply you can call customer service by dialing the member services phone number listed on the back of your health plan ID card.
