

# 2021 Preventive Medication List for Consumer Driven Health Plans Expanded List

This is a list of **Preventive Medications** that may be covered under your plan. If your plan covers these Preventive Medications, your insurance benefit is applied before you meet your deductible.

Some medications may have other requirements or limits depending on your benefit plan and are noted below. To find out if a drug is covered, please check your plan benefits on the health plan's member website. Or, call the toll-free phone number on your health plan ID card. This list may not be all-inclusive. Brand and generic drugs may not always be available due to market changes.

**CDH preventive drug lists may also be used with non-CDH plans**

**Effective May 1, 2021**
